CLARKSTON, MICHIGAN, THURSDAY, SEPTEMBER 24, 1953

NUMBER 4

## Orion Revenges Clarkston 14-0

Last Friday night the Prep Gridiron opened fire with the Clarkston Wolves being one of the first victims.

Lake Orion revenged last year's 7-0 defeat by scoring early in the game on a long pass and pushed their second tally across with 4 seconds to play in the game.

Clarkston threatened twice in the first half; once from the 3 yd line, but the offense stalled; and then later the half ended with the Wolves on the Orion 6 yd line.

Late in the game a Clarkston fumble on the Orion 12 yd line ended the local lads' hopes.

It was a well played game for both teams for this early in the season.

This Friday the Clarkston team will entertain Brighton here at 3:30.

## Special Services In Waterford

A special two-day evangelistic series will be conducted at the Waterford Community Church on Wednesday and Thursday, Sept. 30 and Oct. 1, at 7:30 P. M.

The Voice of the Hills Evangelistic party from Fairmount, W. Va., will conduct the meeting under the direction of Evangelist J. B. Sessions. With him are the Arnold sisters, and soloist R. Bennington. They present a ladies' trio, vocal solos, and instrumental music, "with a southern flavor", and sane, Scriptural preaching by Mr. Sessions.

All in the community are invited to attend and enjoy this unusual and thrilling program and message.

## Obituary

### Mrs. Bernice L. Chase

The funeral service for Mrs. Bernice L. Chase was held on Monday afternoon at the Sharpe Funeral Home with the Reverend Walter Ballagh and the Reverend George Halk officiating. Burial was in Lakeview Cemetery.

Mrs. Chase passed away on Friday, September 18, at the University Hospital in Ann Arbor after a long illness. She was born in Clarkston on January 2, 1900. She graduated from the Clarkston Schools and was a member of the Clarkston Baptist Church.

Surviving are a son, Robert, of Pontiac, and her mother, Mrs. Mabel VanHorn of Clarkston.

Funeral services for Mrs. Jennie Arnold Mann of 808 Lincoln Ave., Flint, were held in The Rose Chapel at the Algoo-Gundry Funeral Home in Flint on Wednesday afternoon at 3:30, with burial in Ortonville cemetery. Mrs. Mann who lived in Clarkston for a number of years is survived by two sons, Russell of Flint and Arnold of Clarkston and two sisters, Mrs. Edla Saboley of Royal Oak and Mrs. Norma Kaales of Flint.

## Clarkston Locals

Mrs. Bella Peache of Chicago visited Mrs. Ada Mills and Miss Myrtle Skinner last week.

Mrs. Basil Taylor and daughter, Barbara, flew back from Greensboro, N. C., last Saturday after enjoying two weeks with Mr. Taylor's brother-in-law and sister, Mr. and Mrs. Ben Warwick. They had a grand time; the weather was fine; and the countryside was beautiful.

## Rites Read In Lansing Church

When Donna Jean Spayde walked down the aisle in Mt. Hope Methodist Church in Lansing at 7 o'clock on the evening of September 12, to meet her bridegroom Richard K. Allen, she was charming in her sister's wedding gown of white slipper satin fashioned with a basque bodice buttoned in front with tiny satin-covered buttons. The round collar of Chantilly lace was edged with a ruffle outlined with seed pearls. Tiny satin-covered buttons were used on the long sleeves which were pointed at the wrists. The full skirt extended from a medium torso into a full cathedral train. Her finger-tip veil of French imported illusion fell from a cloche of Chantilly lace and corded satin with seed pearl trim. She carried a Colonial bouquet of white baby chrysanthemums and ivy centered with two white orchids and backed with Chantilly lace.

The bride is the daughter of Mr. and Mrs. Herbert C. Spayde of Belleville, Ohio, and parents of the bridegroom are Mr. and Mrs. Harold K. Allen of Williams Lake. The double-ring rites were read by candlelight by the Reverend Warren Brown before an altar beautifully decorated with baskets of white gladioli, white baby chrysanthemums and white candles in cathedral candelabra. The altar vases held white baby chrysanthemums.

Before Donna Jean was escorted to the altar by her father, Mrs. J. Reagan of Pontiac Lake sang "Because" and "O, Promise Me". Towards the close of the ceremony she sang "The Lord's Prayer". Mrs. Voelker of Lansing presided at the organ for the solos and the traditional music.

The bride's sister, Mrs. Robert Yeager, of Lansing, as matron of honor, was lovely in a gown of pink-copper hue. It was styled with a taffeta bodice with bateau neckline, a cummerbund and a nylon net skirt.

The bridesmaids, Miss Frances Biergans and Mrs. Violet Smith, both of Lansing, wore cocoa tone and yellow wheat colored gowns respectively, styled the same as the honor attendant's gown.

All three attendants wore half hats of shirred net to match their gowns and each carried a colonial bouquet of yellow and bronze pom-poms.

Mr. Allen was assisted by Robert Yeager of Lansing as best man and the groomsmen were Lewis Masters of Ann Arbor and Joseph Sutton of Waterford. Seating the guests were Dean Anderson of Waterford Township and Earl Smith of Lansing.

A reception was held in the church parlors immediately following the ceremony for one hundred and seventy-five guests.

