BIOGRAPHICAL SKETCH OF JUDGE H. RUSSEL HOLLAND

Circuit Judge H. Russel Holland who resides at 117 E. Iroquois Rd., in Pontiac, is seeking re-election at the election on April 6th.

I am 55 years of age; have resided in Pontiac in Oakland County for 25 years with my wife, Ruth H. and my two teenage children, H. Russel, Jr., and Sharon.

In offering myself for re-election, I wish to make the following statement and promise:

"I feel that I am qualified by training, temperament and practical experience for the office of Circuit Judge. I have always had a keen interest in people and in their varied problems. This, I first acquired as a school teacher and practicing attorney. My daily experiences as a Judge upon the Bench have increased this interest in human problems and have greatly added to my legal and practical knowledge in being of service to all who use our courts. I have tried to serve the people of Oakland County conscientiously and to the best of my ability. If re-elected, I shall continue to perform my duties conscientiously

and in a manner that will reflect credit upon our courts.

One of the problems to which I have given special time and personal attention is the matter of divorce. Singled out for special attention has been the matter of child custody or placement and seeing to it that both parents are given fair and adequate rights to know and visit their children. A half a day a week is devoted solely to interviewing divorced parents and adjusting countless problems with emphasis upon child support so that such children may not go unsupported or become public charges.

Efficiency in court procedure has long been one of my chief concerns. It is my policy and constant effort to have litigants, lawyers and witnesses, whether businessmen and professional men from the office or working men from the factory, heard promptly, so that time and wages are not wasted by coming to court."

Some purely biographical data is as follows: Graduate of Palmyra Normal High School; received B. A. from University of Richmond; attended Officers' Training Camp, Plattsburg, N. Y., in 1918; served 2 short enlistments in the Army during 1918, the latter being terminated December 12, 1918, because of the Armistice; Principal of Stuart High School, 1920 to 1924; attended University of Michigan Law School for 6 summer quarters; graduated from the Detroit College of Law in June, 1926, with degree of Juris Doctor; taught United States history at Detroit Northern High School for 2 years while attending Detroit College of Law; passed State Bar in September, 1926; practiced law in Detroit; resident of Pontiac since June, 1927; engaged in the general practice of law in Pontiac; first Associate Justice of the Peace for the City of Pontiac from August 1929 to April, 1930, and full time Justice of the Peace for Pontiac from July, 1931 to July, 1933; one of the 3 Circuit Judges for Oakland County since January 1, 1930.

I have been active in and president of the following: Y. M. C. A., Rotary, Michigan Judges' Association, Red Cross, Oakland County Chapter, Junior Chamber of Commerce and Bethany Baptist Church. I have been actively affiliated with the following groups for many years: Elks, Masons, Chamber of Commerce, American Legion and Director of the Urban League.

BIOGRAPHICAL SKETCH OF JUDGE FRANK L. DOTY

I was graduated from Pontiac High School in 1901. I attended the University of Michigan and received an A. B. degree from that institution in 1905, and an L. L. B. degree in 1907. I then began the practice of law. In 1912 I was elected Prosecuting Attorney, and also in 1914.

In June, 1916, I went to the Mexican Border with Company E, 33rd Michigan Regiment, National Guard, and served on the border as a First Lieutenant of Infantry during General Pershing's Punitive Expedition into Mexico, returning from there in March, 1917. I transferred to the Air Corps and was commissioned a First Lieutenant. I left for France in November, 1917, where I took flying instructions. I became a pilot, was promoted to Captain and given command of the 21st Aero Squadron. I was mustered out of service in April, 1919, and returned to practice, being associated with George A. Cram under the firm name of Doty and Cram.

In September, 1927, I was appointed to the Circuit Court bench of this circuit by Governor Green, which position I have held since.

Fraternally, I am a life member of the Elks, and a member of the Knights of Pythias. I am also a 32nd Degree Mason and a Shriner. In 1919 I helped organize the Cook-Nelson Post of the American Legion, and became its first Commander. I am also a member of the Veterans of Foreign Wars. Socially I am a member of the

Detroit Athletic Club and the Orchard Lake Country Club. I am also a member of the First Presbyterian Church.

Before I became a member of the Circuit Court bench, I was active in Community Chest drives and on two occasions was Chairman of the drive.

I own and manage a dairy farm located in the Township of Rose, where I was born and lived until I entered high school.

"Biff" Falls for His Own Story

Biff Morgan's four-year-old daughter Rusty is something of a night owl. Stays awake way past her bedtime.

Every night Mrs. Morgan complained about how hard it was to get Rusty to go to sleep. Finally Biff decided to handle the situation. "Anyone can get a kid to sleep — takes a little patience! Here, hand me her storybook."

