CLARKSTON, MICHIGAN, THURSDAY, MAY 22, 1952

#### Poppy Days, Today **And Tomorrow**

Poppies in profusion will brighten the streets of Clarkston Scout Troop No. 49 of Clarkston today and tomorrow when the lo- held its second annual Mothers' cal Legion Post and Auxiliary will | Court of Honor at the Township offer them to be worn in honor of the war dead.

Made of green and red crepe paper with paper-covered wire . Following the dinner the evenfor stems, the poppies are lifelike ing's program was started with duplicates of the wild popples of a short, silent prayer and the re-France and Flanders which provided the only floral decoration for World War battle graves in those countries. They were made by disabled veterans at the hospitals, the work providing beneficial and gainful occupation for favored the assembly with a saw these men. They are all made by solo. hand and each poppy is slightly different and each nas a story of with a Tenderfoot Investiture its own-the story of some man Ceremony for Larry Powell and who in his youth and strength Glenn Hutchinson. stood between our country and the enemy, but who now has only the strength to make a little awards consisting of 8 apprentice poppy in memory of comrades ratings were given to Vaun Walwho gave their lives in America's

take time to look closely at their erdine and Bill Shanks. poppies today and tomorrow, see how they are made and understand what they mean, They are really beautiful, little flowers, both in their appearance and in the message they carry, for each one says when worn over our dead and aiding the disabled of and athletics; Nathan Riffle, cookhearts that we are honoring the the wars fought to keep America

Practically every penny dropped into the contribution box will go into the American Legion rehabilitation and child welfare funds. Most of it will stay right here in Clarkston and will be expended locally to aid war veterans and children of veterans during the coming year.

Be as generous as possible when you buy your poppy. Remember that it was made by hospitalized veterans to honor the dead of two wars and now Korea. More than that, it's the veterans' attempt to take care of their own. So accept that Poppy. Wear it proudly. Help your disabled veterans to take care of themselves.

#### NOTICE OF ANNUAL SCHOOL BOARD ELECTION JULY 14, 1952

Petitions bearing 25 signatures must be filed 20 days prior to the date of election in the school office for any and all persons seeking nomination as a School Board Member.

Members whose terms (3 years) of office expire are Keith Leak and Walton Robbins. Mr. Leak is serving as President of the Board of Education and Mr. Robbins as

Secretary. A member shall also be elected to fill the balance of the unexpired term caused by resignation of Vern Spooner and currently held by the appointment of Jack

Murton. The election shall be held on the 2nd Monday of July in the Township Hall. Polls shall be open from 9 A. M. to 8:00 P. M. Petition blanks used for securing of signatures, for nomination of Board Members can be obtain-

> Miss Sproul and Harold Cameron shared the responsibilities of accompanying the group,

> The audience was more than a ittle surprised at the change in the high school band as they sat up and listened to the first march played, There is a spirit and style that anyone can feel in the way the band responds to their direct-

The band presented a varied program with selections to please everyone. In September the band began working as practically a new organization. Considering that more than a quarter of the band are mere beginners, the finesse they have acquired is overwhelming. Most of the pupils have played less than a year. They deserve much credit for presenting an evening of entertainment which ended with the audience clamoring for more. It is regretful that the auditorium was not filled to capacity for this event. Those who stayed away missed a

thrilling experience. Credit, too, is due William Janton, the director, for the improvement in the band. He has the spark and drive that makes the ROTARY ANNS students want to work hard for the glory they deserve. Everyone is looking forward to an even better band next year!

### Pre-School Round-Up Friday Afternoon

On May 23rd at 1:30 P. M. in he High School Gym we are having a pre-school round-up for all the kindergarten children and parents.

### **Memorial Day** To Be Observed

As in past years Memorial Day will be observed in Clarkston with a parade assembling at Church and Buffalo Streets at 9:30 A. M. and marching to Lakeview cemetery for services at about ten o'clock.

The Reverend Robert M. Atkins

In case of rain the parade will be dispensed with and the regular though members of the Legion Post will see that their cemetery ritual is properly taken care of:

The Clarkston Community Farm Bureau group will meet at the Township Community Center on-Wednesday evening, May 28th at o'clock. Mr. and Mrs. Mallory Stickney, Miss Wilma Doebler and Harold Doebler will be hosts for the evening. Those attending are asked to furnish their own table

### Random Thoughts

GARDENING - My vegetable garden has been getting bigger every year, although I have certainly is something to that particular spring folly all the comics and cartoons poke fun at. enthusiam, and painful past experience nothwithstanding, we start out optimistically with rows and rows of vegetables. When the plow and the harrow have left than to sow all the old favorites and try out a half-dozen new vegetables besides.

