CLARKSTON, MICHIGAN, THURSDAY, APRIL 17, 1952

NUMBER 33

## Local Rotarians Attend Conference

Rotarians from Clarkston plan to attend the annual conference of the 222nd District of Rotary International to be held in Chatham, Ontario, on April 20-21, E. D. Rummings, vice-president of the Clarkston Rotary Club, said today. He automatically takes over the leadership of the club due to the unfortunate illness of President Alfred C. Lee.

Representatives from the 39 other Rotary Clubs in parts of Michigan and Ontario, which make up the District, will also attend the conference. This series of meetings is held each year, Vice-president Rummings said, to review Rotary service activities and to make plans for increasing their effectiveness. The principal activity of the Rotary Clubs in this district has been the Youth for Understanding program through which some 74 young boys and girls from Germany have been brought to Michigan homes to spend a year in learning more about America and its way of life.

Dr. Harlan M. Hatcher, President of the University of Michigan, and a member of the Rotary Club of Ann Arbor, will make one of the principal addresses at the conference, speaking on the subject "His Will Is Our Peace".

District Governor Lloyd C. Megee of Clarkston will preside at the conference sessions.

Conference Chairman E. C. Steele of Chatham has announced a challenging conference program, with panel discussions, committee reports and plenary sessions. The speaker at the closing banquet will be Louis C. Jacobson, President of Quality Steels in Dayton, Ohio, who will serve as representative of the President of Rotary International at the Conference.

In a recent ballot, by mail, Rotary Clubs in this district nominated Alan P. Rander of Wallaceburg, Ontario, to succeed Mr. Megee as Governor of the District. He will take office as Governor on July 1, and will be the official representative of Rotary International, the world-wide service organization, in District 222. Mr. Rander will be formally elected, along with 207 other District Governors from all parts of the world, at Rotary International's 1952 Convention in Mexico City, Mexico, May 25-29.

A special program of entertainment has been arranged for the ladies who accompany their husbands to Chatham next Monday.

The local Rotarians who will attend the District Conference in Chatham, Ontario, are: Governor and Mrs. Lloyd C. Megee, Vice-president and Mrs. Ed Rummings, who are going over to Chatham on Saturday afternoon, to be followed on Sunday by Mr. and Mrs. Charles Robinson, Mr. and Mrs. Robert L. Jones, Mr. and Mrs. Charles Rockwell and Rudy Schwarze.

## Girl Scout News

The Clarkston Girl Scouts will sponsor a "SAMPLE FAIR" at the Clarkston Motor Sales Show Room on Saturday, April 26th, from 10:00 A. M. until 4:00 P. M. The proceeds from this project will be used for the summer camp. Watch for further details.

## Rotary Club News

President Al Lee is in Pontiac General Hospital. Anyone who wants to say "hello" is welcome to the program at the Rotary meeting on Monday night was a movie on bituminous coal mining and was very interesting. It seems most men like movies about industrial enterprises. It was furnished through the courtesy of Herbert Beach.

Visitors were Jack Hamilton of the Ortonville Club and Paul Wilmont of Clarkston. A fine dinner was served by the W. S. C. S. of the Methodist Church with Mrs. Paul Henry, chairman, assisted by Mrs. Robert Henry, Mrs. William Sharpe, Mrs. Ward Robbins and Mrs. Floyd Lawrence.

## Marriage Rites Read In Clarkston Methodist Church

MR. AND MRS. W. J. RADOYE

Last Saturday evening at eight o'clock the Clarkston Methodist Church was the scene of a very pretty wedding when Mary Elizabeth Porritt and William James Radoye spoke their marriage vows.

The bride is the daughter of Mr. and Mrs. Edward Lee Porritt of Clarkston and Mrs. Madeline Radoye of Royal Oak is the mother of the bridegroom.

The double ring ceremony was performed by the Reverend Robert M. Atkins before an altar banked with baskets of gladiolus and cathedral candles. Lighted tapers were in the church windows and gladioli marked the pews.

The bride, given in marriage by her father, was gowned in imported, white chantilly lace and nylon net over satin, fashioned with fitted bodice with a round neckline of illusion and long sleeves pointed at the wrists. Her finger-tips of white illusion fell from a Juliet cap of nylon net trimmed with seed pearls. At her neck she wore a strand of pearls, a gift of the bridegroom. She carried a cascade bouquet of white roses and carnations from which hung long white streamers tied with lover's knots.

Mrs. Kenneth Craft was Mary's matron of honor and bridesmaids were Janet Keelean, and the bride's sisters, Sally and Elaine Porritt. Their gowns were alike with aqua nylon lace bodices and nylon net skirts over taffeta. They wore matching lace gauntlets and their headpieces were bands of nylon net with small rosettes at each side. The matron of honor carried a cascade bouquet of pink roses and white carnations and the bridesmaids' bouquets were of red roses and pink carnations.

Assisting Mr. Radoye as best man was his brother, Stanwood Radoye of Clarkston, and serving as ushers were William Clement, Eldon Rouse and Robert Clark. Just before the service Mrs. William Mansfield sang "Because" and before the close of the ceremony she sang "The Lord's Prayer". Her accompanist was Mrs. Adele Thomas, who also played the traditional music.

Mrs. Edward L. Porritt chose a rose beige dress of antique taffeta and light blue and navy accessories for her daughter's wedding. Her corsage was of pink roses and white carnations. Mrs. Radoye wore a light blue dress of antique taffeta with white and black accessories and a corsage of red roses and pink carnations.

Following the ceremony a reception was held in the church parlors. The table was centered with a four tiered wedding cake topped with a miniature bride and groom. Around the base of the cake were petals of gladioli and flanking it were lighted white candles in crystal holders. Presiding at the punch bowl was the bride's sister, Jean Porritt, and at the silver services were Mrs. William Porritt and Sally Curry. Mrs. Stanwood Radoye cut the cake and Lois Baynes took charge of the guest register.

When the young couple left for a honeymoon in the Great Smokies the bride was wearing a steel blue suit with yellow and brown accessories and a corsage of white roses. Upon their return they will reside at 3222 Coolidge Highway, Royal Oak.

Mr. and Mrs. Radoye are both graduates of the Clarkston High School.

