Delicious Quick-Frozen Frying Chicken Is Versatile, Tempting Main Course

Fried chicken is a versatile main course that fits well into almost any sort of menu. And if you start out with a quick-frozen chicken that comes in packages of specified weights, 1 lb.-14 oz., 2 lb.-6 oz., you can get just the size you want for the number of people you have to serve and you will be sure of a delicious and easily prepared mainstay. French-fried potatoes go well with the fried chicken. You can buy them quick-frozen, like the chicken, assuring excellent flavor as well as easy preparation. Potato balls are good with the fried chicken, too. The easiest and most economical way to make them is to scoop them out of raw potatoes, which have been pared,

and to boil them and the rest of the potatoes separately until tender. Drain both when done. Send the potato balls, with melted butter and minced parsley, to the table; put the rest of the potato in a plastic bag in the refrigerator. Next day cut it neatly and serve with a medium white sauce, hot and well seasoned, as creamed potatoes. Any of the delicately flavored vegetables goes with fried chicken, and you can get these quick-frozen, too. Quick-frozen golden sweet corn, boiled and spooned into parboiled halved green peppers, seasoned with butter, pepper and salt, and baked for 10 minutes, is sure to be a favorite.

The total registration at the High School is 2,056. Thursday night, September 20th, is the Church Council meeting at 7:30 at the Waterford Community Church. A film "Regions Beyond" will be shown before the meeting. The Waterford Womens Club will meet at the C. A. I. building Thursday, September 20th, at 8 o'clock. All ladies in the community are cordially invited to attend and they welcome new members.

WATERFORD RECREATION IS EQUIPPED WITH FIRST AID KITS

Waterford Township Recreation has converted six army surplus ammunition kits into First Aid Kits. The American Red-Cross donated scissors, tweezers, iodine, burn ointment, 1 inch adhesive compresses, 2 and 3 inch bandage compresses, plain absorbent gauze and 40-inch triangular bandages to equip the six First Aid Kits.

Waterford Township Recreation plans to add 1 - 2' roll of gauze, 1 - 1' roll of adhesive, Aspirole and paper cups to each of the kits.

Although these First Aid Kits were primarily made up for use on the playgrounds, Mr. Terry, Director of the Waterford Township Recreation, recommends that anyone planning on going on a Camping, Fishing or Hunting trip stop by his office in the Community Activities Building on Williams Lake Road and borrow one of these First Aid Kits.

WHY DO WE LINGER?

Why do we linger? Why do we wait? There are songs to be sung. Dances to be danced. Wood to be carved. Birds to be watched. Without much money. Without much price.

WHY DO WE LINGER?

Why do we linger? Why do we wait? There's no charge for singing. For dancing. For carving. For watching the birds.

WHY DO WE LINGER?

Why do we linger? Why do we wait? There's no price tag on living. The savage in the woods. The nomad in the desert. Think little in terms of money. Rather what has value for life. For today and all days.

WHY DO WE LINGER?

Why do we linger? Why do we wait? Silver and gold and bank notes. Can never buy life. Nor songs to joy. Nor dancing feet. Nor deep contentment. Comradeship is not purchased over a counter.

WHY DO WE LINGER?

Why do we linger? Why do we wait? The little child wants joy more than money. He wants to have fun. He wants to share his fun. He wants to enter the Kingdom of Heaven now.

WHY DO WE LINGER?

Why do we who are older linger? Why do we wait? There is a world of fun. A world of joy. A world of music and beauty. There's life to be lived now. There are others waiting to live with us.

WASH DIRTY EGGS

Use of detergents and water for cleaning eggs now is a recognized practice. Howard Zindel, Michigan State College poultry specialist, has found that washing will not affect the quality of eggs if properly done.

If eggs are dirty he recommends detergents in washing water, heated to about 110 degrees. Eggs should be washed immediately after they are cooled and then

dried. A fan will help dry them. A strong soap may leave a bad flavor so is not recommended.

An underground tank with a pump similar to service station equipment will provide the safest storage for large supplies of farm tractor fuels, gasoline or kerosene on farms, Michigan State College farm safety specialists point out.

Chrysler

Offers MORE BUILT-IN SAFETY

than any other car in America today!

