CLARKSTON, MICHIGAN, THURSDAY, AUGUST 6, 1953

NUMBER 49

MUCH INTEREST SHOWN IN CIVIL DEFENSE

You Are Invited To Homecoming

On Saturday, August 8, the annual-Seymour Lake Homecoming will be held at the Seymour Lake Community House. At noon the women of the Methodist W. S. C. S., will serve a chicken dinner. The public is invited.

Attention! Mary Circle

The Mary Circle of the Clarkston Methodist W. S. C. S., will meet today, Thursday, at the home of Mrs. Charles Beach. A dessert will be served at one o'clock. Mrs. Leland Masters will be the assisting hostess. All members and any who are interested are urged to attend.

Clarkston Locals

Mr. and Mrs. C. E. McNeive and son, Tom, spent last week in Catskill, New York, visiting friends who live in the Rip VanWinkle area of the Catskill Mountains.

A caller at the Stamp home last Friday afternoon was Mrs. Charles G. Reid of Clawson, formerly of Macey Lake.

Born to Mr. and Mrs. Alton J. Secord of 6227 Orion Road, a 6 lb 9 oz son, Randy Allen, on Tuesday, July 26th, at St. Joseph's Mercy Hospital in Pontiac. Randy's grandparents are Mr. and Mrs. Clyde Madison of Davison and Allen Secord of Pontiac.

The Clarkston Royal Neighbors will meet at the home of Mrs. Dale Kline, 233 N. Cass Road, Pontiac, on Wednesday, August 12th. A pot-luck luncheon will be served at 12:30. Each person is asked to furnish her own table service and a dish of food to pass. The regular business meeting will follow the luncheon.

Mr. and Mrs. Harold Weston and family returned home last weekend from two weeks traveling in Michigan. The first week they spent in the upper peninsula. The second week they enjoyed in several resort spots in the top of the lower peninsula. Mr. and Mrs. Gene McNeive and son, of Davisburg joined the Westons for the second week and all had a grand time.

Harvest Time

Not long ago some seeds were sown
In damp and barren ground,
With thoughts of grain that would be grown
With kernels plump and round.

The farmer did his tilling well,
He plowed and harrowed deep,
He thought of grain he'd have to sell
And some he'd planned to keep.

He had a feeling in his heart
If he would do his best,
That God somehow would do His part
And care for all the rest.

He showed his faith and trust in God
When first he planted seeds
In ground he'd wrestled from the sod,
Subduing lumps and weeds.

He placed his fortune in God's hand
And felt it was secure,
He watched the seeds shoot from the land
Its tendrils slow but sure.

God's miracle was now at work
Man's faith was justified,
A harvest came from seeds and dirt
That has us mystified.

Rotarians See War Pictures

Through the courtesy of Bob Phillips, the Clarkston Rotary Club was able to see two war films, the actual government films, of war as it was fought in the Pacific in World War II and fighting in Korea. The pictures were shown by Sgt Howard Logan of the Recruiting Service in Pontiac.

Community singing was led by Robert L. Jones with Charles L. Robinson at the piano. Conducting the business meeting was President Rudolf Schwarze.

The dinner was catered by Mrs. Ray Norton who has taken over the weekly job of serving the Rotary dinners.

Smorgasbord At Sashabaw Church

Wondering where to go for your Saturday night dinner? The place to go on August 8 is to the Sashabaw Presbyterian Church, 5331 Maybee Road, where the women of the church will have a smorgasbord dinner ready and waiting.

Serving will start at 5:30. There is no set charge; a free-will offering will be taken.

Farm Bureau Group Plans Picnic

The Clarkston Community Farm Bureau group will hold a picnic at the farm home of Mr. and Mrs. Harry Bates on Sunday, August 23 instead of on August 9 as was planned.

There will be a pot-luck dinner at one o'clock. The committee will furnish the meat and coffee.

NEW TV STATION IN FLINT

Michigan's newest television station, WTAC-TV, in Flint, is to be housed in an ultra-modern TV center, now under construction at 2302 Laper Road, in Flint. The center will be completed sometime in August. It will transmit local programs as well as top features of all major television networks. WTAC-TV will transmit on UHF Channel 16.

SIGN OF PROTECTION

Whenever you see the green-and-gold sign displayed at a resort you can be sure that a sanitarian from a Michigan health department has been on the job to protect your health. The signs are issued to resorts which have been inspected by a sanitarian and found to meet the standards of sanitation recommended by the Michigan Department of Health. A resort which displays the sign provides safe drinking water, clean toilets, clean and well-ventilated buildings and safeguards for protection against a number of common hazards.

What Would You Do If

Grandma Tripped on a Broken Step?

Don't move her until you check for injuries. If you suspect a bone is broken, immobilize the bone ends and adjacent joints with a splint of padded boards, a blanket, or pillow. Get medical help. Fix that step before it causes more harm. Learn how to detect hazards, prevent accidents, and give emergency care by joining a Red Cross first aid class.

Former Teacher Married Saturday

Of interest to many folks in Clarkston is the marriage last Saturday of Miss Gertrude Tew, at her home in Lake Odessa, to Kingsley Montgomery of Lansing. They will be at home in Detroit after August 15th.

Mr. and Mrs. Montgomery were both on the teaching staff at Michigan State College but starting this fall Mr. Montgomery has accepted a position with the Chrysler Motor Corporation and Mrs. Montgomery will be a member of the faculty at Wayne University.

Mrs. Montgomery is a former Clarkston High School teacher.

Mr. and Mrs. Keith Leak of Clarkston attended the wedding.

Dinner Reveals Coming Marriage

Mr. and Mrs. Floyd Andrews entertained at a family dinner on Sunday evening, announcing the engagement and forthcoming marriage of their daughter, Mrs. Marguerite Andrews Muma to Robert K. Russell of 19 Niagara St., Pontiac.

An early August wedding is planned by the couple.

A number of parties have honored the bride-to-be and she will be feted at several more this week.

MEEN—make your reservations now for the golf tournament next Wednesday, August 12.

