CLARKSTON, MICHIGAN, THURSDAY, MARCH 20, 1952

## Mrs. Vivian McCall Elected Clarkston P. T. A. President

On Thursday evening of last week the Clarkston P. T. A., held Dogpatch Valley its regular meeting. There was a fairly large crowd considering the inclement weather.

At the business meeting the nominating committee presented a slate of officers who were unanimously elected. Those elected were: president, Mrs. Vivian Mc-Call; mother vice-president, Mrs. dent, Harold Bauer; teacher vicepresident (high school), Miss Marguerite Bennett; teacher vicepresident (elementary school), Mrs. C. R. Anderson; recording secretary, Mrs. Walter Wilberg; corresponding secretary, Mrs. Roland Allen; treasurer, Wrs. Harold Bauer; historian, Mrs. Howard

The officers to be appointed wil

#### CLARKSTON MAN GOES TO TEXAS

Sgt. Joseph E. Tersigni, whose wife, the former Miss Shirley Fleischmanin, lives in Pontiac Michigan has arrived at Fort Hood Texas, with the 82nd Airborne Division, the aggressor force in Exercise Long Horn.

The exercise, involving 150,000 soldiers and airmen, is scheduled for March 25 to April 11 and will be the largest maneuver since World War II.

The 82nd Airborne Division normally stationed at Fort Bragg N. C., will oppose one armore and two infantry divisions in an effort to test firepower and mobility of the participating units.

Sergeant Tersigni, a section chief in Headquarters Battery of the 456th Artillery Battalion, at-Automotive Engineer School and Airborne School at Fort Benning, Ga., and has been warded the Parachutist Badge. He is the son of Mr. and Mrs Nat Tersigni, 10300 Hadley rd. Clarkston, Michigan.

## Random Thoughts

IMAGINATION - I sat at the breakfast table toasting a slice of raisin bread, and glanced outside over the snowy landscape. Above the toaster rose a shimmering heatwave, and suddenly the sun was warm and I imagined myself stretched out on the dry warm ground looking at the hori zon through shimmery summer heatwayes. I could feel the soft springy sod under me, I could see the blue sky with the billowy white clouds, and I could hear the buzzing of flies and insects. smell the delicious "outdoor" fragrance of fields basking in the sum. Up popped my toast, and it shattered my daydream; there was still the wintery landscape!

one's experience through imagination. I thought of the summer again, when you can go around unburdened by jackets, and scarfs mittens and boots. How delightful to go up the path as if with wings on my feet; how glorious to feel the warm wind blowing when I reach the open second field. I feel light at heart and strong of lent its strength to me. But when I start climbing to the highest hilltop we have, I'm getting short Western State Teachers College. of breath! And I wish I had Tex my horse, with me who can carr me up the steepest hill with effortless speed and grace.

swamps nearby, and the green the girls will make carnations out Junior playground leaders to grass is the promise of all the riches yet to come.

The cuckoo clock strikes eight. I have to hurry to get my chores done. The imaginary pictures are swept away; here is the reality of pails of water to be taken to the chickens in their closed coop, eggs to be gathered from the ducks so that they won't break through fireezing; hay to be spread in the mangers for the horses, and the pile of ice to be chopped off the

#### SEE RELIGIOUS FILM AT DAVISBURG CHURCH

not be liable.

"Hidden Treasures", latest religious film of Moody Institute of Science, delving into the wonders of creation as seen through telescope and microscope, will be shown at the Davisburg Methodist Church on Sunday, March 23, at 7:30 P. M.

The MIS cameraman risked life and limb to capture some of the unusual scenes. Their adventures took them all the way from dungeon caves to an exploration aboard the Hancock Foundation's esearch ship.

Among many strangely beautiful scenes, the camera reveals

smaller than the smallest rose; strange microscopic denizens of the sea; glassed-house plants called diatoms; iridescent cave crystals; paramecia, minute animals The ten members of our spelling with oars; and the clownish amoeteam are going to study very hard bae, which look like animated ink for the school final spelling conolots forever changing shape.

Produced by Dr. Irwin A. Moon, director of Moody Institute of Science, "Hidden Treasures" represents eighteen months of tedious camera work in out-of-the-way places to find the small but perect treasures of God's handiwork.

Delving into the infinitesimal things of God's creation, the film contains a featured sequence on diatoms -- a one-cell plant that ouilds and lives in its own glass house. The plant is so minute that it would take 15 million to Monday - Evelyn Mardis and Rogfill an ordinary thimble.

