

Waterford

Mrs. Jack Hall, Correspondent
Phone OR 3-0261

Mrs. Floyd Fullerton and her daughters, Mrs. Emanuel Harrington and Phyllis, attended the annual banquet of the Highland Park General Hospital Nurses Alumni Association last Thursday at the Wayne Club in Detroit.

Mr. and Mrs. Claude Hoadley of VanSycle Ave., returned home Saturday from a three weeks vacation trip to Florida. They visited Mr. Hoadley's father at Daytona Beach.

Miss Grace McVittie is convalescing at her home in Pontiac and is getting along fine. She recently fell and broke her leg.

Mrs. Sam Miller (Wilma) is in St. Joseph's Mercy Hospital as the result of a car accident on Saturday night at the light in Waterford. The extent of her injuries is not known at this writing.

Mr. and Mrs. Floyd Fullerton served as patrons at the Highland Park General Hospital Nurses Choral Club Tea held at the hospital on Sunday afternoon.

The Waterford 500 Club will end their season with a supper at Rotunda Inn next Tuesday evening, followed by playing cards. Due to conflicting dates it was necessary to change the date of this party which was to have been held this week.

The Waterford Township Democratic Women's Club will meet at the C. A. I. building next Tuesday, June 3, at 8:00 P. M. This meeting was put off for a week in order that some of the members could attend the tenth annual Firemen's Banquet held on Tuesday of this week.

Last Sunday was Confirmation Sunday at Christ Lutheran Church at which time 17 young people were confirmed at the morning service. That evening the Church Board of Administration and their wives were hosts at a family night program in honor of the new church members and confirmation class. The program included music by a men's quartet, hymn singing, a film-strip on family life and then refreshments were served. The new members and the confirmation class were introduced. Members of the 1952 confirmation class include; Carolyn Campbell, David Cox, Janice Gidley, Dennis Johnson, Terry Klouse, Nancy Lambertson, Allan Olson, James Wager, Ronald Kind, David Carter, Ruth Ann Eddy, Richard Hirnstein, Helen Jepsen, Edwin Lambertson, David Latta, Loretta Tipot and Larry Peck.

The Ladies Guild of Christ Lutheran Church will meet this coming Wednesday, June 4, at the home of Mrs. John Alander, 5580 Walden Road. The time is 8 P.M.

Mr. and Mrs. Roy Pammenter will entertain the Adult Bible Class of the Waterford Community Church at 7:30 next Tuesday evening, June 3.

The Cheery Chum picnic which was to have been held last week and was cancelled due to the weather is now planned for Friday, June 6th. It will be held at the home of Mrs. Jack Hall at 6:30. Mrs. Louis Dorman Sr., Mrs. Rudy Boss, Mrs. Fred Tuck, and Mrs. Marcella Medlyn are on the committee for the evening.

Mr. and Mrs. James Miller of Waterford Drive are announcing the marriage of their daughter Bonnie Ann to Wayne Allen. The ceremony took place in Angola, Indiana, on January 22nd. Wayne, who is the son of the Warren Allens of Arcola Drive, was a Paratrooper in the war and served in Japan. Bonnie graduated from Waterford Township High School last year. The young couple are making their home with his folks at Williams Lake and both are employed in Birmingham.

Mrs. Allen Davis had the last meeting of the year of the Van Norman Lake Home Extension group at her home last Wednesday. Meetings will resume in the fall with Mrs. Bruce Witherpoon having the first one the third Wednesday in September.

Bob Wheeler and Jerry Peter, The club voted to continue their weekly meetings through the summer. At the meeting of the club last Friday evening the speaker was the Reverend Walter Teeuwissen of the Drayton Plains Presbyterian Church.

Sashabaw School

Mrs. McQueen's 2nd Grade Pamela Stockdale is in St. Joseph's Mercy Hospital following an attack of appendicitis.

Mrs. Holding's 1st Grade Janet Young and Geoffrey Helms both had birthdays last week.

Mrs. Gallard's 1st Grade Jerry Fricke had a birthday on May 24th.

Mrs. Heddin's 5th Grade We went with the 6th Grade on Friday, May 23, on a field trip. We gathered wild flowers and those we did not recognize we identified by looking in our wild-flower book.

Ruth Ann Carmean had a birthday on May 24th.

Mrs. Beck's 3rd Grade We played ball with the 4th grade on Thursday. The 4th graders were the winners with a score of 26-18.

Mrs. Draker's 3rd Grade Russell Wilson had a birthday on Thursday, May 22nd.