Church in News

CLARKSTON METHODIST

Rev. Robert M. Atkins, Pastor

9:45 A. M. Church School. William Mansfield, superintendent. Classes for all ages including an adult class with A. E. Butters, teacher.

11:00 A. M. Morning Worship.

6:15 P. M. Young People's Meeting.

7:30 P. M. Evening Service.

(continued on page 5)

School Reunion Saturday, Aug. 29

All those who attended the old white and brick school, on N. Main St., in Clarkston will gather for a reunion at the Township Community Center on Saturday, August 29th. Mrs. Iva M. Miller is general chairman.

Plans are being arranged for a 'big' day. Old schoolmates and teachers will start assembling at 11:00 A. M. and there will be something going on every minute until 4:00 P. M.

At noon a pot-luck luncheon will be served. Each one attending is asked to furnish their own table service and a dish of food to pass. Beverages will be provided.

Pass the word along to those away from Clarkston whom you think might like to arrange to be in town for that day. All interested are cordially invited to attend. There will be a fine program.

Armed Bandits Rob Market

About four A. M. Sunday two armed bandits robbed Ritter's Farm Market on the Dixie near M-16. Apparently disappointed at the amount they received they beat up the elderly clerk, Alex Crossely, 66, of Walled Lake, who had to be taken to Pontiac General Hospital, where it was necessary to take several stitches in his head.

According to a son, Hubert, the bandits asked for a pear and as Mr. Crossely was getting change, hit him with an automatic and demanded what money there was. They emptied the register and ordered him to the rear of the market where they administered the beating as he pleaded for help.

Kevin Ritter, of Pontiac, the owner of the market, said the loss would be about \$50.00.

By The Way ...

Senator Robert Taft (R) of Ohio has entered into the Great Beyond. Over the years when the Republican party was existing, by sometimes just a wee spark of life, he was known as "Mr. Republican". He earned this title by being outspoken and honest. Even those who disliked his ideas the most could say, as Ex-President Harry Truman did say: "I disagreed with him, but I knew where he stood". We have no desire to make this space a weekly report of traffic but starting last Thursday evening through Monday, we have never seen so much traffic on M-15. Saturday afternoon one had to wait for a number of cars to pass in order to get across Main Street in Clarkston.

J. Thompson Miller, returning from a trip to Kittanning, Pa., reported heavy traffic all of the way. Heed this warning: Don't drive onto the Dixie without looking both ways even though you have the "go" signal. Cars on the Dixie do not always stop as they should. . . . It is time, and perhaps past time, that attention is called to the Clarkston Fire-fighters and the good work they are doing. Few realize that every time the fire siren calls, a number of citizens get into the fire truck and tank wagon and race to the fire when, even as you and I, they might want to do something else. After the fire is over the cars have to be readied for the next call. It is a real, worthwhile, unselfish duty. Incidentally they receive the big sum of two dollars per call. . . . Our financial writer states that everyone in this community seems to be making good money, quite a lot of it, and in the best of spirits. The end of the Korean War has not affected conditions around here. . . . It was my privilege, this week, to see some actual war pictures, one of World War II and one of Korea. As they were taken during combat, it was the opinion of the group with me, that perhaps our jobs, arduous as they might have been, were easy compared to our boys' experiences as depicted in the pictures. . . . A word of encouragement to the pupils in our schools. Even if it is less than thirty days until the opening of school and the time will go by rapidly, the opening of school will bring Christmas thirty days closer.

Who thinks up these things? "One way for a man to keep his head above water is to keep out of expensive dives."

(continued on page 5)

Many Attractions At Horse Show

Be sure to reserve Sunday afternoon, August 16, for the Michigan Rangers' Annual Horse Show to be held at 2490 Davisburg Road, 2 miles west of Davisburg, at the Seaver Schoolhouse.

This big event will be a real treat for all horse lovers. There will be prize horses from all over Michigan and some of the nearby states. The grand parade will be at one o'clock and from then on there will be one interesting feature after another, for juniors as well as adults.

Among the events will be musical stunts, amateur jumping, junior bending, zig-zag bending, musical barrels, junior horsemanship, water obstacle, junior speed and action, spud race, 4-club relay race, and etc.

There will be competent judges to say who will get the blue ribbons. The entry fees for those taking part are small and the admission to the grounds is very reasonable.

The public is cordially invited.

4-H Club Fair August 11-15

This year the Oakland County 4-H Clubs have planned the biggest Fair in the history of the organization in this county. The 4-H Fair will take place on the spacious grounds at the corner of Walton Blvd. and Perry Street. There will be plenty of parking space right across from the grounds.

It is amazing how the interest in the 4-H program has grown in the past few years. What started out as a small Fair at the close of the 4-H Club year to encourage the project members, has grown into a county-wide Fair with most of the populace interested in the active young people.

The 4-H program in the county is directed by John Bray, County 4-H Club Agent, under the supervision of the Extension Service of Michigan State College and the County Extension Service.

The projects at the Fair are judged on a competitive basis and for individual excellence, said Bray, and as this is a culmination of the year's work it is an incentive for these young people to be more active and more particular in the year ahead.

There will be activity at the Fair starting on Tuesday, August 11th and each day and evening through August 15th.

On Tuesday evening at 8 o'clock the Fair Queen will be chosen. She must be between the ages of 15-21; must be active in a 4-H Club; must wear a cotton dress; and must have one summer project. At least one girl from each club is eligible.

Other features of the Fair will be livestock showmanship and judging, archery contest, baseball game, band music, fireworks, horse show, dress review, riding demonstration, judging of hogs and sheep, pig scramble and other entertaining features.

Many merchants in the county will have displays and the automobile tent erected for the first time last year will again be on the grounds with an additional 100 feet for other area merchants.

The Clarkston 4-H boys and girls and their leader, Mrs. Ralph Walton, are hoping that the folks from this area will attend. You will not be disappointed.

CONSUMERS APPOINTS NEW MANAGER

Appointment of David H. Gerhard, as division manager of the Consumers Power Company's Southeast Division with headquarters in Pontiac was announced today by President Dan E. Karn.