With the 200-inch lens of the Mt. Palomar telescope -- the world's largest -- "Hidden Treasures" reveals some of the hundred million island universes around the billion light-year radius which fabulous instrument.

With eleven foreign sound tracks, Woody Bible Institute's preceding films -- "God of Creation", "God of the Atom", "Voice of the Deep", "Dust or Destiny" and "To Every Creature" have received widespread appeal throughout this land and 52 other countries.

#### HOME FREEZER UNIT PRESERVES FLOWERS FOR U-M CLASSWORK

An ordinary home appliance is

dving flowers into the classroom no matter what the season.

The frozen-stiff specimens retain all their natural brilliance and fragrance for from ten to sixty minutes after being taken out of

the freezer. "Dramatically successful" rethe students the tremendous advantage of being able to examine the flowers as they look in their natural state when the flowers aren't blooming outside," she explains.

By the time the flowers than out and begin to wilt, the students are ready to dissect them for more detailed study.

Dried and pressed flower specimens are used at the same time. For, because of space limitations, the frozen flowers are stored in the deep freeze minus their leaves and stalks.

Previously, about the only way out-of-season flowers could be made available in the classroom was in this dried and pressed state. Naturally this virtually prevented getting a three dimensional concept of the flowers or an occurate picture of the positional relationships of the flower parts Dr. Clover indicates.

For storing in the freezer, the flowers are put loosely into one and one-half pint size containers similar to those used in homes to freeze fresh fruit. The technique was first tried by Harvard University in 1948, she says.

And for those of you with gardens and home freezers, she advises not to bother freezing flowers. It can be done, she declares, but the fact that they wilt soon after being taken from the freezer makes the routine impractical at home. It's much

## It Isn't the Heat-It's the Hide!

Big discussion after the Grange meeting Friday night. Tik Anderson was arguing that hogs were lots more affected by the hot weather than cattle. Skeeter Morgan declared that it wasn't so—that he never saw any hogs bothered by the hot sun like his cows were.

I was glad when Rusty Robin-

son stepped in. "Boys," he says, "don't get so riled up. It all depends on what color the livestock are. Hogs or cattle, the ones with light-colored coats absorb less heat from the

sun's rays than animals with dark coats. So you're both right!"

From where I sit, so many useless arguments could be avoided if a person would remember he doesn't have all the right on his side. Reminds me of folks who insist that coffee, for instance, is the only drink, forgetting that other people have a right to a glass of beer now and then. If we wouldn't . get so "het up" about our prej-'udices-we'd all be better off!

## FRUIT AND GARDEN NOTES by Willard E. Bosserman Assistant County Agr'l Agent

Neanly everyone who has garden or a lot large enough for a garden has at least one grapevine. However if you don't have a grapevine you may be interested in setting out a vine or two. The most common variety is the Concord. The Concord is a blue grape, It matures about the middle of September, Fredonia is another blue grape that comes on in late August about two weeks earlier

than the Concord. In the red grapes we have the Brighton which has medium sized berries of excellent quality and matures a few days earlier than the Concord, The Deleware is another red grape and has small clusters and berries. The berry is very sweet the vines are small and vigorous and productive. Niagara is the most choice green grape. The Seneca is relatively new green grape and has a thin skin which can be eaten like those of the California grape variety. The Seneca matures in late August while the Niagara matures in middle September along with the Concord.

#### CULTURE

Grapes usually produce the to grow with no training, the acre of ammonium nitrate (No. 60)

second year they are pruned to or sulphate of ammonia (No. 100), one came which is tied to the lower wire of a two wire trellis. (No. 200). Avoid application to lower wire of a two wire trellis. Grapes are shallow rooted therefor cultivation must be shallow. They cannot compete with grass so they must be cultivated or mulched. Mulch is good in the small vineyard but impractical on the large scale. /

## The Grist Mill

by Ed Alchin County Agricultural Agent THE "SPRING-TIME SPECIAL" FOR WHEAT

For profit wheat needs plenty lbs, is now waiting and ready to make this spring's seeding for next year's hay really successful and profitable. Wheat NOW needs nitrogen again this spring, - for extra yield. This Spring-time Special would cost about Three Dollars per acre and should return about six and one-half extra bushel of wheat per acre on many fields.

