MACHINERY BEING MOVED INTO NEW FACTORY

the Hawk Tool & Engineering Co., in their factory on West Washington Street is now being installed with prospects that the job will be finished today.

Allen W. (Bud) Hawke states that it is expected to be in operation within the next two or three weeks.

Sufficient machinery is now located to nearly fill the new building the company has erected since buying the property last summer. The plant is modern in every way and should provide very pleasant working conditions for the employees. While a few have been hired from this vicinity it is not expected that any real hiring will be done for at least two weeks.

The machinery to be used by Bowling Exhibition At Howe's Lanes

Last Tuesday night, January 31st at Howe's Lanes the one and only one "Andy Varipapa" world's greatest trick shot bowler and two times world's champion with 73 perfect (300) games to his credit, arrived to give an exhibition of his bowling and to give advice to the people as to the fundamentals of bowling.

Andy rolled eight matched games with the men and two matched games with women. Andy's highest game of the evening was 226 which he rolled against Les Howe's 203. Ray Mac-Diarmid rolled the highest game of the evening which was 236 against Andy's 178. The other men that rolled against Andy was Bill Jacober, John Cheslik and E. Hartz, Lillian Weber and Virginia Taylor were the women that rolled against Andy.

After the exhibition was over Andy stayed around and watched other people bowl and gave them advice which might help them on After the matched games were rolled and Andy came out on top, naturally, he showed the Mr. and Mrs. Milton Clark and people an exhibition of trick shots. made were a real surprise. Folks were in doubt as to his ability to perform as he did.

There were approximately 330 people out for this exhibition and t was held with the fullest cooperation of the Dixie Recreation. To accomodate the crowd the oleacher seats from the Clarkston High School were installed and as a safety measure the Clarkston Fire Fighters attended.

Clarkston Finds Avondale Easy Foe

Friday evening Clarkston open ed the second of league play with an easy game with Avondale, formerly Auburn Heights. The first quarter was close, Clarkston scored 8 points and Avondale scored 6. Jacobs and B. Olson splitting the 8 points between hem. The second quarter Avondale fell apart and did not score a point. Clarkston meanwhile was picking up 10 more for themselves. The third quarter Clarkston was still picking up speed and dropped in 14 points. This was double the amount gained by Avondale. The fourth quarter was the biggest for Clarkston and 16 points were chalked up. Avondale duplicated the 7 points they picked up in the third. The final score was

Clarkston 48 Avondale 20. Clarkston used eleven players in the game and every one broke into the scoring column. Miller was high with 9 points closely followed by Rouse and Jacobs with 8 each.

The Clarkston JVs were also winners in their game with the Avondale reserves. The score in this game was Clarkston 35 Avondale 27. Jim Smith with 12 points was high in this game. This was the third win of the season for the reserves who have been show-

Fire Fighters Meet In Clarkston

The Clarkston and Springfield Fire Fighters were hosts to the quarterly meeting of the Oakland O. E. S. Chapter last Monday County Fireman's Association on Friday evening, January 27th, in the Clarkston Rotary rooms, President Roy Ottmar presided.

After the introduction of Chief Hillman of Springfield and Chief Beach of Clarkston the meeting was turned over to Mr. Beach who presented the Village President, to go hungry as plans are made for Robert C. Waters, Mr. Waters welcomed the visiting firemen and several guests including Edward (Ted) O'Roark of the village

The business of the evening included the annual election of officers. After spirited ballotting the following were chosen to serve for 1950: president, Chief Roy Ottmar of West Bloomfield; vice president, Chief Elmer Ray of Howard Perkins of Oakley Park.

A highlight of the evening's program was a talk by George Taack, regional superintendent of the State Conservation Department, who told of new laws concerning grass fires. New rigid state regulations show that any person responsible for starting a grass fire from the local fire chief or conservation officer is subject to a penalty and fine,

Interesting movies were shown of a western elk hunt by the Williams' Gun Shop of Davison. An invitation was accepted to meet in Holly with the Holly Fire fighters for the next quarterly meeting in April.

