Better Eating by Jean Allen

GOOD FOOD IN '51

How wonderful it is to add to good health at low cost by including generous amounts of enriched white bread.

Your family will be bursting with pep if you serve this dish made with enriched bread, milk, eggs and cheese—all good protective foods.

Cheese Strata

- 4 slices enriched bread
Butter or margarine
1/4 teaspoon salt
1/4 teaspoon pepper
2/3 cup grated yellow cheese
2 cups milk
2 eggs, well beaten
Paprika

Butter bread; sprinkle with seasonings and cheese. Place in a flat baking dish.

Cover with the mixture of milk and eggs. Sprinkle lightly with paprika. Bake in moderately slow oven (325° F.) approximately 45 minutes or until golden brown.

Yield: 4 servings. The milk used in either of these recipes may be fresh, diluted evaporated or reconstituted dry.

Raisin Bread Pudding

- 2 tablespoons butter or margarine
3 cups enriched bread cubes
1 cup raisins
2 eggs
1/4 cup sugar
1/4 teaspoon salt
3 cups hot milk

Melt fat and pour over bread cubes. Stir well. Place 2 cups of bread cubes in a baking dish.

Beat eggs, add sugar, and salt and gradually stir hot milk into egg mixture. Pour over bread and raisins and let stand 15 minutes. Set baking dish in pan of warm water and bake in moderate oven (350° F.) 45 minutes to 1 hour.

The custard is done when a knife inserted comes out clean. Yield: 6 servings.

RECIPE OF THE WEEK

FROSTED COFFEE BARS

1/4 cup of shortening
1 cup brown sugar
1 egg
1/2 cup hot coffee infusion
1 1/2 cups enriched flour
1/2 teaspoon baking powder
1/2 teaspoon soda
1/2 teaspoon salt
1/2 teaspoon cinnamon
1/2 cup raisins
1/4 cup chopped nut meats

Cream together shortening and sugar. Add egg and beat thoroughly. Add hot coffee gradually, mixing well. Sift flour, measure, and sift again with baking powder, soda, salt and cinnamon. Add to egg mixture. Add raisins and

chopped nuts. Pour into a greased baking pan, 10 x 5 inches, and bake in a moderate oven (350 degrees F.) 15 minutes. Cut into bars after frosting with your favorite icing. Makes 21, 1 x 2 inch bars.

I KNOW SOMETHING GOOD ABOUT YOU

Wouldn't this old world be better, If the folks we meet would say: I know something good about you, And then treat us just that way!

Wouldn't it be fine and dandy, If each hand-clasp warm and true, Carried with it this assurance: I know something good about you!

Wouldn't things here be more pleasant

If the good that's in us all, Were the only thing about us, That folks bothered to recall!

Wouldn't life be lots more happy If we'd praise the good we see! For there's such a lot of goodness In the worst of you and me.

Wouldn't it be nice to practice This fine way of thinking too; You know something good about me,

PATTERN CAN BE ALTERED TO FIT

Although choosing a pattern of the correct size will reduce the need for altering it to a minimum, we often have to make changes in it before cutting out our dress.

How to make some of the common alterations quickly and correctly is discussed by Mary Gephart, Michigan State College clothing instructor.

For example, she advises what to do if a four-gore skirt is found

to be two inches too small through the hips. First, draw a cutting line parallel with the straight-of-goods marks of the pattern in about the center of the skirt piece. Extend it from the waistline to the lower edge of the pattern. Cut along this line almost to the waistline and spread the two pieces of the pattern one-half inch at the hips.

A piece of tissue or other paper can be pinned or fastened in place with transparent tape and the new straight of material marked in the center of the slash. The half-inch spread at the hip will give several inches of additional flare in the bottom of the skirt. This may seem undesirable but it is necessary for most figures with the larger hip to have added flare at the bottom of the skirt.