1. 180 V-8 HORSEPOWER

Even on non-premium grade fuel, built-in "Mechanical Octanes" enable the mighty new Chrysler FirePower engine to develop the most power, give the quickest responsiveness in emergencies, of all modern passenger car engines!

2. POWER STEERING

For the first time in an American car, Chrysler brings you Hydraguide* power steering. Hydraulic power does four-fifths of the work... gives your hand on the wheel many times more steering control in ruts, over bumps or soft shoulders!

3. POWER BRAKING

Another Chrysler engineering "first" uses power from the engine to apply the brakes, at the touch of your toe. Reduces pedal pressure required for fast, smooth stops by as much as two-thirds of that otherwise needed!

4. ORIFLOW RIDE CONTROL

Chrysler's revolutionary new type shock absorbers have over twice the power of other types, to keep your car steady and stable on rough roads. Driver and passengers sit comfortably as has never been possible in any car till now!

5. PLUS ADDED PROTECTION

of Safety Rim wheels... foam rubber Safety-Cushion Dash... Safety Vision windows all around... Constant-speed Electric Windshield wipers... Driver-controlled Automatic Transmission.

ONLY A RIDE CAN SHOW YOU WHAT ONLY A CHRYSLER GIVES! DRIVE IT TODAY...

*Hydraguide standard on Crown Imperials, optional at extra cost, on production permits, on Imperial, New Yorker and Saratoga models.

Springfield News

Mrs. Stanley Furman
Correspondent

During our recent electrical storm, Harold Carte put a fuse in his fuse box and their electric clock shorted, and set the window curtains and shade on fire. No serious damage was done.

Warren Gritzinger was running across the yard and stepped on a broken bottle severely cutting his foot.

Dr. and Mrs. O. S. Fusilier and 3 sons, Ronnie, 5; Wallace and Charles, 13; are building a new

home at 8872 Dixie Highway. Dr. Fusilier is from Dearborn.

Frank Miller is home after fighting in Korea.

Mr. and Mrs. John Young of Port Huron spent the weekend at the home of Mr. and Mrs. Gordon Black.

Mr. and Mrs. Alex Pierce of Detroit were weekend guests at the home of Mr. and Mrs. Frank Huff.

Mr. Wallace was operated on last Monday and is doing very nicely.

Wesley Abbott is still confined to the hospital perhaps for possible operation.

June Ann Rader is still under

doctor's care and must rest 3 hours each day. If she continues to improve she may go back to school about November 1st.

Glenn Horne is on the sick list this week suffering from a very bad cold.

Mr. and Mrs. Cleo Hicks of Wyandotte spent the weekend at the home of Mr. and Mrs. Andy Hinson.

Mr. and Mrs. Bill Wagner and family of Pontiac spent the weekend at the home of Mr. and Mrs. Charles Carte. Mrs. Cafline and Mr. Karl Kier of Pontiac were Sunday guests also.

The carpenters were busy this past week putting new boards on in the peak of the C. Carte home.

Mr. and Mrs. Jim Scott and family were weekend guests at the home of Mr. and Mrs. J. Snyder.

There were 44 cars last Sunday at Chief Pontiac Race Track. Four fast cars raced 4 laps in the trophy dash, with Chuck Portello in car 11 coming in 1st. Mrs. Doyle presented the trophy.

The first heat was 8 laps with Bill Scarborough in car 19 coming in 1st and Chuck Portello in car 11 coming in 2nd.

Second heat of 8 laps with Lafnear in car 61 coming in 1st

with Joe Doyle in car 82 coming in second.

Third heat was won by Sherwood Causey in car 42 with Phil Ragatz in car 32 coming in 2nd.

This heat had a little excitement when Latamur in car 31 turned over on the south turn.

Fourth heat was 8 laps which was won by Jack Teague in car 42 JR., with Bud Reneck coming in second.

Fifth heat was won by Furney in car 62 with Bill Crowell in car 18 coming in second.

Australian Pursuit was won by Bill Scarborough in car 19 with Chuck Portello in car 11 coming in second. Dick Dewey in car 80 came in 3rd.

Semi-final of 15 laps was won by Jerry Davis in car 17 with Bill Crowell coming in second in car 18. Bud Reneck in car 182 turned his car over in this race. The heat finished but minus quite a few cars as they dropped out all along the track.

