CLARKSTON, MICHIGAN, THURSDAY, APRIL 2, 1953

#### **Fund For Lights** For School Field **Gets Good Start**

The fund for the school athletic field lights is off to a good start. The Home Talent Show last Saturday night was a real sucess and the Student Council, the Rotary Club and all who helped in any way are pleased with the results.

The program was exceptionally good and for a show of this type it went along quite smoothly under the able directing of Ernest Burt. The stage setting was unusual and very appropriate as it depicted Cannibal Island with the King holding sway and having his wishes fulfilled by two slaves. The King was Leslie H. Greene school superintendent, and the slaves were Robert Yahnke and Larry McNeil. Leigh Bonner was responsible for the make-up on the king and the slaves and he certainly did a professional job.

All of the acts were enjoyed and in between introductions Mr. Burt kept the audience amused with his little witticisms.

The Student Council is deserv ing of congratulations on the success of their venture and it is hoped that other organizations will make an effort to help-the students get the lights for the athletic field. Terry Brown and John Bennett are to be commended for

#### **Good Will Truck** Here April 20

The Goodwill Industries will be in Clarkston for the regular spring collection of discards, on Monday, April 20th.

If you wish the truck to stop at your home phone MA 5-4321 or stop in and leave your name and address at The Clarkston News Office, 6188 S. Main St.

#### **Variety Show** Saturday, April 11

The board of control of the Clarkston Community Center has decided to do something about remodeling the kitchen. They have plans for the better arrangement of equipment to facilitate preparing of dinners. It will take money, so the Saturday Night Dance Club has volunteered to sponsor an All Star Variety Show on April 11, 1953, at 8 p. m., at Clarkston High School Auditorium.

Some of the acts that have consented to appear are: Dr. H. A. Miller, Magician, of Pontiac; Mr. and Mrs. Victor Lindquist of Waterford, she is soloist at Christ Church of Cranbrook; Millers Morons, a pantomine group from Union Lake; a roller skating act from Pontiac Rolladium; dancers and baton twirlers from "Jackie Rae" Dance Studios Billy Terry and his Organ; some of the outstanding local talent and couple of surprises.

Come and spend two hours enjoying yourself for a good cause. You may purchase tickets from any dance club member or group using the Community Building.

#### Davisburg News

On Good Friday evening at 8:00 the three choirs of the Davisburg the work they did on the pro- Methodist Church will present a special program of Easter and Good Friday music. All three choirs will participate. Heard in solos will be Carol Roberts, Pauline Walls, Norris Walls, Ward Rohm, Mildred Chanter, Mildred Swift, Margaret Saunders, Marshall Saunders, Amy Mills will be the accompanist and Edith Tower will direct. The public is invited to share in this Holy Week pro-

> The Reverend Ralph Brown former pastor of the Davisburg Methodist Church, was the guest speaker at the service following the Lenten dinner at the local church. Rev. Brown spoke on the theme "Still Great Temptations" and sang several selections for the evening service. The Rev. Brown is now serving a charge in Flint.

#### Clarkston Locals

Mr. and Mrs. Elmer Boadway have returned from a three weeks trip in the south. They spent a few days in Corpus Christi, Texas, with their son-in-law and daughter, Mr. and Mrs. Erwin Mosher. On their return trip they went around by Florida and came up

Mr. and Mrs. George Marshall have returned to their home after enjoying several weeks in Florida. They spent some of their time in St. Petersburg and Winter Garden.

A card comes from the Kenneth the Convention of the National Association of Mutual Insurance Agents in New Orleans. They are enjoying a fine program and exellent weather. They found the French quarter in that old city, quaint and interesting. They intended going on to Mobile to see Bellingrath Gardens which are a beautiful fairyland at this time

#### **Rotarians Hear** Prof. DellaQuadri

The speaker at the Rotary Club meeting on Monday evening was Carmen DellaQuadri, who is a professor in labor relations at Wayne University in Detroit and who chooses to reside in Clarkston. His discussion covered the teaching of labor relations at our Universities and it was very interesting. While this was not his subject, the talk seemed to propose that the labor union was here to stay and the solution was how best to live with it.

The dinner was served by Mrs. Paul Henry, assisted by Mrs. Charles Lippincott, Mrs. Glenn Howland, Mrs. Floyd Lawrence, Mrs. Gray Robertson and Mrs. W. H. Stamp.

