CLARKSTON, MICHIGAN, THURSDAY, SEPTEMBER 3, 1953

NUMBER 1

# PARADE TO HIGHLIGHT LABOR

# SCHOOL DAYS ARE HERE AGAIN

This week there has been quite | Localite Hears a good deal of activity in the bookstores in the Clarkston Community Schools. Everything will be in readiness for the regular opening of schools next week.

On Wednesday, September 9th, children will attend school in the morning for enrollment and assignments. On Thursday, Septemper 10th, the regular full-day classes will start.

The cafeterias in all schools, including the rural schools, will be

The busses will pick up the children at the same time and places as last year. During the first few days the bus schedule will be adjusted if necessary.

A great many of the teachers Monday, September 7th. They intend to make Clarkston their home for the next school year, at least. In order to make them feel that Clarkston is a friendly town and to allow them to get acquainted with other faculty members a coffee hour is being held in the high school auditorium between the hours of 5:00 and 8:30 on Monday evening.

### Attention! **Men Bowlers**

The Clarkston Men's Bowling League starts bowling on Friday night, September 11, at 7:00 o'clock. Bowlers are needed. Any men interested are asked to contact the bowling alley. To bowl in this league you must have either a Clarkston address or be on the Maple telephone exchange.

Mr. and Mrs. A. B. Wompole are now making their home in Martinez. California. They sold their home on Wompole Drive to Mr. and Mrs. Wallace Whitmer.

## Easy To Pray

I am grateful to Thee, Creator of

For the splendor of nights that come before fall. I am thankful for peace that

reigns here supreme, As it quiets my nerves like pleasant night's dream.

The moon and the stars in their glory shine bright

To bring to the earth a soft mellow light.

The lake is as calm and demure as a lass: Its surface as smooth and as bright

as a glass. The crickets and katydids chirp

in the wood. I view God's creation and know

it is good. I view with a reverence, the moon

on the lake.

With nothing of man, its silence to break.

And think of the torture of hot city places

Where throngs strive for life with long and drawn faces.

It must be real hard to visualize

While tramping the street with a sweltering mob.

I admire the courage of those who can pray-

Thanking God for His mercy, in the heat of the day.

And I hope there are none on a night by a lake

Who will be so ungrateful, and make the mistake

Of not thanking God for His bless-

ings so dear. As He shows us a bit of His heaven

right here.

Man's true relationship to God is explained in the Lesson-Sermon entitled "Man" to be read in all Christian Science churches on

Sunday, September 6. The Golden Text is from Genesis (1:26): "And God said, Let us make man in our image, after our

Among the Bible citations is this passage, (Acts 17:28): "For in him we live, and move, and have our being; as certain also of your own poets have said, For we

are also his offspring."

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "In Science man is the offspring of Spirit. The beautiful. good, and pure constitute his anestry. His origin is not, like that of mortals, in brute instinct, nor does he pass through material conditions prior to reaching inelligence." (p. 63): (continued on page 5)

## Old Schoolmates **Have Gab Fest**

Last Saturday students and teachers of the "old Clarkston School" on N. Main Street, held the annual reunion at the Townwas chairman of the meeting.

A delicious pot-luck luncheon was served at noon and the afternoon was devoted mostly to reminiscing. The group enjoyed singing with Mrs. L. F. Walter at the piano. Mrs. Byron Beardslee talked briefly about the years past and brought to mind many amusing incidents that occurred when the "oldsters" of today were "youngsters" at the old school on N. Main Street.

At the business meeting Mrs. Myrtle Lawson acted as secretary. The group voted to hold the reunion every two years. The committee named for the 1955 reunion includes: Mrs. Ruth Beckman, chairman; Mrs. John Thors, Frank Shotwell and Dr. Hazen Atkins.

The old-timers were happy to see some of the younger group interested in the get-together and able to attend. They are hoping S/Sgt G. Harvey Craft arrived that in 1955 the younger folk who attended the Clarkston School will see fit to attend the reunion and really make it a Clarkston School

homecoming. At the gathering on Saturday were guests from Rochester, Ypsilanti, Pontiac, Lapeer, Flint and Clarkston.