During intermission Mrs. Sherwood Causey was presented with a trophy. Mrs. Causey won last week's Powder Puff Derby.

The Feature Event was lined up for 25 laps. In the 7th lap Lafnear, car 61, threw a wheel and hit one of the pit crew. In the 22nd lap Paul Gabbard in car 93, got tangled up with 3 cars and rolled over 3 times in front of the grandstands which demolished his car in which Paul

received a cut hand. The race was stopped and Bruce King in car 63 was declared the winner with Joey Fair in car 4 coming in 2nd.

Next week the mighty midgets will run at Chief Pontiac Speedway.

BRAZILIAN AMETHYST UNVEILED AT CRANBROOK

A cluster of Brazilian amethyst crystals, weighing 1300 pounds has just been unveiled at the Museum of the Cranbrook Institute of Science. Director Robert H. Hatt noted of it that it is not only the largest mineralogical specimen in the museum but one of the largest, at least, yet removed from Brazil. The specimen was formerly in the collection of the late William Boyce Thompson, New York banker, whose collec-

tion at his Yonkers home, was one of the country's finest. The collection was recently deeded to New York's American Museum of Natural History, by which the specimen was donated to Cranbrook.

YOUNG BULL'S DIET DWARFS 'TEEN-AGED BOY'S BILL OF FARE

Farmers using artificial breeding for dairy cows spend just half as much on each female animal in the herd for breeding services as dairymen keeping a herd sire. That's what a recent cost survey of records of 75 farmers in the Detroit milkshed made by Michigan State College agricultural economists revealed.

The total cost of keeping a bull averaged \$264 a year. And if you think a 'teen-aged

boy consumes a lot of food consider this bill of fare: 1,458 pounds of grain, 5,500 pounds of hay and 3,000 pounds of silage. That's what the average herd bull consumed in feed in a year. The feed alone cost \$106 and labor in feeding and taking care of the animal cost another \$73.

Herd owners with less than 20 animals of breeding age paid out an average cost of \$13.10 a head to maintain a bull. But those with 30 or more females maintained

the sire at a cost of half that much for each animal.

Many of the dairymen covered in the survey not only could have bought breeding service cheaper through the Michigan Artificial Breeders Cooperative, but could have obtained the use of better sires. They also could have eliminated the danger of keeping a bull and provided space for more producing dairy cows in the area occupied by the bull, the economists contend.

OTTO HAZARD

THE TOUGHEST FENDERS WON'T SURVIVE CARELESS BACKING FROM A DRIVE!

NATIONAL PRESS BUILDING WASHINGTON, D. C.

By Anne Goode

For elegant-looking as well as elegant-tasting fruit pies — two crust pies, that is — brush the top crust with beaten egg or milk and sprinkle with granulated sugar. Browns so beautifully!

While those fat, juicy tomatoes are in their prime, serve them often but in various ways. Too good to be true is this simple recipe: Wash and cut large tomatoes in half. Top with heaping spoonful of real mayonnaise. Broil about 10 minutes. Delicious!

Don't wait until the last minute to sprinkle clothes for ironing. They should be sprinkled the night before, or at least several hours before, with lukewarm water for best results.

Long about this time of year while shoes get pretty sad looking. If you'll give them the oil Shinola treatment with the liquid white cleaner, then touch up the soles with a special dressing they'll perk up plenty.

Speaking of clothes wrinkles — if your vacation trip is still coming up, remember to pack with plenty of tissue paper. Then when you reach your destination, hang dresses, etc. over a steaming tub of hot water. It works miracles in taking out wrinkles.

TAKE IT FROM THE GIRLS...

"We love that Air-Conditioning"

Small wonder cows give more milk and hens lay more eggs, even in the wintertime! A well-planned electric ventilating system keeps them healthier and happier by carrying off foul, moisture-laden air and replacing it with fresh, dry air. Stock thrives in this automatic air-conditioned comfort, produces more at less cost to you.

In addition, you have less trouble with iced-up doors and windows, fewer rotted sills and timbers to repair or replace.

Get ready now to lick the barn and poultry house problems winter always brings.