How beautiful and neat the garden looks when all the delicate pea seedlings pop up evenly spaced under the guiding lines. Hostess To Circle How delicate and fresh looks the lettuce, how promising and large are the radishes! The first rain seems to, push

everything right out of the ground, and the black dirt is all of a sudden just covered with weed seedlings. Where do they all come from? Right then and there the never-ending battle to get rid of the weeds and keep the vegetables begins, and it does not end take all our time and we have to show anybody my garden although it was such an object of pride early in the spring, I wonder year? My garden is larger than ever, but the rows are spaced farther apart; in short: even more space for the weeds to grow in! We this year.

bought a motorized garden tractor, and there is just a chance that the weeds won't get the best of me Did you ever become frightened the weeds? When I bought a garden encyclopedia, a booklet describing all garden pests and the the bargain as an "extra". The descriptions and pictures of all the ments at tables centered with enemies threating our vegetables were almost enough to make you give up the whole ambitious plan. Then I read in one of Louis Bromfield's books a reassuring theory if you have good soil and feed your plants well, these healthy plants won't be attacked by pests And it does seem to work out that way. I'manure the garden heavily, (did I ask a little while back where all the weed seeds come from? Maybe here lies the answer) and I don't spray or dust, nor do I buy all the various kinds of insecticides and poisons the well-known charts recommend. I have had a "nodding" acquaintance with potato beetles once, tomato worms another year, and aphids on a few broccoli plants every year. That's all.

Nothing tastes so good as real fresh, just-picked vegetables. And

I read in a farm, journal once that one of the best paying crops

Louise Hemsing Powers.

### Clarkston Out Of League Race

Although Clarkston had little didn't get a hit. The first man up walked. The second batter got a free pass to first when the field grounder did not retire any on one. Passed balls and wild pitches ed up two runs in the second. Vincent was safe on an error and stole second. When Huttenlocher grounded out Vincent took third. Dunston walked and stole second. Keelean then singled to score

NUMBER 38

Vincent and Dunston. Clarkston tied the score in the third. Thayer singled and stole second. Mann singled sending Thayer home. Holly scored one in the fourth Garner tripled after two were out. Freeman walked and Rounds singled Garner home, Two more were scored by Holly in the fifth. Hillman walked as did Felch. Garner then got his second triple of the game to drive in Hillman and Felch.

Clarkston had bases loaded in three different innings, but in only one of those innings did they score. Some bad base running didn't help the Clarkston cause.

Although Hagyard struck out nore men and gave up fewer hits than Huber, he was wild and issued nine walks and hit one batter. Garner of Holly was the batting star of the game, getting three walks and two triples in five trips to the plate, Keelean collected two hits for Clarkston.

Friday Clarkston played one of its best games of the season, but lost to Northville 3-1. Clarkston had the misfortune to come up against Rowe of Northville. Rowe is probably the best pitcher in the league, however he had been ineligible for some and just regained playing status before playing Clarkston. Earlier in the season, Rowe struck out 22 batters in an eight inning game.

Clarkston scored its lone run in the 1st inning. Thompson walked and stole second. The catcher's throw got through to the out field, Thompson going to third. Thompson scored on Younger's infield out.

Northville tied the score in the second when Thomson, Curl and Schultz all singled. They got their other two runs in the fifth. Mac-Lean walked and scored when Hix doubled. Bale then singled Hix home.

Rowe struck out 12 This game just about eliminated

game is played. Every team has now lost at least two games. Get your reservations in early for the Mother and Daughter Ban-

A country road winds o'er the hills And valleys thru the wood,

It travels where the river spills And where a mill once stood. It winds around among the trees With swamps on either side, The flowers bloom in peaceful

> If they are then air-dried by a fan, they maintain quality equal to unwashed eggs under comparable conditions.

Aho also suggests putting a small basket on the side of the egg-gathering basket for collecting the dirties. In this way they won't contact the clean eggs. Soiled eggs should be brushed Dirty eggs should be washed immediately.

#### SEEDING FAILURES REDUCED BY GOOD CULTURAL METHODS

Better seedings in oats and barley are possible by observing a few tips from farm crop specialists at Michigan State College, Good cultural, methods, plus a new

method of seeding help do the job, Soil should be right, they say, with a pH (acidity rating) of six: or above. Your county agricultural agent can help you check the pH of the soil. If pH is below six, lime should be added, especially for alfalfa, Use 400 pounds of 0-20-20.

of all.

The Children Reva, Courten, Marcan , France. fertilizer per acre at time of seed- planned rotations with reduction

> The drill should be set so the seed falls behind the disk, Mich- FERTILIZER MAKES gan Agricultural Exeriment Sta- BIG DIFFERENCE IN tion tests in 1951 got twice as good LEGUME SEEDINGS a stand when seed fell behind disks as when it fell in front of the disks. When dropped in front, seed was covered too deeply.

Cultipacking after seeding is valuable practice, too.

Band seeding is a new method today. of improving seeding in oats and barley. To do it, add a piece of seeding attachment, and wire the on top of the ground. It should fall eight inches behind disks to get seed directly above fertilizer for a quick boost in seedling growth.

Band seeding is especially valuable on poor soils or when the season is dry, the farm crops specialists say.

Experiments at East Lansing gave a 43 percent better stand of alfalfa by using band seeding as compared to conventional drill

of expensive seed, soil erosion, livestock and breaking up of valent to the acre.

in yield of following crops.

