

Waterford

Thirteen young people from Christ Lutheran Church left Sunday for Pleasant Hills Lutheran Bible Camp at Bass Lake, near Gornen, Michigan. They were Donald Dryden, Peter Schunck, Frank Weyer, Ronald Grover, Larry Grover, Tommy Eddy, Donald Helman, Clifford Wood Jr., James Kay Lambertson, Greta Hedlund and Betty Brill. They will return home Saturday.

One hundred thirty-nine people attended Christ Lutheran Church Sunday morning when the new Pastor, The Rev. Arvid E. Anderson, delivered his first sermon

Clarkston News

on "The Prodigal Son". Rev. Anderson arrived at the parsonage on Friday.

Mr. and Mrs. Harry Wormnest are building a new home on the Andersonville Road at the bridge. It is on the river facing the lake and the view from the front windows gives the full length of the lake.

The Community Fair committee has held its final meeting and everything is ready for the celebration July 2, 3 and 4. There will be many attractions, fun, good food, an Ox Roast and fireworks, and all proceeds go to a most worth cause. Everybody come!

Mr. and Mrs. Earl Wilcox of Airport Road spent the week-end at their cabin in Atlanta.

Mr. and Mrs. Alton Goll and daughter Norene of Mace Day Lake returned home Saturday from a 3 week motor trip through the Smoky mountains. They were guests of Reverend and Mrs. Nelson Kring while in North Carolina and they also visited the Meland Orphanage near Jackson,

Kentucky. A birthday celebration on June 20th honored Charles Mehlberg of Fenton on his 89th birthday. His son Henry Mehlberg, Mrs. Mehlberg, and great grand-daughter Barbara Jean Tuck drove with him to Saginaw to the home of his son-in-law and daughter, Rev. and Mrs. Vernon Dean. Mr. and Mrs. Walter Mehlberg and daughter Joan of Auburn Heights and Mrs. Asbury McCullum and two sons of Fenton joined the group in Saginaw. Party refreshments, including a birthday cake, and gifts to the honoree concluded a very happy and pleasant evening.

Patty Maxwell, daughter of the Charles Maxwells of Hatchery Road, was home for the week-end. She is a student at the Grand Rapids School of Bible and Music.

Mr. and Mrs. John Miller of Dixie Highway drove to Fort Huron Saturday and spent the day with relatives.

Mr. and Mrs. James Stites of Townsend Blvd. drove to Atlanta

over the week-end. Sheila Amos returned home Monday from Dallas, Texas, where she has spent the winter. Her grandfather R. M. Amos accompanied her home and will remain in Waterford for a visit.

July 15th is the date set for the Waterford Community Church and Sunday School picnic. The place will be announced later.

Plans have been changed for the picnics of the Adult Bible Class and the Ladies Auxiliary of the Waterford Church. The two groups have combined and will hold a supper picnic at the home of Mr. and Mrs. Frank Schultz on Thursday, July 6th, at 6 o'clock. Persons attending are asked to bring their own dishes and silver, and a dish to pass. Rolls and coffee will be furnished.

The first week of Daily Vacation Bible School ended Friday at the Community Church with 210 children attending. The school ends today (Thursday) with a program to demonstrate the things the children have been learning. The school started with 126 children in attendance and reached a high of 210 at the end of the first week. Total enrollment, including Friday, was 260.

RURAL LEADERSHIP PARLEY IS PLANNED AT MSC, JULY 10-21

Clergymen and lay leaders of rural America will gather at Michigan State College for the fourth annual Rural Leadership School July 10-21.

More than 125 are expected to enroll in the three-year course, which is composed of three basic core courses and ten elective subjects according to Russell J. Kleis, director of special courses and conferences.

Training in group methods, community organization and rural church programs form the nucleus of the course. Each group, churchmen and other organization leaders, are encouraged to cooperate in the overall aims of the community, Kleis said.

Classes are arranged on a three-year schedule, progressing from the fundamental methods of group interaction in the rural community to the more complex fields, such as "Nature and Religion" and "Social and Mental Health."

Michigan State College staff members will teach the 13 courses and conferees will be housed in the new Robert S. Shaw Hall.

Objectives of the course are focused on the improvement of working relationships between all agencies serving rural life, and to establish the place and role of the church in the community.