ELECTRIC VENTILATING SYSTEMS IN DAIRY BARN AND POULTRY HOUSES MORE THAN PAY THEIR WAY

MOVING AIR MAKES MONEY

Russell Colton Village Clerk

OF INTEREST TO TROUT FISHERMEN

The regular trout season now is closed, the conservation department reminds 170-180,000 trout anglers. Season ended September 9th.

Remaining trout angling permissible is for rainbows only in certain lakes, ponds and portions of streams through November 30. A complete list of designated waters for fall rainbow fishing is obtainable from the department Lansing office, or can be checked with the local conservation officer. At least one location is open in each of 59 counties.

Also open are the Great Lakes, Lake St. Clair and the St. Marys, St. Clair and Detroit rivers.

Catch limit is the same as in the regular season, five trout from lakes and 15 from streams or 10 pounds and one fish, until September 28 when the new regulation becomes effective limiting trout catch on streams to 10 trout.

USE EGGS RIGHT FOR BEST RESULTS

Hints for getting the most out of eggs, one of the most-called-for recipe ingredient, came today from Michigan State College foods and nutrition specialists.

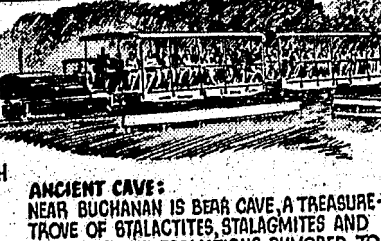

The two qualities that make eggs valuable in cooking are their ability to act as thickening agents and their ability to hold air in recipes. A little know-how will help them do these jobs better.

It's the air that's beaten into the eggs, not the eggs themselves, that helps to leaven batters and doughs. And the way the eggs are beaten makes lots of difference in the final product.

Here's how to get the best results from beating. Take the eggs

MICHIGAN FEATURE SERIES prepared by MICHIGAN TOURIST COUNCIL...No. 36

of the refrigerator ahead of time so they can warm to room temperature before beating. That way they will give better volume. If the whites and yolks are to

be separated, do so while they are still chilled. Do not beat eggs until you are ready to add them to the recipe. If the recipe says to beat

slightly, just mix with a fork, whether it is a whole egg or the separate yolk or white. To beat use a rotary beater or electric mixer until the egg becomes light yellow and thick. If the recipe says to beat egg whites stiff, be sure there isn't a speck of yolk in the whites. Use a beater until the mass is stiff but not dry. The whites will form peaks that topple. If they stand up stiff, they are overbeaten and will not give as much volume.

When using eggs for thickening in custards, sauces and puddings, you can prevent streaks of cooked egg by adding the hot liquid very slowly to the beaten eggs and stirring at the same time.

MICHIGAN BELL ASKS TO INCREASE RATES

The Public Service Commission Wednesday resumed hearings on the application of the Michigan Bell Telephone Company to increase its rates sufficiently to boost revenues 17 per cent, or \$22,000,000 a year.

The Commission's staff was prepared to present its side of the case as hearings reopened. Michigan Bell, early in June, concluded direct testimony on its application which would raise rates slightly less than 3 cents a day for most residence users.

As the hearings were renewed, John A. Greene, Michigan Bell president, said "inflation that brought us here for a rate increase last May continues un-

abated and even greater. And we don't see any indication that the future offers hope of price relief in the things we buy, lower taxes, or a reduction in the overall cost of doing business.

"We never have caught up with inflation, despite our technical advances and the most rigid economics in the operation of the business. The revenue increases so far granted the company are still about one-fourth the increase in the price of most every-

thing else the consumer buys. Michigan Bell has granted wage increases alone that are almost double the amount of rate relief that it has been accorded."

Michigan Bell's application includes a proposal to increase the charge for public telephone calls from 5 to 10 cents.

Cottontail rabbits are the most prolific reproducers of upland game animals, with females averaging 15 youngsters per year.

Best way to get a move on

Ask any GMC owner about hauling performance.

For when it comes to packing home a pay load — he's got a lot of solid experience.

He knows what the right kind of horsepower can do for trucking profits. Whether he powers his load with a gasoline pickup model—or requires one of the sensational new GM-Diesel "Million-Milers"—he's right in the driver's seat for performance unexcelled by any other carrier in its class.

