# OPTION EXTENDED; VOTERS WILL DECIDE PURCHASE

Due to the option on purchasing the Ford property expiring before an election could be had there was doubt as to whether the election would be held. However, the Ford Company was able to secure sufficient time for the residents to vote and the election will be held.

It should be mentioned at this time that the Hawk Tool and Engineering Company of Detroit who wish to purchase, if the village does not, allowed the Ford Company to make the extension. Their position was that if the village wanted the property it should have it. If a factory seemed to be the answer then they would move here.

The council bows to the wishes of the people of Clarkston. To those who wish the village to remain a largely residential village the purchase is the proper thing. To those who believe otherwise then their vote should be "no", At least the council has fhe opportunity to present the question to the people. Even when the question as to the expiration of the option seemed to leave doubt as to whether an election would be held, hope was not given up until word was received that the option would be extended.

The question is now fairly placed before the voters. Robert Waters, village president, asks that there be a large turnout at the polls so the question can be fairly answered.

#### Engagement Announced

William D. Smith of Clarkston, Michigan announces the engage ment of his daughter, Malvina E. Smith of 511 East John St., Champaign, Ill., to Louis R. Mc-Creight son of the Ralph B. Mc-Creights of Zion, Ill. The couple is planning an October wedding to start at 10 o'clock a. m. on Monin Clarkston. The announcement day, July 4th, and is expected to was made at a gathering of the family in the home of the Charles W. Smiths, Ypsilanti, Mich., when Malvina and her fiance visited there recently. They returned home with her father for the remainder of the week-end and enjoyed meeting friends and rela-

tives in Clarkston. Miss Smith received her B. S. degree from Michigan State College in 1946 where she was affiliated with Zeta Tau Alpha Sorority. Upon graduation she was employed by Wieboldt's Inc., in Chicago until joining the food service staff of the Illini Union, University of Illinois, in June 1947, where she is assistant food production

manager. Mr. McCreight was graduated from the University of Illinois Engineering in 1946 and with an every minute until about nine o'-M. S. degree in June 1949. During clock in the evening when the past three years he has been a Special Research Associate on an Air Force Project in the Department. Although originally scheduled for graduation in the class of 1944, he was employed in ceramic research and production on the Manhattan Project which developed the Atomic Bomb, at the University of Chicago and at the Massachusetts Institute of Technology in Cambridge for two years prior to graduation. He is a member of the Illinois Society of Professional Engineers, Keramos, American Ceramic Society, Sigma Xi, Alpha Phi Omega, and Alpha Rho Chi.

Mr. and Mrs. William Sharpe returned home early Tuesday morning after enjoying a trip through the eastern states. They were accompanied by Mr. and Mrs. A. B. Case of Idaho.

#### Girl Scouts Camp At Kensington Park

On Monday afternoon a number of Clarkston Girl Scouts with their leader, Mrs. R. E. Spohn and Miss Patricia Hoyt, left for a few days' camping at Kensington Park, part of the new Huron-Clinton project near Milford. The group went by school bus.

A very fine program was planned. On Thursday the Girl Scout mothers along with the Brownies and their mothers were invited to the camp for the. Girl Scout Court of awards when the girls would receive the merit badges they had worked for during the

past year. The girls making the trip included Barbara Bell, Mary Dean, Carole Gagnon, Barbara Jones. Ilene Jones, Carolyn Kerton, Cheri Littleson, Nancy Morgan, Judy Etzler; O'Dell, Lorraine Rioux, Betty Root, Laura Ruggles, Ann Barrows, Judy Clark, Carolyn Ridgley, Ann Spohn, Joan Dark, Lorena Frazier, Betty Lou Gardner, Nadine Gleason, Valerie Hoyt, Ruth Mahieu, Irene Moore, Kay Robinson, Phyllis Snover, Margaret Turek, Judy Walker, Sharon Hoyt. Mrs. Wallace Ridgley went to the camp on Tuesday to spend the

#### Reorganization Plan Discussed

The Clarkston School District Clarkston boys were injured in a voters are asked to consider a car accident when they were on reorganization of the district. An their way home from work. The election as to whether this shall accident occured on the Orion be done or not is scheduled for Road just this side of the Porritt July 7th. Because the School Board Dairy, Ronald Jones was the has made a study of the subject, they have been asked to furnish driver of the car carrying the information that might acquaint you with some facts in regard to reorganization. In presenting the skinned knee, strained arm and chest muscles. Eddie Olson re- statement of the board, you are asked to inquire of the members ceived a forehead cut and a sprained ankle, he was able to return any questions you may have in regard to the reorganization, so to work on Thursday of this week. that you may fully understand just Bob Olson suffered a lame back and x-rays revealed that he had how to vote upon the question.