Mr. and Mrs. W. H. Stamp spent the Easter weekend with relatives in Simcoe, Ontario.

## Special Meeting for Extension Groups

There will be a special meeting of the Home Extension group in the district on May 1st at 1:00 P. M. on the 4th floor of the County Building at 1 Lafayette St., Pontiac. The speakers will be Mrs. Dorothy Mann of the State Civil Defense Office who will talk on "Woman's Part in the Civil Defense Program", and Mrs. Mattison Sobor of the J. L. Hudson Company, Detroit, whose subject will be "Choosing Pictures for Beauty and Decoration". There will be door prizes and refreshments.

The members of the Clarkston group are asked to call Mrs. Ralph Walton, MA 5-3486 or Mrs. Glenn Borer, MA 5-4206, by April 27th if they intend to go to the meeting.

## Clarkston Locals

The Methodist Sunday School recognized the birthdays of the following last Sunday: Tommy Allen, 3 years old; Sue Lynn Allen, 7; Carl Wilberg, 7; Donna Harris, 9; Dick Spohn, 10.

Among the 325 who were invited and who attended the reception honoring Her Royal Majesty Juliana Queen of the Netherlands and His Royal Highness Prince Bernhard at the Veterans' Memorial Building in Detroit on Tuesday were Mr. and Mrs. Lloyd C. Megee of Clarkston.

## Engagement Announced

MARY ELLEN CURRY

Mrs. Ellen H. Curry of Clarkston announces the engagement of her daughter, Mary Ellen, to Bill H. Vaughn, son of Mr. and Mrs. E. R. Vaughn of Rossett St., Drayton Plains. No date has been set for the wedding.

## J. F. Robertson In Major Convoy

The "know how" of successful wartime merchant shipping, was recently learned by James F. Robertson, fireman apprentice, USN, son of Mr. and Mrs. William J. Robertson of 6355 Dixie Hwy., Clarkston, Mich. Crewmembers of the destroyer tender USS Yosemite, flagship for the Commander Destroyer Force, U. S. Atlantic Fleet, recently completed major convoy exercises in the Atlantic between Long Island and Panama. The maneuvers, known as "Convoy Exercises 3", were realistic in that Navy transports, tankers and cargo ships sailed from New York, Norfolk, and other East Coast ports in the same manner as did Allied convoys of World War II. Opposing them, and attempting to close sea lanes, were "enemy" forces of submarines, surface raiders and land-based patrol bombers.

This was the second big group to receive instruction through the combined efforts of the Waterford Township Recreation and C. A. I. this season. Each class had 13 sets, of 4 couples each, and the five-week course was staged on Monday nights in the gym at the C. A. I. building with William Spalding instructing and Mrs. Charles Haas furnishing the music. They were aided by a "floor crew" of other square dance experts from the Merry Mixers, Belles and Beaux and Novellettes Square Dance Clubs.

Monday night's graduation was another colorful affair, with all the more intricate maneuvers called to give the dancers a thorough "exam". Thirteen sets were swinging and going through their square dance routine, just as had the class which graduated in February. The two classes turned out well over 100 couples, well trained in the rudiments of the increasingly popular dancing fun.

The instructors will take a deserved rest for a while, and another class for beginners will get going early in the Fall, William Terry, recreation superintendent and Ray Harrington, C. A. I. manager, announced.

## Awards Given For Best Essays

On Tuesday afternoon Mrs. Charles Beach, Americanism Chairman for the Ladies' Auxiliary to the local American Legion Post, awarded the prizes for the best essays on "Know Your Michigan".

Carolyn Yoder, 12th grader, received first and Terry Brown, 11th grader, was awarded the second prize. There were several very fine essays and the judges had quite a task making their decisions.

Carolyn's essay will now be entered in the district contest and if she is a winner she will be eligible for the state contest.

## Scouts Sponsor Pancake Supper

The Clarkston Boy Scouts will serve a Pillsbury Pancake Supper at the Township Community Center on April 26th from 5 to 7:30 P. M. The public is urged to attend.

## Random Thoughts

FARMING — When we came to our farm six years ago, we didn't look upon the place as a farm, but merely as a pleasant place to live. But here was all that grassland, and naturally several neighboring farmers came over to see if we wanted to pasture some of their young stock. Right then and there we were introduced to a farm problem, and heard conflicting theories about the danger of overgrazing, and the benefit of bringing manure onto the land. We took no sides, but decided to take on about five head, since we liked animals, and secretly wished for the "farm look." Those few animals could not possibly overgraze the 100 acres open to them, nor probably would they considerably improve the land with their droppings.

But we began to read farm magazines and books, and we kept our eyes open as to what happened with the cattle and the land. We gathered just a smidge of the vast knowledge good farming requires, saw the cattle grow fat, the grass never grazed short, and here and there when the manure had dropped, great luxuriant blue-green tufts of grass of evidently much better quality than the old sod.

Looking at it superficially, it seems logical that if you raise or fatten cattle on your grassland, and then sell it, you have taken the value of that many pounds of meat out of your pasture. The cattle do get their food from what the soil produces, and you do take it away. The indication seems to be that you leave the soil, or the pasture, that much poorer. This is a kind of straight arithmetic. Given a certain amount of nutrients in the soil and converting part of those into beef, there must be less left over. Sounds plausible.

But that's not the way nature works. First of all, we cannot count or weigh or measure the exact amount of nutrients present before the cattle go in, and then again after they leave. Secondly, life is not a one-way street; there is traffic both ways. There is interaction. Interaction between living plants and the air; we know that plants do not get all of their food out of the soil alone; they are able to take nitrogen out of the air, for instance, and use it; the chemicals plants use out of the soil are not to be found back in the same form in the plants; they are converted to some other chemicals. There is interaction between living plants and the animals. The animals take from the land, and they also return to the land. For instance, cows actually manufacture the vitamin B-12 in their stomachs and their manure contains this vitamin, besides other chemicals necessary for fertilizing or enriching the soil. Who is to say whether the balance is in favor of the land or the cows? The remarkable thing is that with the proper proportion of animals living off the land, the balance is in favor of both!