But he's not just "riding an engine."

He'll tell you the way his GMC shoulders the load, year after year, is proof of perfect teamwork of axle, chassis and frame—truck-engineered to outlast anything on the roads today.

Want to profit by the same long-time benefits of GMC's truck-building experience? Let us recommend the right combination of hauling performance to fit your particular needs. For GMC's are made in the widest variety of engine-chassis-axle combinations, from 1/2 to 20 tons.

**KEROSENE LANTERN
IMPORTANT GADGET
FOR FILLING SILO**

Although it may seem a little out of place, a kerosene lantern is an important tool to have around when silo-filling time comes.

It's a handy gadget for checking the silo for carbon dioxide and may save someone a lot of trouble, according to David Steinicke, Michigan State College farm safety specialist.

He says that there is always danger of carbon dioxide in a silo, especially if silage has stood overnight or longer. His suggestion is to tie a rope onto the lantern handle and lower it into the silo. If the light goes out, watch out.

Among other silo-filling suggestions, Steinicke urges farmers to repair their silo ladder before filling time comes. That job and removing or covering the bottom rungs to protect young children may save a costly injury.

After the filling job is under way be careful around the cutter. Many a hand and finger has been lost in the rollers of the cutter when the operator tries to work stalks loose. Be safe by always putting the machine out of gear before unclogging, he warns.

Never open the housing that covers the blower blade to unplug the blower while the machine is running, Steinicke cautions.

AN EXPERT KNOWS MORE ABOUT LESS

★ Good health for every citizen, every family, is the chief concern of medicine and pharmacy.

To accomplish this objective in the best way, the vast field of medical science has been divided into specialized groups. The physician is thoroughly schooled in diagnosis and treatment. As pharmacists, we are experts in the preparation and dispensing of drugs. We do not pretend to be able to diagnose your ills. But we are qualified, and gladly accept the responsibility of filling your prescription exactly as your doctor specifies.

Drayton Drug Store

E. G. GREER, Prop.

Drayton Plains, Michigan

PICTURES AVAILABLE FROM HEALTH DEPARTMENT

Motion pictures on 70 different health subjects can be borrowed from the Michigan Department of Health for showing in classrooms, club meetings or community gatherings this fall and winter.

The Film Loan Library of the State Health Department now contains nearly 500 films which are loaned to groups without charge as a state tax-provided health education service. There are sound films, color films, silent films and animated cartoons in sound and color, as well as film strips and slides, any of which may be used for only the cost of return mailing.

New films added to the library this year include such subjects as mental health, protection against atomic attack, emotions of children, heart disease, marriage and family living, first aid, safety, nutrition and problems of aging.

Among other popular subjects are cancer, polio, immunization, colds, baby sitters, water and milk sanitation, dental health, human reproduction and care of the skin.

Last year three quarters of a million Michigan people saw health films from the State Health Department library. The films were shown to 10,000 groups including television audiences.

Health films can be borrowed by sending a request to Visual Education Service, Michigan Department of Health, Lansing 4, Michigan about three weeks in advance of the desired showing time. To aid in selecting specific subjects or films, there is a catalog listing the films, strips and slides in each local health department office. Where there is no local health department or for organizations that use films frequently, copies of the catalog can be obtained from the Michigan Department of Health.

Conservation News

Labor Day crowds in state parks pushed 1951 attendance figures close to the 12-million mark.

While unseasonably cold weather of early summer kept this year's attendance total below the record 13,108,000 of 1949, last year's total of 11,669,000 was exceeded two weeks ago.

Camper permits also have fallen behind 1949's record, according to the conservation department's parks division, but are expected to exceed 37,000. The 1950 total was 32,875.

The department is operating 46 state parks and 13 state recreation areas this season.

The smallest weekly forest fire toll since the start of the spring hazard season is reported by the conservation department.

Only one fire blackened one acre in northwestern Clare county bringing the year's total so far to 611 fires and 3,806 acres damage. Last year at this time 714 fires had burned over 4,315 acres.

1951 POLIO POINTERS

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

These are precautions recommended by the National Foundation for Infantile Paralysis when polio is around. Always wash hands before eating and be on the alert for such symptoms as feverishness, sore throat, headache, upset stomach or sore muscles. They may—or may not—mean polio. If the disease does strike, call your doctor promptly, follow his advice. Your local National Foundation chapter will provide needed assistance.