When a paper pattern is not wide or large enough, cut a straight line from the edge of the pattern through the area where extra material is needed and spread, pinning tissue or other paper under the opening. This will make the bust, waist, hip or sleeve measurements larger. To shorten a sleeve take part of the extra length out above the elbow and part below. To shorten or lengthen a sleeve be sure to place the alteration line at right angles to the straight-of-goods marking.

NAVY NEEDS STENOGRAPHERS AND TYPISTS

For a limited time there will be two Navy civilian representatives in Detroit to hire stenographers and typists to work as civilians in Washington, D. C. The beginning salary ranges from \$200

to \$230 a month, plus 26 working days paid vacation annually. To qualify a typist must be able to type 40 words a minute; A stenographer must be able to take dictation at 80 words a minute. Miss Mary K. Ruwart and Miss Esther M. Rice are interviewing young women for these positions. Come in to room 427 new Federal Building, Fort and Shelby Streets, Detroit TODAY.

COLD WEATHER IS VALUABLE TO MANY PLANTS

On these mornings when your toes and fingers feel a bit frozen from the cold weather perhaps it will give you comfort to know that cold weather plays an important part in the development of many plants.

Peach trees, for instance, depend on a period of cold weather to awaken them from their rest so that they will bloom in the Spring. Your tulips would not even peak through the ground if there weren't at least a few weeks of good freezing weather.

BUY THE POUND

Usually plant nutrients come cheaper if bought in a high analysis fertilizer. To be sure, consider the price-per-pound of plant nutrients, for instance, a 2-12-6 fertilizer has a total of 20 pounds of plant nutrients. To find the price per pound divide the cost of 100 lb. of fertilizer by 20. Do the same with the higher analysis fertilizer, and compare the cost per pound of plant nutrients. You also save time and labor when applying the fertilizer because it requires less of the higher analysis than of the lower analysis.

FARMERS MUST WEIGH EXPENSES IN THESE TIMES

In a period of increased farm income, emphasis should be placed on expenditures which will result in increasing the income-producing capacity of the farm — not only for the present but in future years — according to Dale Butz, agricultural economist at Michigan State College.

Doing this means combining proper amounts of land, labor, livestock crops, and machinery into a balanced farm business. For some farmers, this may mean purchase or renting of more land, purchase of more machinery or expansion of livestock and crop enterprises. On some farms, shortages of labor may mean a cut-back on other items to achieve balance in the business.

If the debt load is heavy some of the increased income could be used to retire debt and put the farm on a more sound financial basis, he states.

"Farmers also have a very great stake in the problem of halting inflation," Butz cautioned. "Continued inflation raises the price of farm land, makes it more difficult for young people to get started in farming, raises costs, and has many other undesirable effects on the farmer and the economy as a whole."

One way that farmers can help in the battle against inflation is through the purchase of United States Savings Bonds, Butz says. From the patriotic point of view, there is no better investment than in the fight for freedom.

"Though interest return on savings bonds is not as high as

that received from some other investments, the soundness of the investment in savings bonds is beyond question," Butz says. He also points out that the bonds represent assets which can be turned into cash in a hurry and thus provide an excellent means of accumulating reserves for future use in the farm business.

**WOMEN MAY ATTEND
 FARMERS' WEEK AT
 MICHIGAN STATE COLLEGE**
 January 29th to February 2nd
 marks the thirty-sixth anniversary
 of Farmers' Week at Michigan
 State College. Many farmers
 from Michigan will attend the
 outstanding program given during
 that week. However, many
 farmers' wives and other interested
 homemakers are invited to attend
 the special session in home
 economics on Tuesday, January
 30th, Wednesday, January 31st,
 and Thursday, February 1st.
 Mrs. Josephine Lawyer, home
 demonstration agent, states that
 the following program is planned
 for homemakers in particular.