A very fundamental law of life is revealed here: interaction, cooperation is for the good of both parties; stimulating new growth is what we want, not sleepy idleness. Alternating hard work and good rest is healthier than an all-time loafing.

Farming is the most fascinating, the most challenging, the most versatile, and the most fundamental of all occupations. It deals with life itself. I hope to be able to understand a little of it, and in my own very small way, at this late date in my life, to practice some of it. I'll consider it a privilege and a pleasure, and humbly hope that I'll cooperate with nature.

—Louise Hemming

## Juniors Present "Dark Doings"

April 24th is the eventful date, so be sure to be in town that night. Why? The Junior Class of Clarkston High is presenting its play, "Dark Doings" which promises to be a smashing success.

"Dark Doings" is a fast moving comedy-mystery. The action takes place in a deserted country estate, "Green Shadows", which has been in the Burnett family for generations. Patti Burnett (Pat Tisch), a young would-be writer, her maiden aunt Daphne (Rose Sarvis), and her best friend, Hazel Kane (Martha Masters), decide, for reasons of economy, to move to "Green Shadows".

Arriving late one stormy night, they find the "deserted" mansion inhabited by a strange group of sinister characters. There is Wilfred (Hubert Allen), a hulking brute who has lost his tongue and can only growl like a bear. There is Eric (Dan Curry), a mean and sullen young man who is the chauffeur, Marjorie Donner (Judy O'Dell) a nurse, Carola Carr

From left to right: Judy O'Dell, Hubert Allen, Dan Curry; seated is Sandra Wampler.

(Sandra Wampler) an invalid, and Janet Forbes (Sue Shanks) who is Carola Carr's demented niece. But are these people really what they appear to be? Then Chuck Forbes (Gene Younger), Si Smith (Terry Brown), and Aggie (Lottie Sawyer) appear on the scene, and the plot thickens. This is all that can be revealed here, but suffice it to say that the innocent and the guilty get their just desserts and that Patti finds romance.

"Dark Doings" promises an evening of good entertainment, so be sure to save Thursday, April 24, and get to the High School Auditorium before 8:00 P. M. for some real entertainment. Tickets may be purchased from any Junior or at the door.

The Clarkston Community Farm Bureau Group will meet at the Independence Township Community Center on Wednesday, April 23 at 8:00 P. M. Mr. and Mrs. Floyd Andrews and Mr. and Mrs. Braham Hemming will be hosts.

## Cookie Sale Helps Scout Camp

During the past few weeks the Clarkston Girl Scouts and Brownies have been busy taking orders for cookies. There were seven girls sold over 75 boxes each and these girls will go to Camp Sherwood for a "cookies weekend" on May 23rd. These girls include 3 Brownies, Sally Moore, Mary Lou Steele and Faye Burley and four Girl Scouts, Sandra Gresham, Ann Lowrie, Nancy Knox and Sue Ann Keith. The girl with the highest sales, 104 boxes, was Sue Ann Keith.

In Clarkston and vicinity the local girls sold 1710 boxes and these will be delivered this next weekend.

In the county 61,000 boxes were sold. The profit from this cookie sale will go to Camp Sherwood.

The Clarkston Girl Scouts, and the Brownies and their leaders are grateful to all who bought cookies or helped in any way to make their cookie sale such a success.

## Spring Services Begin Sunday

Reverend Kenneth Hasper, youthful evangelist and accomplished violinist, will begin a one week Gospel campaign at the Waterford Community Church, beginning Sunday, April 20. Services will be held each evening at 7:30 and in addition to the challenging and interesting Bible messages of the visiting minister, a program of music under the direction of Charles Jehle, Director of Music at the church, with Mrs. C. Coventry, pianist, and the Senior choir will be presented. Violin selections will be rendered at each service by the evangelist.

Rev. Hasper, who is now on the extension staff of the Grand Rapids School of the Bible and Music, was formerly Assistant Pastor of the Terre Haute Bible Center in Terre Haute, Ind. He is also a member of the Independent Fundamental Churches of America, and has held successful campaigns in various churches in recent months. His plain, powerful presentation of Bible teaching regarding the plan of salvation as revealed in the Word of God, will be of great spiritual benefit to all who attend. The fine spirit of friendly fellowship prevailing at the services of the church will make those who attend feel welcome. "Join our Friendship Circle" will be the slogan of the campaign with a card for everyone who attends the meetings being added to a display in the auditorium. The public is cordially invited to attend.

## Glen D. McGee At Sampson Air Base

Basic Airman Glenn D. McGee has completed four weeks of Air Force indoctrination training. Air Force officials at Sampson Air Force Base, N. Y., announced today.

During his first four weeks of training, his Air Force career field was selected following a conference with a career guidance expert and was chosen on the basis of the needs of the service, his personal desires and his aptitude as determined by a series of scientifically designed tests.

He has learned the value of close-order-drill, and is attending classes in mathematics, character guidance and customs of the service. Before completing training at Sampson he will also attend classes in psychological and chemical warfare and will be instructed in the proper use of firearms. He will complete indoctrination training at Sampson on or about May 15th.

Pvt A/B McGee is the son of Mr. and Mrs. Glenn D. McGee of 5915 Pine Knob Rd., Clarkston.

On Tuesday the district officers of the Methodist W. S. C. S. in the Flint District were installed at a very fine meeting at the Court Street Church in Flint. Those attending from Clarkston were Mrs. R. M. Atkins, Mrs. Guy Littleton, Miss Wilma Doebler, Mrs. Glenn Howland and Mrs. Leland Masters. There were sessions in the morning and afternoon and a luncheon was served at the church at noon.

## The Sun Could Shine

The sun could shine, the clouds could fade, And things could be more cheery. The world could rise from depths of shade, And life could be less weary.

The sun could cure a lot of things That keep the world from smiling. It could release the fetter strings Of happiness, beguiling.

The sun means much to those who live Where darkness is abounding. The touch of joy its rays can give To sadness, is astounding.

It's priceless to the darkened minds, Where hopes don't seem to enter. It begs for entrance through the blinds, Where hatred tends to center.

It warms the air and hearts as well, Dispensing each dark lining. It's easier of love to tell, When e'er the sun is shining.