The statement follows: Three years ago a committee of Hospital. It stands to reason that | local citizens, made a study of the problem of reorganization and made a report of their findings on the cast during this warm weath a December 9, 1946. It was the opinion of the committee that reorganization would bring certain definite benefits to the local school such as a broader curriculum, greater financial aid from the state, unified supervision under a single administrative group for all the children from Primary grades transfusions. He was brought to until Graduation, better instruction due to the ability of the larger area to secure better teachers through the increased budget and fully recovering and getting central administration could operate the various schools more effici-

> The committee suggested that there were 3 problems to be further considered. (1). The problem of transportation. This is no longer a major problem as bus service has been established in the areas during the past year. (2). Capital expenditures necessary for reorganization. This is a problem but not one of serious proportions Some housing will be necessary whether reorganization should take place or not. The reorganized area has a greaer potential for this than a single district. Immediate building needs are not excessive. (3). The question of the most expedient time to reorganize Three years ago the committee recommended that reorganization should take place gradually when it became apparent that the time had come for reorganization.

This year the Clarkston Board of Education received petitions for reorganization from several of the local rural areas. As a result of those petitions, the local Board made a new study of the reorganization problems. As a result of this study the Board felt that the time for reorganization was now. That to unduly delay the matter, would be unwise. The County Commissioner of Schools and the Superintendent of Public Instruction have both agreed that now is the time for Clarkston to take action. To take a forward step with our neighboring cities. To provide school facilities for the Vacation School At local children that will be adequate to meet the needs of this fast

moving complex society. The School Board feels it is definitely the responsibility of a democratic society to provide adequate educational facilities for children, regardless of their economic status at home. Distribution of intelligence, ability, character and the desire to advance is not determined solely by the economic standing

of the parents. The Board also asks you to give the question of reorganization serious thought. The school can be the focal point for welding a natural community of many interests. The State has a slogan, "Money follows the child"; we might W. C. B. Saxman as supervisor. add that so does business.

The reorganization election is to be held July 7 from 1 to 8 p. m. Voting to be at the township hall for the rural areas and at the high school for the Independence 3 Fr. vote. Registration is not necessary for this vote. Anyone who is 21 years of age, a citizen of Michigan for 6 months and resident of the area for 20 days is eligible to vote. Let us all vote.

In checking signers of nominating petitions it has been found that many names are not registered. Saturday, July 2, is the last day to register.

At the sixty-sixth annual Commencement exercises of the University of Defroit, Wednesday, June 15, Robert Clark, son of Mr. and Mrs. Orrel Clark, of 7660 Allen Road, received his degree in aeronautical engineer-Wednesday, 7:45 P. M. Regular ing from the College of Engineerthe University.

> On Sunday, June 26, starting at 3:30 p. m. there will be a polo such as: Parent-Teachers, Boy and game at the Detroit Polo grounds, Middlebelt and Fourteen Mile Roads when a team from Culver Military Academy will meet the Clarkston Motors is a member of the Gold Hats team.

#### **Larkin-Jones Rites Read Saturday**

The Christ Lutheran Church was the scene of a pretty wedding last Saturday evening when Wilma Jean Larkin and Glenn Jones, Jr., spoke their vows before one hundred and fifty guests. The Reverend Philip A. Jordan read the double ring rites.

The parents of the young couple are Mr. and Mrs. Leo W. Larkin of 6412 Lookout Drive, Williams Lake and Mr. and Mrs. Glenn Jones of 6231 Orion Road, Clark-The bride was lovely in a sheer,

navy blue bemberg dress with white accessories. She carried white roses. The bride's only attendant was Erma Brill of Williams Lake. She

MILFORD, MICHIGAN

First Race 2:30

On Sunday, June 12, 29 children received their first communion | Holy Communion were two large baskets of white peonies, at Our Lady of the Lakes, newly established Catholic parish in Waterford. A large crowd of parents and friends attended the Mass which was celebrated by the pastor, Reverend F. J. Delaney.

Father Delaney in his sermon stressed the importance of the First Communion Day in the lives of these little children and the obligations which come with this privilege.

