was played at a fast pace which never let down until the final end of the first quarter was tied quarter Clarkston was able to gain 1 point advantage. The first hali ended with the score Clarkston 24 Clawson 23. The third quarter remained even with each team picking up 11 points and Clarkston held on to its one point lead. The fourth quarter, the Clarkston fans saw Ed Olson leave the game on five personels. This was a bad blow to the Clarkston hopes. The offense also began to lag and while Clawson was picking up 15 points, Clarkston was able to get only 8.

Bob Olson was high point man for the game with 17. Shields was high point man for Clawson with 14; however it was the play of Dinger who was the real deciding factor in the game. In addition to getting 11 points for himself he controlled the rebounds from both paskets. His six foot three and one half inches and over two hundred pounds was just too much for the

By the Way...

The modern way of living is very efficient and delightfully simple. You press a button here and a switch there and electricity does the rest. You can awake to the ringing of an electric alarm clock. Turn a little wheel on the wall and the furnace starts burning. Perk your coffee, fry your eggs, and toast your bread by Past every rock and reed. electric appliances. Then you go to work where all the machines are activated by electricity. In the meantime you can preserve your food in an electric ice box, listen to music, all due to the wonders of electricity. This could go on and on. The point is that along comes He sailed from mortal's world. a wind storm, the electric power is cut off and if the temperature outside is falling - believe me it gets cold quickly. You cannot even wrap your blanket around you where would plug the thing in and what good would it do you sant to say that at least you had a cup of hot coffee. But coffee needs boiling water, and you heat the water by electricity. The only nice thing about these emergencies are that the electric company generally knows about the break before the first phone call comes in and is working on repairing the lines so that the power is seldom off for long. . . The new year must be getting underway nicely. At least this morning we received the first advance notice that the Shrine Circus will start on January 30th. This year former popular film Star Harold Lloyd, and national potentate will be present. So much for the winter circus goers. . . . Lee T. Masters (Dub to all who know him) is now associated with the Clarkston Motor Sales in a selling capac-

ity. . . . The same faces will be

present in the Clarkston State

Bank for the ensuing year. At the

annual meeting held on Tuesday,

no changes were made. . . . We are

informed by sources which we

consider reliable that if the door

handle on your car is of the plung-

er type that a little graphite

on the plunger rod will keep

it from freezing and refusing

His Ship Has Sailed

(Dedicated to Dad Whitfield)

His ship was anchored in the bay Through stormy days, and cold, For years its cargo stored away

Securely in the hold. The crew brought truths from here and yon

To broaden his career; To make smooth sailing when he's gone To life's celestial sphere. His course was charted years ago, He knew where it would lead; In thought he'd traveled to and fro

He knew each sailor on the ship, And taught them how to: be Prepared to take the one great trip. And pull the anchor free. So as the winter sun went down The canvas was unfurled, And peacefully without a sound

Somewhere out there a harbor waits With hundreds at the pier: There's welcome signs upon the

gates, " And loved ones gathered near. We'll miss that ship out in the bay With all its gems on board, We sorrowed when it sailed away On orders of the Lord. Yet, we are glad for those who

Why Scoop No Longer **Works Here** oop Blake paid us a friendly darn if he didn't run and get call at the Clarion's office last week

and we were talking about when he was a reporter here. "Remember how mad I got when I found out you were writing that election story right from your desk?" I asked him. "And how I

made you get out and learn what a sheriff's job was all about?" "I sure do, Joe," said Scoop. "I want to thank you for teaching me the hat-trick'-putting on my hat and finding out the facts, that is."

Then we both had a good laugh

because he found out so much that

elected sheriff himself! From where I sit, we should find

out the facts before we try to talk about anything. When we do, we're inclined to be more tolerant ... we're apt to understand a little more about the other fellow's preference for, say, his political candidate or for a temperate glass of beer now and then. I say, if you don't want to get tripped up, don't leap to conclusions!

Our lonely school is lonely no longer, All we little children are back again after a mighty nice Christmas vacation. It was a little short though.