The bride's table was centered with a five tiered wedding cake topped with a miniature bride and groom and encircling the base of the cake were white pom-poms and ivy. Also on the table was a vase of white gladioli and white pom-poms and white candles in silver holders.

Cutting the cake was Mrs. Florence Kidder of Lansing and presiding at the silver services were the bride's sisters-in-law, Mrs. Jack Spayde and Mrs. Richard Spayde, both of Belleville.

Registering the guests was the bride's aunt, Mrs. Grant Lenington of Belleville.

For her daughter's wedding Mrs. Spayde chose a dress of smoke blue San Tussa silk with an overjacket and black accessories. Mrs. Allen wore an olive green crepe suit dress with white angora trim and black accessories. Both mothers wore orchid corsages.

When the young couple left for a honeymoon into Ohio and Northern Michigan the new Mrs. Allen was attired in a black wool, knit dress with white angora trim and at her shoulder were the white orchids from her bridal bouquet. They will be at home to their friends at 231 Valley Court, East Lansing.

The bride is a graduate of the Belleville, Ohio, High School and the Lansing Business University. She is a secretary at the John Deere Plow Company in Lansing.

Richard graduated from the Clarkston High School in the class of '49 and he is now in his senior year at Michigan State College. He is a Past President of Pi Kappa Phi fraternity and has been a member of the College Glee Club.

Guests at the wedding were from Ohio, Clarkston, Ann Arbor, Waterford, Bay City, Saginaw, Drayton Plains, Lansing and Detroit.

## Rotary Anns Start Season

On Tuesday evening the Clarkston Rotary Anns met at the home of Mrs. R. L. Jones with a splendid attendance. Mrs. Charles Rockwell was co-hostess.

Mrs. A. W. Hawke, president, conducted the meeting and appointed committees for the year. Subjects of discussion were: Girl Scouts; the Christmas project; and sick room equipment.

The Rotary Anns have sick room or hospital equipment and anyone in the community is privileged to use it—just call Mrs. R. N. Parker and make your needs known.

The officers of the club for 1953-54 are: president, Mrs. A. W. Hawke; vice-president, Mrs. Charles Rockwell; recording secretary, Mrs. R. L. Jones; treasurer, Mrs. Fred Groven; corresponding secretary, Mrs. Earl Terry; trustees, Mrs. Rudolf Schwärze and Mrs. Garnet Poulton.

To close the evening dainty refreshments were served from a table attractively centered with an arrangement of fruit in a milk glass bowl flanked by white candles in milk glass holders.

## Engagement Announced

Last week in Winnipeg, Manitoba, Mr. and Mrs. R. Ceal Clifford announced the engagement of their daughter, Susan Margaret, to Lawrence Sidney Allen, son of Mrs. Clyde Irwin Allen of Clarkston, and the late Dr. Allen. The marriage will take place October 10th.

## COEDS' SMALL BUDGET WILL LIKE VICARA

Vicara "the fiber that improves" the blend" is a boon to coeds with modest budgets but cashmere tastes in sweaters.

This fiber, made from the protein of corn, is never used alone because it lacks strength, explains Marjorie Eastman, Extension clothing specialist at Michigan State College.

It's most useful in blends—gives wool a soft, cashmere-like feel, lends softness and elasticity to rayon and rayon blends, makes nylon more absorbent.

And, if sweaters contain enough Vicara, they won't have the tendency to cling to the body, since Vicara is almost entirely free from static.

If you're allergic to wool, Vicara-blend sweaters offer special benefits to you. Mixed with other man-made fibers, Vicara gives the appearance of wool without irritating sensitive skins.

Besides its economy, Vicara's moth-resistant and mildew-resistant properties are factors contributing to its popularity in blends.

Methods of care for Vicara-blend fabrics should be guided by the other fibers in the blend. When it's blended with nylon, launder as you would nylon. Use all-wool laundry procedures for wool-Vicara blends.

## Clare Bedding Moves North

It was away back in May of 1936 that Ben Clare started manufacturing mattresses in Pontiac. In October of that same year he purchased the building on White Lake Road near the Clarkston depot. His business grew and so did the building and now in his 18th year he has decided to make a move.

A large part of the business is in the Upper Peninsula and Wisconsin and many of the dealers would be happier if they were closer to the source of supply—so the move.

Over the years Clare Bedding has turned out many mattresses and box springs and their place has been a sort of landmark on White Lake Road.

Mr. and Mrs. Clare have sold their beautiful home on Greens Lake and as for the factory, they will start moving the equipment on October 1st.

Their new location will be at Hermansville, Michigan, where they have purchased a building and an apartment.

Making the move with them will be their son-in-law and daughter, Mr. and Mrs. William Denton and children.

## Do A Good Deed Today

If you are a woman 18 years of age or over and have any time at all to devote to young people who need your help—then your good deed would be to call Mrs. Raymond Ruggles and tell her you would be happy to assist with the Girl Scouts or Brownies.

You do not need experience for this work. All you need is patience, some original ideas and a love for young people.

## Mrs. E. W. Carvey Hostess To Club

On Monday, September 28th, the Pontiac Women's Republican Club will meet at the home of Mrs. E. W. Carvey, 276 White Lake Road, at 1:30 P. M.