The morning program begins at
 10:00 a. m. in the Little Theater,
 Home Economics Building on
 Tuesday, January 30, a panel dis-
 cussion called "Meal Time A-
 round the World" will be given by
 foreign students on the Michigan
 State College campus. At 11:00
 a. m., "Keeping Mentally and
 Physically Fit" will be discussed
 by Fannie Brooks, farmer health
 specialist, University of Illinois.
 The afternoon program will
 continue in the Little Theater,
 Home Economics Building beginning
 at 1:30 p. m. "Getting What
 You Want for Your Money" will
 be given by Mary Whitlock, De-
 partment of Textiles, Clothing and
 Related Arts. The afternoon pro-
 gram will be completed by 3:00
 p. m. The Wednesday morning
 program for homemakers will be
 given at the college auditorium
 beginning at 10:00 a. m. "What
 Our Dollars Are Worth Today"
 will be discussed by Leonard Hall
 of the Department of Economics.
 At 11:00 a. m. Karen Fladocs, who
 is the director of the "Klavinator
 Kitchen" will describe the Plann-

ed Work Shop for the Home. The
 afternoon session beginning at 1:30
 p. m. opens again at the college
 auditorium.
 The Thursday program again be-
 gins at 10:00 a. m. in the college
 auditorium. Pauline Paul of the
 Department of Foods and Nutrition,
 will begin the program with
 "What's New in Frozen Foods."
 At 11:00 a. m. "Glimpses of Swe-
 den and Her People" will be dis-
 cussed by Kerstin Hardenberg,
 who is a visiting instructor from
 Sweden in the Department of
 Physical Education.
 The afternoon program again in
 the college auditorium begins at
 1:30 p. m. as on the other days.
 This is the day of the Style Re-
 view which many people look for-
 ward to seeing each year. Cost-
 umes designed and made by stu-
 dents will be shown.

**NOTED SPEAKERS NAMED
 FOR MSC FARMERS' WEEK**
 An impressive list of outstand-
 ing speakers from over the United
 States and Canada are being as-
 sembled for the thirty-sixth
 annual Farmers' Week program
 at Michigan State College.
 The annual mid-winter educa-
 tional event for Michigan's rural
 people is scheduled for January
 29th through February 3rd on the
 East Lansing school campus.
 James G. Gardiner, Canadian
 minister of agriculture, and
 Herschel Newsom, new master of
 the National Grange, have been
 added as general session speakers.
 Gardiner has been minister of
 agriculture in Canada for more
 than 15 years. He will speak
 Wednesday afternoon, January
 31st on "Common Problems of
 Good Neighbors."
 Grange Master Newsom is from
 Indiana and will speak on Thurs-
 day afternoon, February 1st. He
 is an outstanding farmer and this
 will be one of his first addresses
 since he replaced the late Albert
 Goss in November as head of the
 farm organization.
 William Laurence, science edi-
 tor of the New York Times, is
 Tuesday's general session speaker.
 Another speaker of national re-
 putation, Oris V. Wells, chief of
 the bureau of agricultural eco-
 nomics for the U. S. Department

of Agriculture, has been obtained
 for the Farm Management ban-
 quet on Thursday evening, Feb-
 ruary 1st.
 Departmental sessions will list
 authorities in the many fields of
 agriculture and home economics
 from many states and from the
 Michigan State College staff.

Some folks think that fine
 clothes and fine, big houses are
 the most important things in life,
 but the things really don't mean
 too much if a person doesn't feel
 well enough to enjoy them. Most
 folks don't realize this, but
 Mrs. Lucy
 Braswell of
 Route 2, Stone
 Mountain
 Ga., realizes
 very well. Mr.
 Braswell takes
 HADACOL
 and by taking
 HADACOL
 she found she
 is helping her
 system overcome deficiencies of
 Vitamins B₁, B₂, Nicotin and Iron
 which HADACOL contains.
 Here is Mrs. Braswell's own
 statement: "I have been sick for
 some time with stomach dis-
 turbances. I began taking HAD-
 ACOL and I have been taking it
 about six weeks. I am so much
 better and much stronger. I will
 continue to take HADACOL. I
 sure has helped me. I tell my
 friends about HADACOL. I can't
 praise HADACOL too much. I
 am 59 years old."