#### **New Organization Formed Saturday**

Mr and Mrs. Bart Zeunen and heir daughter, Kathy, of Clarion Farms on Walters Lake were among the forty-two guests from eleven Michigan cities who assembled at the home of Mr. and Mrs. Walter Kane, Pontiac Trail, South Lyon, Saturday evening . . . . during which an organization was formed, whose puprose shall be to promote the best interests of all Morgan horses.

Never before has there been a movement started intended solely to benefit the Morgan horse thereby making the position of all Morgan horse owners in this area of increasing importance and their influence and responsibility ever

In addition to her hunter, Folly's Image, a blue ribbon winner, Kathy is now the proud owner of the registered Morgan mare, Joanne, who was the 1952 Michigan State Fair Reserve Grand Champion Morgan Mare, as well as blue ribbon winner at other Michigan fairs. Kathy expects to show Joanne in this season's shows and fairs.

This breed of horse was founded by Justin Mongan in 1789, who was the foundation sire of all American breeds of horses and is the only breed of horses in the world to bear a man's name.

Other Morgan owners in this area are Clyde Wheatley of Big Lake Road and Miss Joyce Spooner of Ortonville Road.

#### Random Thoughts

SPRING - So now and then we hear a cynic say, "Spring is overrated." And if it happens, to be a blustery day, with the wind still nipping at our cold nose and little white flakes drifting down to hide the just-greening fields, we feel like agreeing with him. Sure, after the winter we get a few days so once in a while when the temperature is high up in the sixties; when a gentle breeze caresses our face which we lift hopefully to the bright sky. But those days are always followed by some uncomfortable cold weeks until all of a sudden we get real warm weather. We ask ourselves: how much of this spring eagerly hoped for, much heralded, and sentimentally praised in ballads have we really had?

But still, every year finds us anxiously awaiting spring; we are excited and wax poetic when this season comes around again. We do experience a lift of the spirits, a quickening of the force of life, a veering towards optimism, a secret desire for romance and love. No amount of scoffing at the short and disappointing kind of spring we have here in Michigan cures us of this.

I think it doesn't matter what the temperature is, or how short the sweet, mild days last. We feel the way we do because we are part of nature, and we experience, as much as the plants and animals, the rebirth which takes place.

green blades of grass, the sunny arrival of the first dandelion, the swelling of the buds on the trees and shrubs, the courage and strength with which the narcissus and the tulip push through all the leaves and dead grass which give us a lift. Our step is lighter; our head is held higher; our troubles seem less. See, how from the dead. Now, surely, everything will take a turn for the better. How great it is to be alive; how marvelous to be part of this general rebirth!

Our hope is renewed, our courage strengthened, our faith reborn. HAPPY EASTER!

-Louise Hemsin

# Albion College Band In Clarkston April 19th

The Albion college band and orchestra will present a concert Sunday, April 19, in the Clarkston High School at 2:30 p., m., under the direction of Dr. Conway Peters, as part of their annual spring concert tour from

April 19 to 26. Included in the two part program will be the orchestra offering the "Romeo and Juliet Overture — Fantasy" by Tschaikowsky and the "Nut-Cracker Suite" by the same composer. This composer might well be singled out as the one most representative of the Various phases of thought characteristic of the close of the ninebeenth century. His unique feeling for orchestral color has opened. our eyes to new worlds of beauty. | Hungarian Rhapsody" by Liszt.

The second portion of the program will be presented by the band, opening with "Albion, Dear Albion" by Rowland. Other numbers will include "The Three Jacks" by Walters, featuring three trumpeteers; "His Honor, March" by Fillmore; "Variations on a Theme by Chopin" by Demersseman with a flute sclo; "Spook Eyes" by Frangkiser, and "Fight

Only Albion" by LaVigne-Peters, A number, "Finale, Symphony in D Minor" by Franck has been chosen to be performed to show his influence on the modern trend of musical thought in France, while musical interest will be created by syncopation and rich ornamentation in the "Second

Selected for its stimulating and forceful contribution to contemporary band literature is "Carribbean Fantasy" by Morrisey, a highly colonful impression of South American life.

The eighty young men and women in these two organizations, who will present 18 concerts in 17 towns in three states during their annual spring tour, have been carefully selected from the student body for their ability and interest in music.