The guest speaker will be Donald A. Brown, assistant prosecutor for Oakland County.

All women in the district, who are interested, are cordially invited to attend.

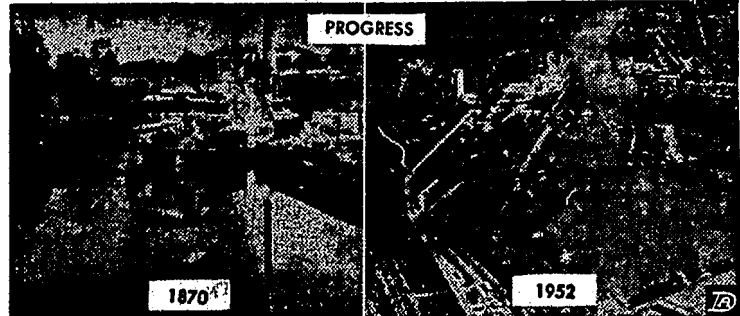

## STATE PMA DIRECTOR WINS ESSAY CONTEST

A first place in the Uhlmann Awards National Grain Marketing Essay Contest went to Clarence E. Prentice, Michigan State College agricultural economist on leave as Michigan's Production and Marketing administrator.

His essay on "The Grain Sanitation Program" won the graduate students division—he was doing graduate work at Kansas State College when he wrote it. He was honored at a Chicago dinner by Richard F. Uhlmann, former president of Chicago Board of Trade, and received a \$300 award.

## KNOW YOUR WATERWAYS

### What Is Economy?

A greater America tomorrow depends largely upon continuing harbor and channel development—but according to George H. Palmer, Publisher of The Marine News of New York, during the past two years such work has allowed to dwindle to almost nothing. For the fiscal year ending June 30, 1954, only \$3,144,000, a little less than three fourths of one per cent of the Army Civil Functions Appropriation Bill is provided for actual harbor and channel widening and deepening in only eight states. The Nation has a coast line of some 30,000 miles (Great Lakes included) along which are more than 200 harbors with many of them needing more depth and area. Many channels need straightening, widening and deepening; many cannot be maintained for maximum use with the amounts being appropriated for that purpose.

Palmer says that real federal economy is efficient management, waste avoidance and spending that adds to assets and productivity. Waterway development of the past contributed tremendously to the America of today through its fine ports, harbors and channels. They are tremendously important in the economic progress of the Nation, vital both during peace and war.

Who knows what future harbors and channels may become indispensable to the Nation, and when? The Marine News says many at present cannot take care of modern deep draft vessels; those that can might not be strategically located or available at a critical time. More adequate harbors and channels and adequate maintenance are not only security safeguards; they are needed to care for the Nation's expanding industry and commerce and to accommodate larger and deeper vessels.

The natural harbors and channels of America are unrivaled in all the world. They are yet largely undeveloped. Unless it is realized that development and expansion have been almost completely abandoned and that a reasonable program must be resumed immediately, great potential benefits will not be available for many years.

## Family Day At Waterford Church

The Annual Family Day will be observed at the Waterford Community Church on Sunday, Sept. 27, with an all-day program.

The schedule of the day's meetings will begin at 10:30 A. M. with a combined Sunday School and Church service. Parents will visit briefly in the classes of the children, and then join together for the Bible study under the direction of the Reverend W. VanPlew, pastor. The subject will be, "The Church and the Home".

A cooperative dinner will be held following the morning service, with families bringing passing dishes. Everyone is invited to attend and remain for the dinner.

The choir will present a sacred musicale at 2:30, under the direction of Charles Jehle, assisted by Mrs. C. Coventry, pianist. Variou vocal and instrumental numbers will be given, and former members and pastors of the church who are present will be heard.

Refreshments will be served at 5:30, following which at 7:00 P. M. the final meeting of the day will be held. This will be conducted by a team from the Christian Home League, under the direction of Mr. Dick Hart of Detroit. A picture of the family at home worship will be given to the church, and the men on the team will tell of the blessings of home Bible reading and prayer.

All are cordially invited to spend the entire day with this happy church family.

## Civil Defense Explained To Club

On Tuesday evening the Waterford Township Business and Professional Women's Club held its "Program Night" at the Hangar restaurant at the Pontiac Airport.

The guest speaker was Louis Dorman, Jr., Director of Civil Defense in Waterford Township. Mr. Dorman outlined the program and stressed the need for such an organization, not only in times of air raid but in times of disaster, such as the tornado in Flint and the fire in Livonia. Mr. Dorman explained the radio and radar set-up across the nation; the mobile units; and how every individual would be able to help if properly instructed. He urged groups to acquaint themselves with the workings of the organization so that they could take over as a unit and lend assistance in saving lives in times of disaster.

Along with Mr. Dorman was Lloyd Gidley, Assistant Director, who distributed literature and application blanks for volunteers.

The second part of the program was a skit "Interviewing a Prospective Member". This was cleverly enacted and as the scene took place in a hat shop it climaxed with a hat auction with Mrs. Warren Weber, who was the hat shop owner, as the auctioneer. This was quite entertaining and at the same time made a little money for the treasury.

The evening closed with refreshments.

Announcement of the card party at the C. A. I. building on October 19th was made. Tickets are available from any member.