WARNS HUNTERS

With the hunting season approaching, David G. Steinicke, extension safety specialist at Michigan State College, today issued some warnings to hunters.

He recalled the first day of the 1950 squirrel season. A Michigan hunter was leaning against a tree in the woods. Another hunter fired at what he thought was a squirrel. The first hunter had a doctor pick the buckshot out of his back.

Almost two-thirds of Michigan's hunting accidents are caused by humans in line of fire, mistaking humans for game and hunting with the safety catch off, Steinicke said.

SAVE BUTTERFAT

Michigan State College dairy specialists today made a suggestion that can mean real dollars and cents savings for the state's dairymen.

They told farmers not to fill milk cans so full that cream will collect on the lid. That results in a loss of butter fat and a lower test when the product is sold.

MSC BULLETIN SHOWS STATE'S PHYSICIAN SUPPLY BELOW U. S.

Availability of physicians to Michigan residents, both urban and rural, is a topic of vital interest today. A new research publication of the Michigan Agricultural Experiment Station presents detailed information to both physicians and community residents who seek information on the subject.

"Distribution of Doctors or Medicine and Osteopaths in Michigan Communities," by Dr. John F. Thaden, research sociologist at Michigan State College, is a careful analysis of the number of Michigan physicians by trade-center communities. Use of trade-center areas, rather than legal boundaries, is a technique that provides a fair basis of judging the availability of physicians. For example a town of 5,000 population may serve as trade-center for twice this number. The physicians located in this town serve the entire population of the trade center.

The study points out that Michigan is not so well supplied on the average, with physicians as is the United States. There is a total of 6,937 physicians in Michigan (1950) or a ratio of 918 persons per physician. For the United States the ratio is 749 persons per physician. From 1910 to 1950, the number of physicians in Michigan increased from 4,100 to 6,937 — an increase of 69 percent, while total population increased 126 percent.

Some other significant findings reported in the bulletin are: Seventy Michigan communities have only one physician; of these, 50 had two or more physicians in 1925.

Fifteen communities have no full-time resident physician at present; of these, 12 had one or more physicians in 1925.

From where I sit... by Joe Marsh

Easy Makes His "Cat" Tread Lightly

Driving home on Three Ponds Road yesterday, I was flagged down by Easy Roberts' boy Skeeter. "Take it slow," he advised. "Dad's crossing this road with our tractor, just beyond the bend."

Around the curve I saw why Skeeter stopped me. Easy had laid two rows of old truck tires across the road, and was driving his new "Cat" tractor over them!