Sedan Defies Lightning Bolt

SUNNYVALE, Cal.—Using a Chevrolet four-door sedan, the Westinghouse Electric Corp. demonstrated here that a man's best friend in an electrical storm is his automobile. Joseph H. Cox, engineer, sat nonchalantly behind the wheel while a 2,400,000-volt of man-made lightning banged into the steel roof. As shown below, the shock passed around the roof and harmlessly out through the Chevrolet's tires. The volt was produced by the 25-foot-high "surge" or impulse generator which can be used for a quality control test on big power transformers.

their preparation and care in all phases.

Results of their findings are of interest to anyone who eats or prepares frozen foods and wants high quality products. Michigan homemakers can benefit from recommendations based on this research by obtaining a copy of the bulletin, "Freezing Foods For Michigan Homes".

Published by the MSC Agricultural Experiment Station, the 46-page illustrated bulletin covers all phases of freezing — equipment, freezing schedules, packaging, and preparation of fruits, vegetables, meats and poultry. Obtain your free copy from the Bulletin Office, Department of Public Relations, Michigan State College, East Lansing, or from your county extension office.

Do you want to know what kind of cartons and wrappings are best to use, how to keep peaches from browning, what variety of strawberries to use? Any questions you might have is answered in this complete new bulletin with its up-to-the-minute advice.

You are reminded to freeze only the best, because freezing does not improve foods. Emphasis is put on using recommended varieties of fruits and vegetables, using field ripened foods, and handling them quickly from garden to freezer or locker.

MSC MUSEUM GETS ANCIENT SADDLE

Curator Joseph W. Stack prepared this week to display a 175 year old side saddle presented to the Michigan State College Museum by a Shiawassee county farm girl.

Suzanne Williams, a 19-year-old junior, presented the saddle, owned and used originally by her great-great-grandmother, Mary Stiles, in 1795, to Prof. Stack in ceremonies at the college.

Suzanne received the saddle from her grandmother Mrs. Nettie Williams, who lives near Owosso. She and her uncle, Dale E. Pasco, Lapeer, made arrangements for the presentation.

Butter

'YES, BUTTER DOES IT'

So said our friend when being complimented on his famous Sunday night scrambled eggs.

"Of course, one must have fresh eggs, some cream, mix them carefully and cook slowly, but when all's said and done, you simply must use a goodly amount of butter.

"It's butter that provides the delicious flavor which makes us pass our plates for another helping."

The BEST COOKS use plenty of BUTTER

There are no substitutes for Milk and Dairy Products. Nature provides them with nutrition and deliciousness.

NONE

The Polls for the said Election will be open from 10:00 o'clock A. M., and remain open until 7:00 o'clock P. M., of the same Election day.

Dated: June 26, 1950  
F. L. Spooner  
Secretary, Board of Education

## AG COLLEGE AID TO FARMING IS SHOWN IN MOVIE

Michigan had more than a small part in the technicolor picture "Waves of Green" which was shown to Michigan agricultural leaders on the campus of Michigan State college this week.

This picture tells of the contributions made by the Land Grant Colleges to agriculture and how they serve as a link between the county extension program and the United States Department of Agriculture.

It was a talk in Detroit made by John A. Hannah, president of

Michigan State College, that implanted the seed of inspiration for the picture. Officials of Dearborn Motors, Detroit, who heard the MSC president discuss the contributions the Land Grant Colleges had made to agriculture, decided the people should be told how science and agriculture had combined to better the standard of living for all.

Parts of the educational picture were filmed at the East Lansing campus, site of the first college to teach agriculture as a science.

The story of the picture tells of the rise of a share cropper family through aid from research and extension personnel in providing the opportunity for the family to acquire knowledge. Engineering, science, plant breeding, marketing, farm planning, soil building and livestock management all enter into the picture. The work with youth in 4-H Clubs has a part in the picture.

Showings of "Waves of Green" will be made about the state during the coming year whenever an adequate supply of prints are available.

## ELBOW GREASE IS FINAL ANSWER TO CONTROL OF BUGS

Old-fashioned elbow grease cannot be replaced entirely by the new preparations for controlling household insects. Because of the many places where insects can hide in homes, it is difficult to get insecticides in all of the areas affected.

Control of insects in the home begins and ends with good house-keeping, advises Ray James, extension specialist in entomology at Michigan State College. Breed-

ing areas should be eliminated as far as possible.

For instance, carpet beetles can breed in many areas and do get started in cold air ducts where lint has collected. Beetles that feed on prepared cereals may be continually breeding in such materials that have been spilled behind cupboards. Unless such breeding areas are cleaned up the use of insecticides will not give complete control.