Mrs. Draker was called to Hillman on Monday because of the death of Mrs. Draker's father. Mrs. Mae Pennell was the substitute teacher.

Mrs. Coe's 4th Grade
Our class will visit Greenfield Village on June 2nd.

Mrs. Godfrey's 7th Grade and Mr. Landon's 8th Grade visited the Pontiac Motor Plant on Thursday, May 22nd.

The following story of the tour of the Pontiac Motor plant was written by Carol Kudlaw of the 8th grade:

The seventh and eighth grades toured the Pontiac Motor plant on May 22nd. We left the school on the bus at 10:00 A. M., and arrived at the plant on Joslyn Ave., about 10:30. When we arrived we were divided into 2 groups, the 7th grade going to the cafeteria while the 8th graders boarded a small train. Our guide, Mr. LaFrance explained what we were seeing as we went through the plant. First we went through plant 9 where the motors were assembled, painted, run for about 20 minutes and then some other parts were added and the motors were put on a hoist overhead. We then turned and went along the assembly line. The chassis were on a moving belt and the motors were dropped down on to them and the wheels were put on. Then the main body of the car was dropped down from the second floor. During all of this time men and women had been bolting and screwing on different parts including the fenders. We also saw the springs being lubricated and covered. Then the hood and all other parts were added. A spare tire went along with each car and we were amazed to see how all of the colors of the body were kept in order and put together so quickly. After the car was assembled and the wheels lined up a woman got into the car, stepped on the gas and drove it away.

Along the way we noticed several safety signs and a lot of materials in storage. Our guide told us that the average production was 60 cars an hour but due to the war it had been cut to 30 cars per hour.

We were also told there are 13,000 people employed in the plant. For the safety of the employees there are 1st aid stations where doctors and nurses are on duty at all times. We were then taken to a large, beautiful cafeteria where we were served delicious doughnuts and milk while the 7th graders made the tour.

When the 7th graders returned from the plant we went to a small reception room to wait for the bus. While we were there we had our questions answered and booklets of information were passed out. We returned to the school about 12:45, very happy.

We want to thank Mr. Landon and Mrs. Godfrey for chaperoning on the trip.

Nanette Pattern
Pick up a piece of BARONET CHINA. Hear its resonant ring. Look at its fine texture, its smooth, brilliant and long-wearing glaze, its distinctive decorations. This is fine china, made in the U. S. Zone of Germany by one of Europe's oldest and best china manufacturers, Eschenbach of Bavaria. For your "best" china service (it has an "everyday" price tag on it though) choose NANETTE, the pattern which is equally at home in formal or informal settings. It is decorated with green-and-gold fleurs-de-lis and coin-gold lines. This charming design is on the Princess shape, with large size dinner plates and footed, flared teacups with coin-gold handles.

The Hilltopper
JUNIOR-SENIOR BANQUET

The seniors and other guests were served a very good dinner on Saturday evening at the annual Junior-Senior Banquet. The menu consisted of baked ham, creamed potatoes, green peas and tossed salad, and cookies and ice cream.

The toastmaster for the evening was Terry Brown. After the invocation and dinner, Dan Curry, president of the junior class, gave the first speech which was the address of welcome. He was followed by the senior class president, Frank Keelean, who gave the response. Sandra Wampfler then sang "Make Believe" and "Smoke Gets in Your Eyes". These solos were followed by the Class History read by seniors, Maxine Sage, Nadine Riley, and Delores Pacer. Two numbers, "I'll See You in My Dreams" and "Day Break" were sung by the girls' trio, Judy O'Dell, Martha Masters and Lottie Sawyer. This bit of pleasure was followed by the serious business of the Class Will. Seniors Carolyn Yoder and Jack Devine read this for us.

Maxine Sage was awarded a scholarship medal; Frank Keelean, a citizenship medal; John Curry, an athletic medal and Frank Weyer, a student council medal by Mr. Greene, our superintendent. Seniors Marie Orr and Dick Latta looked into a crystal ball and read the Class Prophecy. Then Mr. Greene delivered a short entertaining speech, and the program was closed with a farewell address by Ginny Demski.

BAND ASSEMBLY

The faculty and the students in grades seven to twelve were treated to a fine assembly last week when the band presented an hour music program.