About 150 firemen and guests enjoyed refreshments served by the wives of the Clarkston Fire Fighters.

Waterford Church Uses New Building

The new Sunday School Annex building of the Waterford Community Church will be used for services for the first time Sunday. Although not yet completed, the first floor of the building can now be used for Sunday School classes, and crowded conditions in the other rooms of the church make necessary the use of the building at the earliest possible time. Junior and Intermediate departments will use the new space together for the present, and other classes will be re-distributed to provide for the best possible teaching and discussion environment.

The monthly music night will be held in the new building at 7:30, on Sunday, at which time the building fund receipts for the month will be announced. At this time, those in attendance will have an opportunity to view the progress of construction, and get an idea of the work that yet remains to be done. This will not be a dedication service, however, as plans for such an event are being made for a time in the future when the work of the building is more nearly finished. Music on this occasion will be home talent under the direction of Mr. Charles Jehle. The message of the evening will be given by the

pastor, Rev. W. Van Plew. At the regular morning service of the church, the pastor will present the third of a series of sermons on the doctrinal statement 36 of the Waterford Community Church, entitled, Jesus, the Divine Man! Why Should a Dollar's Worth of Travel Continue to Cost You^{\$15?}

S THIS TRIP NECESSARY?" you were asked in 1941, when every inch of space was needed for troops and war supplies.

To discourage travel then, a tax was added on your travel dollar, a tax that grew to 15% during the war. The Federal Government collected it through the railroads. The Government still collects it, though your travel need not be rationed now.

Today, the original purpose of this tax is as obsolete as an Air Warden's helmet. But, four years after the war's end, YOU are still paying the Government at the rate of \$250,000,000 a year in travel tax.

And, of the billion and three quarters collected since 1941, over half came out of your pocket after the green light on travel went on again.

You don't have food rationing today ... you don't have gasoline rationing today.

Yet, a very real brake is still being put on travel. On a coach trip from New York to Chicago, for example, YOU are still paying \$4.61 in Federal tax.

And the same with the goods that are shipped to your home community. On every dollar you pay for freight, you pay the Government an extra 3 cents (4¢ a ton on coal). That means YOU are still paying over \$300,000,000 a year -freight tax alone.

This tax should be repealed NOW. There is no longer any reason you should pay \$1.15 for every dollar's worth of travel . . \$1.03 for every dollar of railroad freight.

UNITED FUND SENDS FIRST 1950 CHECKS

First checks to cover 1950 operating costs have been sent to United Fund member agencies, Stephen S. Nisbet, Fund president nas announced.

"Although the campaign to raise funds for 1950 does not officially open until February," Mr. Nisbet said in making the announcement, "23 counties throughout the state chose to conduct their campaigns last fall jointly with their Community Chests, Success of these campaigns has enabled the United Fund to begin monthly payments to agencies at this time."

January checks are based on the ratio of the agency's budgetted needs as applied to the amount reported raised to date on the

1950 campaign goal. The state goal for the 25 member agencies is \$1,532,506. The 23 counties which have campaigned have reported \$1,113,114 raised. The remainder will be campaigned for in February.

A wide range of occupations for the parents of students at the University has been disclosed by survey but the one needed to finish out the famed Mother Goose rhyme didn't appear. keading Room at rear of Church, pen Wednesday from 2 to 4 and "Spirit" will be the subject of

the Lesson-Sermon in all Christian science churches throughout the world on Sunday, February 5th. The Golden Text (II Corintnians 3:17) is: "Where the Spirit of the Lord is, there is liberty." Among the Bible citations is this

passage, (John 4:24); "God is a spirit; and they that worship him must worship him in spirit and in truth."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 334): "Spirit being God, there is but one Spirit, for there can be but one infinite and therefore one God. There are neither spirits many nor gods many. There is no evil in Spirit, because God is Spirit."