**Mrs. Jack Hall, Correspondent**  
Phone OR 3-0281

Mr. and Mrs. Roland Smith and daughter, Sue, of Waterford Dr., spent the Easter weekend in Osceola, Indiana. Mrs. Smith's mother, Mrs. Omer Rench, who has been visiting at the Smith home

returned to her home in Osceola with them.  
Mr. and Mrs. Lawrence Giddings recently enjoyed a visit with friends from Barton City, Mr. and Mrs. Lawrence Holdridge who had dinner with them last Tuesday.  
Mr. and Mrs. E. J. Bailey of Andersonville Road spent the Easter weekend in Cleveland, their former home.  
Mrs. Agnes Flickinger entered St. Joseph's Mercy Hospital on Tuesday for an operation on her arm.  
Mrs. Emery Beedle who has been ill for three weeks is some better.  
Mr. and Mrs. Harold Moriarty of Detroit spent Easter with her sister, Mrs. Ernest Stevens, of Williams Lake.  
Mrs. Jack Hall has received word that her sister and three children who live in the flood threatened city of Council Bluffs, Iowa, have been evacuated from

their home near the Missouri River and are safe in a hotel room there. In a phone call on Monday she said the city stood a 50-50 chance and that thousands of army engineers and men of every walk of life were fighting desperately day and night to increase the height of the levees and hold back the river. The river is expected to crest on Wednesday at 31 and a half feet above normal.  
Mr. and Mrs. Donald Beedle and little son, Rickey, of Memphis visited their families over the weekend. Rickey was baptized at the 11:00 a. m. service at Christ Lutheran Church on Sunday.  
Lem VanSycle who has been ill with pneumonia is still on the sick list.  
Marian and Jack Emery have returned to their college studies following Easter vacation at their home.  
Mrs. Al Kray is feeling much better. She has been confined to her home the past week following an auto accident in which she suffered two fractured ribs.  
Mr. and Mrs. Lawrence Harrup came from Cleveland on Saturday to spend Easter with the Harry Harrups. This, no doubt, was their last visit here for some time as his folks expect to leave in a few days to make their home in Florida.  
Mr. and Mrs. Ray Everett of Rainbow Court are moving this weekend to the home of his parents on Lincolnshire Road. They will be there for the summer months while their new home is being built at Huntoon Lake.  
The Book Review Group will meet Monday, April 21st at the home of Mrs. O. L. Siegman on Orange Grove. The time is one o'clock and the book to be reviewed is "Lewis Cass, Territorial Governor of Michigan" by Frank B. Woodford. All interested women in the community are invited.  
Tonight (Thursday) the Waterford Woman's Club will have a pot-luck supper at the C. A. I. building at 6:30. The regular meeting will follow and there will be two ladies present from a decorating store to show samples and suggest colors for the new club room. All members are urged to be present.

**C. A. I. Youth Night, 7:30 to 10:30 P. M.** with dancing and table tennis.  
**All Saints Episcopal Chapel** choir party at 7:30 P. M.  
**Thursday, April 24**  
Oakland County Association Order of Eastern Star bridge party from 1 to 5 P. M.  
**Friday, April 25**  
Girl Scouts Troop, 108, 7:30 Novelties Dance Club, 8 P. M.  
C. A. I. Family Night Finance Party at 8:00 P. M.

### MEMO To Mrs. Housewife

NATIONAL PRESS BUILDING  
WASHINGTON, D. C.  
By Anne Goode

Most likely just a conversation piece — but one famous hat designer has come up with earrings which fasten outside the veil. They're clipped to the brim when the veil is lifted.

Those tender green Spring onions make a tasty luncheon dish when boiled, drained and served on toast. Season with salt, pepper and melted vitaminized margarine. Accompany with broiled bacon and sliced tomatoes.

Recently come to market is an "edible" paint for baby's furniture. It's a vegetable paint especially made for junior's crib and other furnishings.

Meat loaf is either dry, dull and held in disdain by the family or it's moist, full of flavor and a family favorite. Two touches which almost assure meat loaf success are: one, spread the top before baking with mustard with-horseradish and two, baste frequently while cooking with consommé.

Do you ever use wooden spoons for cooking? I've found them very satisfactory for several reasons: the handles don't get hot, wood of spoon doesn't scratch bottoms of pots, pans and certain foods don't seem to adhere to the wood as much as to metal. One disadvantage, of course, is the small bowl which does not lend itself to dishing up food.

A mighty nice substitute for dessert is assorted chocolates served along with coffee.

### Sashabaw News

The Woman's organization of the Sashabaw Presbyterian Church met at the home of Mrs. Ward Poole in Clintonville on Wednesday, April 9th for an afternoon session. There were 14 members present. While keeping busy with sewing projects the ladies made plans for future projects including a rummage sale to be held at the First Presbyterian Church in Pontiac on April 26th. The sale will begin at 8:00 A. M. It is requested that anyone having rummage goods to dispose of call OR 3-0575, OR 3-8618 or OR 3-6129 for pick-up or contact Mrs. Glenn Johnson or Mrs. Louis Carpenter.  
Plans were discussed concerning

### Meet Your Michigan

**GOLD STRIKE-MICHIGAN STYLE:** RAISING TWO MILLION GOLDFISH YEARLY IN PONDS NEAR MILFORD AND HOLLY IS THE UNUSUAL OCCUPATION OF MICHIGANER J. H. STRIGGOW. HE GROWS 26 DIFFERENT VARIETIES AND SHIPS THEM TO STORES THROUGHOUT MICHIGAN, OHIO, AND INDIANA. SCIENTIFIC DIET CONTROLS THEIR SIZE, ASSURES NORMAL GROWTH AND SPEEDS THEIR DEVELOPMENT.

**NOW GRINDSTONE CITY GOT ITS NAME:** SOME OF THE WORLD'S FINEST ABRASIVE STONES WERE QUARRIED NEAR GRINDSTONE CITY IN THE THUMB AREA FOR 100 YEARS—HENCE ITS NAME! TODAY VISITORS VIEW HUGE MOUNDS OF GRINDSTONES THAT STILL REMAIN, AND THE UNIQUE HARBOR WHERE THE STONES WERE LOADED FOR SHIPMENT.