Thursday, was a demonstration by the Bell Telephone Company, The Clarkston telephone numbers were changed January 8th, This demonstration was to show grades seven to twelve the proper way to dial these new numbers.

The second assembly for this first week of school, on Friday, consisted of a pep session, That same Friday the Clarkston Wolves met Log Cabin at the Clarkston Gym. After the basketball game there was a Juke Box Dance.

SCHOOL RECEIVES NEW GYM EQUIPMENT

During the Christmas vacation schedule for next semester and a new trampoline arrived at the school. In case you do not know what a trampoline is it is best described as follows: It is composed of a pipe framework to which strong piece of canvas 7' by 12' is attached by means of over one hundred heavy springs, Exercising is done by bouncing on the canvas and going into various drops, front and back flips, etc. A. long as one hits any where on the canvas it doesn't matter too much what position one is in it does not hurt him.

The trampoline is one of the latest developments for the gym. It was used during the war by the Navy department in its training of pilots. It adds a lot of interest to the classes. In addition to the exercise one gets it develop of timing and balance. It can be used from small children right up to the professional acrobat.

The purchase of this piece of equipment came about by action taken by the Clarkston Recreation Committee. This committee is composed mainly of Paul Henry and Mrs. Leslie Shanks, This gift to the school is greatly appreciated by the Physical Education Department. We feel that we now have something to use in classes which is rarely seen in the smaller school and as yet is not in many of the larger schools. We know that a lot of use will be made of this trampoline and we take this means of publicly thanking the Recreational Committee.

An old-time favorite, molasses, flavors these puffs which may be served either as a sweet bread or simple dessert.

Molasses-sweetened breads and cookies never fail to please today,

just as they did in grandmother's time.

Here molasses gives its dark tang to a muffin-type bread which is quick to prepare. Liquid ingredients are added to the flour mixture and stirred only enough to moisten the flour, and the batter is ready

Molasses puffs should be served as soon as they come from the oven—a hot luncheon bread to accompany a mild-flavored main dish. They are especially good with vegetables, fruit salads, cottage cheese. Molasses puffs may double as dessert if you garnish them with nuts

and serve with a lemon sauce.

As much because of their high nutritional value as ther fine flavor, molasses puffs are an excellent choice for the everyday menu. Added to the iron in the molasses is that of the enriched flour, which also supplies B-vitamins, protein, and food energy.

"Life" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, January 15.

The Golden Text (Luke 20: 37, 38) is: "Now that the dead are raised, even Moses shewed at the bush, when he calleth the Lord the God of Abraham, and the God of Isaac, and the God of Jacob. For he is not a God of the dead, but of

the living: for all live unto him". Among the Bible citations is this passage, (John 5:26): "For as the Father hath life in himself; so hath he given to the Son to have ife in himself:"

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 330): "God is infinite, the only Life, substance, Spirit, or Soul, the only intelligence of the universe, including man. Eye hath neither seen God nor His image and like-

Favorite Peanut Butter Cookies

Press balls of peanut butter cookie dough with tines of a fork to get the popular design for peanut butter cookies, Top each with peanut before baking.

One of the best-liked cookies for everyday service is the peanut butter cookie. Its pleasant flavor goes so well with a simple glass of milk or cocoa, and with fruit sauces, sherbets and ice creams, too. Let the youngsters eat all the peanut butter cookies they want for they'll be getting a generous supply of essential B-vitamins both in the enriched flour and peanut butter.

Peanut butter cookies are made much like a conventional-mix cake, so they have exceptional tenderness. You will find the soft dough easier to shape into balls if you chill it a few minutes. Bake cookies only until lightly browned, and be prepared to hand out samples to the family as soon as they come from the oven. PEANUT BUTTER COOKIES

11/2 cups sifted enriched flour I teaspoon soda 1/4 teaspoon salt 1/2 cup shortening

15 cup peanut butter 15 cup brown sugar 15 cup white sugar 1 egg. beaten