The program for the evening was in charge of the Education and Vocations and National Security Committees with Mrs. H. A. Mitchell and Mrs. H. G. Fuller as chairmen.

## Powell's Market Two Years Old

Two years ago J. D. Powell conceived the idea of running a store which specialized in fish and poultry exclusively. Purchasing land on the Dixie Highway, just south of the intersection of M16 he built his store and opened for business.

This week he is celebrating the close of the second year with a special sale—see advertisement on page 3.

## Many Clarkstonites Enter College

Among the students who have left for college are: Jack Gardiner has enrolled as an Engineering student at the University of Detroit; Patsy Tisch has enrolled as a pre-med student at University of Michigan; Sandra Wampfler is starting her freshman year at Michigan State College; Pat Jewell is starting his last year in pre-dentistry at University of Detroit and he is really on his way to make a very fine dental student as he has been on the honor roll for the past two years; Ann Spohn will attend the University of Wisconsin; Sally Stageman will start her sophomore year at Michigan State College; Jim Huttenlocher is starting his sophomore year at the University of Michigan and others from here who will be at U. of M. this year are Hubert Allen, Tom Bullen, Richard Huttenlocher and John Bennett.

Sue Shanks is attending Western Michigan College in Kalamazoo; Judy O'Dell is enrolled at Michigan State; "Chuck" Robertson is in his first year at Albion; Johnny Stageman is attending Graceland College in Lamoni, Iowa; Terry Brown is a freshman at Michigan State College and Ann Barrows will leave this weekend for the School of Commerce at Tri-State University, Angola, Indiana.

## Church In The News

### CLARKSTON METHODIST

Rev. Robert M. Atkins, Pastor

9:45 A. M. Church School. William Mansfield, Superintendent. Classes for all ages including an adult class with Mr. A. E. Butters, teacher.

7:00 P. M. Youth Fellowship Tuesday, 7:45 P. M. Choir Rehearsal.

### CLARKSTON BAPTIST

Rev. George Halk, Pastor

10:00 A. M. Sunday School. Wendell Bishop, Superintendent.

11:00 A. M. Morning Worship.

6:15 P. M. Young People's Meeting.

7:30 P. M. Evening Service.

(continued on page 7)

## Michigan Scouts Seek Antibiotic

Top ranking Girl Scouts, picked to attend the All States Encampment in Shoshone Canyon adjoining Yellowstone Park, Wyo., prospect the Absaroka Mountains for soil samples to aid scientists of Lederle Laboratories, American Cyanamid Company, in their round-the-world quest for new wonder drugs such as Aureomycin-chlorotetracycline. Left to right, Peggy Lamb, Marquette, and Nancy Anderson, Jackson. The blamed thing down!

## Harvest Dinner Next Wednesday

On Wednesday evening, September 30, the women of the Woman's Society of Christian Service of the Clarkston Methodist Church will serve a Harvest Dinner in the dining rooms in the basement of the church. There will be turkey with all the trimmings and serving will start at 5:30 P. M. The public is invited to attend. The cost is small.

During the evening the Priscilla Circle will sell baked goods and the Dorcas Circle will hold an apron sale.

Keep the date in mind—Sept. 30.

## Rummage Sale Next Week

The Clarkston Farm and Garden Club will hold its annual Rummage Sale on Friday and Saturday, October 2-3, at the former power house in the rear of the Township Community Center on N. Main St.

The proceeds from the sale will be used to beautify the grounds around the Center.

The members will be glad to collect any rummage you wish to donate.

## Clarkston Locals

Lois Baynes, daughter of Mr. and Mrs. Herbert Baynes, is spending a few weeks at her home here. She is a graduate nurse of Harper Hospital in Detroit.

The Reverend and Mrs. R. M. Atkins were called to Toronto, Ontario, on Tuesday of last week on account of the death of Mrs. Atkins' mother. The funeral service was held on Friday afternoon. They returned to Clarkston on Saturday.

## By The Way . . .

Oh, Yes! Can you work the combination on the new post office box without looking at the instructions on the slip the office gave you, and can you open it the first time? Such is progress. You have to get in step with the new ideas. . . . Financial item of the week: The best we have heard is the statement that we never had it so prosperous, and we can't believe it's true, so we think we are dreaming and will wake up to find it all over. . . . Now that school is underway, the young men and women have started their college careers and Clarkston is well represented at several of the colleges. . . . When you don't know any other way to start an advertisement you generally say "Now is the time." So we wish to remark that now is the time to purchase your "No Hunting" signs. As usual The News will carry a supply in stock. . . . After a number of years in this vicinity the Clare Bedding Manufacturing Company is moving to Hermansville, Mich., in the Upper Peninsula. Ben Clare, the owner, has made many friends in this community and his son-in-law, William (Bill) Denton, who grew up in Clarkston will be missed. Both were possessed of that good small town desire—the desire to purchase everything possible in the home town. This should make them good residents of their new location. . . . After writing poems weekly for The Clarkston News over a long course of years, Robert C. Beattie is taking a short vacation from this activity. The writer joins the others who have appreciated his poems in hoping that his vacation is a short one. . . . Russ McNeil of McNeil's Nursery now has in stock - Bulbs, imported from Holland. So, now Clarkston is the home of an imported. . . This week marks the second anniversary of Powell's Market owned by J. D. Powell which would seem to show that this community can support a specialty store selling fish and poultry. . . . Kroger's this week announce the opportunity to purchase the American International Encyclopedia in single volumes. . . . We understand that the Clarkston Football Team didn't do so well last week. Perhaps the reason was that the team needed more home town support. The Clarkston State Bank has published the schedule on page 6 of this issue and perhaps you will find it possible to attend some of the games and thus lend your moral support. . . . Then there was the sympathetic son who remarked to his mother "Don't sell the old home" and followed with this thought "Burn the blamed thing down!"