He grabs the book and goes into Rusty's room. About an hour later Rusty comes padding out in pajamas and hands her mother the book. "Read it quietly," she

whispers, "so we don't wake Daddy."

From where I sit, Biff won't be so quick to be a "child-care specialist" the next time. If we could just resist being such "know-it-alls," our neighbors would be better off. Take those who would deny me a glass of beer with my supper — well, I might not care for the buttermilk they like. We all ought to realize that we all have different abilities and different preferences, too.

School News

KINDERGARTEN NEWS

After many anxious weeks we have begun work in our "Getting Ready To Read" workbooks. This book is designed to introduce the child to the first steps of learning to read through an informal approach. The first few pages are concerned with training in observation, reproduction, color sense and ability to follow directions.

We also have been busy constructing pictures and modeling clay indicative of spring. Examples of our clay work have been robins, bluebirds and nests.

SECOND GRADE NEWS

The birds are coming back. In our room you'll find that the red-winged blackbird, robin, bluebird

and meadowlark are already here. We colored, cut out and put these birds with their natural backgrounds on our bulletin board.

We are glad Sue Lynn Allen was the winner of the school talent show for kindergarten through third grade. She tap danced to the "Blacksmith Blues".

In arithmetic we are learning to use a ruler. In addition to the regular work in our book we have made kites, birthday cards, book marks and pin wheels, using our rulers to measure accurately.

FOURTH GRADE NEWS

We are now studying about the Southern Hemispheres and we like it very much.

We made Easter rabbits and put cotton on for their tails.

We have ten new dictionaries in our room.

Tom Kreger

FIFTH GRADE NEWS

We are happy to have the P. T. A. attendance banner in our room again this month.

Georgie Robinson has gone to Florida for a few weeks.

We have made a large poster on our bulletin board showing signs of spring.

Friday is the end of the marking period so we are busy taking tests.

SIXTH GRADE NEWS

We have learned how to multiply mixed numbers with fractions.

Our gardens are growing fast. The third rows garden is growing the best.

We had a spelling bee last week. Susan Johnson won. We are studying hard for the other spelling bee.

Written by Barbara Root

SEVENTH GRADE NEWS

The seventh graders are recuperating from another session of six weeks' examinations. Many are happy to report that their work has improved.

Spring fever is in full bloom, bringing restlessness and paper wads. The latter sport, fortunately was short lived.

We are glad to have Robert Knight and Nancy Curtis back after their long illnesses.

Our ranks have increased once more with the addition of six new students.

The science classes have been studying magnets and have done interesting experiments.

The students are beginning a unit on "The Mail's Here!" Different kinds of letters will be studied and an effort will be made to improve their correspondence.

REHEARSALS UNDERWAY FOR LOVE IS TOO MUCH TROUBLE

Rehearsals for the Junior play "Love is Too Much Trouble" are being held each night after school.

There has been one change in the cast. Mary Dean will appear as Shirley, the campus belle, in the play, in place of Nancy Morgan who has left school.

Committees to make arrangements for the play are already busy. Chairmen for these committees are: stage managers, Harry DeVar and Jim Shadlowsky; tickets, Charlene Barber and Barbara DeConinck; publicity, Bud Clement; programs, Eileen Jones; lighting, George Gleason.

The play will be held on two nights this year—April 16 and 17.

A STUDENT COMMENTS ON SATURDAY EVENING POST ARTICLE: HOW TO TEACH YOUR KIDS TO LIKE MUSIC—JASCHA HEIFETZ

This article has some very good

points in it. The standard piano for every home is an excellent idea. There has been a piano in our house ever since I was four and I never really feel at home in a house that doesn't have one.

Music certainly does help to relax a person. It can drive away the blues; put you to sleep or help you think out problems. I think the piano is a much better instrument to relax by than say a clarinet or trumpet, unless you really enjoy playing them.

The idea of hanging on the piano is good too, although it would probably drive everyone in the house mad.

I agree thoroughly with not forcing a child to play in front of people in the home. If he or she really wants to play for the persons there they will go to the instrument without being asked or ask them if they would like to hear him play. Talking or boasting about how well your child plays I think could make them feel inadequate, especially if he hears you.

The point of having a child of 7 or 8 practice between 1 and 2 hours a day, 7 days a week I do not agree with unless as Mr. Heifetz says he is really a genius. It can take the interest out of practice quicker than anything else.

Maybe kids don't like to practice, but I think they should have some interest in it or else it seems like a hopeless case to try to teach them music. My opinion is that a person can never be really good at anything until he enjoys what

he is playing and really gets a kick out of seeing things improve during his practice period.

This was a very interesting article. Too bad our parents of high school students couldn't have read one like it before they were married and we came along.

SCIENCE NIGHT PROGRAM AT C. H. S.

