### Rummage Sale October 27-28

The Clarkston Farm and Garden Club is sponsoring a rummage sale the 27th and 28th of October from 9:00 A. M. until 6:00 P. M., at the Township Hall. Some of the proceeds will be used for the purpose of getting evergreens and shrubs for the Club's little reserve garden. The purpose of this garden is to have stock which will be growing and ready to use at some future time in beautifying the village.

Last year the rummage sale sponsored by the Farm and Garden Club was for the purpose of plantings between the village and U. S. 10. The Garden Club cooperated with the State in this project although at present one may have difficulty locating the plantings as some are very small. The State Highway Department has planted 60 oak trees, 49 flowering crabs and 23 pines. However in 2 or 3 years the plantings will be quite evident. The little crab trees, especially, should be blooming nicely by then. Most of the pines look good and healthy, although some of the oaks have died. However, any dead stock will be replaced in the spring.

The sale this year will be to raise money to beautify the village. The Club sincerely hopes to have the same wonderful cooperation as given last year by the people in the community in donating their rummage to a cause which benefits all.

#### CLARKSTON RESERVES WIN OVER LAKE ORION

Last week the Clarkston Reserves traveled to Lake Orion where they played under the lights.

A graceful gal with charming smile. The best man and the groom stand near .

And cast a glance from front to rear, With outward signs of nervous

To see that things would be just right. The mother of the groom felt sad, Like she was losing all she had, She couldn't see the time would

As he stood by his daughter's side,

With knees that shook and hearts that raced Down that long aisle the couple paced. Somehow I heard the preacher

BARK THAT BITES - To test various types of insulating coatings for telephone wires, Bell Laboratories maintain a dense birch forest in New Jersey. Wires strung through the forest show how different materials resist the rubbing action of tree limbs under actual outdoor conditions.

TIME WAS when the horse and buggy offered rural families and friends the only means of visiting back and forth. With the telephone, "visiting" without leaving the farm became possible. Now, extended area service, which permits subscribers in certain neighboring communities to call one another without a specific toll charge, is bringing telephone users on the farm even closer to their social and marketing centers. By the end of this year, over 200 Michigan Bell exchanges will have this new service.

USEFUL . . . AND FUN - A survey shows that more than half the farm families served by Michigan Bell use their telephones for reaching the doctor, dentist and veterinarian, and for ordering parts, re-pairs, feed and supplies. "Visiting" with friends and arranging church and social activities are high up on the list too.