The band under the able leadership of Mr. William Janton, played a wide selection of numbers. These included: "Across The Field" by Dougherty; "Wiffenpoof Song"; "The Washington and Lee"; commonly known as "Varsity"; "Military Escort"; "Amparito Roca"; "Finale from New World Symphony"; "Great Gate at Kiev"; "Prelude in C Minor" by Rachmaninoff and Chopin's "Ode To Music".

Everyone will have an opportunity to see the band march and to hear it play when it takes part in the Memorial Day program in Clarkston.

LAST CHANCE FOR AIR TOUR TICKETS

This is the last chance for farmers in Oakland County to obtain tickets for the air tour to be held June 5 at Allen's Airport, one mile west of M-24 on Silverbell Road. In case of bad weather, the tour will be held June 6. The tour is sponsored by the Oakland County Soil Conservation District in cooperation with the Michigan Elyng Farmers and the Oakland County Extension Service.

Four 4-place planes, piloted by commercial pilots, will take farmers over northwest Oakland County to observe soil conservation practices established on farms as well as other points of interest. Such items as diversion terraces, terrace systems, tree planting, drainage systems, contour planted orchards, strip cropping, waterways outlets and scenic beauty will be pointed out by pilots flying the planes. Bob Koons, Soil Conservation planner for Oakland County, will brief all those taking the flights and show pictures of some of the points of interest.

A few tickets are still available and can be obtained from the Soil Conservation Office or the Extension Office at 1260 West Boulevard; the Soil Conservation District Board of Directors: Earl Voorheis and Ray Wheeler of Davisburg; Earl Braid and Keith Middleton of Lake Orion; and Harold Mitchell of Grand Blanc.

HIGH FOOD COSTS NOT FARMER'S FAULT ECONOMIST EXPLAINS

Ham and eggs have been pretty cheap recently, according to Arthur Mauch, Michigan State College agricultural economist, and farmers have been hurt financially in those products.

But Mauch also pointed out that consumers are still blaming farmers for high food prices.

A year ago, hogs brought the farmer more than \$21 a hundred pounds - the April price figure recently was less than \$17 a hundred. Eggs a year ago brought the farmer 44 cents a dozen; less than 34 cents a year later. In fact, the average of all farm prices dropped seven percent in the last year

FRUIT AND GARDEN NOTES

by Willard E. Bosserman
Assistant County Agr'l Agent

EUROPEAN CORN BORER IN SWEET CORN

Be on the look out for the European corn borer. The corn borer lays eggs on the under side of the corn leaf in the early weeks of June. The females lay 15 to 20 eggs in patches and can lay up to 500 eggs. The eggs hatch in a week to 10 days. The time to control them is when they are hatching. The European borer lives over winters as larvae in cornstalks, stubble or cobs. A good job of plowing under corn fields will help greatly in their control.

CHEMICAL CONTROL

Even with a good job of plowing, some insects will escape to damage this year's crop so some chemical control for corn borer will be needed. Starting when egg masses begin to hatch - make 4 applications with 5 to 7 day intervals. Use 3 pounds of 50% wettable DDT powder plus 1/3 lb. of wetting agent per 100 gallons of water. Apply 100 gallons per acre of corn. Use from 250 to 400 lbs of pressure. Adjust nozzles 12 to 18 inches from plant. It is better to use 3 nozzles per row.

PARSLEY HAS VARIED USES

Do you shy away from buying parsley because you haven't much use for it except as a garnish? Michigan State College home economists contend that parsley even though it generally comes in big bunches, can be a good buy.

Of course, parsley is best known as a garnish, but the left-overs are useful, too. Mrs. Hazel Amen of the MSC foods and nutrition department suggests chopping the left-over parsley into small pieces and drying in the oven. The resulting product is just like dehydrated parsley sold in spice cans. Soak it for a few minutes before you use it, Mrs. Amen says, and you have nearly fresh parsley except for the bright color.

Another use for left-over parsley is as a deodorizer in your refrigerator and it will act in the same way as commercial deodorants, Mrs. Amen says.

while consumer incomes have continued to rise.

Mauch cited two other factors which consumers frequently forget. One is that changes in farm prices aren't always reflected in the retail store. For instance, when the price for meat products dropped \$14 annually for the farmer, the consumer saved only \$2 because marketing costs went up \$12. And while hogs declined 23 percent, pork chops came down only six percent and bacon 10 percent.

MEMORIAL DAY

... The day we pause in silent meditation ... as cannon and rifles issue their sharp, penetrating salute ... and sombre, bugled hymns to fallen heroes drift across the nation. A time to remember - and to resolve for the future.

