By The Way . . .

Now that Spring elections are out of the way the next major items to look forward to include the final snow storm, bowling banquets, opening of the golf courses and the farmers getting their crops for this year under way. . . . Incidentally for those who like auctions (and who doesn't) the Rotary Annex are going to stage a real auction. This is not to be confused with rummage sales but will be a real auction with worthwhile articles being sold by good auctioneers, four of them doing the selling. The date has been set for Wednesday afternoon, April 18th. Watch for this big event and plan to attend. . . . The best wisecrack we have heard about the election result in Waterford Township is Richardson was probably very much surprised at the returns — and Anderson was surprised even more so. . . . There is an old saying that you can't sell from an empty wagon. Last week we met a salesman who had perhaps too full a wagon. He came to buy a paper then started to sell us. His offers included (of all things — printing), electric or gasoline lawnmowers, television, salesbooks, nylons. By this time someone else came to the door and we were able to stop the offers. . . . There is a crying need for a sign on the Independence Township Community Center because some people just don't know where the old school on North Main Street is located. Perhaps there should be a sign, because, well — it does pay to advertise and let's let the world know we have a community center. . . . Note to television salesmen! Can count 10 houses in just looking out the windows who do not have a television set. . . . Could be that the final game in the hockey playoffs will be held after the opening day of baseball this year. If this weather keeps up it would be more fun to sit in a heated building for hockey than in an open-air stand to see a ball game. After all football is the game where the audience has to be about as rugged as the players.

Waste Paper Drive Saturday, April 14

The Boy Scouts and Cub Scouts will have their annual Spring Waste Paper Drive on Saturday, April 14th.

Every home in the district is asked to cooperate. Start now to gather your newspapers, magazines and paper cartons, bundle them and have them at the curb on Saturday morning, April 14th.

Auction Sale Wednesday, April 18

On Wednesday afternoon, April 18, starting at 2 o'clock the Clarkston Rotary Arms will have an auction sale at the Township Fire Hall in Clarkston. At this sale there will be household articles including, curtains, pictures, dishes, silver, crystal, bedding, furniture, pots and pans, etc.

If there are those in the community who would care to donate any household articles for the sale if they will call MA 5-2368 or MA 5-3621 they will be picked up. You will be sure to find something you want at this auction so plan to attend.

BAKE SALE FRIDAY AFTERNOON

Save yourself some weekend, kitchen drudgery. Buy your baked goods from the Clarkston Seniors. The sale will be held at the Township Hall starting at 3 o'clock on Friday afternoon.

Miss Patricia Shtes, director of forensic activities at Clarkston explained that the contest here will include five types of speeches: dramatic readings, declamations, orations, humorous readings and extemporaneous speeches.

A winner and runner-up will be chosen in each field. These students will then represent Clarkston in the district contest.

This will be a new experience for most of the local contestants, as this school hasn't had a forensic speech contest since 1947. The student body wishes the participants lots of luck. They are very proud of those who have spent so many hours working on this extra curricular activity.

The cub scouts welcomed a new cub, Jimmy Billyew, last Thursday. He is from the Wilson School cub den. They worked industriously on their Indian village. Last Sunday Mrs. Fred Turek's den sent Den 4 some wooden animals to finish carving. Mrs. Wason's den sent goat skin to make into shoe buffers. In return Den 4 sent them their bear, lion and wolf molds for them to use.

Mrs. Glen Robinson celebrated her birthday on April 3rd.

June Anne Rader, 14 year old daughter of Mr. and Mrs. Stanley Rader, is confined to her bed at her home with rheumatic fever. She will have to remain in bed for some time. She is a 6th grader in the Clarkston School. Perhaps a card shower from her fellow students would help to cheer her up.

MICHIGAN STATISTICS
The State Tourist Council points out that some of the reasons why Michigan is among the leaders in the nation's tourist industry are these "vital statistics": 36,350 miles of rivers and streams; 11,037 inland lakes; more seashore than any other state — 3 121 miles of shoreline along the Great Lakes; 80,000 miles of picturesque highways.

BIRTHDAYS THIS WEEK
 Each month of the year has a meaning spoken through its flower, sentiment or birthstone. For April the flower is the sweet pea meaning innocence and the birthstone diamond.
 This week's birthday wishes are extended to the following students: Ralph Williamson — April 1st; Patricia Lowe — April 4th; Hazel Robinson — April 6th; Barbara DeCominck — April 7th.