## **Clarkston Local**

The Sharpe Funeral Home has purchased a new, Cadillac funeral car. It is a beautiful car and really modern. At the push of a button it can be converted into an ambu-

## By The Way . . .

Accumulated effort will accomplish results. Of course these results can be good or bad. The accumulated summer, crowded into ne past few days is beginning t get results in the form of utter exhaustion for many. The boys in the shops report each day seems to be hotter and they find it much harder to accomplish any work. In some places the hours are being adjusted-the work starts earlier in the morning so that the men can get out into the open earlier in the afternoon. . . . Things are getting so dry that it will behoove everyone to be very mindful of fire. . . A long week end is coming up on the calendar. This generally means a lot more traffic than is usual on week ends. This does not mean for you to stay home and keep out of it, but, if you do go, drive carefully and watch the other driver even more carefully.

. . . Speaking of possible accidents reminds us of the one on Waterford Hill last Monday evening. Before traffic coming north could see what was happening seven cars had collided with the car ahead. . . . Friday, the Michigan State Fair opens for a nineday run. Come to think of it they will have no bingo games and even if a law was enacted to allow the game for charity, we doubt if the operators at the fair are very charitable, if what we hear about regulated boards is correct, , , ,

The New York Times claims to carry all the news "that's fit to print". Sometimes we wonder, when it is rather hard to find items for this space, what it would be like and how much more exciting the items would be, if we printed items "not fit to print"; Having arisen at an unearthly hour, in an attempt to finish my day's work before the heat of the day, we have been very much impressed with the amount of

truck traffic headed south. . . . Monday is the day for the annual Rotary Parade-the final, organized, good time before the youngsters start to school next Wednesday. Be at the parade-either in the line-up or on the sidelines. ... Everyone has his or her likes and dislikes, thus: Two Texas girls were talking about an oil man they were about to meet. "He's worth in the neighborhood of one million dollars", remarked one. "Good", said the second enthuslastically, "that's my favorite

neighborhood."

## Young People Have Activities Start **Progressive Dinner**

The "Youth Jamboree Group" of the Clarkston Baptist Church have kept quite busy all summer, Last Saturday evening they had ship Community Center. There a progressive dinner. They went, were 43 registered. Mrs. Iva Miller to four homes,—Mr. and Mrs. Harry Waggener's, Mrs. Zetta Taylor's, Mr. and Mrs. Merritt Cooley's and for dessert at the home of Mr. and Mrs. Herbert

> When at the Lissner home the young people took advantage of being close to the lake and enjoyed a swim.

These active young people have several special events on their agenda for this fall.

### **Jones Reunion Held Sunday**

The annual William Jones reunion was held on Sunday, August Boy Scout Troop 30th, at the summer cottage of Mr. and Mrs. Charles Rockwell at Big Fish Lake near Ortonville There were fifty-five members present.

The crowd enjoyed the basket, picnic lunch served on the spacious, lake-front lawn. The weath-While those in the towns and cities Rockwells and their guests enjoyed a cool, lake breeze.

During the afternoon the group had a good time swimming, motor boating and pitching quoits. The day was so delightful they voted visit to the Rockwell cottage next | Religious Service unanimously to make a return

Mr. and Mrs. Richard Lowrie and family left last Thursday to spend a few days at the Carr cottage at Grand Lake, near Alpena.

### FIELD DAYS **EMPHASIZE** CORN YIELD

will be seen in Michigan's first series of Corn Field Days, starting next week, and all signs point to a bumper state corn crop to help attract attention.

The all-day programs, modeled after a "pilot" corn field day last year in Ingham county, were arranged by a Michigan State College Extension Services committee. Members are James A. Porter and Paul J. Rood, soil scientists: Robert G. White, agricultural enginer, and Milton Erdmann and Leytn V. Nelson of the farms crops department.

Southeastern Michigan Corn Field Day will be Thursday, September 17, at the Lloyd Ruesink farm, about 5 miles northwest of

## For O. E S Chapter

The Joseph C. Bird Chapter, 294, O. E. S., will hold the regular September meeting on Tuesday night, September 8th at 8 o'clock, instead of on Monday on account of Labor Day.

The Special Meeting of the month will be held on Wednesday, September 23rd, at 8:00 P. M., and will be Advanced Officers Night. Mrs. Grace Richards, Grand Conductress, and Mrs. Glenna Hagle, Associate Grand Conductress, will be honored guests. Arrangements for the meeting are in charge of Mrs. Lloyd Smith, Mrs. Byron Nolan and Mrs. Fred Groven. Mrs. Rov Conrad will be chairman of the refreshments.

Practice for Advanced Officers Night will be held on Sunday afternoon, September 20th, at two o'clock.