Joe Smith and Fred Jones died taking Hill 73 ... somewhere in Korea ... sometime last year. It was their Big Job in defending Freedom for their families and their nation. But Hill 73 is NOTHING - unless we, who are left behind, give purpose to their deed. Let us resolve now, to take greater interest in the business of BEING AMERICANS ... in the future of our government ... to vote (and THINK before we vote) at every election ... to make America stronger, freer, greater! This is the salute that all the Joes and Freds would prefer us to give them, on this Memorial Day.

GARLIC ADDS ZEST TO FOOD

The expression "a little bit goes a long way" seems to apply particularly to that small, potent member of the onion family, garlic. But like other strong flavoring, garlic adds a zest to everyday cooking if it is used in correct amounts, Michigan State College home economists believe.

Prepared garlic comes in two forms generally—ground garlic and garlic salt. The former is pure

garlic just ground up while garlic salt is a mixture of garlic, table salt and cereal. The garlic salt is milder, of course. Next time you make potato salad try crushing a clove of garlic in the dish before putting in the salad ingredients—but remove the garlic first. It will give an unusual twist to potato salad.

Today about 90 percent of all farm production moves to market by truck.

Liquid Lifesaver

A G.I. wounded in Korean mountain fighting gets a blood transfusion at a forward aid station. His buddies, who have just carried him down from the hills, look on anxiously. The only source of vital blood for battlefield use is volunteer donors in the United States.

Smooth, glazed surfaces, as in taffelized cotton prints or chambrays are among the best sellers. They are shiny and crisp and shed dust and dirt. Make sure the glaze is guaranteed to be permanent, however.

Embossed fabrics resist crushing and soiling. They make fine play clothes, sun dresses and street wear. Again, make sure the embossed pattern is permanent.

Any one of a number of cotton materials has a place in the summer wardrobe—calico, gingham, plique, denim, and others. Each has its own particular advantage.

Legal Notice

RONALD A. WALTER—Attorney
5 South Main St., Clarkston, Michigan

STATE OF MICHIGAN—The Probate Court for the County of Oakland. At a session of said Court, held at the Court House in the City of Pontiac, in said County on the 27th day of May, A. D. 1952.

PRESENT: Hon. Arthur E. Moore, Judge of Probate.

In the Matter of the Estate of William H. Hiller, Deceased.

Rose L. Hiller having filed in said court a petition praying that the administration of said estate be granted to Ronald A. Walter or to some other suitable person.

It is Ordered, That the 9th day of June A. D. 1952 at nine o'clock in the forenoon, at the Court House in the City of Pontiac, Michigan, be and is hereby appointed as the time and place for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order once each week for three successive weeks previous to said day of hearing, in the Clarkston News, a newspaper printed and circulated in said county, and that notice be given to the heirs-at-law named in the petition for administration filed in this cause by personal service of a copy of this order, or by serving the same by registered mail with return receipts demanded, addressed to their respective last known addresses, as shown by said petition.

OAKLAND COUNTY EXTENSION SERVICE NEWS
by Mrs. Josephine Lawyer Home Demonstration Agent
BUY ROSE CAREFULLY

Runs and breaks in stockings harass just about every woman at some time or other. But don't resign yourself as one who is always "hard on hose," urges Mrs. Josephine Lawyer, county home demonstration agent. Take care when you select hosiery and then take care after you have them and you will lengthen stocking lifetime, she declared.

It is not enough to tell the salesgirl you want sheer or service weights. Know the correct size (and remember to get them big enough to avoid undue strain) and know the gauge and denier numbers and proper length. The length should be so that the garter fastens to the reinforced top rather than the sheerer part beneath, Mrs. Lawyer said, but hose that are too short may break from too much pull.

Gauge indicates the fineness or closeness of knit; denier the fineness of nylon yarn. Today 51 gauge is considered low or coarse,

54 gauge is medium, 60 is fine, and 66 very fine. In denier 15 or 20 is fine yarn used in sheer hose and 30 the heavier for service weight hose. Very fine yarn calls for a fine or close knit to endure the tension of wear. Thus, 15 or 20 denier hose can be expected to last longer in the close 60 or 66 gauge; rather than the 51. The heavier 30 denier, however, can give good wear in 51 gauge or lower. The home agent added that brands differ in wearing quality, so when you find one that wears well, remember it for your next purchase.

NATURE'S FIBERS PROVIDE COMFORT

Man-made fibers shouldn't dim the homemaker's eyes to some of nature's wonderful fibers, advises Marjorie Eastman, extension specialist in textiles, clothing and related arts for Michigan State College's school of home economics.

