ELEMENTARY NEWS
KINDERGARTEN
Judy Weatherill and Mary Hinkley are the two new pupils who recently joined our class. We learned a song about the "Raindrops".
SECOND GRADE
In science we are studying about pets. For our art lesson last Friday we drew pictures of dogs.
THIRD GRADE
We are learning to multiply in arithmetic. Nineteen pupils received a perfect score on the spelling test last week. Eddie Glennie has returned from California, where he was visiting for a few weeks. While there he had the misfortune of getting the mumps.

FOURTH GRADE
At a recent election of class officers, Carolyn Bishop was elected president and Bobby Root vice-president.

FIFTH GRADE
Below is a poem which was written by one of our pupils, Barbara Rockwell. Barbara's poem was selected as the best from the others which were included in our lesson. We think she did exceptionally fine work in composing it. It reads as follows:
SPRINGTIME
Oh, come dear children, let's play
For all the snow has gone away.
Children running all about,
And listen to them shout:
Spring is here! Spring is here!
Kitties are flying all about,
Come on kids let's go out.

LORRAINE RIOUX SPELLS AT HOLLY
Lorraine Rioux represented Clarkston in the Detroit News annual District Spelling Bee which was held in the Holly School. Joan Kling 13, an eighth grader at Holly School defeated David Lowe, 12, an eighth grader from Covell School in Davisburg, on the word "incessantly." Lorraine did very well in the contest, too. She was accompanied by Miss Ruth Sharpe, who was in charge of the local contest and Lawrence McNeil who was runner-up in the school spell-down here.

BIRTHDAYS THIS WEEK
April 12th — Laura and Larry Ruggles.
April 13th — Lydia Sholtz.

FOUR TEACHERS ATTEND DISCUSSION
Last Wednesday evening, April 4th, Miss Maxine Bachland, Miss Marjorie Boyd, Mrs. Wallace Ridgley, Miss Marguerite Geller and Miss Ruth Sharpe attended a meeting in Lake Orion which was held for the specific purpose of discussing textbooks. A representative of the Scott-Forsman Company presided over the discussion, which was attended by several other teachers.

COMING EVENTS
April 13th — Assembly by grades 7-12th.
April 14th — Track-River Rogue-meet at Ann Arbor.
April 17th — Assembly "Deep Sea Diving" at 9:00 A. M.
Baseball at Lake Orion.
April 19th — Baseball with Waterford here.
April 20th — All-School Carnival.
April 24th — Baseball at Oxford.
April 25th — Track meet with Clawson here.
April 26th — Local Band Concert.
May 4th — Junior-Senior Prom.

CHEVROLET

America's Largest and Finest Low-Priced Car!

Yes, LARGEST . . .
and the facts speak for themselves

Yes, FINEST . . .
and here are the plain-spoken reasons

It's **LONGEST** in the low-price field, a full 197 1/2 inches of spirited action and clean, sweeping lines. It's **HEAVIEST** in the low-price field, a staunch and solid 3140 pounds in the model illustrated. It has the **WIDEST TREAD** in the low-price field; a road-taming 58 1/2 inches between centers of the rear wheels. Longer, heavier, with wider tread . . . that's the measure of Chevrolet's rock-solid value . . . big in looks, big in handling and riding ease, big in road-hugging performance. Why settle for less than a Chevrolet . . . when Chevrolet is the lowest priced line in the low-price field!

FISHER BODY QUALITY, renowned for solid and lasting goodness. **UNITIZED KNEE-ACTION RIDE**, smooth and gliding. **VALVE-IN-HEAD ENGINE ECONOMY**, spirited performance at lowest cost. **PANORAMIC VISIBILITY**, with a big curved windshield and large window area. **JUMBO-DRUM BRAKES**, biggest in Chevrolet's field. **SAFETY-SIGHT INSTRUMENT PANEL**, with shielded-instrument lights. **POWERGLIDE AUTOMATIC TRANSMISSION**; billion-mile-proved, combined with 105-h.p. valve-in-head engine optional on De Luxe models at extra cost.