Mr. Gerhard has been division manager of the Saginaw Division since 1946. In Pontiac he will succeed David L. Brown, who resigned to accept an executive position with the Panhandle Eastern Pipe Line Company.

Donald B. MacDonald, who has been assistant to Mr. Gerhard, will succeed him as division manager at Saginaw.

Mr. Gerhard studied electrical engineering at Ohio State University and joined Consumers at Jackson in 1925 as a radio engineer. In 1927 he transferred to the Power Sales Department.

(continued on page 5)

How About A Round Of Golf

Every man in the area, who plays golf, or at least makes a good try, is invited to enjoy a day of golf next Wednesday, August 12. This is an annual tournament sponsored by the Clarkston Rotarians.

Those who have entered these tournaments in past years report having a grand time. You may not be an expert golfer, but there is plenty of fun in store for you if you will join the business men of Clarkston in a round or so of golf at the Indianwood Country Club next Wednesday. You can be on the course at 10:00 a. m. if you wish or if a shorter session is more to your liking then join the group at about one o'clock.

For those who do not care to swing a golf club, then you are invited to the evening dinner in the club house where you will meet the crowd, have an evening of fun and fellowship and enjoy seeing the prizes awarded.

A. W. (Bud) Hawke is the general chairman and he will be glad to enlighten you on any little detail that you wish to know about. Make your reservations now with Mr. Hawke, Roy Alger or W. H. Stamp.

MSC Panel Probes School Problems

Among the major problems faced by rural school districts in Michigan today are those of finances, "equalizing" rural school programs and opportunities with those of urban schools, and the issue of annexation.

The school matters were discussed by a panel of school authorities during the annual Forum on State and Local Government held at Michigan State College.

"Some of the best education programs and some of the poorest" are to be found in Michigan, according to Frank Killian of the department of psychology and education at Central Michigan College are only a part of the picture," he said.

Killian described as a major problem the "equalizing" of rural and city education programs. "These children (in rural areas)," he said, "are definitely handicapped in matching the quality of work done in urban schools."

In discussing whether annexation and consolidation of schools would be an answer to the problem, Clyde M. Campbell, head of the M. S. C. department of educational administration and supervision, said it is difficult to have rural areas give up any schools. "They want to hold on to them and they say it would hurt their communities in many ways if their schools were closed," he said.

Two officials of the department of public instruction revealed there are 928 closed school districts within the state which have 2,984 school board members who have no duties to perform because the districts which they represent are not in operation.

Accident At US 10 Kills Motorist

Wilbur H. Withey, 56, of Goodrich, died in Pontiac General Hospital, 12 hours after he was injured in an accident at US 10 and M-15. The witnesses to the accident are reported to have testified that the deceased was entering the Dixie on the green light. The driver of the other vehicle in the accident, a truck, is charged with negligent homicide.

This accident, on the door step to Clarkston, is tragic evidence that on entering the Dixie from M-15 one cannot be too careful. The News has warned that traffic on the Dixie does not pay too much attention to the traffic light, and while this is true of some passenger traffic, it is much more so in the case of heavily laden trucks. Law enforcement officers watching traffic might do well to forget the passenger vehicle moving a mile or two too fast and concentrate on the heavily laden and fast moving trucks where a speed of over 20 miles almost automatically places that truck in the reckless driving category.

BEAN COUNCIL, M. S. C. PLAN BIG FIELD DAY

The Michigan Bean Council and Michigan State College have announced plans for a State Bean Field Day at 1 p. m., on August 25 at the George Schemm farm, northeast of Saginaw.

There are 3,000 test plots at the farm, a half mile east of Saginaw on M-81 and a half mile north on Outer Drive, according to Dr. Eldon E. "Jerry" Down, M. S. C. bean researcher who developed Michellite beans. There are about 200 strains that are resistant to Virus 15 and over 400 that are resistant to Anthracnose, he said.

Loren Black, Saginaw County agricultural agent, is working on details.

Clarkston Locals

Mrs. Frank Cormia and children of Pelham Manor, N. Y., arrived in Clarkston last Thursday. Mrs. Cormia was called here on account of the illness of her father, William Gassick, who is a patient in Pontiac General Hospital where he underwent surgery.

Mrs. Marguerite Miller is still a patient in St. Joseph's Mercy Hospital where she has been for the past two weeks. Her friends will be pleased to learn that she is getting along nicely.

What makes an interesting, small town, weekly newspaper?—the items sent in by its readers about themselves, their guests and their neighbors. If you have had company, been on a trip or are doing some entertaining—call MA ple 5-4321 and help make your town paper interesting, too.

There was a splendid attendance at the Civil Defense meeting held at the Community Center in Clarkston on Monday evening. Howard Johnson, director of Civil Defense in Independence Township was in charge of the meeting and he was quite pleased to see such a large group of firemen and Rotarians present.

The need for a Civil Defense organization adequate to meet local requirements and conditions was emphasized by the local director as well as by leaders from other townships.

Floyd Andrews, Township Supervisor, spoke briefly about the work to be done and was in accordance with Louis Dorman, Jr., Director of Civil Defense in Waterford Township, who told of the work being done in other places and suggested that the Civil Defense program in Independence, Waterford, White Lake and Springfield Townships and Pontiac be combined as one unit. He thought more could be accomplished. Mr. Dorman referred to the Flint disaster and mentioned a News Letter from the Michigan Office of Civil Defense which stated that major weaknesses revealed at Flint were lack of depth in command and lack of a central control. While individuals and special groups in all cases worked effectively, much time, which could have been saved by pre-planning and better organization, was lost.

Lloyd Gidley, the public utility head in the Waterford Township Civil Defense organization, expressed his opinion as to the unification of the several groups, as did Rudy Boss, Waterford Township Fire Chief. They thought the organization would be strong enough to really act, and the territory would have a better coverage.

Since the Flint disaster recognition of the importance of Civil Defense in natural disasters has prompted communities throughout the state to set up new and expanded rescue and disaster programs.