**STATE-LY TREE:** A TAMARACK TREE AT THE OUTLET OF BRULEE LAKE MARKS THE BEGINNING OF THE ORIGINAL MICHIGAN-WISCONSIN BORDER. FROM A MID-STREAM POINT NEARBY, THE BOUNDARY LINE WAS FIRST LAID OUT IN 1847. AN INSCRIPTION ON IRON MARK ATTESTING TO THIS IS STILL VISIBLE ON THE TREE.

**NATION'S CALLOPE CAPITAL:** FROM ALL OVER AMERICA CIRCUSES, CRUISE SHIPS AND AMUSEMENT PARKS SEND CALLOPES TO GRAND RAPIDS FOR REPAIRS. HERE THE THOMAS J. KICKLACK CO., ONCE THE NOTED LEADING STEAM CALLOPE MANUFACTURER, IS NOW THE COUNTRY'S OUTSTANDING CALLOPE REPAIR CENTER.

MICHIGAN FEATURE SERIES prepared by MICHIGAN TOURIST COUNCIL... No. 44

the dinner to be served on May 17th. It was decided, due to the many requests since the last one served, that another smorgasbord is in order. Watch for further details in a later edition.

This very active group is still interested in new members. If anyone would like to join any of the above numbers will be glad to give information concerning the organization. The next meeting will be held at the home of Mrs. F. E. Kuklawa on Pine Knob Road on May 14th and will be an all-day meeting with a pot-luck dinner at noon.

All business at hand disposed of the ladies adjourned their meeting and enjoyed a lovely repast served by their hostess.

The youngsters in the Sashabaw Presbyterian Sunday School are hard at work as composers. Those in the age group from 8 to 15 years have been asked by their superintendent, Mrs. Frank Vargo, to write the lyric for their very own Sunday School song using the melody from their favorite hymn. After four weeks of endeavor the young writers will turn in their work to be judged and the best lyric will be sung for the opening number in the Sunday School as an award for the winner. These young people have also been making rapid stride in their membership drive.

The Junior Choir of the Presbyterian Church sang its cantata, "The Glory of Easter" to a capacity congregation last Sunday and each choir member wishes to express her appreciation for the efforts of the woman's organization of the church, and especially to

## SPELLING BEE

The Clarkston School's spelling bee was held on the morning of April 7. The participating schools were: Springfield, Andersonville, Hunter, Bailey Lake, Community Building graders and the 5th, 6th 7th and 8th grades of the Clarkston School. The spelling bee was limited to the ten best spellers of each separate grade.

These spellers had previously been chosen in classroom spelling bees. The champion of each grade will win an engraved dictionary. The school champion will win a bronze emblem. The district champion will win a silver emblem and the metropolitan champion will also win a silver emblem and a 19 volume set of World Book Encyclopedia.

Rea Watterworth won the Clarkston school championship. Rea will now go on to compete in the district spelling bee. Rea is in Mrs. Donay's sixth grade in the Clarkston main school. We all wish her luck! The district bee will be held in Holly on May 4th. We wish to offer our thanks and appreciation to Mr. Klingman and Mr. Smith who donated their

time and help to make this spelling bee possible.

## EIGHTH GRADE NEWS

In Mr. Carlson's room we are studying water. We have looked at pictures of bacteria and other germs. We are also learning formulas for finding volumes of cylinders.

Yesterday in history we read about the battle between the Monitor and the Merrimac. They were the two iron clad ships which changed the construction of war vessels from wood to iron. They were covered with four inches of iron which made them impregnable to the fire of the naval guns of that period. We expect Grant to take Richmond quite soon, and thereby speed the end of the Civil War. As a history project we have started making crossword puzzles and are using terms and names taken from the Civil War period to fill them out. It is rather difficult but should prove interesting.

In English we are studying the use of infinitives, gerunds and participles. They are easy for some of us, but difficult for others. Plans are being made for tak-

ing a field trip to Lansing. We plan on visiting the capitol building with its interesting museum and other attractions. If we are fortunate, we may observe how our laws are made by visiting a legislative session. We also plan on visiting the Michigan State College campus.

Through our tears we congratulate Rea Watterworth of the sixth grade on winning the school spelling bee.

## STATE CONDUCTING 2 NEW NATIONAL 4-H AWARDS PROGRAMS

Two brand new national 4-H awards programs—Bread Demonstration and Entomology—are being conducted by Michigan for 1952.

The Bread Demonstration program encourages 4-H members to learn and to show others the skills involved in making breads, rolls and other baked goods, and their relation to family dietary needs.

The Entomology program, 4-Hers learn about insect pests, and how to protect against destructive species to insure good crops, keep farm animals productive, and maintain healthful conditions in the home and community. The winner in each participating county receives a merit medal, and the state champion is awarded a 17-jewel wrist watch provided by Hercules Powder Company. Also, educational trips to the National 4-H Club Congress in Chicago next November will be presented to twelve sectional winners, six of whom will be selected to receive a national award of a \$300 college scholarship each.

## HISTORY OF DRIVE FOR ISLE ROYALE PARK GIVEN U-M

A chronological history of the movement to make Isle Royale into a national park has been presented to the Michigan Historical Collections at the University of Michigan by The Detroit News.

The presentation was arranged through Lee A. White, retired public relations director of the News. The campaign to make Isle Royale into a national park was launched by the Detroit newspaper in September 1921 and reached conclusion in August of 1946.

Albert Stool, Jr., the late conservation editor of the News, directed the campaign and through his enthusiasm and perseverance won the support of many notable persons in Michigan and elsewhere.

The chronological history contains hundreds of letters, newspaper clippings, and photographs, all neatly mounted and arranged. Among the pictures are several of the wreck of the Algoma on a reef off Greenstone Island, Isle Royale, on Nov. 7, 1885, in which nearly forty persons lost their lives. There are pictures of caribou and of other animals on the island, as well as a number taken on August 27, 1946, when the dedication ceremony, attended by more than 1,000 persons, was held.

With the recent material on Isle Royale were included some interesting items of earlier years. The most interesting and significant is the diary of Cornelius G. Shaw, June 7 to Nov. 21, 1847, written while he was digging for copper on the island. He found some copper and some silver, but he suffered, as did others on the island, from swarms of vicious mosquitoes and black flies. Fishing was good. Once he caught a lake trout, which, he said, provided a meal for nine persons.

