The past matrons of the chapter were the hostesses in the afternoon. Entertaining the group of about 150 were Mrs. Florine Harvey who played piano selections and Miss Barbara Boadway who sang several solos. The tea table was centered with an arrangement of yellow flowers and gold candles.

Those who attended the open house realized the age of the chapter when they were greeted by the past matrons attired in the dress of 50 years ago. They were lovely in their lace, ruffles and perky little (or big) beribboned hats. High buttoned shoes were also in evidence.

The banquet was held in the evening when 300 persons were served a roast turkey dinner which was prepared and served by the Woman's Club of the Community Activities Inc. The banquet tables were decorated with gold centerpieces and candles in groups of 5 in the O. E. S. colors. The speakers' table was centered with a yellow arrangement of daffodils tulips and snapdragons and gold candles. Miniature yellow rose corsages marked each place.

The invocation was given by the Grand Chaplain, Mrs Olive Williams. Mrs. Lloyd Sibley, worthy matron of the local chapter, welcomed the guests and Bill Pascher led the community singing.

\* Birthdays, anniversaries, graduations, a new job-all are occasions for rejoicing as well as for reflection and new resolve. Whether or not a list of resolutions is made,

the accomplishments of the past can be either a hitching post or a signpost to a brighter future. Careful self-appraisal is often as revealing as a stock inventory. FOR LAND'S SAKE

by Bob Koons

Oakland County Conservationist Hi folks. Sit and read a while How's your grass silage doing? The fellows up at the college have decided that maybe they were a little over cautious about the moisture content. It seems like the most important thing is not to let t get too dry. You want to remember that the older the plant, the dryer it gets. A bunch of us were talking about it up at the East Orion Farm Bureau the other night. Joe Spezia from up near

Oxford said that the moisture had to be natural moisture. If you were cutting over ripe stands they quota. sure don't take long to dry out. If they do get too dry and then get rained on, you can't depend on necessary moisture. It just takes

that natural plant juice. Another thing, grass silage is just canned hay. Don't expect too much, when comparing it to corn silage, remember, there is no grain in it. Don't get the wrong idea, I'm not making exuses. It's good stuff. Good grass silage and a good forage program, can save cash on a dairy farm. I don't know how many times I've said it, but I'll keep right on, CONSERVA-

TION PAYS ITS OWN WAY. Just stop and think about the following for a while. GOOD quality hay can save you \$24 a year per cow. Add grass silage and you can make that \$48 per year. I would say that's worth looking prepared against plate waste or into. These are also good con-

servation practices. Well, gotta go now folks, but remember, soil and water con-Are you losing food through care- servation is not an end in itself.

feature "be-bop" music which at-619 tracts a large number of teenagers; severe punishment of a 985 sailor found smuggling in drugs by a permanent revocation of his seaman's license, disbarment from membership in the mariners'

unions and criminal prosecution. The situation is very serious and must be dealt with promptly if this menace is to be stopped, and rehabilitation of teen-age addicts At the same time a bill came out effected.

The House debated a bill which would permit city and county government offices to close all day Saturday if they so wished, before voting it down. It was argued that you could not measure the need for keeping offices open by the number of people who came in, but rather it should be measured by the service given, shocking condition in the cases of and the House was reminded of the workmen who have business in local government offices and who working 5 days a week can only come to the county building or city hall on a Saturday forenoon. The vote by which the bill was defeated, was later reconsidered, and the bill was laid on the table.

Concurring in Senate amendments to a House Bill requiring the state employees to take the constitutional oath, the House has ordered the bill enrolled, and it now goes to the Governor for his approval or veto.

We passed and sent to the Senate, a bill giving paraplegic veterans special parking privileges. This is the same bill that the House passed a year ago, but which was lost in the shuffle during the closing days in the Senate.

Also passed by the House were bills giving cities and villages the right to adopt plumbing, electrical and building codes by references without printing in full. copies of the code to be available in the Clerk's office. Two bills introduced on the 21st would give the same right to counties and townships.

Introduced is a bill amending the social welfare act to exclude the value of a homestead or farmstead, occupied by an applicant or a recipient of Old Age Assistance as a home, in determining the value of property under the Act. A bill prohibiting Sunday hunting in counties south of Oceana, Newaygo, Mecosta, Isabella, Midland and Arenac was introduced early in the week.