This spring-time need for nitrogen was perhaps satisfied if a good alfalfa or clover sod was plowed down for wheat or can on insect control on flowering NOW be satisfied by early spring plants. topdressing either with manure, third year that they are set out. 5 loads per acre or with chemical The first year they are allowed nitrogen. #### PLANT LOVERS TO GET ADVICE

Here's new hope for sick plants - a plant doctor clinic will be held at the Michigan Flower and Garden Exhibition at the State Fair Grounds, March 29 through April 6.

"Doctors" for the clinic are specialists from the Michigan State College Staff. They will give free advice and consultation on various horticultural subjects of of plant food. Wheat DID need interest to gardeners and homeplanting-time fertilizer and 500 makers. The clinic will be open lbs. per acre was not too much for from 1 to 5 o'clock every afterhighest yield. Part of that 500 noon, and from 6 to 9 o'clock each evening. H. L. R. Chapman, extension

specialist in the MSC horticulture department will talk on "Plants for the Home, the Flower Garden and Water Plants," each day. In addition special speakers will be on hand each day. On Sunday, March 30, B. H. Grigsby, of the college botany and plant pathology départment will discuss weed control in lawns and gardens. Or Wonday Ray L. Janes, extension specialist in entomology, will tall

Ray Nelson and A. Marie Mooa botany and plant pathology departiment members, will talk about diseases of flowering plants on Tuesday, Wednesday's special program will be a discussion on diseases of onnamental trees and shrubs by Forrest C. Strong, of the botany and plant pathology department.

Karl D. Bailey, district horticultural agent, will talk about fruit for the home garden Thursday, On Friday, P. R. Biebesheimer, Wayne County agricultural agent will discuss the topic, "All About Soils". Saturday's speaker will be Arthur L. Isbit, research extension horticulturist, talking about vegetables for the home garden.

#### MIRACLES IN HOUSEHOLD DISCARDS

The days of miracles are by no means over and the housewives of this community can share in a modern-day miracle this spring. Discarded clothing, hats, shoes, small appliances, furniture and toys, when contributed to the Goodwill Industries of Detroit, work miracles in the training and employment of handicapped men

and women. Household discards are repaired in the training and workshops of Goodwill Industries at 6522 Brush St., Detroit, and then are placed on sale in one of the three Goodwill stores. Proceeds from the sales provide funds to continue the employment of handicapped adults seeking "Not Charity But A Chance". Goodwill Industries is one of the few social

ing with twin vanity lamps (at least 20"

high). For full information ask your lamp and fixture dealer or Detroit Edison.

## How To Send Flowers

Who doesn't like to receive or give flowers! In their natural leveliness Who doesn't like to receive or give flowers! In their natural loveliness they more fully express love, sympathy, congratulations or other sentiment than words or gifts. However, there is a right way to send flowers just as there is a proper etiquette in other forms of social decor. Your florist can do much to advise you. Talk to him about the individual or particular occasion, so that he can help you make a perfect choice. There are just a few simple, logical rules to follow, according to the Florists Information Council. Information Council. If the flowers are to go to someone in a hospital, order arranged

If the nowers are to go to someone in a nospital, order arranged flowers or a plant rather than a box of flowers because busy nurses have little time for arranging them. Don't select too-fragrant flowers or vivid colors for one who is extremely ill. Include an extra flower for the nurse. The traditional American custom of sending flowers to assuage grief The traditional American custom of sending flowers to assuage grief and lend beauty to a somber occasion needs but a few gracious touches of consideration and tact. Remember, flowers are sent as a tribute and a true expression of sympathy. In sending flowers to the funeral, address them to the funeral of the individual if known to you; otherwise to the nearest relative you know. If you are especially fond of the bereaved family, it is a nice thought to send some flowers to the home the day after the funeral to let them know your thoughts are with them

family, it is a nice thought to send some flowers to the home the day after the funeral to let them know your thoughts are with them.

For the young folks, corsages should be delicate in hue, in keeping with youth, while the more mature will appreciate something more sophisticate. A tip for the men—select corsages to match or contrast the color of the gown to be worn. If in doubt, white is always right.

Who pays for what for weddings is frequently questioned. The answers are simple and positive. The bride's family pays for all flowers in the church, the reception and for the bride's bouquets. Either the groom or the bride's family pays for the bride's bouquet, but the groom pays for the boutonieres for his best man, the ushers and himself. He also pays for the bride's going-away corsage and for the corsages He also pays for the bride's going-away corsage and for the corsages

for both mothers and any sisters who are not bridesmaids.