According to the diary, a few persons intended to remain on the island during the winter, although they could be completely cut off from the mainland. Shaw left, Oct. 18, on the schooner Napoleon, which was caught in a gale and reached Copper Harbor after a rough voyage of six hours. He took a ship to the Soo (there was then no canal), and transferred to a steamer which carried him to Detroit. He arrived home in Toledo on Nov. 15. The diary contains much interesting information about daily life on Isle Royale in 1847, when numerous prospectors were searching for copper. As it turned out, the island never became a profitable source of the metal.

Students of Pontiac High School Latin department, lending their support to Oakland County Chapter, American Red Cross, have donated \$1,191 since 1943.

Latin students, led by Iama C. Hook, instructor, raise money for various charities by selling their biannual paper, "Epistola Scholae." Latest receipts from the teenagers totaled \$62.00.

More than two dozen Oakland County women are learning to make life more cheerful for hospital patients in a Gray Ladies' class sponsored by Oakland County Chapter, American Red Cross.

The course started Wednesday (April 16) at 10 a. m., Pontiac General Hospital.

"Women may still sign up for the course," Mrs. W. C. Sproull of Birmingham, Gray Ladies chairman, said.

"These volunteers are badly needed to work one day a week—especially at Pontiac General Hospital and Oakland County Tuberculosis sanatorium. They do no physical care, but read to patients, help them write letters, feed them, tend to flowers and generally help make people happier," she said. Women may sign up by calling Mrs. Sproull or Red Cross office Federal 4-3575.

High school students set a county-wide example of teenage cooperation when Oakland County Chapter, American Red Cross sponsored its recent blood clinic in Clarkston.

"This is the first time that a high school group has ever assisted in a blood program," Mrs. Mildred E. Bennett, executive secretary of the chapter, said. "It was wonderful."

With Leslie Greene, superintendent of schools, as local blood chairman and Marguerite Bennett as assistant, Clarkston High school students "turned to" in collecting 71 pints of blood for wounded soldiers and civilian hospitals Monday, April 7.

Home economics classes baked cookies for canteen refreshments, where other home "ec" students and Future Nurses' club members served donors. Junior and senior commercial students assisted Mrs. Helmut Guentsche of Lake Angelus as registrar, and four boys helped unload and load technical equipment.

Volunteers of Oakland County Chapter, American Red Cross will have until April 25 to raise the campaign quota.

Gar A. Sweeney of Royal Oak, campaign chairman, announced the drive has been extended another ten days to give campaign workers a chance to make up for Easter weekend.

"We have about 90% of our goal—but we can't rest now," Sweeney said.

"The drive will definitely end the twenty-fifth when the chapter executive committee will meet to

review the campaign."

This week's extension of time is the second in the current drive, which began March 1. The campaign, at first scheduled to end March 31, was extended until April 15 after \$11,000 was added to the quota for relief of tornado victims in Alabama, Mississippi, Missouri and Tennessee.

Dr. Robert W. Kelson, chapter chairman, reminded county residents that thousands of homeless, hungry men, women and children are awaiting the results of local Red Cross drives across the nation.

"People of Oakland County are responding in their usually generous manner to this call," he said. "We were sure that in meeting the needs of disaster victims, Oakland County would not be found wanting."

U-M OFFERS PHOTO COURSE BY MAIL  
Amateur photographers can prepare now for their vacation-time picture snapping by taking a new correspondence course offered by the University of Michigan Extension Service.

The course includes units of study on development, printing, special processes, studio techniques, color photography and composition. It was prepared by Philip C. Davis, instructor in the University's College of Architecture and Design, and parallels that which he gives at the University.

The syllabus, which covers the 14 units of work in the course, is well illustrated with excellent pen and ink drawings and charts.

Enrollment may be made through the U-M Correspondence Study Department, 4524 Administration Bldg., Ann Arbor, or with department representatives in the Detroit area extension center and the extension center for Western Michigan in Grand Rapids.

Red Cross News  
Men and women of Oakland County are urged to enroll in any of five first aid classes now being conducted by Oakland County Chapter, American Red Cross.

Four of the courses, all being taught in the evenings, are at Pontiac city schools. Another is underway April 17 at Seymour Lake Community House, with R. Thompson as instructor.

People may register by calling the chapter office, Federal 4-3575. Classes are free of charge.

Ralph W. Forman, first aid chairman, announces that John A. Kish is instructor of a class at Baldwin school; L. D. Baumgardner, Whittier; Mrs. Myrtle Meabon, Longfellow; and Dr. Maurice Thome, McConnell school.

**FILMS AVAILABLE TO CLUBS OR GROUPS**

Michigan people are showing an increased interest in biological warfare, the Michigan Office of Civil Defense said today.

Recent false accusations by the Communists of germ warfare in Korea, and the recent epidemics of hoof and mouth disease in Canadian animals and of anthrax in animals in this country are bringing about demand for information on the subject.

Biological or bacteriological warfare is the deliberate infec-

tion of humans or animals with virus or germs and the deliberate infestation of food and forage crops with plant diseases or crop pests, Civil Defense officials state.

In the present world situation, it is entirely possible that an enemy might introduce human or animal disease or plant disease or plant pests which could become epidemic before the sabotage was suspected, they point out, but add that state and national health and agriculture agencies are alert to the danger.

To provide Michigan people with reliable information on

biological warfare methods and preventive measures, the Michigan Office of Civil Defense has acquired seven copies of the official Civil Defense film "What You Should Know About Biological Warfare" which can be borrowed without charge for showing to farm and community groups. It has also acquired several hundred copies of an official Civil Defense Pamphlet on the same subject which can be used for discussion groups.

To reserve the film "What You Should Know About Biological Warfare" contact your local Civil Defense Director or write direct to the Michigan Office of Civil Defense, Lansing 16, Michigan, giving the date, you wish to show the film and the name of the group to which you wish to show it.

Include your request for copies of the pamphlet.