**Waterford**

**Mrs. Jack Hall, Correspondent**

The Cheery Chum group will meet this coming Friday, September 26th, at the home of Mrs. Roy Pammenter for a "kids' party". Everyone is to come dressed as a youngster and bring a box lunch for exchange. Mrs. Thomas Corbin and Mrs. Rudy Boss are co-hostesses for the party and working with them will be Mrs. Isaac

Shook, Mrs. Lawrence Giddings, Mrs. Marshall White and Mrs. Claude Hoadley. Supper will be served at six o'clock and will be followed by the business meeting and entertainment.

Recent house guests of Mr. and Mrs. James Sutton were his sister and her husband, Mr. and Mrs. C. L. Kelly from New York City and Mrs. Sheldon Howard and daughter, Mary, of Springfield, Illinois.

Mr. and Mrs. Don White and two daughters are now living in their

new home on Andersonville Road. The house was recently built on the lot between those of Mrs. Bessie Owen and the E. J. Lolleys. Phyllis Fullerton of Airport Rd. spent the weekend at the Artists' Colony at Saugatuck where she painted water colors of the sand dune and cliffs.

Ronald Grover who has been stationed at Waco, Texas, is now out of the army and has returned home. His brother, Larry, a polio patient at the Contagious Hospital, is coming along nicely and is improving some each day.

Sixteen members of the Waterford Women's Club met last Thursday evening in their club room at the C. A. I. building. Plans to serve several dinners in the next month were completed with the first one being served last Saturday evening. Members of the Waterford Township Firefighters' Association honored one of their members, Keith Riley, at a farewell dinner. Mr. Riley and his family will leave shortly for Chicago where he has accepted a position. Other meals to be served include the Oakland County C. I. G. Council dinner on October 1st; a luncheon on October 6th for the Waterford Township Child Study Club and a large Democratic Club dinner the last of October.

The October meeting will begin at 6:30 with a planned potluck supper. This is the revealing party for the Sunshine Sisters and new names will be drawn for the coming year. Hostesses for the evening will be Mrs. Edna McDonald and Mrs. Glen Byington.

The Women's Auxiliary of St. Andrew's Episcopal Church will sponsor a smorgasbord dinner this Saturday evening at the C. A. I. building. Mrs. H. S. Richardson is general chairman. The kitchen is in charge of Mrs. W. R. Hahn, president of St. Martha's and Mrs. Jan Stevenson, president of St. Catherine's Guilds, will have charge of the dining room. Serving will be from 5:30 until 7:30 and the public is cordially invited.

Sunday, September 27th, is Family Day at the Waterford

Community Church starting with a combined Sunday School and church meeting at 10:30 a.m. with various meetings throughout the day.

Mr. and Mrs. Keith Riley were honored at a farewell dinner on Saturday evening by the Waterford Township Firefighters Association in the C. A. I. building. They, with their three sons, are leaving shortly to make their home in LaGrange, Illinois. Mr. Riley has accepted a position with Fish-er Body in Chicago. He was one of the organizers of the Fire Department back in 1941 and they have lived in the vicinity since 1938. Following the dinner gifts of luggage and an orchid were presented the couple, along with the best wishes of their many friends.

Mrs. Riley was honored on Monday evening at a surprise dinner given by the Metropolitan Ladies' Auxiliary at the C. A. I. building. The Rileys have bought a home and their new address will be 1808 55th Place, LaGrange, Illinois.

Mrs. J. E. Hoard, mother of Mrs. James Sutton, along with her sister, Mrs. L. C. Stanes and her brother and sister-in-law, Mr. and Mrs. H. D. Hoard and daughter, Peggy, all of Wildwood, Florida, are visitors at the James Sutton home.

Mr. and Mrs. Henry Mehlberg and Charles Jehle attended the combined meetings of the Pontiac and Macomb County Gideons at Simpson Park near Romeo on Monday evening.

The Ladies' Auxiliary of the Waterford Community Church will hold a dessert luncheon at the church on Thursday, October 1st, beginning at one o'clock. Experience money earned during the summer months will be turned in at this time. The money will go toward the new floor in the church basement. A program is being planned by Mrs. Wright VanPlew and Mrs. Kline Powell. Mrs. Roy Pammenter and Mrs. William Granger have charge of the luncheon.

This summer has shown a marked increase in both the Waterford Township Recreation Department planning and township participation. Mrs. Lois Tiffany, Summer Director, deserves much credit for the success of these activities. Thomas Belton, new recreation superintendent, also gave assistance. The township support and participation gave the final impetus needed to complete the summer's activities.