Mr. Johnson stated that committees would be named next month and the group in Independence Township would be ready to meet with committees from other townships and do their part in seeing that a workable program is set up.

Of Interest To Veterans

Four million veterans with GI term insurance in force will no longer have to apply to Veterans Administration for renewal of their policies for another 5-year term before their old policies expire.

Veterans Administration said it will do this for them automatically if their old policies are not lapsed at the expiration of the term period. This means the policy must be in force at the end of the term period with the final premium having been timely paid.

The new procedure went into effect July 23, 1953, when the President signed Public Law 148. It will save at least \$600,000 a year in administration costs. The new law covers only those term policies that expire on or after July 23, 1953. VA said it cannot be applied to term policies which expired before that date.

Approximately 270,000 World War I and World War II term policies are expected to be renewed automatically under the new law during fiscal year 1954.

Although the law also provides automatic renewal for the more recent post-Korea term policies, none of these is scheduled to expire during the fiscal year 1954 because they have not been in force long enough.

Once the automatic renewal is affected, the veteran has a new 5-year term policy on which he must pay the increased premiums timely if he wishes to be covered against death. If he misses any premium payments, including the first renewal premium, he may reinstate the policy at any time before the end of the term period under the usual reinstatement procedures.

In the past, if the veteran failed to apply for renewal before the term period expired, he would lose all further entitlement to the government life insurance even though he had paid the final premium on his old policy.

HEALTH FACTS

Doc United reminds us that every 5 minutes M.S.—Multiple Sclerosis picks a new victim, all young adults between 20 and 45. Once thought rare—M.S.—a creeping paralysis—cripples three times as many as polio!

M.S. victims experience Double vision, Extreme weakness, Inability to keep their balance, Numbness of parts of the body. They gradually become more and more paralyzed. But today, much can be done to help them.

The Michigan Multiple Sclerosis Society is conducting a center in Detroit where research and diagnostic treatment facilities are provided for the entire state. A branch unit is operated in Battle Creek.

YOU make possible the work of the MICHIGAN CHAPTER, NATIONAL MULTIPLE SCLEROSIS SOCIETY when you give to United Companies—United Fund, United Community Chest and Torch Drives.

Waterford

Mrs. Jack Hall, Correspondent
Phone OR 3-2681

Reverend and Mrs. Phillip A. Jordan of Fresno, California, are the parents of an 8 lb 2 oz daughter, Beth Ann, born July 22nd. The Jordans are former Waterford residents and Rev. Jordan preceded Rev. Anderson as pastor of Christ Lutheran Church. The Jor-

dans moved to California about three years ago.

Mr. and Mrs. Elmer Collins have returned home from a week's vacation in northern Michigan.

A family gathering took place on Sunday at the Wallace Brown home when about 35 members of the Fisher family enjoyed a picnic dinner and visit in the yard. The reunion was held at this time as the Brown's son, Jim Amos, is

home on leave from the Navy. Friends and relatives were present from Charlotte, Lansing, Waterford and Findlay, Ohio. An additional guest was a friend of Jim's from Virginia who was in Puerto Rico with him and who has been visiting in Waterford for several days.

Mr. and Mrs. Fred Boss (Sally Jones) are announcing the birth of an 8 lb daughter, Nadine Lynn, on July 31st at Pontiac General Hospital. Nadine's grandparents are Mr. and Mrs. Doyle Jones of Worman Lake and Mr. and Mrs. Rudy F. Boss of Lessing Drive.

Mr. and Mrs. Bruce Witherspoon and daughter, Mary, of Waterford Drive, accompanied by Connie Jones of Barnes St., left on Monday for a two weeks vacation. They plan to drive through the upper peninsula and into Wisconsin and Minnesota and on to the Dakotas.

Mr. and Mrs. Al Beebe and Jim spent last week at Big Platte Lake. Word has been received of the illness of Mrs. Elizabeth Britten who is at the home of her daughter, Mrs. Walter Shields of Roseville. She would enjoy cards from her Waterford friends.

The Waterford Moms will meet at the home of Mrs. Charles Richards, 6018 Rolton Ct., on Wednesday, August 12th, for a picnic dinner.

The Ladies Auxiliary of the Waterford Community church will meet Thursday, August 13th, at the home of Mrs. Myrtle Biggs. A pot-luck luncheon will be served at 12:30.

The Executive Board of the Waterford Community Church will meet Sunday afternoon at the Floyd Holden home. All officers are expected to attend.

Mr. and Mrs. William Commons left on Monday to spend two weeks in and around Copper Harbor. Bill lived there until he was 15 years old and he has not been back in 20 years.

Mr. and Mrs. Glen Bingel and daughters spent a few days this week at Empire, Michigan.

Mr. and Mrs. William Barnard left last Friday for a trip to Kansas to visit Mrs. Barnard's mother.

Mr. and Mrs. Allan Davis of

Waterford Drive have been vacationing in the upper peninsula.

Mrs. Lyman Girst visited her mother, Mrs. David Combs, last Monday in Spring Arbor.

The 16th Annual School Reunion will be held this Saturday, August 8th, at the Waterford Village School beginning at one o'clock. The program chairman, Mrs. Clara Day, has as the speaker, Miss Minnie Mae Cook who was an exchange teacher to Hawaii two years ago. All former pupils of the Waterford School are invited and those attending are asked to bring their own dishes, a dish of food to pass and a dessert. Mrs. Robert Amos is president of the reunion.

Rev. C. J. Redizer of Morton, Illinois, will be the speaker at both services Sunday at the Waterford Community Church. He is from the Rural Home Missionary Association and will show pictures of his work at the evening service.

Kirk Jatober returned home on Monday night after having spent several days in Pontiac with his grandparents, Mr. and Mrs. Thomas Newcomb.

Mrs. Anna Powers, Mrs. John Watchpocket and Mrs. Henry Mehlberg drove to Birmingham one day last week to call on Mrs. Ida Hayden, a 92 year old former Waterford resident. Mrs. Hayden is ill and is at the home of her daughter, Mrs. Robert Allen, 17560 Birwood, for the summer. She would be very happy to hear from her Waterford friends.