**ON CAPITOL HILL**  
NEWS and COMMENT  
FROM CONGRESSMAN **GEORGE A. DONDERO**

**LAKE WATER LEVEL CONFERENCE**

Prospects of early action to relieve the disastrously high water levels in the Great Lakes this year, which already have caused more than \$1-billion of losses to Michigan property-owners, brightened greatly within the past week.

Spurred by the tremendous damage to waterfront properties, Members of Congress from the eight Great Lakes States met a few days ago in Washington with both Canadian and American members of the International Joint Commission to discuss possible solutions to the problem.

It was advocated that the Lake Superior run-off through the St. Mary's River should be reduced from 73,200 to 40,000 cubic feet per second, as a means of cutting down the levels in the Lower Lakes, where most of the damage has been done.

Members of the IJC pointed out (1) that the Commission holds jurisdiction over regulation solely of water levels in Lake Superior, (2) that it is a long-established policy to maintain Superior water levels at approximately 803 feet above mean tide levels in New York Harbor, (3) that any reduction in the St. Mary's River run-off could reduce Lower Lake levels no more than six inches at best, (4) that interests of lake properties and ports on Lake Superior would have to be considered, and (5) that consideration to water levels in all of the Great Lakes could be given only after further authorization by the two governments.

While Congressmen from states bordering Lake Michigan sought the opening up of the Chicago Drainage Canal would lower levels in that lake by six inches, the Commission said it would not be more than two to four inches. It was agreed that opening the spillways in the Niagara River would have little effect. At the same time, it was said that Great Lakes water levels have been rising at

the rate of six inches every ten days.

New York State Congressman said they believed that the Gut Dam, in Canadian territory on the Upper St. Lawrence, is a major factor in maintaining high water levels below Niagara Falls in Lake Ontario. They asserted that nature of Canada to cooperate by opening the spillways at this dam threatens good feeling between the United States and Canada.

When IJC members reiterated their statement that nothing could be done concerning this situation without an extension of jurisdiction to cover water levels in all of the Great Lakes, it was brought out that some time ago the United States Department of State asked for such an extension. It was said that thus far Canada has failed to join in the request because the Gut Dam is considered necessary to navigation on the Upper St. Lawrence.

In conclusion, the International Joint Commission promised to continue its engineering survey of the possibilities with respect to the St. Mary's River run-off, and urged interested Congressmen to apply pressure toward getting the two countries together on the matter of authorizing the IJC to seek and implement means of reducing water levels throughout the entire Great Lakes water system.

**FASTER, CHEAPER LIVESTOCK GAINS MADE ON PASTURE**

Young lambs and calves with their dams will make the fastest and cheapest gains when they're on pasture.

L. H. Blakeslee, Michigan State College animal husbandman, points out that "sows with pigs on clean, palatable pastures also make more economical gains than on dry feeds alone. This is because pastures produce a good flow of the dam's milk and furnishes more complete feed or nourishment than harvested grains

or roughages." For this reason, Blakeslee believes that livestock producers should provide all the good, palatable early spring pasture needed by the dams and their young.

He says that for early pastures, rye, June grass and, in emergency cases, wheat, should be considered where soil and other conditions justify. Later on, high quality pastures such as alfalfa, ladino clover and other legumes with brome grass, timothy and other desirable grass mixtures are usually available. They will be ready soon after May 1.

Blakeslee says that use of unpalatable pastures like fescue, orchard grass and Reed canary grass should be discouraged and used only when recommended.

For emergency pasture, especially in case of winter-killing, rape, oats and peas, soybeans and sudan grass should be considered for the different classes of livestock.

**FRUIT AND GARDEN NOTES**

by Willard E. Bosserman  
Assistant County Agr'l Agent

**GARDEN TIME**

It is now time to plant some of those early garden crops such as radishes, spinach, parsley, parsnips, peas, onions, lettuce, carrots and beets.

Some people will say that it is better to wait until the soil warms up and they are right for certain crops. The above listed garden crops are cool weather plants and do most of their growing either in early spring or late summer and early fall.

Successive plantings can be made of some of the early crops to insure continued supply.

Radishes, carrots, beets, leaf lettuce are planted in successive plantings.

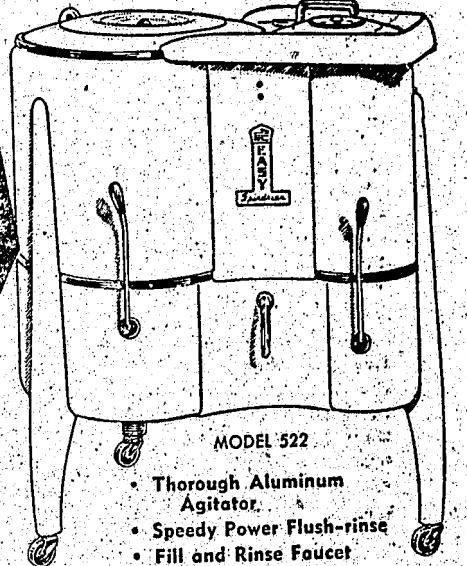

Peas are often planted in successive plantings, however, best results will be obtained by planting early, midseason and late varieties all at one time.

Organic matter is very important in garden soils. Build your organic matter supply by working into the soil such things as leaf mold, manure, green manure and old hay or straw.

**Unceasing War on a World of Killers**

★ Leeuwenhoek, in 1683, was the first to disturb the privacy of the teeming bustle of the unseen world. The "wretched wee beasties" cavorting innocently under his lens were later indicted and convicted by Koch and Pasteur. Unbeknown to Leeuwenhoek, he had discovered a vicious and unseen world of killers, now known as bacteria, or germs.

The span of time between Leeuwenhoek and Pasteur was almost 200 years. Only an average lifetime has passed since Pasteur's experiments, during which practically all we know about disease and its treatment has been discovered. Our knowledge is expanding at an ever-increasing rate. The pharmacist works with the physician in bringing newer and better medication into the sickroom.

**Remember**  
YOUR HOME NEWSPAPER  
All matters handled through the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper each week.

**Not "warmed over" but strictly brand new!**

You owe it to your pocketbook to drive this Chrysler engine before you buy any fine car today.

It's not a "warmed-over" engine, but a basically brand-new one!

It gives a new kind of performance that means new value for every dollar you pay out for purchase, upkeep, or operation.