Plans have been completed for the program on Rally and Promotion Day in the Church School of Christ Lutheran Church, Airport and Williams Lake Roads. The day is set for September 27th at 9:30 A. M. All new pupils are invited to enroll on that day. The Rev. Arvid Anderson, Pastor of the church and Mr. Gosta Lindman, superintendent of the school have announced the complete list of teachers and officers for the coming year. Officers in the church school besides Mr. Lind-

man are Mrs. Preston Green, secretary; and Mrs. Glenn Byington, treasurer. Department superintendents include; Beginners, Mrs. Gordon Boeneman; Primary, Mrs. Leo Puglise; Junior, Mrs. Otto Kolar; Intermediate and Adult, Mr. Gosta Lindman. On Rally Day the program will feature a special class event by the primary department under the direction of Mrs. Leo Puglise. Information regarding the school may be obtained by calling OR lando 3-1811.

**YOUTH TEAM TO HELP CUT FARM PERILS**

Michigan young people have joined forces to eliminate farm safety hazards.

David G. Steinicke, extension farm safety specialist at Michigan State College, says the youths represent 4-H Clubs, Future Farmers of America, Future Homemakers of America and the Grange youth. They're being led by Junior Farm Bureau members, Dick Arnold of Plainwell is chairman of the committee.

Plans call for teams of farm youths from the five organizations to inspect farms with the consent of the farmer and leave reports with him of the safety hazards they found. They also will give their recommendations on how the hazards may be eliminated. A few weeks later they will return to see how many of the safety hazards have been removed.

The project is being sponsored by the Michigan Rural Safety Council and the Farm Bureau

Mutual Insurance Company. In other states where a similar project has been tried, notes Steinicke, the youth farm inspections have resulted in correcting 60 to 70 per cent of the hazards. This contrasts to only 30 to 35 per cent corrections which followed inspections by fire marshals or insurance companies.

Only nine counties of Michigan will test this plan this fall. By next spring the committee hopes to be experienced enough to boost a statewide safety hazard inspection. The counties invited to take part in the plan this fall include Cass, Hillsdale, Livingston, Ionia, Clinton, Huron, Mecosta, Gratiot and Presque Isle.

**School News**

**Kindergarten News—Mrs. Zenke**

The kindergarten class got off to a good start this year. We are having fun getting acquainted with each other. The hardest part is learning each others names.

Last week we had two birthdays in our room. Dickie Lake's birthday was Sept. 13 and Danny Addis' was Sept. 14. Danny's mother sent a birthday treat to school and we had a party at milk time. The birthday boys wore birthday crowns and looked like kings.

We hope there will be more birthdays soon because we like parties.

**First Grade News—Miss North**

For the first graders the first week of school has been quite exciting. Some of the many things we did were to collect stones, insects and leaves for our nature table and make a village.

During the week we studied about our school and had Mr. Green in to visit us. We had many other visitors, including Mr. Clarkston School Cricket, Miss Fluffy, the cat, and dolls.

**Third Grade News—Mrs. Connelly**

There are 37 children in our room this year. Tommy Campbell, Linda Houlden, Robert Wiles and John O'Dor are new ones that came to our room. We hope they will like our school.

**Sixth Grade News**

Last Friday we saw a film strip on South America. It was very interesting.

In history we made a bulletin of primitive days.

In art we are learning to make all kinds of letters out of black paper. So far we have got our letters up to M.

Fayann Burley

**NEWS AND COMMENT**

**CONGRESSMAN GEO. DONDERO NIAGARA PUBLIC POWER WOULD WASTE TAX MONEY**

Congressman George A. Dondero this week cited facts and figures which show that proponents of additional electric power development at Niagara Falls, either by the United States or the New York State Power Authority, deliberately would waste the money paid in by taxpayers in order to support a socialistic program of state or Federal ownership.

"At present the bill to authorize additional power development at Niagara Falls by five private enterprise companies operating in the State of New York awaits action by the United States Senate, after having been passed in the recent session of Congress by the House of Representatives," Congressman Dondero said. "It seems to me likely that action by the Senate will come early in the session next year.

"Nevertheless, public power supporters have not given up the fight for socializing this great power development, and we may expect to hear many arguments on the subject in the Senate before the final action is taken. All this in spite of the fact the project was thoroughly explored in the course of House committee hearings and House debate on the bill.

"Most of the arguments pro and con have been publicized by press and radio," Congressman Dondero declared, "but here are some facts to which little attention has been given.

"Before the House Committee on Public Works, of which I am Chairman, representatives of both Army Engineers and New York State Power Authority admitted that if either of them constructed the new Niagara Power facilities, they would have to do it on land owned by the power companies, and later would have to contract with the private companies to transmit the power over privately-

owned distribution lines.

"Either they would have to do this, they said, or they would have to build transmission lines, at prices ranging from \$80,000 to \$400,000 a mile, paralleling the already existing lines. Even though they contracted with the private companies for transmission facilities," Congressman Dondero said, "we would have a situation wherein 14 percent of the power used in New York State would be public power and 86 percent privately-generated power, all carried on the same lines.

"Not only would this situation be ridiculous, but it would be needless and fantastically expensive to taxpayers elsewhere, who would get little or no benefit from the development at public expense.

