Rotary Hears Thanksgiving Talk

On Monday evening the Rotary Club enjoyed a Thanksgiving Program with the Reverend Robert M. Atkins in charge. Mrs. Jack Wignall sang two numbers: "The Blind Plowman" and "The Last tion of each high school to choose Hour". Her accompanist was Mrs. a Good Citizen representative from William Watson.

Mr. Atkins' talk centered on the first and second great documents written on American shores. The is given a \$100 war bond. All girls first was the Mayflower Compact. The Pilgrim Fathers laid the foundation of our national, spiritual and political heritage when they combined themselves "together in a civil body politic for our better ordering and preservation and furtherance of the ends aforesaid, and by virtue hereof to enact, constitute and frame such just and equal laws and The principal of equality before the law under the sovereignty of God is inherent and explicit in the

Mayflower Compact," Mr. Atkins continued: "The United Nations Charter adopted were Lela Jones and Patricia at San Francisco in 1946 has as its Tisch. major emphasis its consecration to peace. The charter declares 'We the people of the United Nations determine to save succeeding generations from the scourge of war'

The group enjoyed Mr. Atkins' talk and were happy to hear some thing so inspirational from one of their own members.

A committee from the Mantha Circle of the Methodist W. S. C. S. served a delicious dinner.

It is a habit to issue the Thanksgiving issue of The Clarkston News early but this year with the rush of work and the matter of deer hunting we are issuing only four pages. Next week we will be back to normal. In the meantime you will find real bargains for that Thanksgiving dinner in this issue, May you have much to be thankful for this year.

Arthur Clark of Detroit spent the weekend with his parents, Mr. and Mrs. Lee Clark. He will join his wife and family in Grand Rapids for Thanksgiving.

Thanksgiving

From the scramble of life we hope to emerge With material wealth and spiritual urge,

To better our land and the place where we live And some contribution to society

In the kindness of man we are wont to believe, As we give hallow thanks for the gifts we receive. Saying thanks is a phrase a parent

will teach. A child in his youth as a figure of speech.

There isn't much thought instilled in the mind

The giver need not have been gracious and kind That each little kind deed or part of his wealth

Was something he'd given to you of himself.

One hasn't the time or the mind to recall The millions of gifts God has given us all.

Each day of our lives there are blesssings anew,

That we take in their course with little ado.

We take it for granted that life should be good, While the cause of our blessings is not understood.

Poor millions on earth in turmoil are teaming. To whom Thanksgiving Day has no special meaning.

For they are the victims of war and its greed. They live in the shadows of feat and of need.

Let us who have much for bounteous living Shout praises to God this day of Thanksgiving.

High School Chooses D. A. R. Good Citizen

Every year the Daughters of the American Revolution, an organization which encourages good citizenship, asks the senior students, the faculty and the administratheir school. From the high school students chosen, a State Good Citizen is selected. The State winner chosen as the Good Citizen in their school will be given a Certificate of Award from the National Society. These Certificates will be presented at a luncheon at the State Conference.

The following qualities are used as a basis for determining the selection of a Good Citizen: dependability, service, leadership, and patriotism.

Clarkston High School has selected Virginia Demski as its Good Citizen. Virgina was chosen from three Senior girls considered for the honor. The other two girls

Virginia resides on Mann Road and has attended the Clarkston School since 1947.

FRESHMEN ATTEND FOOTBALL GAME

"Go, State!" was the cry of a group of Clarkston freshmen who piled into 3 cars driven by Mr. Carlson, Mr. Snover and Mrs. Shanks last Saturday morning. They attended the Michigan State-Marquette football game in East Lansing. Since it was the first time most of the group had ever attended a big college football game, this was really an exciting experience. Everyone had a fine

HIGH SCHOOL CLARKSTON DEBATE MEET

On Wednesday night the Clarkston debate squad met at Doris Kasat's home. They worked on speeches for their coming practice debates with Lake Orion. Delicious refreshments were served to the group by Mrs. Kasat, These included a casserole dish, jello salad, homemade rolls, cake, ice cream and cocoa.

Clarkston's first league debate will be on December 10, at Clarenceville. Our first debate in the general State competition will be with Detroit Country Day School before December 6.

Our hot lunch progr going full force in all of the Clarkston Community Schools, Every meal is as well balanced as they are delicious. Mrs. Wells and our cooks are really doing a fine job.

Many of the mothers would be proud to see their children clean up their plates -- and they are abundant portions. We really get our money's worth.

This Wednesday there is going to be a special Thanksgiving Day dinner of: roast turkey and dressing, mashed potatoes, buttered green peas, cranberry sauce, bread and butter, milk and ice cream sandwiches.

The annual Oakland County Dairy Banquet will be held next Wednesday, Dec. 3, at 7:30 P. M. at Commerce Masonic Hall, A very interesting and informative program is being planned.

Many farmers have told us they were very glad to hear that Mr. G. J. Hays of the Dairy Department at Michigan State College is going to be the speaker at the banquet. He is talking on, "Dairy Mistakes the Neighbor Makes".

If you haven't a ticket yet, call FE 4-2564 (the Extension Office) and we will be glad to reserve one for you.

SANITATION A NECESSITY .

Unsanitary conditions cause the loss of a great many livestock, even more than the much-publicized VE disease (vesicular exanthema). Good sanitation practices will save many dollars and a lot of work and worry.

Is hypnotism a true remedial agent? This important question is discussed in the Lesson-Sermon to be read in all Christian Science churches on Sunday November 30 under the title: "Ancient and Modern Necromancy, Alias Mesmerism and Hypnotism, Denounced".