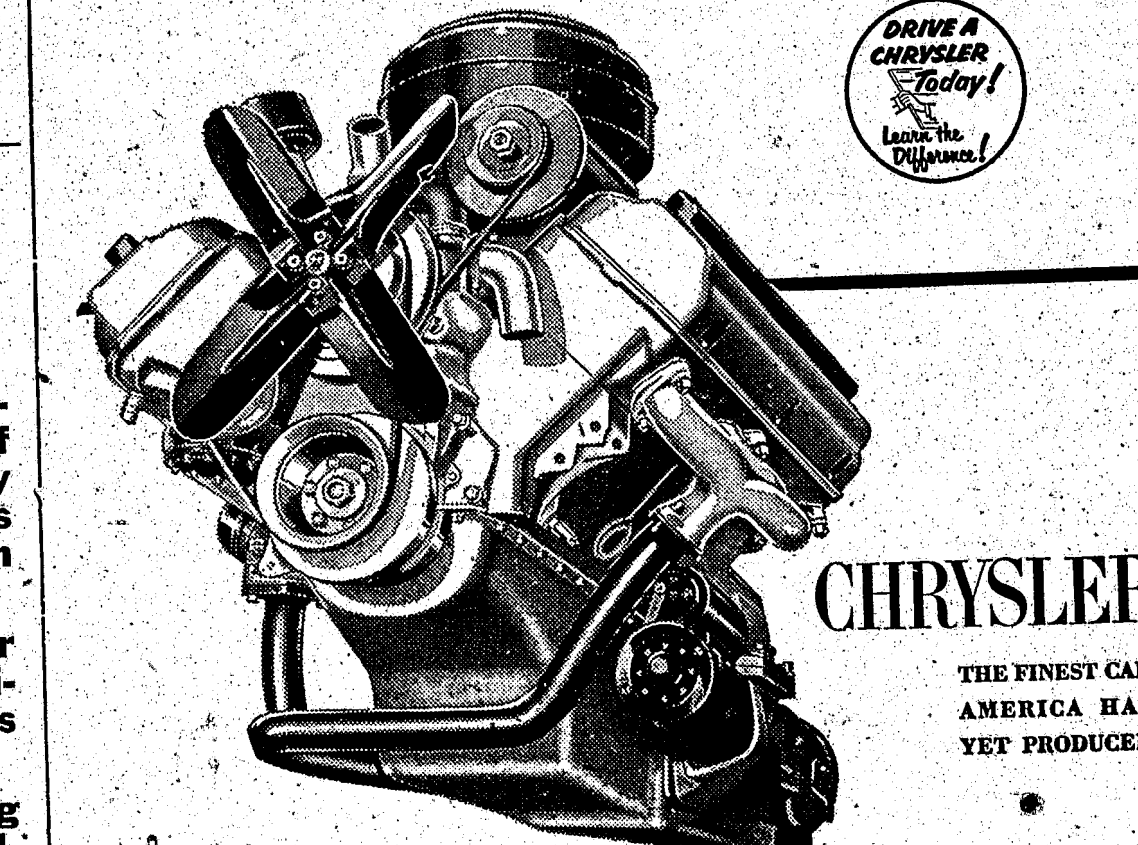

It was built brand-new around a hemispherical combustion chamber which makes better use of gasoline, and also permits sounder all-round engine structure, than any American motor car engine has had before.

It delivers 180 horsepower... without requiring you to buy premium gasoline. It runs with less waste, less heat, less friction and less wear than previous designs can equal. Its combustion is so clean it literally develops almost no carbon deposit at all.

It will last longer than any engine you've ever known. It will cost you less along the way. It will stay "young" in performance thousands of miles past the point where an ordinary engine shows old age.

And on top of all that, it makes driving a lot more pleasure! Its smooth response... its safety-power, in reserve for emergencies... its easy scorn for distance or hills... make you just plain feel good at the wheel as you've never felt before.

For the good of your purse and your pleasure too... we invite you to drive it, soon!

**CHRYSLER**  
THE FINEST CAR AMERICA HAS YET PRODUCED

**SEE BETTER-LIVE BETTER**

**SMILE AT A TASK**  
**THAT ONCE MADE YOU FROWN**

It's surprising how much easier it is to iron when you don't have to strain to see. You iron faster, too... and do a better job! You're never working in your own light... you're never fighting shadows. Good lighting makes tasks fly.

You'll enjoy the advantages of good lighting in your laundry area with a new ceiling fixture with fluorescent tubes... Visit your electric fixture dealer.

**FREE!** Write to Detroit Edison for your copy of this amazing booklet. It features lighting recipes that can bring new comfort, enjoyment and eyesight protection to your home.

Paint woodwork to match the walls and you will "increase" the size of your room, say Michigan State College authorities.

Make a resolution now to do one set of curtains at a time throughout the year urge Michigan State College home management specialists. Avoid the spring-cleaning orgy and preserve the life of your curtains.

### Processing for Home Lockers

Owners of home lockers can receive the same processing service as locker patrons. Buy your meat from us in wholesale cuts at wholesale prices, or bring us your animal carcasses and we will do the rest of the work and have it already frozen for you to take home and put in your cabinet. Your electric bill, for trying to slow freeze in your cabinet plus the wrapping materials, will cost as much or more than we charge for all the above services, and you don't have the work to do or the mess to clean up, at home. We have one thing that you don't have at home—even temperature to chill and properly age beef.

### Is Your Home Locker Full?

If your home locker is full, or will be when pork or beef time comes along, come in and rent a locker for this overflow. Or if we are doing your processing it is a good idea to have a locker here, and then we just place your food in it when processed and you come get it whenever you want it. Having a locker at the locker plant is a good idea. Some home unit owners have from one to four lockers here.

**THE FRONT END OF YOUR CAR CAN ROB YOU...**

When the front end of your car gets out of alignment, you begin to spend needlessly for new tires. Hitting bad bumps or wearing out causes misalignment. Let us help you catch this thief with our Wilco Steering Analyzer. Takes a few minutes... No need to leave your car.

An honest check up is assured. We use the Wilco System. You too can read the indicators as we check up. CHECK UP 2.50 IS ONLY \$