Good reasons why MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

RED CLOVER VERSUS ALFALFA

There has been an alarming increase in the amount of red clover planted in Oakland County as compared to a decrease in acreages of alfalfa-brome in the past three or four years. Carter Harrison of Michigan State College Crops Department, says that it does not pay to seed red clover where alfalfa will grow. Reasons for this are that red clover is a biennial crop, dying out after the second year, while alfalfa is perennial, lasting long numbers of years. Even with alfalfa near \$50.00 per bushel and red clover near \$18.00 per bushel, it is still a profitable proposition, due to better yields and longer life, to plant alfalfa seed.

What's the trouble? When talking with farmers about this problem I find their answer to be, "I have too many seeding failures with alfalfa." This need not be. Alfalfa is adapted to most soils in Oakland County. We find by analyzing the soil that either lime or phosphate is usually low on

those fields where it is hard to get an alfalfa stand. Test your soil and don't be stingy with fertilizer if you want a good stand of alfalfa.

SOIL LABORATORY OPENS

Don't be late in getting your soil samples tested for spring applications of fertilizer and lime. Actually, this should have been done last fall. If you are waiting to get the work done this spring, it will take about a week for our lab to get the report back to you, so get it down to us as quickly as possible. In times of fertilizer shortage it is especially smart business to put your fertilizer where it is going to do the most good. It is smart business anyway to have your soil tested periodically.

FOR LAND'S SAKE

by Bob Koons
Soil Conservationist

Hi, folks. Sit and read a while. How big is your farm? Is it as big as it could be? Don't kid yourself that the size is set alone by your line fence, actually it is determined by the amount of crops you grow on it. What that amounts to is this: Which would you rather have, a 100 acres or 133 acres? Well, I don't think that's too hard to answer. Most anybody would rather have the 133 acres, only thing is, I'll go you one better. I'm going to plow, fit, lime, fertilize and buy seed enough for the original 100 acres.

All you have to do is raise four ton of hay where three ton used to grow. It's that simple. You can do better than that too, who says you should stop at four ton? Oakland County has the soil, the topography and the climate to make it a good forage producing area. Just between you and me, I can't think of a better soil conservation practice than a good forage program.

Found in the ad section of the paper the other day: "WANTED TO RENT — 160 to 200 acre farm. I've worn out two since 1929, so am well experienced. Present landlord dissatisfied. (signed O. U. Gully-jumper.)"

Pop always said, "Some people refuse to compromise with the truth; they simply ignore it."

What makes happiness in a marriage? Sunday in The American Weekly, the great color magazine, distributed with the CHI-

CAGO HERALD-AMERICAN, read College Professor Robert S. Ort's report "The Secret of a Happy Marriage". Don't miss this startling, yet revealing article on what makes a happy marriage. Sunday in The CHICAGO HERALD-AMERICAN's great color magazine!

★ Kipling was speaking of precious human freedom when he wrote, "This our fathers bought for us long and long ago."
But courage and valor are not solely the virtues of brave fighting men in combat. It took no less courage for men like Pasteur, Lister, Koch, and hosts of others to struggle for scientific truth against cries of heresy from the ignorant and the superstitious. Inspired by the example of these great men, your physician battles the same foes today. At his side is the pharmacist, always eager to carry the fight to the enemy.

From where I sit... by Joe Marsh
Buzz And The Off-Key Baritones

Reverend Lester of the church on Hillsboro Road coaches his Young Peoples' Choir late Thursday afternoons—after high school basketball practice, lets out.
Buzz Ellis pastures cows next to that church. Around 5 o'clock they used to make a lot of racket about wanting to go home. That made it kind of rough on the choir.
When Buzz learned what was going on he said to Reverend Lester: "I never yet heard of a cow that could moo on a key. So, I'll just move 'em in a little earlier..."
This started me to thinking. Buzz doesn't go to that church. And he's so tone-deaf he couldn't carry a tune in a bucket!
From where I sit, you might say that Buzz didn't have much in common with those singers. But he doesn't divide folks into groups he's "with" or "agin." Your politics, your personal preferences—or the fact that you like a moderate glass of beer—mean nothing either way to Buzz. He's a real neighbor to everybody!

