#### AMERICAN EDUCATION WEEK

American Education Week is being observed throughout the nation the week of November 5-11. Our schools are the mainstay of our free government. Our schools help to build moral and spiritual values. They are concerned with ideals and appreciations, as well as facts and skills. They teach the A B C's of American Citizenship.

Adequate education for all children helps to build and strengthen America's future. The schools are yours. Their success is your business just as the success of America is your business. Democracy depends upon the intelligence of the many rather than upon the wisdom of a few.

Schools should be of people, by the people, as well as, for the people. You are urged to visit school during American Education Week or at any time which is convenient for you. Your constructive suggestions are always welcome.

#### SEVENTH GRADE

The seventh grade has just finished a very fine geography project. They are also planning a Halloween party for November 27th.

#### ELEVENTH GRADE NEWS

The juniors got off to a good start this year by planning a dance. It will be held in the high school November 10th, 1950, from 9 until 1. Don Smith will furnish the music, and there will be a big surprise for you. "Miss Detroit of 1950" will be the vocalist.

#### PEP MEETING

In a combination pep meeting and assembly last Friday, October 13th, the campaign speeches for president of the student council were given. Sylvia Peterson, representing Beverly Covert, seemed to think the election was in the bag. She came out with two sacks — one large and one small. This held everyone in suspense. "What is in those sacks?" We were soon to find out that the larger one contained the good qualities of Beverly Covert and the smaller, of course, the bad ones. (The small one was empty).

Then came Frank Weyer who commented on the many qualities of Lois Oswald for president.

He was followed by Dorothy Ward, who also kept everyone in suspense. Here she was telling all about someone and we didn't know who. Of course there were many guesses as to who it was and sure enough it was Chuck Henry.

Finally there was Terry Brown who told about "Fearless Jim Huttanocher."

The assembly was continued with the band playing and a pep meeting.

Bob Sharrock and Bob Yahnke who didn't seem to want to sing the school song, were given the privilege of getting up in front of the group and leading the singing.

Choke these errors in their early stages, if you would not cherish an army of conspirators against health, happiness, and success."

 "Everlasting Punishment" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday October 29.  
 The Golden Text (Proverbs 10: 29) is: "The way of the Lord is strength to the upright; but destruction shall be to the workers of iniquity."  
 Among the Bible citations in this passage, (Gal. 6:7): "Be not deceived; God is not mocked: for whatsoever a man soweth, that shall he also reap."  
 Correlative passages to be read from the Christian Science text-

by Walt Samuel  
 "It's a small world" they always say . . . and we can say it and mean it with Television doing its daily stint in homes from coast to coast. Take for instance, the United Nations Telecasts. They make it possible for Mr. and Mrs. America to entertain delegates right in their own living rooms. The world situation thus becomes more understandable and closer to each of us. We can take part in the arguments and decide for ourselves from the speeches of the delegates just which road is best to take on the International scene. Yes, no doubt about it. . . TV is making for a better informed America more and more every day.  
 BLOOPERS are the blunders that happen in TV production. They hand the audience a laugh. But they have a tendency to increase the "u-gee" situation in directors and producers.

**SUPERSTITION in this Enlightened Age**  
 ★ Do you still bury a dishrag to remove a wart on your finger? Perhaps not, but some do. Yes, even asafetida is still worn on a string about the neck to ward off illness. These cases are extreme, but surprisingly superstitious notions about disease and treatment are held in this enlightened age. Before you accept secondhand statements that hint of witchcraft, consult your physician. He alone is competent to evaluate methods of prevention and treatment of disease. Bring your prescriptions to us.

From where I sit... by Joe Marsh  
**You Can't Build A Better Mousetrap!**  
 "They're not the best-looking boarders a man ever had," Hack Turner said one day, "and they've got awful tempers. But I've found it pays to have 'em around."  
 Hack was talking about a family of barn owls, nesting in his silo this year. Some folks believe those little white-faced screechers kill chickens—and ought to be shot on sight. But Hack disagrees.  
 "Up at State University they've studied barn owls for years—and never known one to eat a chicken. On the other hand, a daddy owl will clean up around 800 mice a month. Farmers that kill barn owls are throwing away the best mousetraps known to man!"  
 From where I sit, when someone shows a prejudice against a group of animals or humans—it's usually just based on misunderstanding. For instance, some folks are plumb intolerant about those of us who enjoy an occasional quiet glass of beer. Get to really know us and you're liable to find we're pretty good birds at that!