Mrs. Helen Coventry and family visited her parents, Mr. and Mrs. Floyd Burt in Ortonville on Sunday. Mrs. Burt has just returned home from Goodrich Hospital, following a fall injuring her leg. She is confined to her bed, and hopes to be back in her wheel chair in the near future.

Mr. and Mrs. Erwin Crothers of Lotus Lake Drive announce the engagement of their daughter, Nancy Jane, to Gerald W. DeWees son of Mr. and Mrs. John DeWees of Glendale Avenue. Oct. 17 has been set for the wedding which will take place in Christ Lutheran Church in Drayton Plains.

The Pontiac Camp of the Gideons and the Auxiliary members held their July meeting on the 28th at the Waterford Community Church. Mr. and Mrs. Charles Jehle and Mr. and Mrs. Henry Mehlberg were hosts for the cooperative supper served to 35 members and guests. Henry Mehlberg, vice-president, had charge of the meeting in the absence of the president, Paul Simmons. Group singing was led by Charles Jehle. The August meeting will be held at the William Ballard home in Lake Orion.

Ford brings you fine-car Power Steering at a new low price!

Now you can have America's newest, most improved power steering—Ford Master-Guide—for \$40 less than any other power steering in the low-price field.

Yes, you're reading right! Ford has added a brand new "Worth More" to its long list of fine-car features... Ford Master-Guide—the newest and finest in power steering... a system exclusive in Ford's field. You're going to love this new kind of steering! A finger turns the wheel even

when the car's standing still. Imagine how helpful this can be whenever you're tightly parked! Yet on the road Ford Master-Guide, unlike some systems, gives you the same natural "feel" you'd have without power steering... and it's safer, too... takes hold only when you need it. Come in and try it!

Handling and parking's a pushover! With the car standing still, you can "dial" the steering wheel with one finger... Master-Guide supplies the "muscle" for you! Of course, Fords have always been easy to handle, steer and park. But Master-Guide does up to 75% of the work!

See it...Value Check it...Test Drive it today!

F.D.A.P.

NO RADICAL CHANGE IN DRIVING HABITS

There's no need to learn how to drive all over again with Ford Master-Guide. This natural feel comes mainly from having the force applied close to the wheels. Steering ratio is the same, so you really have complete control at all times!

SO SIMPLE... SO SAFE!

Master-Guide lets you turn with ease, steer as you're used to! Driving on rutted roads is even safer. And should the hydraulic system ever lose its power (which is highly unlikely) the conventional steering system remains operative as usual.

Welcome Stranger

If you just moved to town and feel like a square peg in a round hole...

If you're still a trifle homesick when you think of the friends and home you have left behind...

Then step in our bank and get a real welcome from the friendliest folks in town. Do it today!

TRY TO AVOID IVY-POISONING

No person is completely immune to ivy poisoning and there is no section of Michigan where the three leaved poison ivy plant cannot be found, the Michigan Department of Health said in advising care in avoiding the plant.

Learn to recognize the plant and stay away from it. Ivy poisoning is always unpleasant and it can be serious, causing a month-long illness which may require hospitalization.

The poison in the ivy plant is an oil which can be carried on smoke, soot, dust, on the fur of pets, garden tools, firewood or other items which have come in contact with the plant. A person may have a recurrence of ivy poisoning from wearing uncleaned clothes which were worn at the time of the original contact.

First precaution is to learn to recognize the plant and avoid it. If you think you have been exposed, wash thoroughly with a strong laundry soap, leaving the lather to dry, then rinse. If irritation occurs and blisters appear, see your doctor.

Poison ivy can be eradicated by spraying the leaves with a 2, 4-D or "ammate" solution. Spraying should be repeated every year until plants no longer appear.

In its program of approving resorts, the Department requires that poison ivy or other noxious plants either be eradicated or controlled for the protection of the public.

"SHOOTING STAR" DISPLAY SLATED FOR AUGUST

August, the month of showers, has arrived, but the showers will consist of meteors, or the well known "shooting stars", a University of Michigan astronomer states.

According to Dr. Hazel M. Losh, U-M associate professor of astronomy, meteors will be seen all month, "darting across the skies at a rate greater than at any other time of the year." In addition, the absence of a bright moon during the first half of the month will make them all the easier to see.

"Although these flashes of light may be seen anywhere in the sky," the professor points out, "their paths seem to intersect in the northeast."

Flying out in all directions from this radiant point, many of the "falling stars" appear to be traveling upward instead of down. The bits of iron and stone become visible only when encountering the earth's atmosphere, where their high speed is checked, resulting in friction which sets them burning.

Most dependable in appearance is the Perseids group, she explains. The Perseids sometimes are called "The Tears of St. Laurence", since they occur on his feast day, the anniversary of his martyrdom in the third century.

These meteors appear to radiate from the constellation Perseus, depicted as the legendary hero

who rescued Andromeda from the sea monster, Dr. Losh says. Besides the hero and heroine, the group includes Cetus (The Monster), Eridanus (The River) and Pegasus (The Winged Horse), all characters in the legend.

Perseus is easily recognized from its curving line of stars, similar to the letter K. The upward part points to Algol, the "Blinking Demon". Professor Losh explains that Algol marks the head of the Medusa, which Perseus, the Champion, holds in his outstretched hand.

Perseus can be found by its location in the Milky Way, which dominates the August sky. The Milky Way has the great long bar of the Northern Cross at its zenith this month.

Dr. Losh says that Algol was considered the most unfortunate and dangerous star of the heavens by the ancients, because of its blinking. This is caused by revolving around a companion star. As the two stars revolve, the dim small one eclipses the brighter one every third day.

Saturn among the planets and the star Spica remain the most striking attractions in the early evening, the astronomer says. Venus and Jupiter continue as outstanding objects in the early morning sky.

The Sun will change its location this month, Professor Losh points out, dropping south from its high June position, until by the end of August it will rise and set about 13 degrees north of the east and west positions, decreasing the length of the day to approximately 13 hours.

ADVICE FOR WIVES!

