BETTER WITH BUTTER!

NO APOLOGY IS NEEDED

When guests say "please pass the butter", they expect a good host or hostess to do just that without the necessity of offering apologies.

There is no better sign of good living than having plenty of butter on the table as well as in cooked foods. The best recipes call for butter. It's butter that adds zest and enjoyment to every meal for Nature has endowed it with an inimitable, delicious flavor.

And butter is chock full of nourishment for it is made entirely of the richest part of milk—Nature's Most Neatly Perfect Food. Four pints of cream go into every pound of butter.

Little wonder we all mean just what we say, when we make the request:

STYLE SHOW

On Tuesday, May ninth the Senior class gave a style show. There were four different scenes which were as follows: a window scene, fun in the sun, tea time and school days. The two door prizes were donated by the Clarkston merchants and the J. C. Penny Co. The five dollars was won by Janet Keelean and a dress by Zella Chase.

MAY FESTIVAL

Because the recent Minstrel Show presented by the chorus was such a success, the May Festival started at 8:00 o'clock with the Glee Club in the beginning spot. Next Carolyn Marshall gave an exhibition of baton twirling and was recalled for an encore.

Kindergarten through the fifth grades presented several songs in their colorful costumes. The sixth grade did some marching. The High school chorus then presented "Glow Little Glowworm" and "Tiptoe Through the Tulips" followed by a special piano duet—"The Midnight Fire Alarm" by Peggy Keasey and Jean McIlraith. The program was closed with a few numbers by the Clarkston High School Band.

CLARKSTON TRACK TEAM BOWS

The Clarkston track team loses its first meet of the season by bowing to a powerful Bloomfield Hills 55 1/2 to 53 1/2. Clarkston won seven firsts against Bloomfields six but Bloomfields depth won the meet.

Bob Sharrock was high for the Wolves with 18 points, by taking two first in low hurdles and broad jump, second in the high hurdles and running a leg in a winning relay team.

Yukava led Bloomfields to victory by winning the mile easily and second in the broad jump. Procter also helped the winner by taking one first and two seconds. The next meet is at Clarkston, Wednesday, May 19th, when Clarkston plays host to Avondale.

FRUIT PROSPECTS

Karl D. Bailey, district horticultural agent for eleven southeastern counties in Michigan, made up this week's fruit prospect letter. According to Mr. Bailey, reports from growers in an eleven county area peach and apple branches placed in pails of water inside indicate a 60 to 70 percent crop as far as live buds are concerned. Mr. Bailey says that the poor sites have suffered the worst through the winter as far as live buds are concerned. Growers who helped compile the information were Alden M. Green of Walled Lake and R. C. Van Marter of Clarkston from Oakland County.

are taking great risks in permitting fire hazards to exist in farm homes and outbuildings. More than one out of every hundred farms will burn to the ground during 1950. Fire on the farm is more dangerous than fire in the cities and towns because of the distance to be traveled by fire fighting equipment. Check your chimney flues, electric wiring, paint and oil storage area against fire hazards. April is Spring Clean-Up time on Michigan farms. Let's don't have Oakland County's farmers taking more losses from fire hazards than necessary.

PICNIC COFFEE MAKING

With picnic time just around the corner and spring social events in full swing, suggestions to making coffee in quantity may be helpful. And then there's that old problem about the value of an egg in it.

Mrs. Josephine Lawyer, home demonstration agent, cites recent suggestions from Faye Kinder, Michigan State College home economist, for making perfect coffee and using an egg.

To make 25 cups of coffee use one-half pound of medium-ground coffee and four quarts of water. Heat water to boiling in a large kettle, pan or coffee pot. Place the coffee in the center of an 18-inch square of double cheesecloth and tie very loosely to permit it to swell. Leave 12 to 15 inches of string to handle the bag.

When the water is just about to boil put the bag in it. Gently swish it through the water several times and let it remain until the coffee is the right strength. Do not let the water boil if you want coffee that is really good.