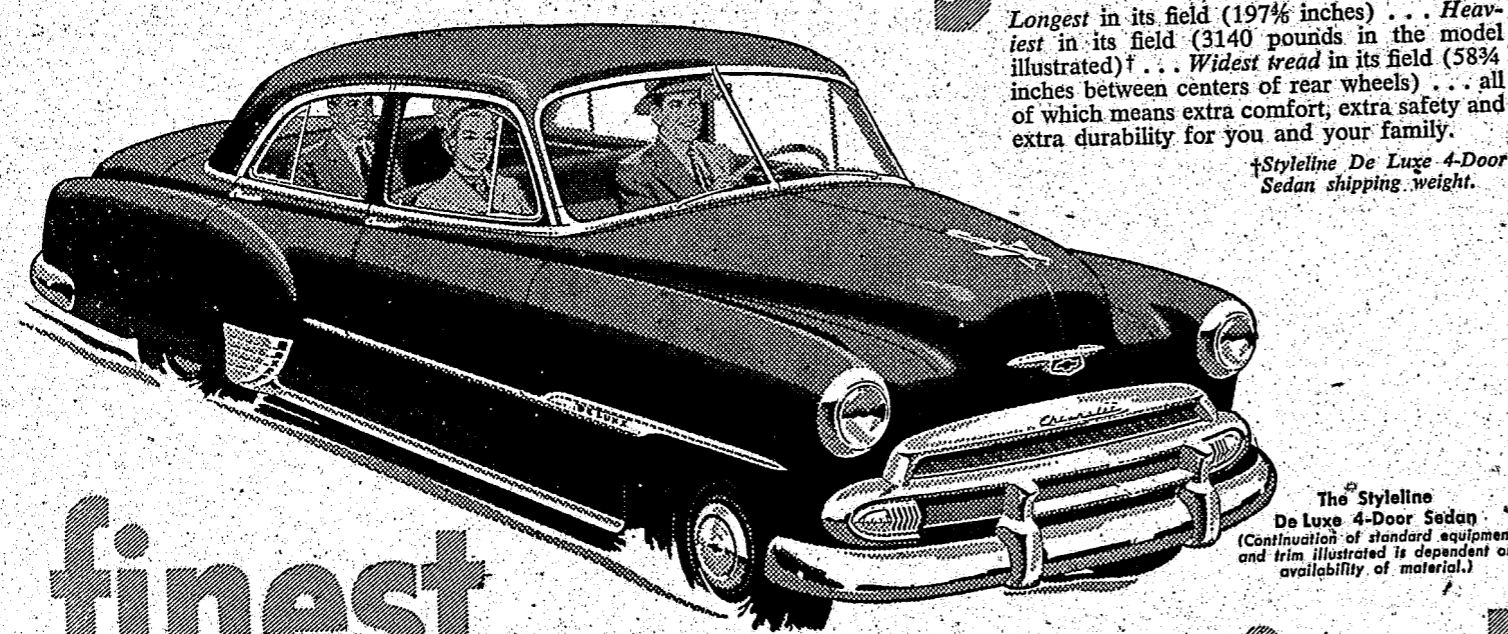

"More trouble this way," Easy explains, "but it does keep those tank tracks from tearing up the asphalt when I have to cross over to our other fields. After all, the roads belong to all of us—and I guess I'd get mad if someone else chewed them up."

From where I sit, Easy is my kind of citizen. He doesn't just give democracy lip service. He honestly believes it's his duty to consider the other fellow's interests. Whether it's the right to use the public highways or the right to enjoy an occasional glass of beer, Easy's out to protect his neighbor's "right of way."

Joe Marsh

 That material things are insubstantial while spiritual things are

enduring is brought out in the Lesson-Sermon entitled "Substance" to be read in all Christian Science churches on Sunday, September 16.
 The Golden Text is from Hosea (12:6): "Turn thou to thy God: keep mercy and judgment, and wait on thy God continually."
 Among the Bible citations is this passage, (Ps. 104:24): "O Lord, how manifold are thy works! in wisdom has thou made them all: the earth is full of thy riches."
 Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Spirit, God, has created all in and of Himself. Spirit never created matter." (P. 335)

Better Earing
 by Jean Allen

BRIDE'S DINNER FOR TWO
 This chicken dinner will convince the man of your dreams that his worries are over for the rest of his life.

You will like it because it takes a short time to prepare and cook and your kitchen will stay cool even on a hot summer day since this is a top-of-the-range meal.
 Barbecue Chicken, Corn on Cob, Buttered Parsley Potatoes, Tomato-Cucumber Salad, Rolls, Butter, Coffee, Fresh Fruit Cup.
 There are no leftover problems when you buy only the pieces of frying chicken that you like best. If separate pieces are not available at your food store, buy a frying chicken that weighs two to two and one half pounds.
 Barbecue only as much as you will need for one meal. Simmer the rest in water and use with some of the broth in a rice-mushroom casserole for another meal.

Barbecue Chicken
 Frying chicken
 3 tablespoons fat
 2 teaspoons Worcestershire sauce
 2 teaspoons lemon juice
 1/4 teaspoon thyme
 1/4 cup catsup
 Dash Tabasco

Heat fat in heavy frying pan. Add pieces of chicken and brown quickly on all sides. Reduce heat. Combine remaining ingredients and pour over chicken. Cover and cook over low heat about forty-five minutes or until tender.

While the chicken is cooking, boil the scraped small new potatoes. Add the butter and chopped parsley and serve on a large platter with the barbecued chicken, and the corn which has been boiled five minutes.

Make the chilled fruit cup with your favorite in-season fruits. For two persons try the sections of orange, grapefruit, banana, sliced and sprinkled with lemon juice.