Learn how you can steer your man into the pathway that leads to success... how, by firing your husband's enthusiasm, you can make your dreams come true! Mrs. Dale Carnegie, wife of the man who taught America how to win friends and influence people, reveals more secrets, exclusively in The American Weekly, with SUNDAY'S CHICAGO AMERICAN.

What Would You Do If

The Camp Stove Blew Up?

If clothing is on fire, get the victim on the ground and douse flames with a coat or blanket. If burns are extensive, cover them with a thick sterile dressing and keep the victim lying down. Get a doctor. Clean and trim the wicks of the stove and make sure you read directions about such camp equipment as kerosene stoves before using them. Learn how to detect hazards, prevent accidents, and give emergency care by joining a Red Cross first aid class.

HINTS ABOUT SUMMER FOODS

You can't count on "cold" beverages to cool you off during the August days—they may have just the opposite effect.

Nutritionists of the Michigan Department of Health advise that cold drinks such as lemonade, sodas, malted milks, and so on may make you feel cooler temporarily. But, they ultimately increase metabolism and may make you feel warmer than before you drank them. Try "cool" drinks, not "cold" drinks.

The nutritionists also emphasize that a good diet is just as essential during the hot weather as it is in the winter, and that often our calorie needs increase rather than decrease during a hot spell.

Don't let the zooming thermometer dictate your food intake. It's the temperature which determines the foods you need. Children, who usually become more active in summer and persons who go in for outdoor sports may need more rather than fewer calories when the mercury climbs. Protein requirements remain fairly constant regardless of outside temperature.

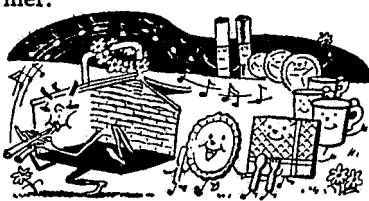

Cool milk can be just as refreshing as other cool drinks and at the same time will supply valuable nutrients. Good hot weather meals should include at least a quart of milk daily for the youngsters and a pint for the grown-ups.

Hot weather meals should also include at least one serving of meat, fish or poultry daily, as well as an egg. Meals can be hot or cold as long as they include the needed nutrients, but planning for one hot dish may result in better planning for the rest of the meal.

Better Eating

PICNIC SHORT CUTS
Dust off the old picnic basket. Outdoor eating time is here. It's a sure thing that your shopping lists will include picnic foods and supplies for the rest of the summer.

First come paper plates, napkins and hot drink cups. Wax paper, aluminum foil, and plastic dishes with covers will make packing the basket easier.

Tiny Salt Shakers
Now there's a new, small cardboard salt shaker with a plastic top that can be opened or closed like a spice can. This seems to be a natural for the picnic basket.

Have a Thermos Jug?
A wide mouthed thermos jug for hot or cold foods and beverages will be a good investment early in the season so that it can be used throughout the summer. Choose one that is light in weight. Boiling-hot water in the thermos and a jar of instant coffee adds up to fresh coffee on the spot. A spigot makes serving safer.

Buns by the Dozens
Sandwich buns for savory hamburgers are now pre-sliced. Several packages can be spread with butter or margarine, rewrapped and frozen in the frozen food section of the refrigerator or home freezer, to be taken out on the day of the picnic.

Pre-Sliced Cheese
Tuck a package of pre-sliced cheese in with the seasoned hamburger patties for cheeseburgers. Jars of pickles and relishes—just the right size for one picnic, eliminates repacking opened jars to bring back home.

Nature-Wrapped Desserts
Bananas, grapes and watermelon—to name only a few—come self-wrapped by nature to make easily carried and served picnic desserts. Cellophane wrapped packages and boxes of cookies add the final sweet-tooth touch.

Happy picnicking!
Faithfully
Jean Allen
LARGER FOOD FOUNDATION, CINCINNATI, OHIO

Plenty of fruits and vegetables, whole grain or enriched bread or cereal and butter or fortified margarine should be included daily in hot weather diet.

BISHOP SHEEN TELLS HOW TO CONVERT COMMUNISTS

Three simple rules for fighting the Communist doctrine of hate and destruction will be found in an article by Bishop Fulton J. Sheen in this Sunday's (August 9) issue of The American Weekly with The Detroit Sunday Times. Bishop Sheen predicts America will hasten Russia's return to God. See Sunday's Detroit Times.

FARM MANAGEMENT AND MARKETING NOTES

by Ray E. Poyner
Assistant County Agr'l Agent

SURPLUS HAY AND PASTURE

The drought disaster in the western and southwestern states may offer local farmers a double-bitted opportunity for profit.

Ranchers will need hay and pasture, which is in surplus here to carry breeding herds through the winter. A program of listing hay and pasture for sale in Michigan is being conducted by the Extension Service. These listings will be sent to county agents in the drought area and farmers there will contact the owner directly.

Farmers having hay or pasture for sale are urged to contact the Oakland County Extension Office as soon as possible. Give amount, quality and price of pasture, along with your complete name, address and phone number.

FEEDER CATTLE AND SHEEP

Agricultural Economists at Michigan State College advise that it will pay farmers to keep an eye on prices of feeders as the drought progresses. If large numbers of feeder animals going to market early forces the price down, it may be profitable to buy feeders to consume surplus roughages.

FOOD FLAVOR ACCENTED BY GARNISHES

We eat first of all with our eyes. That's why garnishes are so important, points out Margaret Wallace, Michigan State College foods and nutrition specialist. The eye appeal of garnishes is not only the reason for adding these "accessories" to our meals, however. They also accent food flavor.

Garnishes should be kept small, edible and in contrasting color to the dish.

Here are some garnishes suggested by Miss Wallace:

Raw broccoli or cauliflower flowerets are attractive for the hors d'oeuvres tray.

Hot ripe olives, celery curls, carrot sticks and radish roses are good on the luncheon plate. Chopped olives, blanched almonds and small mushroom caps would be effective additions to cutlet or croquette sauces.

The imaginative cook might garnish salads with apple slices with the skins on, beets cut with a lattice slicer or sliced green pepper rings.