"The point to the whole situation is simply this," asserted Congressman Dondero. "The privately-owned companies own 11,000 miles of overhead power lines and more than 1,000 miles of underground lines. These comprise a large part of the \$2 billion invested in these companies. Why should the taxpayers pay millions more for new lines paralleling the existing lines.

"The cost of building the new Niagara power plants, in any event, would be about \$400 million, a small fraction of the total cost of the entire development, including transmission lines. Then why not let the power companies make this small additional investment, at no cost to the taxpayers, and thereafter pay taxes on the power plants, thus reducing the tax burden on everyone else?"

"By permitting private enterprise to do the job," concluded Congressman Dondero, "power costs will be paid by those who use the power, instead of by taxpayers generally. Because of private enterprise efficiency, power rates would be lower, too."

Foods specialists at Michigan State College stress the fact that fruits and vegetables must be specially treated with scalding water before freezing to destroy certain enzymes. These enzymes, if not destroyed, would cause changes in color, flavor and texture during storage.

The sugar you use for preserving or jelly-making can be either cane or beet sugar. These two sugars behave identically and can be used interchangeably in recipes calling for sugar.

By Ed Alchin  
County Agricultural Agent

A shortage of high quality roughage is the main reason milk production drops off during the fall months, reminds Ed Alchin, Oakland County Agricultural Agent.

Larry Johnson, extension dairyman at Michigan State College, points out that studies by the U. S. Department of Agriculture show that production of pastures drops rapidly in the fall. The figures indicate that a pasture that can supply enough feed to produce 30 to 35 pounds of milk a day in May and June without supplemental feed only has enough growth left by August and September to produce 15 pounds of milk a day.

The 1952 Dairy Herd Improvement Association records in Michigan show this drop in production by month: Average milk production per cow was 30 pounds of milk in June, 25 pounds in September and 23 pounds in November—the low point.

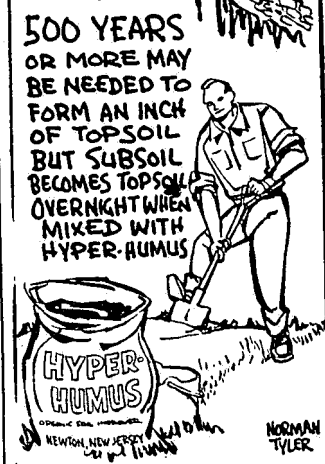

In order to be sure that cows are getting enough feed from pasture, Johnson recommends that the dairyman should check pastures regularly to be sure there is enough feed for fall grazing. And the farmer should observe milk production every day so that any slight decline in production will be noted.

Supplemental feeding should be started as soon as pasture no longer supply enough feed for full milk production, advises Johnson.

**FLOWERING BULBS REQUIRE INSPECTION BEFORE SALE**

Act 189 of the Public Acts of 1931, as amended, requires that perennial flowering bulbs, such as tulips, narcissus, hyacinths and lilies, must be inspected and certified prior to being offered for sale. Growers producing such bulbs for sale must also be licensed under the same act. Likewise persons or firms who buy and sell flowering bulbs are required to have a plant dealer's license.

C. A. Boyer, Chief of the Bureau of Plant Industry, cautions all growers and dealers to be sure they have the proper licenses and that all bulbs have been inspected and certified before offering them for sale. If they wish to request such inspection service or obtain the necessary licenses, they may do so by contacting the Bureau of Plant Industry, Michigan Department of Agriculture, Lansing, Michigan.

**EVERGREENS NEED WINTER PROTECTION**

Protect your evergreens now so they won't die next spring or summer. That's the advice of Lester E. Bell, extension forester at Michigan State College.

He says it's important to do the protection job before the ground freezes. That means watering the plants until freezing weather and applying a good mulch of leaves, straw or peat moss to hold the moisture and prevent deep freezing. For exposed sites, Bell sug-

gests putting up some kind of wind screen—especially important for newly planted stock.

**ZIPPER CAUSE OF SPOTS IN WASH DRESS**

Many homemakers have had cause to complain about mysterious brown spots and holes that sometimes appear in cotton wash dresses when they're being ironed.

Textiles specialists at Michigan State College received information on this problem which resulted from research by textile chemists of the U. S. Department of Agriculture.

It was found that chemical action producing an acid was set up when dampened fabrics were kept in contact with certain zippers for some time before ironing. The zippers that caused trouble were made of a combination of two metals, such as copper and aluminum.

The trouble seems to come from a combination of a zipper made of two metals, plus water, plus a substance to conduct electricity.

This substance might be provided by the minerals in hard water, salt found in liquid starch, or some detergent not entirely removed by rinsing.

To protect wash dresses which have two-metal zippers against brown spots and holes, clothing and textile authorities at M. S. C. suggest these precautions:

One, avoid sprinkling and rolling up for ironing by drying the garment quickly and ironing it before it is completely dry.

Or two, if it must be dampened for ironing, fold the zipper outside, keep the fabric around the zipper dry, and iron soon.

**ALERT ENGINEER HELPED SAVE U-M MONEY IN 1894**

Be sure to leave room for electric wires.

That was the farsighted advice of Mortimer E. Cooley in 1894 when new steam pipelines were laid under the University of Michigan campus. And he was right too, for the space was utilized just four years later when electricity was introduced at the U-M.

Cooley was professor of mechanical engineering at the time and afterwards was dean of the College of Engineering from 1904 to 1928.