NEW FIRE INSPECTOR TO JOIN MSC STAFF

Fire protection for a \$50,000,000 physical plant has been reinforced at Michigan State College with the appointment of the first full-

time campus fire inspector by the Wednesday, 7:30 p. m. Mid-week | State Board of Agriculture,

Richard O. Bernitt, Monroe fireman and 1943 graduate of MSC, will assume duties April 1.

Earlier college officials included in a capital outlay appropriation request to the state legislature a \$275,000 underground water reservoir. This would provide adequate water to fight fires of any tional buy for the smart GI or size in campus buildings, officials said.

COMMENT ON WOMEN'S FASHIONS

All the talk about reviving the fashions of the 20's has caused much comment among members of the feminine sex. For those who remember the styles of the "roaring 20's" as something that should stay in the past, here is some consolation.

Only a few details of these earlier fashions are being promoted by most designers reports Josephine Lawyer, Home Demonstration Agent. Those that are igain in fashion are the close haircut, Grecian sleeveline and eaded trim.

Very low waisteline, boyish hestlines and skirts above the knees are features that will not be repeated this spring. What the future holds is hard to tell.

An interesting comment on vomen's fashions is this: A costume is considered indecent 10 years before its time; shameless years before its time; daring 1 year before; smart during its time dowdy 5 years after its time; hideous 10 years after; ridiculous 20 years after; amusing 30 years affer; quaint 50 years after; charming 100 years after; and beautiful 150 years after its time.

Records show that almost half of all the money American consumers spend for goods and services goes for products that originate on the farm.

Agricultural authorities cite that industries which produce onethird of all our manufactured products would be completely crippled if they were deprived of agricultural raw products.

Even the best wiring systems need regular inspections. When checking inferior wiring, watch for defective outlets or switches, and damaged insulation or worn fix-

tures.

Men—and women and children, too—are certain to enjoy this hearty, nourishing meat and vegetable pie attractively topped with golden cheese puffs. Extra cheese biscuits may be served as bread.

Casserole dishes are standard equipment in today's kitchens, for a hot casserole-meal-in-one is appetizing, yet easy on the cook.

Meat-and-vegetable mixtures can be pretty, too, if you give them a topping of fluffy dumplings or golden cheese puffs. These are quickly made drop biscuits with a bit of cheese added to perk up the flavor.

Pour cheese puff topping over cooked meat mixture in a casserole and bake in a hot oven. Or, if you prefer, cook beefburger pie on top of stove and use the oven to bake a custard or other dessert which requires a moderate cooking temperature. requires a moderate cooking temperature.

COMFORTABLE CHILDBIRTH Doctors can't promise paini childbirth or even a childbirth entirely without fear, but through psychological treatments they say it can be a comfortable experience. You can read about it in "Comfortable Childbirth", an article of vast importance to all women in this Sunday's issue of The Detroit Sunday Times.

4-H Club News

By John Trocke 4-H Club Agent

Planting trees is becoming a very popular 4-H Club project. The many acres of rough and infertile soil in Oakland County can be profitably planted to trees which can be secured from the Forestry Department of Michigan State College, free of charge, by 4-H Club members. An example of that type of project is being carried on in conjunction with the school work at the Lake Orion High School. These boys and girls in 4-H Club work are reforesting parts of school land with red pine, white pine, and jack pine

Another project being carried on by 4-H Club members interested in helping wildlife by planting food in cover plants is in game conservation. The game division of the Conservation Department will supply multi-flora rose and other fruit bearing shrubs free to those who wish to improve their farm and game. A request by a 4-H Club member to the Extension Service will get a Farm Planner from the Game Division who will inspect the land and determine what can be done to Pontiac.

DEMEMBER when you used to tome home from school on a snowy winter day and find the kitchen filled with the lovely, unnome-made rolls or coffee cake? And remember how you were given a still-warm sample—even if it was bretty close to dinnertime?

Today, few of us make home-made breads, partly because we have come to believe that they take a long time to peneve that they take a long time to prepare.