"A liberal application of fertilizer may make the difference between a good legume seeding and a poor one," E. D. Longnecker extension soil specialist at Michigan State College, told farmers

In fact, he pointed out that garden hose two and one-half feet of legumes and grasses should be ong to tubes leading from small made in Michigan without a liberal application of fertilizer." hose back of the disks so seed falls It's a paying proposition since the legume and grasses usually are planted with a small grain crop like oats and barley. The fertilizer benefits both the grass-legume seeding and the grain, Longnecker also made some

specific recommendations for fertilizer application. Unless soil tests have been made recently and indicate otherwise the best rate of application on heavy soils will be 250 pounds of 4-24-12, 330 pounds of 3-18-9 or their equivalent to the acre. On sandy loam Taking time to insure good soils use 500 pounds of 3-12-12 seedings helps reduce costly fail- or 400 pounds of 4-16-16 per acre. ires. Seeding failures result in loss | On light, coarse sands and loamy sands, use 400 to 500 pounds of lack of high quality roughage for 3-12-12 or 3-9-18 or their equi- pose china to extreme tempera-

Better seedings will be obt on the coarse, sandy soils in the grain is planted no heavierally one bushel per acre where grass legume seedings are made with a grain crop. It no grass- legume seeding is made with the grain, the rates of fertilization may be reduced somewhat from the above recommendations. But don't skimp on the fertilizer where the combination seeding is being made Longnecker cautioned, pointing out that "on a long-time basis, there is no more profitable spot "generally speaking, no seeding to use fertilizer than with grasslegume seedings because they are the crops which give the soil its

Where it is safe ,cover grapes raspberries with DDT just before the buds open. Of course, no insecticide should be applied after buds open because of the danger to bees. Use 2-tablespoons 50% wettable DDT per gallon of water After berries have formed on raspberries, rotenone can be used. It is necessary to keep an insec-

ticide on the plants. Chlordane applied at the rate of 1/5 to 1/4 lb. per 1,000 sq. ft. in lawns and sodded areas beföre the beetles emerge will help control them. Chlordane is very poisonous so follow every precaution when using.

HOT WEATHER POSES NEW PROBLEMS FOR STATE FLOCK OWNERS

Hot weather is coming along to pose some new egg marketing problems for flock owners of Michigan, William A. Aho, Michigan State College poultry special ist, has some suggestions along

this line. He says that eggs should be gathered often and stored in a moist place at a temperature of about 55 degrees to maintain good quality. Also they should be marketed at least twice a week.

Most all flock owners feel they have to wash eggs at one time or another. Aho cites work done at the New Jersey Experiment stations which seems to have the answer for doing the job right.
Their work shows that eggs can

#### SAVE YOURSELF

If you haven't already changed to air drying your dishes, now is the time - there are too many outdoor things to do to spend unnecessary time in the kitchen. Mrs. Josephine Lawyer, county home demonstration agent, gives some pointers on the relatively new air-drying method.

After washing the dishes, rinse for a few moments in a pan of over your charcoal fire. hot water, about 140 degrees. This rinse will be more effective in eliminating bacteria than a quick rinse of hotter water, Following the rinse, put the dishes on a rubber coated rack. These attractive racks come in many colors and the rubber coating cuts down noise and breakage. Only silver will need towel treatment, Mrs. Lawyer says.

#### PICNIC HINTS

Don't take all the fun out of a picnic by wearing yourself out of the holes, here are some of with previous preparations, Cook when you get there, Mrs. Josephine Lawyer, county home demonstration agent advises.

# THE THREE SCOURGES OF MAN

★ Devastating epidemics have ranked with war and famine as population levelers. Of these three scourges of man, pestilence was most dreaded. During the Black Plague epidemic of 1348, it was estimated that in some places over two-thirds of the population was wiped out.

The discovery of bacteria as the cause of infectious disease is still within the memory of the living. Pasteur developed the first vaccine for rabies in 1885. Since that time many immunizing procedures have become routine. As a consequence, deaths from infectious diseases have been drastically reduced.

Everyone should be protected against smallpox and diphtheria as an absolute minimum. Do not wait for an epidemic to break out. Then it is often too late.

We maintain complete stocks of biologicals, subject to the orders of your physician.

obvious. To field-cure hay to a moisture content of 25 percent requires about 15 to 20 hours of sunshine. That means about one and a half to two days of clear weath-

According to U.S. Weather Bureau Records at East Lansing, the probable number of days without rainfall during the first two weeks in June is about two to three days in a row. You can count on about one to two clear days in a row during the second two weeks in Jun,e, and three clear days in a row during the first week in July. These figures were compiled by Vany from records from 1918 to With a hay crusher the number

of hours of sunshine required to field-cure hay is cut to eight to ten. A barn drier will cut hours of sunshine required to six to eight. And farmers who make grass siage need only one to three hours of sunshine to cure their hay. The dry matter loss for the hay loader method is 24 percent, for

he hay crusher it is 21 percent, of the barn drier 16 percent, and for grass silage, 15 percent. These dry matter loss figures are from time of cutting until time of feed-
