By The Way ... Having had a few days of real spring weather the present snow and rain is a little hard to take, Especially is this true if you have just about got over that cold — or – flu – or feel that you are about to be taken by either. Both seem to be real troubles to those affected this year . . . The election for Village of Clarkston was held last Monday and proved to be fairly well patronized considering there was only one ticket in the field. Candidates for the Township election have been chosen, only by the republicans, so that this election may not cause too much action unless a sticker candidate or so is injected into the affair. The member must own his own animal but may start with a grade or registered heifer calf. Bull calves are not desirable to use in a dairy project, since the member should continue in his following years with the animal.

Expense of entering the project varies. Many members secure an animal from the home herd while others will purchase a heifer calf. According to county 4-H Club Agent, John K. by Bob Koons Oakland County Conservationis

Hi folks, sit and read awhile. Last Monday, March 5, the directors of the Oakland County Soil Conservation District held their monthly meeting. Just to bring you folks up to date, I might kind of go over what this district is. In 1945 you felt that we had enough of an erosion and soil management problem here in Oakland County to form a Soil Coservation District. When it was voted in, there were five directors elected to serve as its governing body. Three are still serving. These three are Earl Braid of Lake Orion, Earl Vooriees of Davisburg, and Cyril Oliver of Pontiac who is chairman, Since then Keith Middleton of Lake Orion, and just this year, Harold Mitchell of Holly, have been elected as directors. These are the farmers who run the business of the district. If any of you have any questions about soil conservation, one of these men would be the fellow to see.

We hear a lot of people say that Oakland County doesn't have an erosion problem, but now is real good time while you are driving to

The students and faculty extend their best wishes, for "a happy birthday" to Mr. Wallace Ridgley, the school superintendent, whose birthday was March sixth.

There were two substitute teachers on Thursday of last week. Mrs. Orlo Willoughby substituted for Miss Bennett in mathematic, Miss Stites is well liked by all of classes, while Mrs. Glenn Howland substituted for Miss Murphy in the 8th grade section.

The students will be enjoying themselves with various activities on Friday while the teachers a tend an Institute.

SHOWBOAT PRESENTATION ATTRACTS LOCAL STUDENTS

F. N. C. MEMBERS ATTEND CARNI-FAIR

Several members of the future Nurses Club, along with their adviser, Miss Helen Reed, attended the Carni-Fair on Saturday, Mar. 3rd at the Harper Hospital nurses' residence in Detroit. This was a combination of nursing exhibits by F. N. C.'s schools of nursing and other health agencies; and a rollicking carnival midway with the ideas adapted to nursing. The purpose was to better acquaint future nurses with some equipment and procedures used in that field. An afternoon of fun was enjoyed by the 30 attending clubs. Refreshments and presentation of door prizes climaxed the event.

HEAR LECTURE

Miss Maxine Bachand, Mrs. Margaret Brunner, Miss Arlene Coe, Miss Marguerite Bennett, and Miss Ruth Sharpe attended lecture on "Functional Democracy In Human Relations - A Modern Theory", on March 1st at the Rackham building in Detroit. This was one in a series of lectures to be given there weekly through the month of March, by Dr. Edward C. Lindeman, a professor at Columbia University.

PEACH TREE BORE CONTROL

With this winter's injury to peach buds and peach wood, peach tree bore will be on the increase most likely. Peach tree bore can be controlled with wettable DDT. There is no immediate worry however, but this is a word of warning to be prepared in time for control is at hand.

The bores spent the winter beween the excluded gum about th base of the tree and emerge as moths from late June to August. Apply a solution of 2 lbs. of 50% wettable DDT in 100 gallons of water to the trunks from the crotches to the ground. The application should thoroughly drench the trunk and area near the ground line. Two applications are suggest-

Use Caution Flying Kites

Kite-flying days are here again -and a Lincoln Park boy's narrow escape from death is a reminder of the dangers of this fine

The boy, in this case, was in no way at fault. He was running to the scene of a repair job on a 4.800-volt electric line that had been short-circuited and severed by someone else's kite-string. Before Detroit Edison crewman or police guards could warn him, he brushed against a live wire that was in process of being disconnected.

R. P. Douglas, head of the Detroit Edison Company's safety de-Little Larry Stites returned to partment, today suggested some his home at Atlanta, Mich., last rules for keeping the danger out of kite-flying, as follows: 1. Always fly kites in open

fields—away from any overhead 2. Do not use a metal kiteframe; use only wood, which is

a non-conductor of electricity. 3. Do not use tinsel twine or cord that has any appearance of being metallic. This kind of cord can carry electricity to the hand of the kite-flyer and cause painful injury shock.

4. Do not climb a pole or tree to get a snagged kite. The result may be electric shock or a fall. "Kite-flying is a great sport for boys and girls everywhere," Douglas said, "and it can be kept safe if these simple rules are ob-