The advent of the summer season should increase our appreciation of such fiber as cotton, Miss Eastman believes. "Think of the impressive qualities we could attribute to cotton," she says. "It stands heat and washing; doesn't melt or stretch when ironed; absorbs moisture; and resists alkalis."

Cotton's toughness and durability make it the logical choice year-round for work clothes, house dresses and many children's garments. Cotton dresses appear in all forms from casual sportswear to festive and expensive evening gowns.

Summer cottons are interesting for their textures, the clothing specialist points out. A variety of weaves and finishes permits any number of leasing materials.

Another tip offered by the MSC specialist is that yellowed nylon garments can be bleached successfully in a weak solution of household bleach.

Sewing with nylon may require some adjustment. Sharp, fine needles penetrate nylon easier and make smoother seams. The fewer stitches per inch, the better— as few as seven stitches per inch may be used, particularly for inside seams. Lower the tension on your machine until a well-formed, but loose stitch is made, Miss Middleton advised.

Nylon thread is best for sewing on nylon—or the new dacron thread on the market in white now is satisfactory. Using tissue or ordinary shelf paper under sheer fabrics while sewing often gives smoother seams.

Best way to sew with nylon is to experiment with your machine, Miss Middleton urged. Finishing and pressing nylon garments should be the same as with ordinary cotton; that is, to be sure to press each seam after sewing and finish all the raw edges.

THE RISK OF SELF-MEDICATION

The weather and human ailments are favorite topics of everyday conversation. The next-door neighbor is alert to recommend her favorite remedy for any set of symptoms. Another friend holds implicit faith in something else. You are caught in a cross fire of claims and counterclaims.

Artemus Ward observed that, "The trouble with people is they know too many things. What seem to be almost identical symptoms may result from entirely different causes."

Your physician has spent at least eight arduous years in the study of health and disease. He is thoroughly familiar with the techniques of diagnosis and treatment. His pharmacist's specialty is the preparation and dispensing of the drugs your doctor orders. When ill, first see your doctor. Then bring your prescription to us.

THE CHRYSLER NEW YORKER NEWPORT

WHAT ARE YOU DOING TOMORROW?

This invitation could result in the most important day of your motoring life. We'd like you to take the wheel and really drive a Chrysler New Yorker car. Everything good you've heard about this great car is true... and then some. Its new V-8 engine... its power steering... its power brakes... its astonishing comfort... each is an experience you will thrill to, and remember.

So... tomorrow... or any time that is convenient... come discover real power steering! Hydraulic power does 4/5 the work as you turn the wheel... and also gives you 5 times the usual control on bad roads... with the same wonderful "wheel feel" every mile!

Drive America's finest engine! Feel for yourself the acceleration, response, reserve power of 180 V-8 horsepower. Learn why owners praise the matchless performance they get... without even having to use premium fuel!

Feel what power brakes are like! Power from the engine boosts the power of your toe. With up to two-thirds less than normal pressure, you will get the surest, easiest stops in your life!

Test the comfort that's unequaled! On body-pleasing chair-height seats... with sweeping vision all around... you take good roads and bad on shock absorbers with over twice the shock-absorbing power of those on cars you've had before!

CHRYSLER
THE FINEST CAR AMERICA HAS YET PRODUCED

CLARKSTON MOTOR SALES

Helicopter rotor helps control orchard frost damage

This 22-foot helicopter rotor, spinning atop a 20-foot tower at a Michigan State College test installation at Beulah, Michigan, was found to reduce danger of frost damage under certain conditions. Night temperatures at 300 feet are sometimes 20 degrees warmer than those nearer the ground, and the helicopter rotor pulls down the warmer air and mixes it with the cooler ground air. In one test, the ground temperature 40 feet out from the machine rose from 26 to 35 degrees within a half hour after the rotor started. When orchard heaters were used with the wind machine in the same test, the temperature went from 26 to 38 degrees. For more information on this new weapon against frost damage in fruit orchards, write or telephone your County Agricultural Agent.

Efficiency speeds rural telephone service

In telephone work as in farm work, experience generally adds up to newer, better, faster ways of doing things. The linemen you see adding more telephone wire and cable in rural Michigan have plenty of telephone experience behind them. Last year alone they used that experience to increase by 9,000 the number of telephones in Michigan Bell rural areas. Today, 3 out of 4 establishments in Michigan Bell rural territory have telephones. And we're adding more just as fast as we can.