We should not expect complete eradication from one treatment, Jane believes, because, although it is possible, it is not feasible in most cases. Continually working at the job is the only way to get complete eradication.

It is very important to read carefully the instructions for the use of insecticides and to follow them to the letter after first doing a thorough job of housecleaning.

Concerning the control of moths, James reports that the most reliable procedure for protecting clothes in storage in the home is the use of either paradichlorobenzene or naphthalene (mothballs). The use of mothproofing materials may or may not prove successful.

## MSC PLANS FOURTH WORKSHOP IN STATE, LOCAL GOVERNMENT

Michigan's far reaching governmental structure will go under study in the fourth annual Michigan State College summer Workshop in State and Local Government July 5 - 25.

Prof. James W. Miller, workshop director said more than 50 office-holders, headed by Gov. G. Mennen Williams will comprise the "faculty" for the three-week course.

Authorities on government from other Michigan Colleges and universities will appear with state and local officials on panel discussion programs.

The workshop is designed particularly to give secondary school teachers of civics and social science a practical knowledge of problems that beset governing agencies from officials who work with them.

Topics will bear on state, county and city government, said Prof. Miller, and will include the judiciary, legislature, executive state and local finances, roads, education, state-local relations, party organization and elections.

Sponsoring and cooperating agencies in the workshop will be the Michigan Institute of Local Government, the State Department of Public Instruction, the Michigan Municipal League, state and local officials, Michigan State College, University of Michigan, Wayne University, Michigan State Normal College, Central Michigan College of Education and Western Michigan College of Education.

## WOODCHUCK SURPRISES CONSERVATION OFFICER

Conservation officer Glen Price

can attest to the slick job of sabotage one woodchuck can pull in a short period of time.

The Chatham area officer returned to his car after a search on foot, to see a woodchuck scurrying out from under the car hood. Not concerned, Price started his car and proceeded up the road but came to a quick stop when smoke began pouring out from under the hood. The woodchuck had chewed a hole in the radiator hose causing the alcohol to spill out over the motor and start the blaze.

Only because the road was sandy in that particular area was he able to put out the fire after considerable difficulty. All motor wires were burned to a crisp.

## CONSERVATION NEWS

Fast-driving motorists not only are killing deer and damaging their cars but are inviting serious accidents, the conservation department warns as more vacationers trek north.

Conservation officers, forest firemen and county road crews note that many drivers fail to slow up or make any effort to avoid killing game. Latest toll report by W. R. McDonald, Chippewa county officer in the Trout lake area, shows 20 more deer picked up on highways in that vicinity.

# NOTICE ANNUAL SCHOOL MEETING

NOTICE IS HEREBY GIVEN to the Qualified School Electors of School District No. 3 frac. of the Townships of Independence, Springfield, Waterford and White Lake in the County of Oakland, State of Michigan, that the Annual School Election for the Election of School District Officers will be held at the Township Hall in the Village of Clarkston from 10:00 A. ## Come And Bring Your Friends

**Clarkston Locals**

Mr. and Mrs. Hawley Skarritt of Clarkston and Mr. and Mrs. E. T. Forslund of Pontiac left Saturday morning for the northern peninsula. The Skarritts expect to be gone three weeks.

Mrs. David Newlands has returned to her home from a ten

day visit at Castle Park on Lake Michigan and at Grand Rapids. On her return she was happy to welcome as her guests her niece, Mrs. Hugh T. McDaniel (Agnes Walter) and daughter, Mary McDaniel, of Charlotte, N. C. They expect to visit here about ten days.

Mr. and Mrs. Edward J. Quinn and sons, Thomas and Richard,

have returned to their home in Troy, N. Y., after spending the past week with Mrs. Quinn's parents, Mr. and Mrs. Leland Masters of Maple Drive.

On Sunday Mr. and Mrs. Leland Masters and family went to Caro, Michigan to attend the Wildse family reunion. Mrs. Masters' mother who has been visiting here for a week returned with them to her home in Caro. At the election of officers Mrs. Masters was made secretary.

From where I sit... by Joe Marsh

**Maybe This'll Wake Us Up!**

Because a couple of thoughtless drivers threw a newspaper out of their car yesterday, Miss-Gilbert, our school principal, nearly had a bad accident.