## To Help Open Fair

The local Boy Scout Troop will help open the Michigan State Fair this year. At least they will be in the parade on Friday, September 4. They have been invited by the er was ideal for such an outing. Hutchinson Trailer Sales to ride on their float which will remind sweltered in a 96 degree heat, the everyone of the Boy Scouts' anniversary. Following the parade which will be from Jefferson Ave.. in Detroit to the Fair Grounds the boys will be dinner guests of the Hutchinson Trailer Sales.

## At State Fair

The Michigan State Fair has scheduled another religious Sunrise Service to be held Sunday,

September 6 at 8 A. M. Judge Luther W. Youngdahl, recognized as one of the Nation's leading church laymen, will be the main speaker. Youngdahl. now Federal Judge of the District of Columbia, was Governor of Minnesota when he spoke at the Sun-Big yields, not big "show" ears, rise Service two years ago. He is mony is welcome to attend. The TO FIRE EMERGENCY being brought back for this year's

> service by popular request. The Sunrise Service, which has pecome an annual event, is being neld in cooperation with the Detroit Council of Churches. Supervising plans for the council will be Dr. G. Merrill Lenox, executive director, and the Rev. Wellington M. Logan, executive assis-

James M. Hare, State Fair Manager, announced that admission to the State Fair again would be free to those attending the Sunrise Service. Gates will be open at 7 A. M. and no admission will be charged until 8 A.M. when the service will begin at the Music

### Safety Warning For Labor Day

State Police Commissioner Joseph A. Childs is urging Labor Day weekend motorists to drive with the utmost caution and avoid a bloody conclusion to what has been one of the most deadly summer vacation periods in Michigan

"The months of June, July and August" Childs said, "have accounted for more than 500 traffic deaths and delayed reports are yet to be received. Last year 493 persons were killed between Memorial Day and Labor Day.

"The Labor Day weekend death toll last year was 33. The high was 46 in 1940 and the low was seven in 1944. We should aim to avoid a new high and establish a new low.

"Many persons take advantage of the extended weekend for the season's final motor trip. Others are closing their summer cottages and bringing the children home for the start of school. But too often drivers try to travel too far and too fast, which is a deadly combination.

"With favorable weather traffic this week end will be the heaviest ever experienced for this holiday. All available State Police troopers will be on patrol, but they will need the help of every motorist to keep accidents at a minimum.

"Every driver and pedestrian should exercise special care. Live to enjoy the holiday—not regret

### GIVING TECHNICAL TESTIMONY WILL BE U-M SESSION TOPIC

How to give technical testimony involving medical and health problems in court cases will be the topic for a conference at the University of Michigan October

Sponsors will be the Institute of Industrial Health and the School of Public Health.

Anybody who might be concerned with this type of expert testiregistration fee will be \$5, with an additional \$2.50 if the registrant desires a printed copy of

the proceedings. Morning and afternoon sessions at the School of Public Health building will be devoted to discussions by lawyers, doctors and industrial health experts on the subject of preparing and giving expert medical and technical testimony. An evening session at the Michigan Union will be devoted to a dramatization of good and bad technical witnesses based upon a compensation claim in a simulated case of silicosis, a lung condition due to inhalation of dust

Applications for enrollment may be obtained from H. E. Miller at the School of Public Health.

containing silicon dioxide.

## **Annual Horse Show** September 12-13

The Dixie Saddle Club has everything almost in readiness for the annual Horse Show on Saturday and Sunday, September 12-13. The show will be staged at the Glenn Ellis Farm. 9331 Dixie Highway.

The Grand Parade will open the show on Saturday evening at 7.30. The program in the evening will be all western and the events will be varied and interesting.

On Sunday the show will open at 9:00 A. M. English and western horses will be featured. There will be events for juniors as well as

If you care for animals you are going to be thrilled when you see some of the prize horses that will participate. These horses will come from many places in Michigan and nearby states.

Expert judges will make decisions and give awards. There will be a valuable gate prize. In case of rain the show will be

### **Dry Weather Bad For Fires**

postponed one week.

This past week the Clarkston Rudolf Schwarze; supervision and Fire Department answered three policing-A. E. Butters, William calls, all for grass fires-two minor and one rather serious.

The Department of Conservation has ruled that, on account of the extra dry weather, no fires should be started in the out of

doors. Violators will be penalized. Fire hazards are many and every caution should be used to avoid unnecessary burning. Fire started on a grass lot will spread rapidly and while no intention of widespread damage is meant, the nearby areas might suffer a great loss.