The Golden Text is from Proverbs (21:12): "God overthroweth the wicked for their wickedness.' Among the Bible citations is this passage, (Col 2:8); "Beware lest any man spoll you through philosophy and vain deceit, after the tradition of men, after the rudiments of the world, and not Class at Fenton at 7:45.

tree family" at Christmas time one indoors and one on the lawn? Home owners would do well to work a live yule tree into their landscape design to use year after

Use caution in your evergreen selection. For spacious grounds, there are Englemann spruce Colorado green spruce, white spruce or firs grown in a nursery that are appropriate. They should not be used within 20 feet of buildings; their mature size is too large for use near your house.

Avoid a "lone wolf" location. Work the living yule tree into a group of other plants for yeararound appeal. Attractive branched Euonymus shrubs for medium height and pfitzer junipers or Japanese spreading yews for low growth will round out the picture.

Your tree should be scaled to surroundings. On a city lot, a foundation evergreen — cedar, arborvitae, Cannert cedar, upright Japanese yew or other evergreen dwarfs - may serve the purpose with the aid of a floodlight or a nestled spotlight. Snow, colored light - and you have your Christmas scene.

TRANSPLANTING EVERGREENS

Cut away sprawling roots and compact the root system so more roots are intact — and balling with earth and burlap are necessary to success in moving an evergreen for decorative purposes. The root pruning should be a year before the moving. The transplanted tree should be watered thoroughly until the soil freezes solid and then mulched. So-called "Christmas trees" can be moved fall or winter; it is simplified with a frozen ball of earth — facilitated by previous root pruning and digging a trench around the tree before the freeze-up. Lift the tree from beneath, not by the trunk. A mulch of straw or other organic matter will hold moisture near the root area.

Has Memorial Fund

A Memorial Fund, proceeds cretion of the Chapel Committee, for securing furnishings and improvements of a permanent nature as may be needed in the worship and work of the church, was set up by the Chapel Committee of St. Andrews Episcopal Church, Drayton Plains, at its monthly meeting Monday night November 17th.

This Fund — to be known as St. Andrews Church Memorial Fund, will receive donations and contributions from relatives and friends of those who having passed from among us in their bodily presence, may be kept alive in memory among us through being may have their memories perpetuated among us through being embodied in the work of the church.

The immediate occasion for the starting of the fund, was a contribution from 'neighbors' received 'for the work of the church' in lieu of flowers at the time of the burial of Mr. Arthur J. Holstein, of Lake Shores Road, Lake Angelus. There is a growing custom throughout the land that Christian expressions of sympathy at times of bereavement should be of such nature that the work of goodness, beauty and truth in the world should be enhanced in the spirit of Christ rather than in lavish displays which do not arise into good works.

In connection with this fund Rev. W. R. Hunt announces that names of those memorialized will be kept in a special Book of Remembrance' and names of donors will be forwarded to the bereaved through special acknowledgment of thanks' cards which are being prepared.

America and its people did not become great through accident. A country founded on sound religious precepts, on a strong ethical base and following a program of conscious thrift must succeed as ours did. And an individual pursuing the same course will reach the same successful goal. Prayer, ethics, thrift — here is a program for all of us. We are proud that we too play a role in this program that is still making America and its people so successful.

Corncob Filler Used for Light-Weight "Insulated" Concrete

Ground corncobs, used as a filler, may produce a lower cost, lighter weight, better insulated concrete for Michigan farmers. Tests by the Agricultural Experiment Station of Michigan State College, using various combinations of corncob, cement, sand, gravel, lime and limestone, have produced concrete slabs and blocks of sufficient strengths to meet many farm construction needs. Ordinary nails may be driven into the concrete without difficulty. Corncobs are cut into pellets ranging from 1/8" to 1" thick, which are then thoroughly soaked in water before mixing. Wall and floor slabs of corncob concrete were exposed to weather for 20 months, through 2 winters, and showed no apparent defects. Call or write your County Agent who will have further information as

In their constant search for ways to hold down costs and improve service, telephone people developed a tiny electronic tube that amplifies hundreds of long distance conversations at the same time. It's six times more sensitive than earlier tubes. Compact and rugged, this mighty midget is an important contribution to efficiency these days when telephone equipment must handle more calls from more telephones. Incidentally, 7 of every 10 establishments in Michigan Bell rural territory have a telephone now, compared with 3 out of 10 in 1945.

Vernonware 1860 is designed in deep brown around the rim with a picture in the center contemporary to the 1860 period. There are six beautiful pictures in colors in the collection. They represent the true "Southern Hospitality" and extend to you and your guests a homelike feeling.

OTECT CARPETS ND RUGS

Though fall is not normally the clothes moths and carpet beetles chewing holes in our woolens, it's recognize no season in a wellheated home. Wool rugs and carpets, for example, can attract pests throughout the year.

. Fortunately, entomologists of the U. S. Department of Agriculture have found that simply spraying regular cleaning. a rug with a 5 percent DDT solution will protect it from damage by these fabric-eaters for a year

The entomolgists have proved the success of this treatment in their laboratory at Savannah, Ga. Over the sprayed rug passed the normal daily traffic of a busy office. It was vacuum-cleaned once a week. Yet, after 12 months, about 40% of the DDT - a lethal dose for any carpet beetle or clothes moth larvae - was still in the rug; and after 15 months, enough DDT remained that the pests fed