The soloist for the day was Joseph Schwitter of Defroit. For this very special occasion the altar was decorated with roses and at the foot of the altar where the children knelt to receive

The communicants included: (back row) Sally Herman, Mary Kidd, Constance Sabot, Gertrude Napierski, Kay Kanouse, Grace Kanouse, Father Delaney, Ronald Kapico, William Hawke, Frederick Herman, Peter Hawke, and Ronald Crowe; (front row) Dian Race, Saron Hostelter, Sharon Herald, Kathleen Kidd, Ruth Ann Horges, Barbara Roughton, Ellen Rappuhn, Shirley Van Dusen, James Harrington, Sidney Ward, Charles Heathcott, James Johnson John Tish, Roger Ward, Paul Rask, William Denver, Dennis Hawke, and Gary Wilson.

freshments were served. Mr. and Mrs. W. B. Banghart have moved into their new home on Dixie Highway.

The graceful deer which are so plentiful have long been a major tourist attraction in Michigan . . . and a source of constant interest for Michigan citizens as well. You'll see them along the highways in upper Michigan . . along the side road in almost any county in the state. And many people will go "deer hunting" this summer with cameras . . . driving slowly through the side roads near Kalkaska where there's a chance to see a bear, too . . . or through the great State forest areas in both

This type of "deer hunting" is a fascinating pastime . . but for drivers it can be a time of danger as well. If you are driving, remem your auto, causing your car to over-turn and injure yourself and your family. This could happen to you!—it did to a family driving near Cannonsburg, Michigan, just

a few weeks ago.

Wherever you drive this summer

through the woods, near the beautiful Michigan lakes...on the highway or in the city . . . remember constant alertness may save your life. Enjoy your summer vacation by making it a safe one with careful, cautious safe driving ... Play safe—every minute you're behind the wheel ...

If you have any news items call Mrs. Lawrence Giddings, phone

#### ENLISTMENTS DROPPING IN OAKLAND COUNTY

S/Sgt Lynn D. Rexford, Recruiting Chief of Oakland County, announced today that enlistments in the U.S. Army and Air Force

have taken a sharp decline in recent months. Sgt Rexford stated that this may be due to the fact that low quotas restricted enlistments to only the

very highest qualified, both physically and mentally, for the months of February, March and April.

June is National Dairy Month. And what a wonderful time it is for all of us to honor the dairy farmer and his milk products,

farmer and his milk products, which are increasing in popularity every year! Milk is acknowledged to be the most nutritious American drink. And ice cream still tops the list of our favorite desserts. It is interesting to learn that this is also true at the famous Ritz Carlton hotel in New York City, where sophisticates gather. Here Monsieur Louis Diat. Chef de Cuisine of the Ritz and author of "Cooking a'la Ritz" and

## "Putting On The Ritz" With Ice Cream

de Cuisine of the Ritz and author
of "Cooking a'la Ritz" and
"French Cooking for Americans,"
says Coconut Snowball Sundae is
one of the Ritz's most glamorous
desserts. Snowball Sundaes are
simply ice cream balls rolled in
shredded coconut and served with a luscious chocolate sauce. Easy to make in a hotel kitchen or in any home kitchenette! Here's how you do it, and be sure to try the Ritzy chocolate sauce recipe that goes with it. Melt butter and chocolate in saucepan. Add sugar and mix well. Add milk gradually, beating until smooth. Bring to a boil over medium heat and cook, stirring constantly, about 5 minutes, or until thick. Serve hot on Coconut Snowballs. Or store in refrigerator and heat over hot water before serving. Makes 1 cup sauce.

Coconut Snowball Sundae Shape ice cream into balls; roll in shredded coconut and place one in each sherbet glass. Serve at once with Carlton chocolate sauce. Carlton Chocolate Sauce

3 tablespoons butter or margarine 2 or 3 squares unsweetened chocolate 34 cup top milk or light cream

# "I'M GOING ON A DIET"

\* Perhaps overeating is the most common dietary indiscretion. The natural result of overeating is obesity. It has been said that we in America eat ourselves into a premature grave. The pendulum then frequentle swings back to the other extreme. We go on a diet. Many self-imposed reducing diets wouldn't keep a bird alive, and often serious vitamin, mineral, and protein deficiencies result.