Last Wednesday evening the first Science Night Program was held in the high school gym. The dance band, under the direction of William Janton, played some fine music while the audience inspected some very interesting displays set up by Mr. Carlson's physics class.

The General Electric "House of Magic" show was then presented by S. L. Roth and Ed Davison. Charles Matthews of the Detroit Edison Co. made it possible for the show to be presented in Clarkston.

The dance band again played while the electrical equipment was being moved from the stage, and the set for the one-act play "Paul Splits the Atom" was being arranged. This play was presented by Miss Spies' speech class and included "Chuck" Robertson, Solvej Petersen, Bob Booth, Roger Allen, Nancy Thayer and Doris Kasat as the actors.

The program was varied and interesting. We hope that those who missed the Science Night this year can come and enjoy a similar program next year.

No other light trucks have all this

YOU don't expect polo-pony agility from a truck in traffic—but the new GMC's have it.

You'd like to have passenger-car pace and economy on the highway—and you'll get it from the 1953 GMC's.

For there are two great advances that step the new GMC's ahead of all previous truck performance:

One: Dual-Range Hydra-Matic Drive—the fully automatic shift with 3 speeds for traffic, 4 for the open road—available on 19 models through the 1/2-, 3/4- and 1-ton capacity range.

Two: a new line of engines of progressive design, with compression ratios of 7.5 to 1 and 8.0 to 1—the highest of any gasoline truck engine ever built. Here's pile-driver power behind every piston stroke—flashing

response and better mileage are squeezed from regular fuel.

Many chassis advances, too, add to the extra-value features that make GMC's, point for point, the biggest dollar's worth in the light-truck field as well as in the heavier lines.

We confidently tell you—these great new GMC's will do your job better, easier, and at the lowest over-all cost. They have stamina beyond their size, because they're "built like the big ones"—the heavy-duty GMC's that lead the world in sales.

That's saying a lot. But just come in—and we'll prove it.

What do you do with the mess?
Pop it ALL in an **ELECTRIC Incinerator**—

Burn Trash and Garbage Indoors
House cleaning is not the job it used to be if you have an electric incinerator. You get rid of burnable trash immediately . . . without lugging it outdoors, without watching fires. When it comes to garbage, you have the same easy answer to your disposal problems. Completely automatic, an electric incinerator makes mere handfuls of ash out of anything that's burnable.
Start enjoying the convenience of this handy household helper. It waits for you at your plumber's, electric appliance dealer's, or nearby Edison office.

ROBERT W. HODGE, SEEKS JUDGESHIP
A candidate for Circuit Judge, Sixth Judicial Circuit, Oakland County, is Robert W. Hodge. His name will appear on the ballot on April 6th.
Mr. Hodge is a property owner and taxpayer, residing in the Village of Lake Angelus, with his wife and two children.
In 1923 Mr. Hodge received his Bachelor of Science in Engineering at the University of Michigan and in 1931 he received his Juris Doctor at the Detroit College of Law. In 1931 he was admitted to the Bar of Michigan and in 1937 to the Bar of the U. S. Supreme Court. Mr. Hodge is in the general practice of law, maintaining offices at 1307 Pontiac State Bank Bldg., in Pontiac. Mr. Hodge served as Chief of Police at Lake Angelus from 1940 to 1947 and as Clerk of Lake Angelus from 1941 until the present. He was Oakland County Republican chairman from 1940-1942. He is a former director of the Royal Oak Chamber of Commerce; former director of Royal Oak Family Welfare Association; former director and president of Oakland County Citizens' League and a trustee of Civic Research Inc.
Mr. Hodge says: "I believe that a full choice should be offered on the ballot. This has not been done in this county for 18 years. I respect the abilities and integrity of all my opponents. We can, I believe, prove that men can contest honorably for public office without rancor and bitterness, recognizing that only such as can do so are qualified for judicial duties. "The job of Circuit Judge is one requiring hard and exacting work. It is a six-year term and a 'tough assignment'. At 49, with more than 20 years' experience, I am one of the youngest men seeking the bench this election."

Appreciation

How wonderful it is to have friends — real friends who are so willing and always ready to do a good turn. This is how I feel about the good people of Clarkston and Independence Township who, for the past fifteen years, have been kind enough to elect me Township Treasurer. I have appreciated your thoughtfulness and in my humble way would like to say "many, many thanks". Although I am leaving Clarkston to live in Pontiac I will always feel that my hometown is Clarkston.

Mrs. Carrie Walter

Card Of Thanks

I want to thank my many friends who remembered me while in the hospital, for the many cards, letters and flowers. Also to all of you who called on me, the American Legion, the Masonic Lodge, the Baptist Church and the Reverend George Halk. It is mighty nice to be remembered at a time like this. It makes the days go by much faster, I assure you. Again I thank all of you folks for everything.