To make very clear coffee, the use of an egg is the secret. Break an egg into a bowl, beat well, add about one cup of cold water, and stir in the coffee. Add enough water to moisten all the coffee, tie in a bag and proceed to make coffee as directed above.

President Roosevelt's Board said—

President Truman's Board said—

Still the leaders of the Railroad

Firemen's
 Union say—

"STRIKE!"

This ridiculous strike is an affront to every citizen of the nation. It's not for more money. It's not because of hours. It's only for soft feather-bedding spots for additional unnecessary firemen to go along in diesel locomotives just for the ride. A leading liberal newspaper calls the demands of the union leaders "horse-feathers"!

The reckless leaders of the firemen's union want to force down the throats of the railroads and the public a ridiculous "make-work" proposal which has been twice ruled out by Presidential Fact Finding Boards duly appointed under the provisions of the Railway Labor Act.

This demand of union leaders for additional and unnecessary firemen to ride in diesel locomotives was rejected - after months of hearings - by a Board appointed by President Roosevelt in 1943.

It was again rejected in 1949 by a Board appointed by President Truman. Recent meetings with the National Mediation Board have brought no change in the attitude of the union dictators.

Union Leaders Defy Intent of Law
 The union leaders helped write the Railway Labor Act. Yet in an attempt to jam through this scheme of pure

"feather-bedding" by leading the members of their union out on strike and threatening paralysis to large areas of the nation, they are defying the spirit and intent of the very law which they helped to create.

This strike is not for higher wages. It is a strike to force the railroads to employ many more thousands of firemen who are not needed! It would be indefensible waste. The railroads have refused to place this additional and unnecessary burden on the public.

But more important than any other consideration, is the action of these few irresponsible union leaders in seeking to force a crippling strike upon the

This strike is one of the silliest strikes in history!

What are these reckless union leaders trying to do? They seek to cause thousands of their members to strike, and throw hundreds of thousands of other employees on and off the railroads out of employment, with loss of pay to them and their families, plus a severe blow to industry and the citizens of the nation.

What's the strike all about? If the union has its way - what happens? The present members of the union won't get one cent more pay. They will merely have been assessed for a costly and indefensible drive in an attempt to provide more dues-paying members for the union by creating "feather-bedding" jobs for additional and unnecessary firemen. This is certainly one of the silliest strikes in history!

nation for their own selfish purposes.

There is no other possible answer to such a demand but "No!"

The railroads in making such a reply believe they have the whole-hearted support of the people in whose interest they are willing to fight this out, despite the loss and inconvenience that all will suffer.

It is time to put an end to such un-American demands.

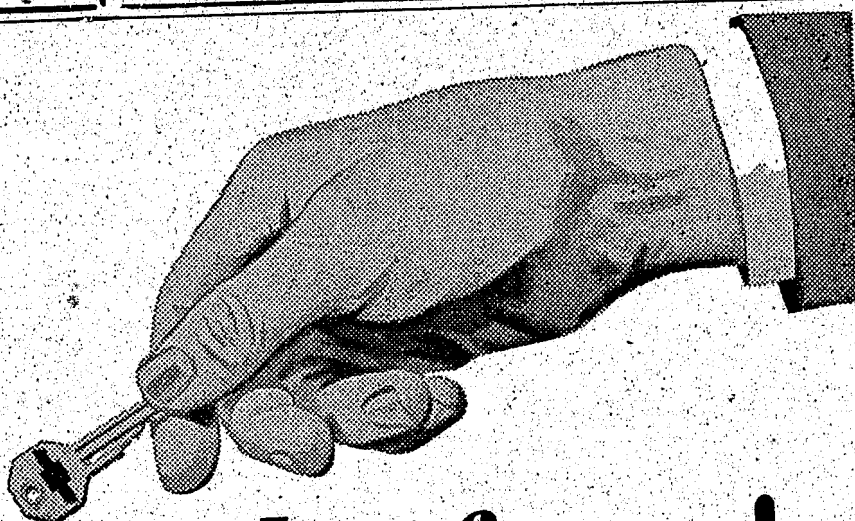

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody!