For a more supreme chicken

salad, decorate with small grape clusters which have been dipped in egg white and granulated sugar.

To give a finishing touch to parfaits or cup cakes, use colored coconut. Glorify a butterscotch pie with a light sifting of brown sugar over the top of the meringue.

HORTICULTURE MEET AT MSC AUGUST 12

The summer meeting of the Michigan State Horticultural Society, at Michigan State College on Wednesday, August 12, will attract about 200 fruit and vegetable growers. The all-day session will be the first of its kind in 10 years on the M. S. C. campus, according to Dr. H. B. Tukey, head

of the horticulture department. The horticulture staff will be host to the meeting, which starts at 10 a. m. with a tour of their building and an inspection of research facilities. Following that, a tour of the horticulture farm is slated to study research work in progress. The tour of the building, gardens, greenhouses, and horticultural farm will be repeated at 2:00 p.m. for those who arrive late.

Among the things the growers will see are results of spraying with high chemical concentrations and spray injury studies, results with heavy and light pruning and the performance of apple varieties on dwarf rootstocks. Strawberry breeding, weed control studies on strawberries and raspberries and results of using plant growth inhibitors will be shown. Nutritional studies on Montmorency cherries, strawberries and vegetable crops; studies on peach maturity and ripening as related to processing; studies on weed

WARNING GIVEN ALONG SHORELINE TO GET LICENSES

A special detail of Michigan State Police has spent the last week visiting shoreline areas in the state to give a friendly warning to boat owners to comply with the license tax law before a check-up on delinquents begins Monday, August 10. It is estimated there are 20,000 boats subject to the tax, but up until July 24 only 5,240 licenses had been issued. The tax applies to boats 16 or

Try Pineapple Crunchies for a Tea-Time Treat

Each cookie wears a crown of crushed pineapple and chopped nuts. Crunchy little cookies made easily and quickly in the cool of the morning! Then you have on hand a fitting and delicious accompaniment to cool drinks and gracious hospitality. Serve these Pineapple Crunchies with tall frosty glasses of cold, cold beverages—maybe a fruit juice combination, maybe iced tea—but cold. They are also the ideal accompaniment to serve with ice cream for dessert.

PINEAPPLE CRUNCHIES

1 (No. 2) can of crushed pineapple
1 1/2 cups sifted flour
1 teaspoon soda
1/4 cup butter or margarine
1/2 cup brown sugar
1/4 cup granulated sugar
1/2 teaspoon vanilla
1 1/2 cup corn flakes
1/2 cup chopped nuts

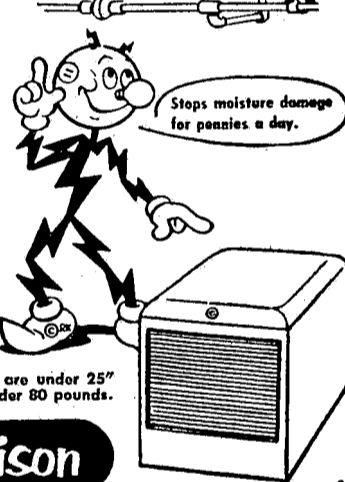

Drain pineapple; reserve syrup. Sift flour and soda together. Cream butter and sugar, add flour mixture, vanilla and 1 tablespoon of pineapple syrup. Stir in corn flakes. Press into balls, 1 1/4 inches in diameter. Place on cookie sheet and make an indentation in each with thumb or tumbler. Fill with crushed pineapple and sprinkle with walnuts. Bake in a moderate oven (350 degrees) about 20 minutes. Yield: 2 1/2 dozen. NOTE: Store uncovered.

Get an Electric Air Drier

(Dehumidifier)

Sweaty, dripping pipes are not only annoying—they indicate excess moisture which causes other, more serious trouble. Partitions warp, doors stick, tools rust and other valuables are attacked by rot and mildew. Dry out basement air with an electric dehumidifier and you stop the moisture condensation which causes all the trouble. Electric dehumidifiers are compact—easily moved from one trouble spot to another. They plug in, just like a floor lamp.

Most air driers are under 25" high weigh under 80 pounds.

SEE YOUR DEALER or Detroit Edison

more feet in length. Exempt are boats propelled solely by muscular power or detachable outboard motors and those operated on inland lakes having neither a navigable inlet or outlet.

The check-up is being made by the State Police at the request of the state waterways commission, which receives all of the revenue from the tax for the improvement of navigation facilities.

Failure to have a license is a misdemeanor punishable in justice court by a fine up to \$100 or 30 days in jail.

The licenses are issued in marine areas by branch offices of the secretary of state and some marine dealers.

During the first several days following the announcement enforcement action would start August 10 there were many inquiries, but only a mild increase in sales and most of these were in the Detroit area. Elsewhere in the state not too much concern was being shown, but it was expected sales would show a spurt as the deadline neared.

NEW CHEMICALS HELP PREVENT MILDEW, ODORS

Certain chemicals can be used to help solve the problem of mildew caused by warm, moist air, explains Lucile Ketchum, home management extension specialist at Michigan State College.

Calcium chloride is the old standby. However, it breaks down as it absorbs moisture and must be replaced. It also creates the problem of a "drip", Miss Ketchum reports.

Newer chemicals available in most hardware stores, some notions departments and some drug stores are sold in bags and do not present the drip problem. These chemicals are sold under various trade names but your dealer should know what you want if you ask for the kind that doesn't drip.

These newer chemicals change color as they absorb moisture and can be reused if you dry them in the oven according to directions that come with them.

Musty odors which may also accompany moist, warm air present another summer problem to homemakers.

Drying out the house with heat or ventilation is the best answer.

If the odor still persists, another chemical, chloride of lime, may help. It's a deodorant and disinfectant which may be sprinkled on basement floors and left until the musty odor disappears. Then sweep up the chemical, scrub and dry the floor.

Chloride of lime isn't suitable to use in contact with fabrics as it will cause them to deteriorate, cautions Miss Ketchum.

OLD WORLD VILLAGE

DUBUQUE, IA.—In a picturesque little valley near here lies a tiny, old world village: St. Donatus.