In recent years great strides have been made in our knowledge of nutrition. For the maintenance of optimal health one must be assured that proper balance of various foods is maintained. For dietary advice of any kind see your physician. You can then be certain that all bodily needs are being adequately met. Bring your prescriptions

#### STOP OBJECTIONAL FLAVOR B. R. Bookhout and R. W. Chris-OF MILK AT THIS SEASON

EXCLUSIVELY FOR BAIL TRAVEL

This is the season of the year when the dairyman who sells reports for threshing were receivwhole milk may sometimes have his milk rejected because of offflavors.

Ed Alchin, county agricultural agent, says one of the common causes of rejection slips is an off-flavor caused by the cows eating wild onions or garlic.

There's good reason, too, for rejecting milk with this kind of off-flavor. Once the onion or garlic flavor gets into the milk, not much can be done about it. So the control lies in prevention rather than cure.

For this reason, agent Alchin says that the place to stop the flavor is on your farm.

The first preventive measure is to wait until the onions have stopped growing. Then cut the tops and let then wilt before turning the cows onto the pasture. The second plan is to let the dry cows, heifers or young stock graze down the onion in the spring pas-

Do all you can to keep the wild onion or garlic flavor out of the milk that you want to produce for market. If your product has quality, it will be accepted and will bring you top prices.

#### FARWERS STILL PREFER CUTTING AND THRESHING

Cutting grain and threshing are despite the turn to combines in recent years. Although combines do much of the work; cutting grain and threshing is still preferred by some farmers. Michigan State College Agricultural Economists,

ricultural Extension Service Office, One Lafayette St., Pontiac.

Larry Tripp, Soil Conservationist, says that farmers are really the Civil Aeronautics Administraputting to work soil and water tion, Washington, D. C.; and Dr. conservation practices on their John Furbay, of the Transcontifarms in Oakland County. This program, three years old, now is really doing a job on Oakland County's rolling land.

HOW LONG IS A COUNTRY MILE? - The saving, "As long as a country mile," probably originated in pre-automobile days, when the length of a "mile" was anybody's guess. Today, miles don't matter so much. If you want to reach someone, they're just as close to you as your telephone. It will take you to them - one mile or across the country - in a matter of seconds.

MIGHTY MIDGET - When your voice travels any great distance over telephone wires, it is amplified by vacuum tubes. Now, Bell Telephone Laboratories have developed a new kind of amplifier. Called the Transistor, it is a tiny cylinder, less complicated and more rugged than a vacuum tube. Amplifies sounds up to 100 times. Still in the experimental stage, it's another example of the constant research that goes on to make your telephone service better.

TIME DOES TELL - Here's an easy way to figure what your telephone is worth to you. On a typical working day, count up the telephone calls you make . . . to the farm implement dealer, lumber mill, veterinary, feed store, repair shop, friends. Think of the hours it would take to visit all of these people - hours of lost work around the farm. And when you consider that one call may save a life, what you pay for telephone service is mighty small compared to the value you receive.

Purchase of Seeterlin Bros. Garage

For A Garage and Fire Hall **BECAUSE:** 

The department would have more room to house equipment.

The equipment is now housed in two locations.

A building is needed now.

The Secterlin garage could be easily adapted to use almost immediately.

Fire calls could be answered quicker.

Better parking for firemen on the side street. Would avoid traffic on Main Street.

More room would allow for:

More space for drying hose after returning from

Better place to keep equipment in repair.

#### PRUNING IMPROVES PINE TREE YIELD

Though it's some time until December and thoughts of Christmas, Michigan State College foresters advise owners of Christmas tree plantations to begin their pruning operations now.

Growers have found that Scots pine Christmas trees are likely to grow too rapidly if left unpruned to make good, thick, compact trees.

Lester Bell, MSC forester, says that some stands have been found to yield only 30 to 40 percent of good merchantable trees when left unpruned, Bell advises this percentage can be stepped up to 90 to 95 percent with the careful use of pruning shears at this time of year.

He points out that the pruning should take place when the new growth reaches its greatest development and before new buds have set at the tip of the new growth. This pruning during the early season also helps to stimulate additional bud development, causing a thicker, more dense and compact tree,

The forester believes that a few hours spent in the plantation at this time of the year can yield. high returns and better trees and consequently higher prices at the end of the Christmas tree season.

# "BUGGIES WILL NOT LAST"

"It's short-sighted to think the buggy will last much longer," said Henry Timken fifty years ago when there was talk about the new iorseless carriages being a fad that would not last.

