#### F. F. A. Annual Ball **Saturday Night**

Everybody out - to the dance in the High School gym on Saturday, October 4th, when the Clarkston Firefighters will sponsore their Sixth Annual Ball.

This is really the big dance that starts the fall season. Great preparations have been made to assure a good time for everyone. The dance will start at 9 o'clock to the music by Don Smith and

His Orchestra. The firemen really go "all out" to make this the outstanding event of the season. If you have attended the ball other years then you know you will have a good time tween 30 yd, markers. this year. If you have never attended this annual affair then you want to make sure you're with the

crowd this year. Door prizes this year will be two \$25 defense bonds.

See you at the Clarkston High School on Saturday night!

AUTUMN - The hustle and oustle of the summer is over; the days of glaring sunlight and strength-draining heat are past; fall has quietly stolen in, and the rhythm of our life is slowing down a little.

With the full-blown maturity of summer we feel a strong surge of energy, a desire to accomplish, an undefined necessity of expending ourselves to the utmost. With all the demands of garden and fields, the chores multiplying as to be seen through, we begin to other petition. feel a little out of breath, trying to catch up with ourselves, our ambitious plans, and the speed with which nature works. She sets the pace, and we are in the race until the finish.

Then all of a sudden it is fall. the chicks and the ducklings have grown up; the cattle has grown fat; the work picking the last beans, the squashes and green peppers and tomatoes. We can take our time in harvesting the winter apples, and we can even combine the picking of the wild grapes with delightful walks over the fields and some rest on a sunny hillside where it smells so woodsy.

#### Reapportionment Of Achievement Day **State Legislature** Awarded F. A. C. S.

Becond of a series of articles on re-apportionment of the state creasing. This is evident in the levelature, presented as a public fact the American College of service by The Clarkston News Surgeons this year has conferred from information provided by the Fellowship on the largest number Oakland County Citizens League of doctors in its history. Buried under publicity focused on the national and state elections ers are being asked to decide on Nov. 4. Two of the three are concerned with re-apportioning the state legislature — and each contradicts the other.

Proposal No. 1 on the ballot concarns strengthening the narcotics

Proposal No. 2, backed by the CIO, calls for establisment of a 992member House of Representatives and a 33-member Senate both chosen on a basis of population, which in effect would throw legislative control to four counties Wayne, Oakland, Genesee and Saginaw, to the exclusion of other

counties. Proposal No. 3 calls for a balanced legislature, with a 110member House apportioned on population and a 34-member Senate based on geographic, social,

and economic interests. By a fluke, voters are being asked to decide not whether they wish their legislature to be reipportioned, but which of two plans to accomplish it they approve. The two proposals stem from efforts made since 1948 to force the legislature to carry out its constitutional duty to re-apportion the legislature every 10 years. A study group in 1948 advorated a balanced legislature plan, but the House failed to approve in 1949, 1950 and 1951. The Michigan League of Women Voters tried to bring opposing groups together behind one plan but failed, leading to a rash of proposalsby the AFL, by the State Federation of Teachers, and the CIO After seven months the CIO proposal (No. 2 on the Nov. 4 ballot) had enough signatures to force referendum. For the House, the present ceiling of 100 members would be raised to 110, with the ratio which would be assigned to each district determined by dividing the state population by 100, and setting up "moiety" clause (approximately half of the ratio) so that a county or group of counties would be entitled to a Representative upon having a population equal to half of the ratio. An additional Representative would be obtained for each full ratio above the 50 per cent-accounting for the additional Representative for Oakland

#### Plea To Motorists By School Head

"WATCH FOR THEM. THINK FOR THEM, PROTECT THEM!"

NUMBER 5

Mr. L. F. Greene, Superintendent of the Clarkston Community Schools, made this appeal to motorists today as he asked their support of Clarkston's October Child Safety program which is being conducted in co-operation with

the National Safety Council. "Children are heedless", Mr. Greene pointed out. "You can't expect them to be constantly on the alert for traffic, and you can't penalize them even when they are

in the wrong". National Safety Council figures show that approximately 4,300 children under 15 years of age were killed in motor vehicle accidents in 1951. He pointed out that many accidents in which child pedestrians lost their lives could have been avoided if the motorists involved had thought twice-once for themselves and once for the

children they struck down. "With the reopening of school last month", Mr. Greene continued, "more children will be on the streets. This means more chances that they may be killed and injured by motor vehicles. . . UNLESS . . . every motorist in this town appoints himself a committee of one to protect our chil-

dren." Mr. Greene said the first sten in this direction is for motorist to realize that they can't expect adult reactions from children 'Expect the unexpected' shoul

be the watchword," he said. "Youngsters crossing the stre heedlessly or darting out into traffic without warning are a constant danger to motorists and to themselves."

He warned motorists to be on the look-out for children at all times and to slow down when driving in residential districts or near schools, playgrounds, or vacant lots. He especially cautioned drivers to keep a sharp eye out for moving children - children running, on roller skates, in coaster wagons, or on tricycles and scooters — children playing on curbs, in alleys, and between

parked cars. "Children trust you, Mr. Motorist. Don't strike them down!"

# GIVE ME HEALTH AND A DAY

\* "Give me health and a day and I will make the pomp of emperors ridiculous" was Ralph Waldo Emerson's terse but eloquent opinion of the value of health. The vibrant, glowing health of which he speaks is seldom an accident of birth. Its price is

At the first sign of illness see your family physician. He is your skillful and never-failing ally in the preservation of health. If, in his judgment, medication is needed, bring your prescription to us.