Clarkston Local Born to Mr. and Mrs. F. E. Kukaw of 6244 Pine Knob Road, an 8 lb 10 oz son, Curtis Lee, on Friday, August 28, at St. Joseph's

Mercy Hospital in Pontiac.

## CIVIL DEFENSE RISES

The above head was one used by a Detroit newspaper on the article on the General Motors Livonia plant fire. "The fire provided a test for civil defense agencies", the newspaper reports, "and

their work won high praise". The complete Livonia civil defense unit was mobilized for the emergency. A first aid station was set up in a building under construction near the plant. In addition to cases sent to hospitals. many slightly injured firemen and plant employees were treated at the station and released.

A well organized civil defense unit is a great protection to any community. The unit in Independence, Waterford, Pontiac and White Lake Townships is striving to equip a well organized unit to be ready to act in any emergency.

At last, the great day has almost arrived, that is the day for the big parade sponsored by the Clarkston Rotary Club. On Labor Day morning, Monday, September 7th, the crowd to be in the line-up will assemble at Miller Road and N. Main St., at 9:30 and the parade will get underway at 10 o'clock.

This is the one big event that seems to close the summer season. It is an annual event that is attracting on-lookers from many surrounding areas. Each year the parade is bigger and better and the Rotarians are hoping that this year there will be even more paricipants.

Get yourself and your children into costumes-be a clown, a story-book character or a popular notable-just be in line on Monday morning and make fun for yourself and others in the community. Get that float ready-ride a decorated bike, or a horse, or a car or piece of machinery-take part in the parade and be a real part of Clarkston and its holiday doings.

The general chairman is Garnet

Poulton and assisting him are the

following: floats-Charles W. Robinson, R. L. Jones, C. H. Lippincott, A. W. Hawke, J. L. Carey, E. V. Squier: arranging for horses- George Lang, Fred Groven, Byron Nolan, Keith Lowrie, Fred Beckman; refreshments-Ira Snader, Russell McNeil, F. E. Davies, Roger Walstead, Henbert Beach, Burns, Earl Terry, Ronald Walter, Lloyd Megee, E. D. Rummins, Rev. R. M. Atkins, Leslie Greene and Dr. H. B. Yoh; publicity-W. H. Stamp, Dr. Don Stackable, Guy A. Walter, Alfred Lee, Paul Henry; arranging for Band and other attractions-Charles Rockwell, William Sharpe, Ralph Thayer, Richard Morgan, Roy Alger and R. M.

### TURKEY SHOULD NOT BE LIMITED TO THANKSGIVING

Turkey needn't be limited to the Thanksgiving and following" menus these days. The rather new breed of tender small-size Beltsville White turkeys is becoming increasingly popular for year around fare.

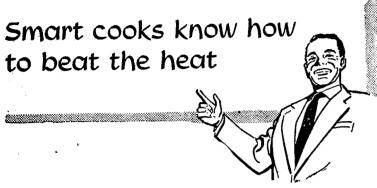

Here's how to broil one of these small turkeys as recommended by home economists of Michigan State College

First slit the turkey down the back, remove the breastbone and divide the bird in half. Remove the drumsticks, thighs and wings, and carefully cut out the bones. Prepare a stuffing for the tur-

for a four-pound bird. Put a FEEDER LAMBS spoonful of stuffing into the GAIN BETTER boned legs and wings, and sew or kewer them neatly to the body. Coat the turkey halves with melted fat and sprinkle them with salt and pepper. If you like, you can dust the turkey with flour. Start cooking the bird with the skin side away from the heat. Turn and baste it frequently while it's broiling.

When it is nearly cooked, turn the turkey halves skin side down on the broiler rack and fill each cup-shaped half with stuffing. Return it to the broiler to finish cooking the meat and to brown the stuffing.

Serve the turkey on a hot platter, skin side up, with the key, allowing three cups of bread | browned stuffing underneath.

What homemaker wouldn't like to be free from cooking worries, especially during the hot sum-

What woman wouldn't like to be able to visit with her friends, take in a movie, or go to the beach with her children on these wonderful summer afternoons?

You may not believe me - but thousands of smart cooks are doing these things every day. It's no trick at all when you cook with a wonderful new, fully automatic gas range. You simply prepare a complete oven meal, place it in the oven of your range, set the automatic controls and you are free to do as you please. When the time comes to sit down to the evening meal the dinner is cooked to perfection, waiting, ready to serve.