In addition to the tour, the organizations perform for a variety of college functions during the year including special programs. and athletic events.

#### Soph Square Dance Discussion Group Has March Meeting

After a delicious notluck dinndance was very well attended by where Mr. and Mrs. William last Friday night, and all who sharpe and Mr. Floyd Andrews were present had loads of fon. Were hosts, the business meeting were present had loads of tain.

Milleur's orchestra provided was opened by Mrs. Sam Miller, fine music for both square and Chairman. Various reports of the modern dances. They also played some novelty numbers and encouraged many of the dancers to Wilma Doebler and Mr. William get out onto the floor and really Edgar respectively; Mr. Herbert Baynes, minute man, gave a report on the statistics of federal, terns, crepe paper, boots, and state and local taxes; comparison fences provided by the sopho- of these over the years, and the whift in percentage from local to federal taxes.

Then the discussion of this month's topic "Toll Roads in Michgan" got under way, directed by Mrs. George Perry. She divided the total group of members present into two groups, one in favor of toll/roads, headed by Mr. Andrews, the other, against toll roads, presided over by Mr. Ogden. A very lively discussion followed, each group marshalling points supporting their assumed stand. After all the study and falk was over, each group gave their reasons; the judges, Mr. Michael Hart, Mr. Fred Beckman and Mrs. William Edgar gave the prize to the pros. After that the actual voting on the questions proposed by the Michigan Farm Bureau took place, in which many members deserted their assumed place in the debating groups to voice their real opinions. In general, the group as a whole, felt Mat. toll roads in Michigan might be the solution to the overcrowder highways, and were in favor of limited authority to the committee charged with planning and exe-

cuting the building of toll roads. Another vote was taken by Mr. Andrews to find out what the farmers' opinion was regarding a farmer's market in Pontiac; the zeneral consensus was in favor of maintaining this.

The meeting was, as usual, success socially as well as educational; good-byes were said at 10:45 p. m.

#### Clarkston Local

Rhea Van't Roer of Clarkston will sing in the soprano section of the Albion College A Cappela thoir when it presents a concert the evening of Tuesday, April 21, in the First Methodist Church, Royal Oak, and the morning of Wednesday, April 22, in the Royal Oak High School. These concerts are part of the choir's annual spring concert tour.

#### By The Way ...

Next Monday is election day in the state, county and township. In Triumph" by the Senior Choir. All come. It is the promise of the first the home election, there is apparently little interest as of now; in the county there remains the question of selecting three Circuit Court Judges on a non-partisan ticket - this should create some interest; in the state, in addition to other offices, two Supreme Court Judges will be namedthis is also a non-partisan race and because an Oakland County everything in nature awakens, as lawyer, Clark J. Adams, is in the race, there is some interest. Regardless of interest; the fact is that at an election all who can should vote. . . . Some lady left her gloves at the Community Center the day of the Republican Caucus. She can have same by calling Floyd Andrews. . . . . Having had the Second Home Talent Show, the next big event on the calendar is the All Star Variety Show sponsored by the Saturday Night Dance Club for the benefit of the titchen at the Community Center. . . . Passing the First Baptist

Church and seeing the cross erected there, reminds one that this Friday is Good Friday and there will be services in most of the churches; most wisiness places will be closed from 12 'til 3 o'clock. ... as most of our relations with the Student Council for the Home Talent Show were with Terry Brown, Sandra Wampfler and John Bennett we wish to take this opportunity to compliment them on the way they worked the huge amount of work they did, and their unselfish devotion to the operation of starting a fund to secure lights for the athletic field at the school. Somehow the accusation that young folks think only of a good time seemed unfounded after watching these young people in action. And the above is no reflection on the many others who assisted. . . . . A call from a Waterford resident commended the merchants in this area for their generosity when a benefit party is staged. She referred to the grand prizes that were donated to the P. T. A. for the card party and fashion show held recently. . . . . This week we received a copy of a labor (teamster) union paper and we pass on to you a joke they believed good enough to print: Look at me. I am self-made man! That is the trouble of the this cheap labor.

and kindergarten). 4:00 P. M. Children's Easter Festival Service and Mite Box presentation. Children get Easter flowers, (continued on page 5)

#### Students. Faculty Hear F. B. I. Lecture

NUMBER 31

The students and faculty at the Clarkston School were very fortunate on Monday, March 30 when they were able to hear a lecture by Marcel C. Phillips, Special Agent of the Federal Bureau of Investigation.

