Firemen To Build Up **Fund For Resuscitator**

Those who attended the Hayloft Jamboree on Friday and Saturday evenings of last week had a good time. They enjoyed a lot of laughs and at the same time felt they were contributing to the Firemen's fund for a resuscitator. Charles Robinson did his usual grand job as master of ceremonies and kept the program rolling along without any hesitation.

Besides the square dancing by a group from the Merry Mixers dance club of Waterford and a group from the Clarkston dance club the artists presented were: Beverly Jean (Sugar) Cole in song and tap routine; Three Little Maids, Mary Ellen Curry, Bonnie and Beth Wells, in songs accompanied by Don Smith; Tanna Lee Casey, toe, tap and acrobatic dancing; Laura Ruggles, tap and acrobatic dancing; two little Ruggles sisters, Donna and Caroline, songs; Bill Terry, pianist; Lonesome Cowboy, Elmer Haggadone, songs and guitar; Dancing Chorus, Sue Shanks, Phyllis Saxman, Ann Spohn, Rose Sarvis, Joan Bradley and Martha Masters.

Uncle Ezry was played by Glenn Kerton who made a lot of fun for the crowd and seemed to enjoy doing it. Mrs. Carl Walker played Lulu Belle and she is to be commended for being willing, at the last minute, to step in and take a part that was so prominent. The Quizz Kids, Ruth Althouse, Lee Yoder, Valerie Hoyt and Ronald Roy on Friday night and Patience Thayer, Douglas Turek, George Lang and Sharon Glennie on Saturday night aswered the questions promptly to the amaze ment of many in the audience. Frank Ronk as Hiram Hicks received plenty applause. He did grand job and helped the m. c keep the program rolling along. The tiny tot contest was won

by Arnold Taylor with Janice Powers coming second. The Three Little Maids and the little Ruggles sisters tied for first prize for entertaining and the Lonesome Cowboy won second prize.

The firefighters are grateful t all who helped make the show success. They feel they have good start towards buying a re suscitator for use in this district.

\$250.00 realized from their show of tickets and publicity. last week plan to go ahead and ask donations to raise a fund to purchase a resuscitator for loca use. The total cost will be around \$1,000 leaving \$750 to be raised by popular subscription. The need for a resuscitator can best be judged by the good they have done in other sections. Perhaps the reason its use here has not been emphasized is due to the fact that the need has not arisen as yet. However should the need arise the cost would be quickly forgotten. The date of the drive will be announced next week.

"Everlasting Punishment" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday April 30. 🤏

The Golden Text James (4:8) is: "Draw nigh to God, and he will draw nigh to you. Cleanse your hands, ye sinners; and purify your hearts, ye double minded."

Among the Bible citations is this passage, (Matt. 4:23): "And Jesus went about all Galilee, teaching in their synagogues, and preaching the gospel of the kingdom, and healing all manner of sickness and all manner of disease among the people."

IN MID-AIR The students of the Clarkston High School witnessed the last and best assembly of the year on April 21, 1950. -

One of the best magicians of our time put on a very good act with the help of little five year old

His first act was the mysterious appearance of a lady and little Bobby Rew from behind the walls of an empty playhouse. This was followed by a series of tricks with cards, papers, scarfs, and a cane. Sue Shanks and Hubert Allen were taken from the audience to

help him with tricks using matches, a fan, and his magic wand. This magician was slightly shocked when he discovered that

The magicians's last and greatest trick was when he floated three people in mid-air. The last Bobby Rew, the world's youngest person being a student of Clarkston High, Virginia White. When questioned, he denied the power of hypnotism and the use of mirrors. He used a hoop to show that there were no strings. See if you can find the answer, we can't.

For the last assembly of the year it was very mysterious. Well, most magician snows are.

Feather-bedding scheme of Firemen's Union to put an additional fireman on diesel locomotives has been

Fact Finding Boards appointed by Presidents Roosevelt and Truman have said these demands were "devoid of merit" and they were

Now the Firemen's leaders seek to paralyze railroad transportation to compel the railroads to employ a wholly unnecessary additional fireman to ride on diesel locomotives. This scheme is plain

LEADERS OF the Firemen's union have called a nationwide strike starting with four great railroads on April 26. These railroads are the New York Central, Pennsylvania, Santa Fe, and Southern.

The union claim that a second fireman is needed on grounds of safety is sheer hypocrisy. Safety has been dragged into this dispute only in an unsuccessful effort to give a cloak of respectability to vicious feather-bedding demands.

. After a careful study of the first demands of this union, a Presidential Fact Finding Board on May 21, 1943, reported to President Roosevelt that there was no need for an extra fireman on diesel locomotives.

Again, on September 19, 1949, after a second hearing on the union leaders' demands, a second Board reported to President Truman that: "there presently exists no need for an additional fireman ... upon either the ground of safety or that of efficiency and economy of operation."

> Safety Record of Diesels is Outstandingly Good.

Although the railroads accepted the Board findings, the union leaders have brazenly rejected them. They represent that an extra fireman is needed for "safety" reasons. Here's what the Board had to say on that point: "The safety and on-time performance

of diesel electric locomotives operated under current rules have been notably "Upon careful analysis of the data sub-

mitted on safety, we have concluded that no valid reasons have been shown as a support for the Brotherhood proposal under which a fireman would be required to be at all times continuously in the cab of road diesels. The proposal must be rejected."

The real reason behind these demands is that the union leaders are trying to make jobs where there is no work. In other words, a plain case of "feather-bedding."

The railroads have no intention of yielding to these wasteful make-work demands.

"The safety and on-time performance of Diesel-electric locomotives operated under current rules indicate that Diesel-electric operation has been safer than steam locomotive operation . . .

Remember! These are not statements of the railroads. They are just a few of the many similar conclusions reached by President Truman's Fact Finding Board which spent months investigating the claims of the union leaders.

Homemakers learn how you can efficiently budget your house keeping time to allow yourself free afternoons for odd jobs or social activities. You'll find the secret in a special article, one of many fascinating features, in The American Weekly, famous magazine with this Sunday's (April 30) issue of The Detroit Sunday Times.

The unusual story of the Van Der Boshes, who use loudspeakers, a firemen's pole, bulletin boards and even their own bus to keep their large family functioning smoothly and happily. In The American Weekly, the great color magazine with Sunday's CHICA-GO HERALD-AMERICAN, read "Running a Family of 12". When dinner is served the family speeds downstairs via a fireman's pole. An intercommunication system has outlets throughout the inside and outside of the house so the family can be assembled at a moment's notice. Bulletin boards are provided which lists merits and demerits for the conduct of each child. NATIONAL BEAN WEEK APRIL 27 - MAY 10

Here's a good chance to do something about the high cost of eating bean supply couldn't be better, in weeks ahead.

Mary Bodwell, food economist at Michigan State College, says budget and nutrition wise shoppers will thank the bean industry for National Bean Week. April 27 to May 10 has been set aside to bring anew the story of beans to our nation's homes — and it's story is well worth repeating.