Your automatic gas range took over the complete cooking job. It maintained the correct temperature . . . it turned "on" and "off" at just the right time to meet your schedule perfectly.

But don't take my word for it. Come in. See these new gas ranges. Ask your friends, or neighbors about their new automatic gas ranges and you'll understand why they're called smart cooks.

## Your Gas Appliance Dealer...

will be glad to show you these new automatic ranges. They cost less to buy, less to use, and less to install than any other automatic range on the market today. PG-3446-20

## WITH HORMONES

Feeder lambs in Michigan State College tests increased their daily gain by 27 to 42 per cent with the use of implanted hormones.

Harold A. Henneman of the college's animal husbandry department in charge of research, says the use of both progresterone and estrogen indicates that much boost in gain on 15 to25 per cent ess feed per pound of increased

Good carcass quality was maintained with the use of these hormones, but the quality was lowered when other hormone, stilbestorol, was used. The latter drug also caused urinary calculi trouble in spite of the fact that it did boost the efficiency and rate

Henneman reports that experimental work is continuing with progesterone and estrogen to be sure the combination of treatments do not cause urinary calculi trouble. The use of hormones has not been approved by the Federal Food and drug Administration as yet. Their use is confined strictly to experimental work.

### SPECIAL LIVESTOCK LOANS AVAILABLE

Special Livestock loans authorized by recent legislation are now available to eligible farmers in this locality, it was announced this week by O. W. Moore, supervisor of the Farmers Home Administration for Oakland and Wayne counties.

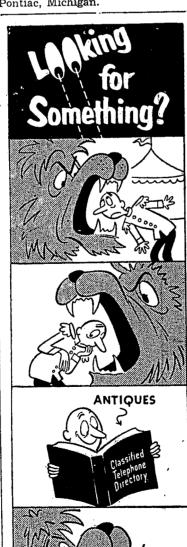

Purpose of the U.S. Department of Agriculture's new loans is to provide temporary credit to livestock producers to continue their operations after suffering economic difficulties caused by the recent drop in cattle prices.

Secretary of Agriculture Ezra Taft Benson has given top responsibility for the new program to R. B. McLeaish, National Administrator of the Farmers Home Administration. FHA State and County offices will disburse the funds, collect the loans and service the accounts.

In each locality a livestock loan committee, appointed by the Secretary of Agriculture, considers applications. Established producers of cattle and sheep may borrow if they cannot get their credit needs from customary sources, if they have a good record of operations, and if the credit would give them a reasonable chance to

Loans may be used to replace livestock, equipment, or for any purpose directly concerned with the Producers' livestock enterprise. Funds, however, cannot be authorized to expand the size of an operation previously existing. The program expires in 1955, and loans are made for a maximum of 3 years at 5 percent.

Inquiries may be made, or applications filed, at the Farmers Home Administration office serving the area where the farm is located. The office serving Oaknd and Wayne counties is cated at 318 Hubbard Building, Pontiac, Michigan.

of said administrator.

You're "sitting pretty" behind the wheel

Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around

You look out and down through a wide, curved, onepiece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

**Biggest brakes for** smoother, easier stops

## I figure this demonstration saved me many hundreds of dollars!

I expected to pay that much more for a new car until I discovered I was better off in every way with this new Chevrolet!

Let us demonstrate all the advantages of buying a Chevrolet now!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR I

You get greater getaway with the new Powerglide\*

A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at any price.

You get more power on less gas

That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide\* models, you get the most powerful engine in Chevrolet's field - the new 115-h.p. "Blue-Flame." Gearshift models offer the advanced 108-h.p "Thrift-King" engine.

It's heavier for better roadability

You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

\*Combination of Powerglide auto-"Blue-Flame" engine optional on "Two-Ten" and Bel Air models at

MIXTURE OF WATER. GRAIN TIME SAVER

If your cows take too much time to eat while they're being milked, you can do something about the situation, say dairymen at Michigan State College. The high producers that eat more grain are usually the big offenders in taking their time.

M.S.C. dairymen report that you may be able to solve the problem by adding water to the grain mixture. That is what is being done experimentally with a Brown Swiss herd at the College. It works well. The cows have a lusty appetite for the grain -drinking it instead of lapping it

ip with the tongue. C. F. Huffman, N. P. Ralston and H. L. Dalton, who conduct the tests and timed the eating and drinking, report the cows that ate the wet mixture seemed more

relaxed than others. As a consequence the animals let down their milk a fourth faster than cows eating dry grain. The faster the cows ate their grain, the faster they milked out.