ELEMENTARY NEWS

FIRST GRADE
 Melvin Smith, Adah Shafer and Susan Walter have all celebrated their birthdays within the past two weeks. Although Easter has come and gone for another year we still wish to tell what we did to keep with the tradition. We made posters and pictures of Easter scenes. We also made small baskets and decorated them with colored pictures. After the baskets were completed we filled them with gay colored candy. On the afternoon preceding Good Friday we were shown a film, and like the other students we enjoyed the Easter recess, but were still happy when Tuesday arrived so we could be back with our playmates.

The majority of the pupils have completed the reading book for this year. For the remainder of the term, we will be using supplementary readers.

THIRD GRADE
 In English we have been doing some choral reading. We have been reading about Brittany and enjoy learning about the customs of other lands.

SIXTH GRADE
 Sharon Glennie has returned from California, where she has been visiting for the past few weeks. She has been telling us many interesting things about her travel.
 A career man is already seen in the person of George Lang. George has been taking pictures with his flash camera from time to time of our activities and study units. We hope to have one of his photographs in the local paper soon. George greatly enjoys taking pictures and we wish him the best of luck in his experiences which he will encounter.

FORD SCHOOL NEWS
 Last week the fourth grade entertained the 1-6 with their performance of the play in their English book — "The Princess and the Pea."
 We are glad to have Georgia Robinson back with us after her stay in Florida.
 Dick Spohn had many interesting things to tell us about the horse farms he visited while in Kentucky over the Easter vacation.

PLAN TO ATTEND JUNIOR PLAY TONIGHT
 The finishing touches have been put on one of the best suspense plays Clarkston has ever presented. The Juniors have been working diligently on this play for the past several weeks, and feel it has been well worth the work, for it promises to be an exceptionally fine play.
 Under the expert direction of Arthur Heimburger, the presentation of the "Old Man's Money" will be staged at 8:00 P. M. (tonight) in the school auditorium. The class has put much work on this play and hope the results will bring a large crowd. Be sure to bring them up! They'll be looking for you!

SCHOOL CARNIVAL TO BE HELD APRIL 20th
 The all-school carnival which this year will be sponsored by the senior class will be held on the evening of April 20th instead of April 18th as was previously announced. Grades 7-11 will take part, each grade presenting separate acts of their own choice. The profits will be separated three ways: The senior class will receive according to the profit netted after expenses are paid. Each grade (7-11) will receive 5% for their class treasury and the Student Council will receive \$100 for the purchase of a tape recorder. The above mentioned however, depends entirely upon the profits netted after expenses are defrayed.

The following committees will

be working very hard the next few weeks in order to make this the best carnival ever held here — one which will make each and every one who attends anxiously await the 1952 carnival: **GENERAL COMMITTEE** — Patrick Jewell, chairman; Joice Carte, Les Boyns, Jim Smith and Steve Huntton. **PURCHASING COMMITTEE** — Don Dawley, chairman; Margie Wilmot. **POSTERS and HAND-BILLS** — Joice Carte, chairman; Dorothy Ward, Evelyn McCrum, Don Dawley and Elden Mudge. **NEWSPAPER ARTICLES and PICTURES** — Evelyn McCrum. **KING and QUEEN CONTEST** — Dolores McMullen, chairman; Gail Robertson and Jim Smith. **DOOR PRIZE** — Barbara Waggener. **REFRESHMENTS** — Beverly Covert, chairman; Margie Wilmot and Sylvia Peterson. **FASHION SHOW** — Barbara Waggener, chairman; Gail Oswald, Dolores McMullen and Don Dawley.
 This is one affair where all the junior high and senior high grades may have added money in their treasury. So come one, come all for an exciting evening of entertainment, which will include laughs, suspense, thrills, numerous performances, exciting games and door prizes for the lucky ticket number holders. Be watching for further details!

COMING EVENTS
 April 5th (tonight) — Junior Play.
 April 13th — Assembly by grades 7-12th.

THE FRUIT OF UNCEASING LABOR

Between 1911 and 1935, a brief span of twenty-five years, extraordinary progress was made in public health. According to figures released by the Metropolitan Life Insurance Company, the duration of human life during this period was extended by almost fourteen years. It is all the more remarkable in the light of the history of this period, which included the first World War, the worst epidemic in recent history, and America's most severe depression.
 Many agencies have contributed to make America a more healthful place in which to live. Not the least of these are scientific medicine and pharmacy, which work unceasingly for better methods of prevention and treatment of disease.

Lemon Snow for a Storm of Applause

Light and feathery as its name implies is Lemon Snow Pudding, a delicate dessert in which unflavored gelatine acts as backdrop for the cool tartness of fresh lemon.

Gel-cookery, which is the fine art of cooking in your refrigerator, is so easy and so rewarding. Your desserts can look like the fancy work of a celebrated chef, yet because of the exact measurement of each envelope of unflavored gelatine, success is guaranteed by following such simple recipes as the one below.