BABY SITTER
works for less than 1/4¢ an hour

Baby chicks, pigs and lambs get a healthier start in life when Reddy Kilowatt (electricity) tends the brooder. As Michigan State College tests show, electric heat lamps produce energy-building warmth, prevent huddling, crowding, smothering and other injury. Fire hazard is practically eliminated when electric heat lamps are properly installed.
Your Edison Farm Service Advisor will gladly help you design an electric brooder to suit your needs. His assistance involves no charge or obligation—and, of course, he does not sell wiring or equipment. Just call any Edison office.

Many dealers feature a complete electric brooder unit, including 250 watt infra-red lamp, reflector, porcelain socket and heavy-duty cord.

The way to overcome the fear of sickness and death will be brought out in the Lesson-Sermon of April 15 under the subject, "Are Sin, Disease, and Death Real?"

The Golden Text is from Psalms (68:20): "He that is our God is the God of salvation; and unto God the Lord belong the issues from death."
Lesson-Sermon passages from the Bible (King James Version) include 1 John 4:18: "There is no fear in love; but perfect love casteth out fear; because fear hath torment. He that feareth is not made perfect in love."
Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 412): "The great fact that God lovingly governs all, never punishing aught but sin, is your standpoint, from which to advance and destroy the human fear of sickness."

Watch the little lady park the beautiful, big car... a single finger on the steering wheel can do it now, with Hydraguide!

Now Hydraguide Steering does four-fifths

of the work for you!

THINK of the easiest steering car you ever drove... then imagine one *five times* easier to steer! Chrysler's new Hydraguide power steering... regular on Crown Imperials and optional at extra cost on all New Yorker and Imperial models... gives you exactly that. Here is by far the greatest single change in handling ease—and safety—you ever found in any car. At your touch on the steering wheel, the car *mechanically* provides four-fifths of the energy to turn the tires on the road. Like so much in these new Chryslers... Hydraguide is so *basically* new, so *basically* better than anything before, that *only when you try it can you ever know what it really does!*

The longest day's drive you ever made... without arm-and-shoulder fatigue at the end. Around the curves... over the hills... Hydraguide does four-fifths of the work!

In tight city traffic... on awkward driveways and roads... Hydraguide means new safety, new ease, new swiftness of steering control!

The Most Basically New Cars of All!

Beneath the rich new beauty of these Chryslers for 1951 are 73 different improvements and advances. Among them are the most basic new ideas in any cars for many years! Like the revolutionary new FirePower engine, of 180 horsepower, which gives owners of Chrysler Imperial and New Yorker cars the most powerful, most efficient, most all-around economical powerplant in any car today! And like the amazing new Chrysler Oriflow shock absorbers, which give every new Chrysler car riding ease with *twice* the shock-absorbing power of any other cars at any price. And with all their newness, they're built to stand by you like no car you can buy!

LOCKERS ARE FOR CITY FOLKS TOO!

You don't have to raise your own meat, fruits, vegetables, and poultry to live better for less the locker way.

We'll be glad to sell you wholesale cuts of meat on money-saving wholesale prices. And you can buy frozen fruits and vegetables from us in bulk lots at budget-stretching prices the year round.

Come in and select the beef, pork, and other meat you need for the next several months. Let us cut it to your family size, package it scientifically, freeze it at a b-r-r temperature, and put it in your locker.

Most families save up to \$5 a week by living the locker way. Drop in soon—and let's talk it over.

PINCOR has everything now it even sharpens itself!

Never a dull moment with a Pincor Power Mower. Built-in hand lever quickly, easily restores dulled, work-worn cutting edges to original razor-like sharpness. No expensive service bills. No missing mower when it's grass cutting time.

What's more, you won't do it often. Pincor blades are specially hardened by exclusive Pincor process. Most durable blades on the market. Practically indestructible, won't nick - won't chip.

Pincor has everything you want in a power mower. It's relaxing, light-as-a-breeze to handle... frisky in action... and reliable in performance. With power mowers... Pincor is the standard of comparison.