The dairymen tried various rates of water per pound of concentrate and found that the cows consumed the grain most rapidly when 1.5 pounds of water was added to the concentrate.

The researchers figure that lot of time could be saved if a practical method of adding water to the grain can be found. They're trying several ideas.

### The Grist Mill

County Agricultural Agent

Sheep parasites don't take vacations and so farmers should be particularly careful in continuing their parasite control program. Phenothiazine and trace mineral salt, one pound, are still the best bet for parasite control. Use at the ratio of one pound of phenothiazine to twelve pounds of trace mineral salt. This mixture should be feed in a box protected from the weather.

Alfalfa seeding this fall should be in by this time. If you do not have your fall seedlings of alfalfa established as yet, it might be wise to wait until spring. The reasons for this recommendation are that young seedlings may start and then early frost cause dormancy to develop before root storage of food material has taken place. This will result in injury and killing of seedlings during the winter months.

This is the last call for soil testing for wheat for the 1954 season. Our laboratory has been running full blast for the past two weeks Don't wait until the day before you want to plant your wheat, since it takes two or three days to run your samples.

American Red Cross is hoping for a hearty response when it taps Oakland County's "blood reservoirs" next month with four Bloodmobile visits.

PEACHES IN THE FREEZER

Frozen peaches can give your family midsummer flavor in January. Here are a few new tricks to make your job easier.

Supplies Needed Best freezer containers for fruit

are rigid and are usually aluminum, glass, plas-tic, tin or heavily waxed card board.
These are ac-

tually moisture-vapor - proof. This is important in keeping the moisture

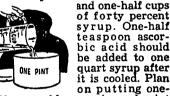

from evaporating.
Ascorbic acid (Vitamin C) may
be bought at the same place where other freezer supplies are purchased or at a drug or depart-

Why Ascorbic Acid?

during packing and storing. Pack in Syrup

Three cups of sugar dissolved in four cups water will make five and one-half cups of forty percent syrup. One-half teaspoon ascor-bic acid should

on putting one-half cup cold syrup in each pint Picking the Peach The peaches should be firm and

ripe-ready to eat. Allow one to one and one-half pounds of peaches for each pint. Peeling the Peach

Times have changed and it is

no longer a good idea to scald the peaches to remove the skin. Just knife and slice or halve them directly into the cold syrup in the freezing contain-Leave about

one inch head space in quart and one-half inch in pint containers. A small piece of parchment paper pressed down on the top will keep the peaches covered with syrup.

Seal and Mark
Seal the containers and mark
each one with the name of the
fruit and the date of freezing. Place the peaches in the freezer as quickly as possible, and look forward to wonderful peach sundaes, pies and cobblers throughout the winter.

Remember how rushed you were last Christmas - save yourself some of that hurrying this year by taking care of some of the 'must' items right now. FOIL SHOULD BE USED WITH CARE IN OVEN

One of the many ways homemakers ase using aluminum foil these days is in the oven under pies or other baked dishes to catch my possible run-over of food.

Olevia Meyer, home management specialist at Michigan State College, gives these directions for proper use of foil for this purpose: Use a piece of foil only slightly larger than the pan or dish holding

the food. Turn foil edges up and place it on a rack directly under the pan or dish. Authorities caution against covering the entire bottom of the

oven with foil because this cuts

off circulation of heat and pre-

vents proper cooking. Also, the heat given off by electric units or gas burners will be reflected back by the foil. This will overheat electric units, possibly causing them to burn out. With gas burners, it will cause incomplete combustion of gas which requires air circulation to burn

Another precaution-foil should

in any electric appliance because it is likely to cause a short cir-

If you use synthetic detergents in your washing you may add chlorine bleach to wash water just as you use flake bluing. But do not use the new powdered chlorine bleaches with soap. There are new perborate bleaches on the market which are safe for regular bleaching without danger of damage to fabric or color.

Beef will be plentiful in the markets during September-especially beef of the intermediate and lower grades from grass-fat animals from the range country. This meat is particularly well suited to stews, pot roasts and the wide variety of dishes made from ground beef.

Several factors may cause canned fruit to float in jars. Fruit may float because the syrup is too heavy, because the pack is too loose or because all the air in the fruit tissues was not forced out never touch open heating wires during the heating and processing.