Arrange in sherbet dishes and garnish with Thompson's seedless grapes and big Bing cherries that have been pitted. This may be prepared ahead and chilled in the refrigerator.

Faithfully
 Jean Allen

SOIL MISUSE

Needing the last stage before being abandoned is this farm... not in the deep south or far west, but here in Michigan in southern Kalkaska county. Shifting sands uncover the remains of a horse, presumably buried deep enough, some 10 years ago. Instead of holding the thin layer of top soil with tree plantings... wheat, oats and similar quick crops were grown 10-15 years ago. To save the remaining land from a like fate, conservation department forester Fred Haskin is recommending the planting of a mixed stand of jack and red pine which some day would stabilize the soil and produce an annual, valuable pulpwood and timber crop.

Horse Show A Great Success

(continued from page one)
From the PALOMINOS entered, "Pal" ridden by Jim Ellis won first prize; they were all beautiful horses and the judge must have had a hard time choosing.
Another fun event was the MUSICAL BARRELS FOR SENIORS, a rough and tumble game in which a fast horse, limber

bodies and quick wit will pay off. Bob Fox, riding "Queen" carried away the first prize.
In the FIVE-GAITED, open class "BRENT DENMARK", ridden by Glen Ellis, won first place; owner is Dr. John L. Knapman.
The last event scheduled on the program, RELAY RACE, was cancelled.
It was getting dark. The riders and horses had had a grand, but tiresome day. The two judges: Ed Fallon for English classes and Jay Cox for Western classes, had

done a difficult job well and with careful judgment. The Ringmasters, George Perry for English and Ardle Grubaugh for Western classes had not had a minute rest during the entire program; workers in the ring, on the field, at the gate, on the platform, at the refreshment stand, all members of the Dixie Saddle Club, donating their services, had put in a hard days work. But they have the satisfaction that the

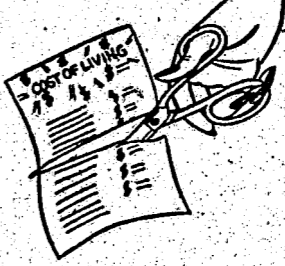

whole affair was a great success. Most events were crowded with participants; more than a hundred horses were registered for the various events, and many, many more had come to partake of the Grand Parade.
Besides the clubs mentioned before, there were riders from White Lake, Pontiac, Davison, Goodrich, Rochester, Grand Blanc, Flint, Saginaw, Birmingham and Dearborn, Michigan. The audience,

close to a thousand, were enthusiastic and seemed to have a grand time. No doubt they carried home with them the conviction that horse back riding is a wonderful sport, for the very young, for the young men and women in their best years, as well as for the older folk.

You Can Cut The Cost-of-Living

There IS something you can do about cutting the family food bill... you can do like millions of other American families and save money as well as eat better with a frozen food locker.

If you live on a farm, you can store your own meat, vegetables, fruits, and poultry until needed. If you live in town you can purchase meat at wholesale, have it processed and placed in your locker. You can buy fruits, vegetables, and other frozen foods at low quantity prices.

With a frozen food locker you can be thrifty without lowering your diet standards. Drop in our plant tomorrow and learn more about this modern way of preserving food. You'll find us friendly and ready to be of service to you.

F-3 Express hustles milk over Michigan country roads, demonstrated its low running cost in the nationwide Ford Truck Economy Run.

"I move milk in a hurry for less than 2 1/2¢ a mile!"

"I figure that my Ford Truck with its Power Pilot gas saver has helped cut my running costs by 7%," says C. W. Gilman.

Mr. Gilman says: "In 5,183 miles of the Run, with an average load of 1,594 lbs., I had no repairs, spent a total of \$129.21 for gas, oil and maintenance. That's a running cost of only 2.49 cents a mile!"

The Tecumseh Dairy Ford was one of 5,500 trucks that took part in the nationwide, 50-million-mile Ford Truck Economy Run. Daily running-cost records were kept.

The POWER PILOT is one of many reasons for Ford Truck economy. The POWER PILOT gives you the most power from the least gas, under all conditions, on all jobs!

FORD TRUCKING COSTS LESS

Because Ford Trucks last longer! Using latest registration data on 7,318,000 trucks, life insurance experts prove Ford Trucks last longer!