Flowers are one of God's most beautiful natural gifts, and have an eloquence and dignity of expression. They are an offering of thoughtfulness and right remembrance.

operating expenses.

Trucks from Goodwill Industries will be in this area within the next few weeks to pick up will industries will bring a Good household discards. This year, with a record breaking number of handicapped workers employed, the need for discards is great-

hereof. NOTICE IS HEREBY GIVEN, that FIREPOWER FULL-TIME V-2 INGINE POWER STEERING

# WHAT ARE TODAY'S FACTS ABOUT NEW CAR ENGINES AND POWER STEERING?

LAST YEAR Chrysler introduced its new FirePower V-8 engine, and America's first passenger-car full-time power steering. Both new ideas "took Today, others are announcing "new engines"

and "power steering"... but with some basic differences worth keeping in mind if you're buying First: about "new engines." The fact is, a

really new engine design happens only once in a great while. It did happen in the FirePower V-8. Its 180 h.p. was only incidental to its basic new design. Its key idea is a hemispherical combustion chamber, which makes even non-premium gasoline develop more usable power than other designs can get from premium fuel.

Only Chrysler engineering has so far mastered this design. Several cars do have some power increase, in terms of previous designs. The important fact is that FirePower is not a "warmedover" engine, but brand new in performance, construction, and efficiency.

In power steering, too, there are basic differences.

Chrysler uses hydraulic power, always in effect, to do two things. First, it does 4/5 the steering work as you turn the wheel. Second, we've cut the amount of wheel turn needed by over 1/3.

Parking or cruising, you get more and easier control than ever before. In sand, snow, or ruts, the hydraulic power is always there to keep the front wheels from "steering back" at you. You get the same amount and feel of control all the time . . . full-time ease and full-time safety.

Actually, the differences, both in engine performance and in steering safety and ease are impossible to put in words . . . but just as impossible not to feel the moment you get into a Chrysler and drive it! Why not see your Chrysler dealer and do that, soon?

and equipment.

Having been invited to sit with

here the other day.

That administration fiscal poli- has the same effect on the money cy ignores government economy, supply as if six thousand new stimulated production of goods one-dollar bills had been printed. Inflation has been properly deand services, and curbs on exfined as "too many dollars compansion of credit, as the most

peting to buy the available supply of goods and services". Thus it flation, was plainly demonstrated happens that forced sale of government bonds to banks serves The occasion was a discussion only to increase the number of of the subject by Senator Paul dollars and hence to inflate prices H. Douglas, of Illinois, and Leon more industry borrows, the more in 5 minutes and cut your lawn for everything people buy. The Keyserling, one of President Truman's economic advisers, in it has to borrow as dollars lose in the course of a House Banking

buying power. It seems to me that Economic Adviser Keyserling failed to distinguish between currency inflaion and capital formation. New capital, to be effective, must come out of savings, because capital really is nothing but stored up labor, either of hand or brain. Creation of more flat money, with renultant loss of dollar buying power, helps nobody. Instead, everybody is hurt by the fact the dollar progressively buys less and less.

If government deficit financing must continue, because of the war mobilization, then government bonds should be offered mostly to private investors. Investment of their savings, taken out of the expresent war emergency, In effect, isting money supply, is strongly anti-inflationary. But only reduced taxes will permit private savings in the amount required. Taxes can be reduced only if governshould be pointed out that when ment waste is eliminated.

Last week Korean battle casualties totaled 106,000 - with 18,458 American boys dead and 12,624 missing. Non-battle casthe face value of the bond to ualties had reached 401,628 - of private borrowers. Credit ex- which 378,914 had been returned pansion of \$6,000 in this instance to duty.

**Card Of Thanks** 

My sincere thanks are extended to all who were so thoughtful while I was in the hospital and since I have been convalescing at my home. The pretty cards, beautiful flowers and lovely gifts helped to shorten what might have been long, dreary hours. -Mrs. Byron Clements

This Could be a Problem But St Isn't-

If you have a home freezer, filling it isn't a problem any more because we are here to help.

More and more people in this community who have home freezers are using the services of our locker plant to save more money and to make sure their foods are properly

We're specialists in frozen foods and are ready to help you get more out of your home freezer. We can supply you with high-grade meats at wholesale prices. You'll like our professional processing which includes proper aging, chilling, and cutting on the power saw. Your foods will be properly wrapped in moisture-vapor proof material and frozen at sub-

Drop in our plant soon and let us show you our facilities for servicing home freezers.