Mr. Phillips opened his speech by telling about the history of the F. B. I.

It began in 1908 as the Bureau of Investigation. Until 1924 when J. Edgar Hoover was appointed head, the agents of the Bureau did not have nearly as much power as they now have.

With Hoover as head several hanges were made in the F. B. I. First definite qualifications were set up for F. B. I. agents. These are: an applicant must be at least 5 ft 7 in. tall, an American citizen, between the ages of 25 and 40 and either a lawyer or an accountant with three years experi-

Then an Identification Bureau was added which has on file 123,000,000 finger prints. Of these only about 10,000,000 are those of criminals. This Bureau provides many valuable services, such as checking on criminals from state to state; identifying victims of fires, accidents, etc.

In 1932 the F. B. I. laboratory was added. This laboratory helps agents in solving crimes by providing analyses of hand writing, of blood stains, foot prints, etc. Mr. Phillips explained that 3 different federal groups have the power of investigation in various

The F. B. I. serves as the investigation division for the Justice Department: It investigates kidnappings, extortion cases, cases of theft in interstate commerce, apprehends deserters from the armed forces, and investigates cases of espionage. The Treasury Department con-

tains several divisions which investigate income tax evasion and importation of narcotics. It also includes the Secret Service. The U.S. Postal Department also has special investigators who

investigate mail frauds and black-

mail through the mails. During the remainder of Mr. Phillips' speech he told the students some very interesting stories about cases which he had helped to solve. These included a payroll robbery at Lockheed Aircraft Corporation, an attempted bank robbery in Detroit, and a case of espionage in New Jersey dur-

ing the last war. In the one hour which he was nere Mr. Phillips certainly gave his audience a lot of valuable and interesting information. It is hoped that he can return again next year.

Wholeheartedly Endorsed By Oakland County Lawyers As "Preferred"

Frank L. Doty

• H. Russel Holland

George B. Hartrick

Oakland County lawyers, the men who know the candidates best, overwhelmingly chose the three incumbents in a secret ballot as PREFERRED for re-election to the Circuit Court for Oakland County. These lawyers, working every day in the local courts, have proved once again by their choice that "There Is No Substitute for Experience."

As Judges for Oakland County

The lawyers of Oakland County are proud of the record of the Oakland County Circuit Court under the present Judges as disclosed by the report of the Judicial Council of Michigan, a statistical survey of the Michigan Judicial System. The survey discloses that our Judges spend more time on the Bench than other Judges, dispose of more cases, and that the period from the time the case is started until disposed of is remarkably short compared with other Counties.

#### DAIRY QUEEN CONTESTS ON IN COUNTIES

County and district competition to select eight district dairy princesses to compete for the Michigan Dairy Queen title is now in progress, according to Nevels Pearson, assistant state 4-H Club leader at Michigan State College.

Pearson is in charge of event for the Michigan Dairy the end of the day.

committee, headed by BANKERS, FARMERS Morley of the Michigan Milk Producers' association, De-

A successor to Miss Patricia Powell, Michigan State College freshman named last spring for the dairy queen honor, will be named in Lansing on May 20. She will be an unmarried girl, with farm , background, between 17 and 20 years of age. The queen will represent the \$750,000,000 Michigan dairy industry in activities in the year ahead, About 40 counties are expected to hold county contests to pick entries for the district princess honors to be held prior to May 1.

TIRED A LOT: CHECK HEALTH, HABITS — RELAX

Tired most of the time? If this is the way you feel, Dorothy M. Greey of the home management department at Michigan State College suggests taking stock of yourself and your work habits. You may lose that tired-all-thetime feeling by simply rearranging the order of your work, she

But first of all, get a good check-up from your physician. If he gives you a clean bill of health, then take these pointers Miss

time of the day? Take a little time to relax then. Listen to the radio, or watch television or spend a little time with a good book or your hobby. Still better would be short rest periods interspersed throughout the day. Try lying down and relaxing completely for 10 or 15 minutes in mid-morning and mid-afternoon.