That hypnotism or mesmerism has no part in the healing method of Christian Science is clearly shown in the Lesson-Sermon entitled, "Ancient and Modern Necromancy, alias, Mesmerism and Hypnotism, Denounced" to be read in all Christian Science churches on Sunday, June 1.

The Golden Text is from Isaiah (59:19): "When the enemy shall come in like a flood, the Spirit of the Lord shall lift up a standard against him."
Among the Bible citations is this passage, (Eccl. 12:13): "Let us hear the conclusion of the whole matter: Fear God, and keep his commandments; for this is the whole duty of man."

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "In a world of sin and sensuality hastening to a greater development of power, it is wise earnestly to consider whether it is the human mind or the divine Mind which is influencing one." (p. 82)

NEWS and COMMENT from CONGRESSMAN DONDERO

SOCIAL SECURITY BILL

The administration bill to increase old-age and survivors insurance benefits under the Social Security Act met with defeat last week in the House of Representatives. But this does not mean that no cost-of-living relief will be granted Social Security pensioners. Quite the contrary, in fact. This bill came up under a suspension of the rules, instead of by authorization of the House Rules Committee. Under this procedure it was not possible to amend the bill or to delete objectionable provisions. As a result, the bill failed to receive the two-thirds majority required under the suspension.

Members of the House voting against the bill did so in the certainty that it will come up again soon, with the blessing of the Committee on Rules. Then it can be amended properly, and passed. I shall vote to amend the measure to provide more liberal pension payments to our old people.

Objections to the bill considered last week were based on two provisions. As the Social Security Act now stands, the years during which a prospective pensioner may have been totally incapacitated prior to reaching age 65 and becoming eligible for a pension are used in reaching an average of annual earnings under Social Security coverage. This results usually in a drastic reduction of monthly pension payments.

A provision in the administration bill would have eliminated use of the non-earning years prior to age 65 in computing such monthly payments. But the provision put determination of total incapacity under the jurisdiction of Federal Security Administration or Oscar R. Ewing, his agency would have been empowered to select examining physicians and to evaluate their reports in each case.

Under another provision, the small earnings allowance, before pension deductions, was inadequate. It failed also to encourage work activity on the part of pensioners who wish to continue some degree of activity.

When the bill comes before the House again, an amendment undoubtedly will be adopted to transfer jurisdiction over incapacity determinations to state agencies. I shall support the increase in annuity payments, and also an amendment to raise the amount of monthly earnings before pension deductions from \$50 to \$100 a month.

If we are going to continue to have old age pensions, and I think we should, then let us make them adequate and of some real benefit.

Here is an interesting example of the kind of thing which adds

Woods Comic

The rasels are cute but attempting to pick up a cub bear is an easy way to invite trouble. Mother bear usually is not far away, the conservation department notes, probably tearing apart old logs and stumps in her search for grubs and other insects. This time of year the pickings are somewhat thin with berries, nuts and other bear foods not yet available. Observe the claws on this "baby," typical of climbing mammals.

This would have been a move toward giving still more power over individual citizens to a federal bureaucratic agency. Especially so in view of the fact that Ewing and his staff are the chief proponents in government of Socialized Medicine, to which most Americans are opposed.

Green-tipped bananas are best for cooking — ripe bananas flecked with brown are best for salads and fruit cups. Try baking this fruit by placing it in a well-buttered pan and sprinkling with salt and baking at 375 degrees for 15 to 20 minutes. For variations, bake with brown sugar, molasses or cherries.

to confusion on the Potomac. The Army ordered \$20,000 worth of teapots and classified the contract as "top secret". In military purchasing catalogues, an automobile tail-light is a "light, special purpose, vehicular, and an ordinary water gauge; "indicator, liquid quantity".

Under another provision, the small earnings allowance, before pension deductions, was inadequate. It failed also to encourage work activity on the part of pensioners who wish to continue some degree of activity.

When the bill comes before the House again, an amendment undoubtedly will be adopted to transfer jurisdiction over incapacity determinations to state agencies. I shall support the increase in annuity payments, and also an amendment to raise the amount of monthly earnings before pension deductions from \$50 to \$100 a month.

If we are going to continue to have old age pensions, and I think we should, then let us make them adequate and of some real benefit.

Here is an interesting example of the kind of thing which adds

Card Of Thanks

My sincere thanks are extended to all those who remembered me on my birthday, on Mother's Day, and when I was ill. I thoroughly enjoyed the beautiful messages each card brought.