And after fifty years, "Old" Henry, as he was affectionately called, sould, if still living, look upon The Timken Roller Bearing Company is it is today and be well pleased with the truth of his statement. As he company that bears his name celebrates half a century of progress n the manufacture of roller bearings for industry throughout the vorld there should be more than a passing nod given to "Old" Henry ind men like him who made our industrial progress possible.

Shown above is a buggy that some people thought could never be eplaced by the gasoline car. There was even an attempt to lobby for inti-auto legislation. Below is one of the stream-lined cars of today, nset shows Henry Timken, founder of the business that helped make

nset shows Henry Timken, founder of the business that helped make he automobile the speedy, economical job it is now.

#### EXTENSION WOMEN

ATTEND WALDENWOODS 35 women from Oakland County Agents, Mrs. Lowena Murphy and Extension Clubs and 21 women Mrs. Harmon Lawyer. from Ingham County Extension Clubs attended their annual Camp at Waldenwoods near Hartland Mich., June 8, 9, 10, and 11. The Camp program, planned by a committee from both counties included the following: Vesper services each evening at 7:00; the morning program consisted of a discussion entitled "Youth And You" by Mr. Paul Miller, Extension Specialist in Rural Sociology, M. S. C.; the evening program consisted of folk dancing lead by Mrs. Howard Wilson of Lake Orion, and square dancing called by Mr. Wilbur Davis of Howell High School; a nature hike was conducted by the State Conservation Department so that each camper had a chance to see diversified animal and plant life at Waldenwoods.; Crafts offered

At camp evaluation on Saturday the campers chose as crafts for 1950 the making of lamp bases and lampshades. It is also planned that extension women from Lapeer County will participate in the 1950 camp along with the regular campers from Oakland and Ing-

ham counties. The Assistant State Home Demonstration leaders, Miss Ruth Peck and Miss Elizabeth Roniger were in attendance at the camp on Friday afternoon and evening.

#### HERBS BECOME POPULAR USEFUL GARDEN CROP

If you're looking for something to fill in that empty space in your garden, or if you're strictly a window box gardener, how about growing herbs?

Here's something to tickle your palate, please the eye and add fragrance to your garden, believes Winston Osborn of the Michigan State College foods and nutrition lepartment.

The so-called fine herbs will make a good beginning. They are sweet basil, chervil, sweet marjoram, thyme, rosemary and tarragon. Also easy to grow are chives, parsley, and summer savory. Details of cultivation are obtainable from your county extension office or the United States Department of Agriculture in Washing-

chervil or parsley,

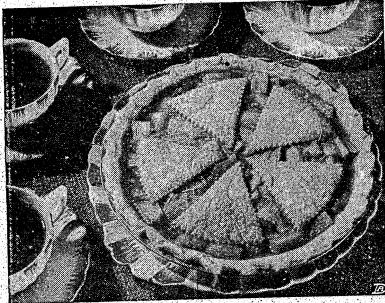

am, caraway or sage. Lamb calls able for public use will be sold gan lands, mostly platted lots in for the same herb as beef, plus garlic, and veal the same, plus basil. Poultry seasoning may be a combination of basil, lovage, marjoram, parsley, rosemary, thyme. tarragon, chervil, chives,

parsley or savory. Don't hesitate to use more than one herb for seasoning. Just be sure you have one leading flavor with several others which will complement it. If you experiment be cautious. Too little is better than too much,

### Conservation News

Rules and regulations for the sale of state-owned lands in the northern part of the state also Herbs for cooking are of three will apply to tax-reverted land in different kinds - - pungent, herbs the southern 36 counties transfor accent, and herbs for blends, ferred from the former state land Here are some suggestions for office board to conservation de-

Fresh Rhubarb Pie

Folks won't need to guess what this pie's all about, for tart, rosy rhubarb gets a chance to show its virtues with individual pastry wedges baked atop the pie.

"Pieplant" is an old name for rhubarb, but a very appropriate one. Crisp rhubarb stalks, rosy or cherry-colored, make a spring pie

that is pleasantly tart and sparkling.

Tis a pity to hide such an inviting filling, so cut five or six tri-

'Tis a pity to hide such an inviting filling, so cut five or six triangles of pastry to arrange on top the pie, one for each serving. Cut the wedges with a pastry wheel to get the pretty scalloped effect, and place pastry over filling before baking.