New and Beautiful Proof
 that **Dollar for Dollar you can't beat a Pontiac!**

**The Car Proves it by its
 Beauty and Performance!**
**The Price Proves it by its
 Downright Value!**

Be prepared to see two striking things when you come in
 to examine the wonderful new Silver Anniversary Pontiac.
 First, you will see why Pontiac is acknowledged to be the
 most beautiful thing on wheels. You will see a brilliantly
 good-looking car, with its fresh, Gull-wing styling, color-
 ful new interiors and clean, exciting lines.
 Second, you will see a price tag on these magnificent new
 Pontiacs which is so low that you will find it hard to
 understand why anybody ever buys any new car but a
 Pontiac! Certainly, no car offers a sounder measure of
 beauty, performance and dependability for every new car
 dollar you invest.
 Here, indeed, is double-barreled proof that dollar for dollar,
 you can't beat a Pontiac! Come in as soon as you can and
 see for yourself.

"Life" will be the subject of the Lesson-Sermon in all Christian Science churches throughout

the world on Sunday, January 21. The Golden Text (1 John 5:11) is: "This is the record, that God hath given to us eternal life, and this life is in his Son."
Among the Bible citations is this passage, (John 5:26): "For as the Father hath life in himself; so hath he given to the Son to have life in himself."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 518): "God fashions all things after His own likeness. Life is reflected in existence. Truth is truthfulness. God in goodness, which impart their own peace and permanence."

AN HONEST ANSWER

★ Medical ethics are not something unique and set apart, but simply a direct application of the Golden Rule. They provide an honest answer to the question, "What is best for the patient?" As one physician put it, "I do for my patients what I would do for a member of my own family."

As pharmacists, we adhere to the same code. The quality of our medicines and service is the best it is possible to give. You, the patient, are our first concern.

You Can Help, Too

Pamella O'Neal (left) helps her older sister, Patricia, adjust the braces which make it possible for her to walk again after a severe polio attack. Pamella also was stricken but recovered completely. March of Dimes funds paid for treatment for both these daughters of Mr. and Mrs. C. H. O'Neal, of Raleigh, N. C. More than \$2,500 was paid by the local March of Dimes Chapter toward Patricia's treatment.

Remember

YOUR HOME NEWSPAPER

All matters handled through the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper each week.

GROWTH OF ARTIFICIAL BREEDING IN MICHIGAN DAIRY HERDS

YEAR ENDING JANUARY 1st	MICHIGAN COUNTIES SERVED	DAIRY ANIMALS SERVED (EACH ANIMAL REPRESENTS 20,000 COWS)
1945	12	(10,935)
1946	28	(35,275)
1947	43	(62,220)
1948	52	(90,208)
1949	65	(120,717)
1950	70	(150,367)

In 1945 the Michigan Cooperative Extension Service saw the need for a centralized artificial breeding program to aid the state's billion-dollar dairy industry. It provided personnel, leadership and initial funds to organize the Michigan Artificial Breeders' Cooperative, Inc.

Today the organization is self-supporting and owns many thousands of dollars worth of valuable bulls and facilities. The 78 bulls kept at the central laboratory at East Lansing include many of the best in the state. Most of them have proven ability to produce butterfat production in female offspring above that of the mother. Purebred bulls include the Holstein, Guernsey, Jersey and Red Dane breeds.

By early 1950, locally operated breed associations were operating in 70 counties and serving 150,000 cows. Since then, 15,000 more cows in 2,200 more herds have been added to the list.

YOUR FROZEN FOOD LOCKER

Yes, at the cost of little more than a postage stamp a day you can store 200 lbs. of meat, or 80 chickens, or more than 100 quarts of fruits and vegetables.

And remember that this small cost includes the electric power bill, equipment upkeep, and insurance on your foods. Small wonder that lockers are becoming so popular all over the country.

We invite you to stop in at our plant and learn more about the miracle of quick-freezing... this new way of living which is being used by more and more families in this community. We're specialists in zero temperature and are ready to serve you at all times.