About 1840 a small colony of immigrants from Luxemburg settled in Iowa and tried to duplicate in every way the architecture, customs, dress and religious habits which they had left behind in their native land.

The old world village now has become an attraction for tourists and vacationers. Visitors from cities east of the Mississippi reach the village of legends by taking Highway 64, fast and scenic route.

In its early days, Iowa was a Mecca not for the farmer but for the miner. The district lead drew attention of lead producers all over the world with special interest in the duchy of Luxemburg, where that industry had been long practiced.

The immigrants quarried their own stone from the sharp bluffs of Niagara limestone. The blocks in the home foundations average two-and-a-half feet in thickness and they stand like Gibraltar even today.

Many of the present day inhabitants are descendants of the original settlers. The visitor to St. Donatus is struck by the strange contrast between the heritage of the past: old houses, weathered church; tiny cemetery with soft gold fungus covered tombstones—and the present: modern gas station, new frame tavern and a few up-to-date houses.

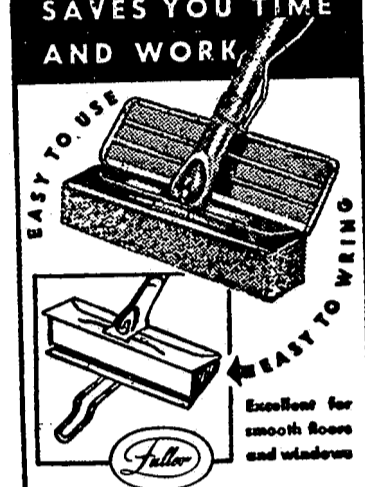

... the letters start. Then from all over the free world come such comments as these from readers of THE CHRISTIAN SCIENCE MONITOR, an international daily newspaper:

"The Monitor is most reading for straight-thinking people. . . ."
"I returned to school after a lapse of 18 years. I will get my degree from the college, but my education comes from the Monitor. . . ."
"The Monitor gives me ideas for my work. . . ."
"I truly enjoy its company. . . ."

You, too, will find the Monitor informative, with complete world news. You will discover a constructive viewpoint in every news story.

Employment Office Glenwood Ave., Pontiac, Michigan

This demonstration showed me the way to a better deal!

I'd been planning to buy a higher-priced car until I found out all Chevrolet offered—and how much I could save!

You get more power on less gas
That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field — the new 115-h.p. "Blue-Flame." Gearshift models offer the advanced 108-h.p. "Thrifty-King" engine.

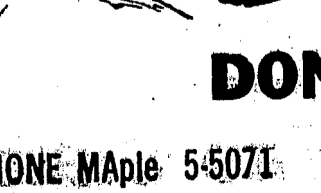

And it's the lowest-priced line
A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

Let us demonstrate all the advantages of buying a Chevrolet now!
CHEVROLET
MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

You're "sitting pretty" behind the wheel
Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around
You look out and down through a wide, curved, one-piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

Biggest brakes for smoother, easier stops
An easy nudge on the pedal brings smooth, positive response — right now! Chevrolet's improved brakes are the largest in the low-price field.

It's heavier for better roadability
You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

You get greater getaway with the new Powerglide*
A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at any price.

where he served until his appointment as division manager of the company's Central Division, with headquarters in Alma, in 1939. He was appointed manager of the Saginaw Division eight years later. In June he was elected vice-president of the Michigan Gas Association.

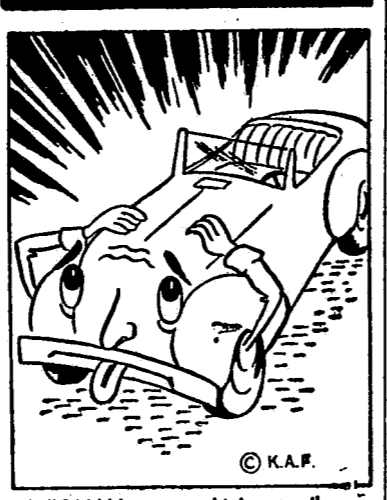

He is chairman of the Citizens Housing Committee in Saginaw, a director of the Chamber of Commerce and the Community Chest, president of the Saginaw Club, a past president of the Saginaw Rotary Club, and vice-president of the Valley Trails Council, Boy Scouts of America.

When you've made an attractive sandwich—serve it attractively. Eye appeal is a good share of the appetite appeal. A frill of lettuce, crisp carrot curls, pickle fans, radish roses, rosy red crab apples, cubes of cheese and fresh fruit aid in your imaginative touches on the sandwich plate. Perk it up to tempt lagging appetites.

Pretty Summer Angel Tray

Simple desserts that combine light sweetness with refreshing coolness add much to the enjoyment of warm weather menus, especially when served in an attractive way.

A pretty and easy warm weather dessert to serve to family and guests is a combination of uniced angel cake wedges and orange ice. Get a packaged, uniced angel cake from your grocer's ready-to-eat cake department. Or make two—depending on the number of wedges you need. These cakes are made from home type cook book recipes, like your own.

To serve, spoon orange ice into a round bowl. Place bowl in the center of a round tray or chop plate. Arrange wedges of angel cake around the center bowl. Bring this arrangement to the table, and make individual servings from it.

YOUR HOME NEWSPAPER

All matters handled through the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper each week.

WINNER EIGHTH NATIONAL TRAFFIC SAFETY POSTER CONTEST

August has been proclaimed Sandwich Month. Such a proclamation fits right in with easy living when the weather is warm. What could be easier to prepare than a sandwich? They're not only an easy food but a satisfying food, too. Some sandwiches are so complete—you can call them a meal-in-one. Club sandwiches or double-deckers are in this set. A souffle sandwich can easily be made by

tucking a favorite sea food filling between slices of bread, then baking it—using a condensed soup as a sauce. The filling will be a complete surprise, when covered with slices of enriched bread.

For a different sandwich, spread slices of bread with mustard and arrange small savory sardines on this. Top with onion rings and slices of cheese. Broil until hot and delicately browned.