Is there a special activity that auses feelings of fatigue? If so, do that job piece-meal. If, for instance, you dread the ironing and get tired just thinking about it, arrange your work so you do the ironing for a short period of time over several days. And think about your method of doing a job that always makes you tired. As too low — perhaps you could eliminate that shoulderache by raising your work area several

You may be making yourself tired, Miss Greey points out, by trying to accomplish too much. So-called fatigue can come from the tension and frustration of trying to get more done in a day than can be accomplished. Don't set your work goals too high and then you can enjoy the feeling that you have everything done at

Michigan farmers and bankers re in joint session this week Wednesday and Thursday at the Michigan Agricultural Finance clinic at Michigan State College. C., department of agricultural

IONIA INVITES LAND JUDGES OF 4-H, FFA

The top teams of youthful land judges from all parts of Michigan will gather at Ionia on April 16 for the first State Invitational Land Judging contest. The winning team will represent Michigan at the national contest April 30 and May' 1 at Oklahoma City.

One-4-H team from each county and one team of Future Farmers or other agriculture students from each high school may enter the contest, sponsored by Ionia County Soil Conservation District. Teams will have four members but only the scores of the top three will be counted and three-member teams will compete nationally. The U.S. Soil Conservation Service and the Michigan State College Cooperative Extension Service are cooperating.

Teams will register at 9 a. m. April 16 at the Automobile Buildng at the Ionia Free Fair grounds and there will be an instruction school at 10 a.m., and lunch before taking to the field. Fields will be judged for soil characteristics and land capabilities and the contestants will choose the land use and soil treatments that best

#### HEIFERS HELP FINANCE TRIP OF 4-H JUDGES

BOTO B

at this time of purchas-

Wheat - Besides our old standy, Yorkwin, Cornell No. 595, and enesce are also recommended. On all the grain recommended, varieties are resistant to disease,

dging and thresh fairly well. Again this year Michigan No. 350 seems to be about as good a yielding corn as any. Although some farmers complain that it does not husk well, corn breeders tell me that last year was a bad year for nearly all corn on the husking quality, and that it is not a usual fault with Michigan No. 350. Other corn varieties are recommended and can be found in Michigan State College bulle-"Corn Hybrids Compared", which is available at our office.

#### FERTILIZERS

Fertilizer dealers tell me that there should be plenty of available fertilizer for farmers this year, except for nitrogen for wheat. The balanced fertilizers such as 3-12-12 and 4-16-16, especially the latter, are available Some of the newer analyses that will be available this year are 101010 and 12-12-12, which is fine for small grain or corn.

FRUIT AND GARDEN NOTES by Willard E. Bosserman Assistant County Agr'l Agent

#### FERTILIZERS FOR FRUIT TREES

It is getting time to start applying fertilizers to fruit trees. There is supposed to be ten percent more fertilizer this year than last year but you may have difficulty in getting a hold of it, mainly because the demand is so high.

vigor of the tree. One which is of ammonium nitrate. For trees

Operating a surveyor's transit is only one of many jobs handled by Michigan's conservation officers. So complex is the officer's job, in fact, that only a portion of his time is used in law enforcement work. Some of his duties include game census work, deerward checks, investigations of damage caused by wildlife, public relations work and a host of other minor chores. Here Officer Edward Beechem, Houghton Lake, surveys land to determine boundaries of state authority.

fairly dark-colored leaves last year would need less than one and as high as 8 lbs of ammonium that is growing less vigorously and perhaps had lighter green leaves.

#### APPLE TREES

Trees from 5 to 10 years old, apply 3 to 4 lbs per tree of In fertilizing trees, go by the ammonium sulfate or 21/2 to 3 lbs growing quite vigorously and had 15 to 20 years old, apply 5 to 6

lbs of ammonium nitrate per tree sulfate.

#### PEACH, PLUM AND SOUR CHERRY TREES

Peach trees 5 to 10 years old and in good vigor, apply about 1 Ib of ammonium sulfate per tree and low vigor trees, 11/2 to 2 lbs per tree.

Apply the fertilizer around the drip line of the tree.

#### NEED TIMING OF FERTILIZER FOR PAY-OFF

Farmers can make fertilizer pay by using it on wheat and alfalffa now, with sugar beets at planting, and a little later on

beans, corn and potatoes. Sugar beets respond better to liberal planting-time fertilizing than most crops, reminds Paul J. Rood, extension soil scientist at Michigan State College. It will pay to top-dress alfalfa liberally immediately and to use 20 pounds of nitrogen per acre on wheat

#### borax; but beens and oats going on the same soil should not have

all to died the epide for the

Farmers who planted beans last year after alfalfa-bromegrass can get good beet yields this year. Alfalfa-bromegrass cut for hay in July and followed with oats or barley for over-winter protection will set things up for a good 1954 beet yield. Alfalfa top-dressed right away will yield better hay in June or July and the benefits Rood.