She was following them on the highway and the paper flattened over her windshield, so she couldn't see. In a minute her little coupe was across the line—right in the path of an oncoming trailer-truck. It missed... but only just!

The parties were recognized and soon as I heard about it I ran over to Sheriff Harper—demanded they be brought up on charges. But

Harper says: "Hold on, Joe. Let's talk this out, over supper and a glass of beer at Andy's."

He pointed out that those men aren't criminals. Just careless, like a lot of us seem to be getting these days, judging from the trash you see along roadsides. From where I sit, this near accident may be the lesson we need to make us stop littering our roads—and start showing a little tolerant consideration for our neighbors!

Joe Marsh

Copyright, 1950, United States Brewers Foundation.

**SET JULY 21 AS SHEEP DAY**

Michigan Sheep growers are saving the date of Friday, July 21, for their second annual sheep field day, to be held at the Eaton County Fairgrounds, Charlotte.

Attendance at last year's event has encouraged the sponsors to plan for an even bigger field day this year. The program will include judging of several breeds, exhibits of all breeds, demonstrations of on preparing and cooking lamb, and discussions on pastures and sheep management problems.

According to Graydon Blank, extension sheep specialist for Michigan State College, the co-operating sponsors are the Michigan Sheep Breeders' association, Eaton County Sheep Breeders' association, Eaton County extension office, and the animal husbandry department of Michigan State College.

**Meet Your Michigan**

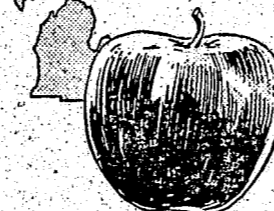

**JANUARY IN JUNE:**

THE ROCKY DEPTHS OF THE OLD PEWABIC IRON MINE, NEAR IRON MOUNTAIN IN MICHIGAN'S VAST UPPER PENINSULA, ARE BLANKETED WITH SNOW THE YEAR ROUND. APPROPRIATELY NAMED THE 'DEVIL'S ICE BOX,' ITS SUMMER TEMPERATURE REMAINS CONSISTENTLY BELOW FREEZING.

**DO YOU KNOW?**

YOUR STATE IS AMONG THE NATION'S FIVE LEADING PRODUCERS OF COMMERCIAL APPLES. IN 1949, A RECORD PRODUCTION OF MORE THAN 11 MILLION BUSHELS OF JONATHAN'S, DELICIOUS NORTHERN SPIES AND OTHER VARIETIES BROUGHT MICHIGAN FRUIT-GROWERS NEARLY 100-MILLION DOLLARS.

**SAHARA HOT RODS!**

ZOOMING OVER GIANT SAND DUNES ALONG MICHIGAN'S SCENIC WEST COAST IS THRILLING PASTIME FOR COUNTLESS VACATIONERS. 'DUNE SHOOTERS' THAT ARE POWERFUL, STRIPPED-DOWN V-8'S ARE EQUIPPED WITH TEN OVER-SIZE WHEELS AND TRAVERSE THESE DESERT-LIKE AREAS WITH EASE.

WORLD'S LONGEST INTERNATIONAL SUSPENSION BRIDGE IS THE AMBASSADOR BRIDGE IN DETROIT. FIFTH LONGEST OF ITS TYPE IN THE NATION, ITS RIVER SPAN MEASURES 1850 FEET AND TOWERS 152 FEET ABOVE THE WORLD'S BUSIEST INLAND WATERWAY. COMPLETED IN 1929, IT COST \$16,821,000.

**FISHERMEN CAUTIONED ABOUT UNUSED BAIT**

Fishermen enjoying good fishing on their favorite lake may find contrary conditions in a few years if they dump unused minnows and other live fish in the water, the conservation department cautions.

Too, such anglers are violating the law, the department notes as more boats dot upstate inland lakes. Besides being illegal to release minnows and other live fish in any lake or stream, it also is against the law to fish with any kind of live fish in designated trout lakes.

Emptying the minnow pail in the lake actually amounts to planting fish without a permit and it

may undo the work and waste the money the department has expended in an attempt to create better fishing. Trout lakes, for example, have been created or improved by removing certain species of fish and minnows. Every year fishery field crews poison out a number of waters, yet careless or unthinking fishermen can sabotage the very efforts undertaken for their benefit.

Frequently, a second poisoning of a lake substantiates the suspicions of fishery workers—that the undesirable types of minnows had been re-introduced and upset the biological fish balance.