Unflavored gelatine is all protein, with no sweetener or artificial flavoring added. For this reason, the molded desserts it produces catch the full flavor and true color of the fruit.

Lemon Snow Pudding

- 1 envelope unflavored gelatine 1/4 teaspoon salt
1/2 cup cold water 1/4 cup lemon juice
3/4 cup boiling water 1 teaspoon grated lemon rind
1/4 cup sugar 2 egg whites

Soften gelatine in cold water. Add boiling water, sugar and salt and stir until dissolved. Add lemon juice and lemon rind. Chill until mixture is slightly thicker than consistency of unbeaten egg white.

Whip until light. Beat egg whites until stiff; add gelatine mixture. Place the bowl in ice water; continue to beat until mixture begins to hold its shape.

Reddy Kilowatt is Ready! Much of our nation's strength lies in its preparedness. Electric power is a vital resource. An important question is: Have we enough of it... enough for complete preparedness? Detroit Edison's Answer is Yes In December, 1950, demands for electric power by our customers were greater than ever before... five times during that month new records were established... and we had power to meet these demands. Yes, Detroit Edison is ready today and is building ahead to be ready tomorrow. More Power to Keep Us a Stronger Nation Our company's construction program will continue to keep us ahead. Since 1940, new equipment has increased our electric power capacity by 50%. *Two 75,000 kilowatt turbine-generators added at our Delray Power Plant. *Two 75,000 kilowatt turbine-generators added at our Marysville Power Plant. *Two 100,000 kilowatt turbine-generators added at our Trenton Power Plant. With new construction our 1940 capacity will be doubled: *Two 100,000 kilowatt turbine-generators are being added at our Conners Creek Power Plant. *Three 125,000 kilowatt turbine-generators are being added at our new St. Clair Power Plant, now under construction. Construction of transmission lines, substations and distribution circuits is keeping pace. Similar effective programs are going forward in all of America's electric companies under the able management of men who know that a strong America is a free America.

Wednesday Evening Service 8:00 P. M.
Reading Room at rear of Church, open Wednesday from 2 to 4 and 7 to 8 P. M.
The mistaken belief that man is wholly material — and the truth of his spiritual nature — will be discussed in Sunday's service of Sunday, April 8, in all Christian Science churches. The topic of the Lesson-Sermon is "Unreality".
The Golden Text is from Matthew (7:19): "Every tree that bringeth not forth good fruit is hewn down, and cast into the fire."
Among the Bible citations is this passage, (Jer. 10:2): "Thus saith the Lord, Learn not the way of the heathen, and be not dismayed at the signs of heaven; for the heathen are dismayed at them."
Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 525): "Everything good or worthy, God made. Whatever is valueless or baneful, He did not make, hence its unreality."

FRUIT AND GARDEN NOTES
by Willard E. Bosserman
Assistant County Agr'l Agent

DR. J. P. TOMKINS VISITS COUNTY
Dr. Tomkins, Small Fruit Specialist from Michigan State College gave a grape and raspberry pruning demonstration and discussed cultural practices. His first stop was at the Kenneth Hogg farm of Clarkston. In the afternoon he was at the Blood farm at New Hudson.

RASPBERRIES
One interesting point that Dr. Tomkins brought out was that when new red raspberry plants are set out they should be cut back from four to six inches high. He explained that if they were not cut back all the growth would go into the old cane, but by cutting them, more growth will go into the new plants for next year.

GRAPES
Dr. Tomkins said that on Fredonia grapes more buds could be left than on Concord grapes and that as high as 80 to 100 buds could be left this year per vine of Fredonia, and, if later in the Spring when the buds are out if it appears that there are too many buds some can be thinned out at that time.

WONDER DRUG SAVES EYES
PHILADELPHIA—Most eye infections "can now be treated effectively with a special liquid preparation of terramycin," newest of the earth-mold "wonder drugs," according to the report of a team of six physicians at Jefferson Medical College here. The doctors tested the new form of terramycin in treating 116 cases of eye infections. Only 9 of the 116 cases failed to respond to the drug.
Among the fifteen types of infection represented in the test was one case of suspected trachoma, a major ailment in which the outer eye becomes infected and overgrown, with blindness as a possible result. Prompt improvement followed treatment with terramycin and the doctors recommend further trial of the "wonder drug" in localities where trachoma is widespread. Deep-seated troubles, such as that occur in parts of the eye hard to get at, also responded favorably to terramycin. Other conditions treated successfully included conjunctivitis, infections following external eye damage and venereal disease, and a form of shingles.
Terramycin has been prepared not only as an eye drop solution, but as an ophthalmic ointment designed to be used where inflammation and sealing are a problem.