Alfalfa and clover in rotation not only help beets but also bean and corn yields; corn responds well to plowed-down legumes and manure, but benefits very slightly from fertilizer at planting time. Beets a second year away from heavy manuring or good plowed-down legumes need about \$7 worth of nitrogen per acre, or 40 pounds, right after blocking and thinning. If beans, corn and potatoes do not have nitrogen from recent manure or legumes, they also should get about 40 pounds per acre.

SUNDAY, MONDAY, TUESDAY APRIL

Much that mortal man regards as true is found to be untrue in the absolute spiritual sense, when examined in the light which Christian Science throws on the scriptures, This is brought out in the Lesson-Sermon entitled "Unreality" which will be read in all Christian Science churches

on Sunday, April 5. The Golden Text is from Samuel (22:29): "Thou art my lamp, O Lord: and the Lord will lighten my darkness."

Among the Bible citations is his passage, (Eccl. 1:8): "All things are full of labor; man cannot utter it: the eye is not satisfied with seeing, nor the ear filled with hearing.".

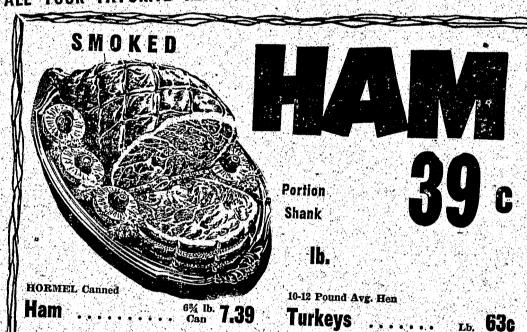

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy ncludes: "Darkness and doubt encompass thought, so long as it bases creation on materiality." (p. 551)

#### FIX NEEDLES STOP TROUBLE IN MACHINES

If your sewing machine is acting up these days, chances are it, is the needle that is the villain. Arthur J. Bell, extension agricultural engineer at Michigan State College, reports that 80 per cent of all sewing machine trouble caused by the needle.

A needle that is too long, too short, bent, blunt or incorrectly put into the machine can be the source of difficulties. Bell points out that there are 8,000 different kinds of sewing machines and only eight styles of needles that will fit any of those machines. The secret is to get the right needle for your machine. Bell advises having machine needles by number or letter rather than by telling the make of the machine. Look on your machine for needle specifications, He suggests. Or if you are buying a new sewing machine, be sure to get manufacturers' instructions a bout the right needle size.

A blunt needle will pick up hreads of the fabric and cause puckering, Bell warns. A needle that is too short prevents stitching at all. A too-long needle, might mean skipped stitches. A bent needle will cause skipped stitches sometimes, too. A sewing machine needle generally has a groove the full length of the needle. This groove must go in the machine toward the side from which the machine is threaded. If the needle isn't properly installed in the machine the thread will break as the needle goes down through the material.

Keep your sewing machine clean, Bell urges. Use an oil that is made for sewing machines and avoid unnecessary residue when the oil evaporates, he advises.

CRAWL SPACE UNDER HOUSE CAN BE DRIED

Ever troubled with moisture in the "crawl space" under your

Covering the ground with a craft-type moisture-proof paper is one remedy offered by T. J. Brevik, Michigan State College agricultural engineer.

Brevik points out that warm, moist air entering the "crawl space" from the heated areas above condenses when it hits cold surfaces of walls or floor joists. Evaporation from the ground can condense in the same way, he

In some cases, protection may come from insulating the floor below the water pipes and installing good-sized ventilators in the corners below the insulation to let air circulate. In other cases, it may be wise to insulate block wall and circulate warm air through the "crawl space". Using this space as a "return air chamber" for the furnace, for instance, may help. Moisture is carried off in the circulating air. If cold surfaces can be warmed to a point above condensation temperatures, moisture trouble can be checked.

Where condensation comes from ground moisture, the best answer is to cover the ground carefully with moisture-proof paper. Crafttype paper or 40-or-50-pound roll roofing can be used.