The conservation department urges anglers to destroy all unused bait at the end of the fishing trip or return it to the place obtained.

Some 35 species of minnows can be found in Michigan lakes and streams. Most common are the lake emerald shiner, northern common shiner, blunt-nosed minnow, western black-nosed dace, western golden shiner and the northern creek chub.

filled with cream should be covered tightly and allowed to cool, following separation, at a temperature of 60 degrees F or below. The dairy specialist urges farmers to deliver their product at least twice a week to help cut down on the bacteria count.  
 Cream, because of its composition, is susceptible to bacteria. Bacteria thrives in warm milk and cream.  
 The cream separator should be washed after each time it is used, dairy specialist warns. Dairymen should provide themselves with cooling facilities which will be used throughout the year. Mechanical coolers have been found to be the best answer to this necessity.  
 However, specialists point out that in many instances a household refrigerator is a good cooling facility, if space is available. If the cream is placed in the refrigerator it should be kept covered to protect it from food odors.  
 The ideal storage temperature for cream is about 50 degrees F. Tank coolers with water maintained at approximately this temperature have proved satisfactory.

**TRELLS HUNTERS TO PAY VISIT DURING SUMMER**  
 A word of advice to sportsmen was given recently by Charles Shick, extension specialist in game management for Michigan State College and the Conservation Department. He says hunters should take time to get acquainted with farmers.  
 Shick maintains that the farmer likes to know the people who hunt on his land. One of his chief

complaints is that hunters fail to visit with him after the brief open season on farm game. Sometimes he feels like a forgotten man since he gets attention only in the fall of the year.  
 The game management specialist says that a friendly visit at various times during the year creates a better farmer-hunter relationship.

**Patients Should Have Ethics, Too**

★ A physician is a busy man. Day and night he is ready to give succor to those in need of his care. Let us be fair. Do not telephone him at mealtimes just because you know he can be reached. And do not call him at night, unless absolutely necessary. Confine your calls to his office hours as much as you can. That is what office hours are for.  
 Keep your appointments promptly, or notify him in advance that it is impossible for you to do so. In short, treat him as you would wish to be treated were you the physician. A sympathetic appreciation of his problems greatly enhances the help he can give.  
 Call on us for competent prescription service.

**EFFECTIVE JUNE 20**

**New telephone rates for Michigan Bell customers**

THE Michigan Public Service Commission has authorized increased local rates for Michigan Bell telephone service, beginning June 20, 1950. The increase was granted after a thorough 18 months' study of Michigan Bell's application, which was filed in December, 1948. It does not change the long distance rates now being charged.

The revised rates represent increases of from 25c to 75c a month for residence service. Increases for business customers range from 50c per month upward.

Each Michigan Bell subscriber will receive specific information about the new rates with the first telephone bill dated on or after June 20.

The reason for the new rates is a very simple one. The costs of providing telephone service have climbed much faster than revenues. And the rate increases granted have lagged far behind the increases in costs.

In the last ten years, for example, general increases in basic wage levels alone have added \$35,000,000 a year to operating costs. But during the same period, telephone rate increases, including the present one, will

have added only \$21,000,000 a year to revenues. Only recently we received demands from the telephone union for changes in its contracts which, if granted, will add still more to our expense. This, of course, is not provided for in the rate increase just granted.

Even with the present increase, the average telephone bill has risen less than half as much as the prices of things that make up the cost of living. In terms of value—in terms of the working hours needed to pay for it—telephone service is cheaper now than before the war. A telephone in the average home costs less per day than a package of cigarettes, a quart of milk or a gallon of gasoline.

Michigan Bell must keep on adding to its telephone plant in order to expand and improve its service to meet the needs of Michigan people. That requires that more money be invested. And to attract that money from investors, your telephone company must have adequate earnings.

This rate increase, although much less than the amount needed, will help to strengthen Michigan Bell's financial condition—and thus help us to provide you with the kind of telephone service you want, when and where you want it.

A financially healthy telephone company is good for everybody

"God" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, July 2nd.  
 The Golden Text (Psalms 99:9) is: "Exalt the Lord our God, and worship at his holy hill; for the Lord our God is holy."

Among the Bible citations is this passage, (Isa. 64:4): "For since the beginning of the world men have not heard, nor perceived by the ear, neither hath the eye seen, O God, beside thee, what he hath prepared for him that waiteth for him."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 516): "God fashions all things after His own likeness. Life is reflected in existence. Truth in truthfulness. God in goodness, which impart their own peace and permanence."