Since this is a juicy pie, the favorite crimped edge is the one to use to hold in the juices. Make this by pressing dough together between thumb and finger of left hand and forefinger of right hand.

Pie is a favorite dessert, and a satisfying one. That's reason enough to make fresh rhubarb pie a luncheon or dinner pastry treat often this spring.

11/2 cups sifted enriched flour 1/2 teaspoon salt

Sift together flour and salt. Cut or rub in shortening. Add water gradually. Mix to a dry, crumbly dough. Toss out on lightly floured pastry cloth. Press dough together. Roll two-thirds of the dough to a circle one-eighth inch thick. Line nine-inch pie pan with pastry. Fill with rhubarb filling.

1½ pounds fresh rhubarb 1¼ cups sugar

inch lengths. Add sugar, flour

Roll out remaining pastry to circle one-eighth inch thick. Cut into five or six triangular wedges. Arrange evenly over rhubarb filling. Bake in hot oven (450 degrees F.) 10 minutes. Reduce heat to moderate (350 degrees F.) and continue baking 45 minutes.

1/4 cup enriched flour 1/4 teaspoon salt

Cut cleaned rhubarb into half- and salt to rhubarb and mix well.

use sweet marjoram, dill, thyme, plied for by interested purchasers and other properties offered for sale because they are not suit-

at public auction. Bidders cannot go below a minimum price set on each piece of property. The price is based on current values in the locality. The purchaser must pay the full purchase price at the time of sale or at the close of the auction, In 30 days he will obtain the deed to the land unless the former owner

The conservation department expects to put the southern Michi-. on the market as rapidly as poss-

Permits for use of the lots for gardens and general use will be issued on a year-to-year basis on application.

Checking the chimney for leaks is a good safety precaution says MSC specialists. Here is the way it's done: build a smudge fire at the bottom of the flue and when the smoke is passing in a dense column, close the outlet at the top with a wet blanket. If there is any leakage, the defect can be found by escaping smoke.

THE GRIST MILL

Ed Alchin, County Agricultural Agent

Many farmers are finding that putting up grass silage this time of year keeps the milk production up during the months of July and August. At that time, pastures dry up. Among those farmers putting up grass silage for dairy feed are Howard Beardsley of

CUSTOM BALING; also baled Oxford; Claude Zimmerman of Ortonville; Lloyd Virgin of Davisburg; Dr. Plinn Morris of Pontiac; C. B. Longley of Farmington and Vern Spencer of Walled Lake. Grass silage making takes experience and know-how, and farm magazines are carrying articles on how the job can be done. The County Extension Office will be glad to give you further information.

> Bernard Carver of South Lyon was telling me the other day that he was able to get real milk production from Reed's Canary Grass pasture. He says that with 14 cows on 7 acres he hasn't been able to keep it down even in an up-tonow what has been a dry year Farmers with wet low ground that can't be worked, should check on this.

If all Kroger landlords—some 2,000—were assembled in one spot to collect their rent on Kroger stores there would be quite a crowd and they would get quite a lot of money, too, But these property owners, living in 1,500 communities, are paid promptly by check and the total is more than \$6,000,000 a year.

Wanted - Girl to care for children while mother works. Phone Clarkston 7431 after 6:00 . m. week days or any time Sunday.

Defective brakes are one America's greatest causes of traf-fic accidents! Add to these faulty brakes excessive speed and careless driving . . . and you'll find a record of tragedy — death!

Every driver has at some time or other had to "slam on the brakes" to avoid hitting a child or animal who has darted in front of animal who has darted in front of your auto. Those "close calls" give you a mighty funny feeling, don't they? But, have you ever stopped to think what might have happened if your brakes had not responded the minute you stepped on them? You might have killed that child! . . . and it might have been your own!

That's why it's so important to rant's why it's so important where your automobile in perfect running condition at all times. That's why, too, police have been checking your brakes and lights. It's a protection for you, the driver, and for your entire family.

Take your automobile in for a complete check-up — do it regularly to make sure that you can stop at an instant's notice, if necessary. And ... talk about safe cars and careful driving to your friends, your neighbors—make your entire community safety conscious as added protection for your family and your friends. Remember it might not be your auto when your child dashes in front of a carl

Make safe driving — and safe cars "by-words" in your com-munity. Keep Michigan's traffic accident rate down . . . and do your part to erase those tragic children's deaths from Michigan