Make no mistake! Although most cars use the Fluid Drive principle that Chrysler first introduced 12 years ago—there's an all-important difference in automatic gear shifting today! Chrysler and only Chrysler gives you full control of your car. While others shift you up and down—even when you don't want to shift—Chrysler's simple, cool-running transmission takes its orders from you. Even at 12 miles an hour, in slow moving traffic, you're in high while others shift down to lower gears. How much quieter your engine runs! How much more smoothly! What a difference in high-gear economy! Come see what Fluid Drive does for you! Examine Chrysler workmanship... compare the quality of materials... discover the benefits of Chrysler engineering! You'll find built-in value all the way through that has no equal! Extra money's worth, we're sure, that will make you a Chrysler buyer for life!

**THE NEW YORKER 4-DOOR SEDAN**

See it—drive it... there's built-in value all the way through!

**Advantages of Chrysler's Fluid Drive**  
 Automatic Gear Shifting—with full control of your car! Better traction—safer on slippery roads. Convenience of clutch for easier parking. Slower Engine Speeds—reduced noise, wear. Saves gasoline! Drive in high while others drive in low in traffic.

**Advantages of Chrysler's High Compression Splitfire Engine!**  
 Waterproof Ignition—prevents stalling in rain or high water! Lubricated Cylinder Walls—chemical protection for increased life. Floating Power—helps eliminate vibration. Superfinished Parts—reduces friction, last longer. Exhaust Valve Seat Inserts—reduce need for valve grinding! Full Flow Oil Filter—keeps oil clean!

**Chrysler's Advantages in Comfort and Safety**  
 Functional Design—full room for your head, legs, shoulders. Easy to enter and leave! Safe Guard Hydraulic Brakes—another step, less pedal pressure. Cycled bonded linings for double the wear. Electrically Operated Windshield Wiper—constant speed all the time! Chair Height Seats—no crumpling, you sit naturally! Safety Rim Wheels—won't throw tires after blowouts at normal speeds.

**TRAVELING BASKET ON ITS WAY**

The finance committee of the W. S. G. S. has started a traveling

basket and it is now well on the rounds. When you receive it take out the article you wish and place in the coin box whatever you think is the value of the article

Then put in an article to replace the one you took out and send the basket on its way. Do not keep the basket in your possession for too long a time.

**Big jobs...**  
HAULING STEERS TO THE STOCKYARDS  
For tough, heavy jobs you need a tough, heavy truck! Like this Ford F-5 Platform with Stock Racks. It has a Bonus Built bridge-type platform frame... side rails are riveted to steel cross girders. And for finishing power plus top economy only Ford offers you a V-8 truck engine!

**Small jobs...**  
DELIVERING MEAT FROM THE CORNER MARKET  
For fast, light jobs you need a fast, light truck. Like this Ford F-1 Panel. It has a Bonus Built reinforced welded all-steel body... a comfortably cushioned bucket-type driver's seat. And you get a choice of a 35-h.p. Six or a 100-h.p. V-8 engine! Come in—you'll get a big trade-in on your present truck!

**All jobs...**  
HERE'S WHY AMERICA'S NO. 1 TRUCK VALUE DOES MORE FOR YOUR DOLLAR  
★ A choice of two V-8's and two Sixes in over 175 models saves more by fitting the job better ★ Loadomatic ignition saves gas ★ Aluminum alloy pistons save oil ★ New price reductions save money... up to 5%.

**Ford Trucking Costs Less Because—**  
**FORD TRUCKS LAST LONGER**  
Using latest registration data on 6,592,000 trucks, life insurance experts prove Ford Trucks last longer!

**LUXURY or MONEY-SAVER ???**  
Your home frozen food unit can be either...  
It can be an expensive luxury...or it can be the most important money-saver in your household!

To make your home storage unit pay, buy your meats, frozen foods, and other perishables from us at wholesale prices. You'll get top-grade inspected meats, properly chilled, aged, and professionally cut and trimmed to suit your family size and preferences. Your meats will be wrapped in materials, scientifically designed for this purpose, and will be sharp frozen at temperatures much colder than a home storage unit, resulting in juicier meat that keeps its original flavor longer.

We welcome your patronage—whether you rent one of our lockers or not. Come in and let us show you how we can save you money!