The College of Engineering now is celebrating the 100th anniversary of engineering instruction

**More to a Marching Band than Meets The Eye, Says Wayne Music Professor**

Professor Mark F. DeLeonard, director of the Wayne University Band, (seated) and Dr. Graham T. Overgard review new musical arrangements with two of the band members. Going through a difficult passage is Marjorie Bevans of Pontiac while Fred Johnson of Royal Oak looks on.

Who can resist a parade — the swell of martial music — the tramp of marching feet — the high-stepping drum major followed by strutting majorettes and rows of smartly uniformed bandmen with gleaming instruments.

But a bandsman's life is more than just the glitter and glamor of parades, according to Mark F. DeLeonard, director of Wayne University's famed, 135-piece marching band.

Instruments and uniforms must be kept in sparkling condition. There are long hours of rehearsing new music and arrangements. More hours must be spent on the drill field and in the classroom.

The Wayne organization, one of the first University bands to present night formations with the use of colored lights, has gained a national reputation with its performance of novel and intricate patterns at professional football games. The precision in both sound and movement that greets the eyes and ears of the audience does not just happen—behind it lies elaborate planning.

Ideas for new formations are first worked out by DeLeonard and Dr. Graham T. Overgard, professor of music education at Wayne. The ideas must be timely and appropriate for some special occasion or for the music itself. Charts of the maneuver are then drawn up with a place designated for every man to move from a basic or previous formation into a new formation. In addition to knowing the changing patterns and arrangements, the bandsman may have to learn such dance steps as the Cakewalk, Waltz, Tango, or Square Dance to perform with the music.

The Wayne band does not restrict itself to the standard band repertoire. It presents the classics in regularly scheduled concerts familiar to many Michigan residents who hear the programs carried by a Detroit radio station. The students perform at numerous campus functions. Outdoor concerts in the spring and fall have become a Wayne tradition.

Several unique instruments have been added to the band and help to retain its individuality. An electrically operated set of chimes known as a Una-Fone gathers a crowd wherever it is played as does the huge six-foot bass drum. These instruments are mounted on carriages and are an integral part of the marching band.

Talented musicians for the Wayne band come from all sections of Michigan. Tuition awards are available to students who qualify.

here which began in January, 1854. A centennial program will be held October 23-24 during which the Mortimer E. Cooley engineering building will be dedicated on the University's new North Campus.

**9 INSTITUTES SHOW STRESS ON GRASS USE**

Although June marked the completion of the statewide Grass Days program, farmers still will be getting valuable tips on grassland farming.

There will be Grass Institutes this coming winter, points out B. D. Kuhn, state leader for agricultural programs at Michigan State College.

Tentative plans are for nine Grass Institutes in the Lower Peninsula—the same number as last year—the last week of February and the first week of March. The plans call for Institutes on Feb. 23, 24 and 25 in Western Michigan, on Feb. 26 and March 1 and 2 in Eastern Michigan with the final three on March 3, 4 and 5 in Northern Michigan.

More complete plans will be worked out by district Cooperative Extension Services supervisors, county agricultural agents and M. S. C. area specialists. As usual, they will call on individual farmers to tell their experiences in making use of grassland farming for more profit, soil improvement and reduced costs.

Announcements of the Grass Institutes continuing this winter once again spikes any rumors that the winding-up of Grass Days—after seven successful years—means any end by M. S. C. to its emphasis on grassland farming values. In addition, the M. S. C. leaders are turning to the field—the counties, the farmers, the agents—for the best over-all program to replace Grass Days. They want to combine its best features with other features of balanced farming, points out Kuhn.

**U-M REAL ESTATE COURSES SLATED FOR 13 CITIES**

Classes in the statewide program leading to a Certificate in Real Estate are being offered by the University of Michigan Extension Service in 13 state communities this fall. It is expected that enrollments in these courses will total about 2,000 for 1953-54, says Charles H. Still, program coordinator.

Classes are to be held in Adrian, Ann Arbor, Benton Harbor, Detroit, Flint, Grand Rapids, Jackson, Kalamazoo, Lansing, Lincoln Park, Muskegon, Royal Oak and Saginaw. In each city, the courses are presented with the cooperation of the local real estate board or association. The program also has the cooperation of the Michigan Real Estate Association.

**EXTENSION SERVICE NEWS**

by Mrs. Josephine Lawyer Home Demonstration Agent "HINTS FOR FLOOR CARE"

Grandmother's "soap 'n water 'n scrub" method can't always be applied to the housecleaning chores of the modern homemaker. The tile floors found in many modern homes, for instance, take to much gentler treatment. Shampoo rather than scrub them, advises Mrs. Josephine Lawyer.

home demonstration agent for Oakland County.

Use a small amount of water and dry the floor as fast as it is washed. A mild detergent or a cleaner recommended by the tile manufacturer is best. Never use gasoline, benzine, naphtha, turpentine or organic solvents, cautions Mrs. Josephine Lawyer.

Because of the composition of asphalt, rubber and cork tile floors vigorous and abrasive scrubbing is not desirable.

Use a water-emulsion which is a self-polishing type of wax if you want to wax your tile floor, instructs Mrs. Lawyer. Don't use waxes that contain oil, grease or solvents, such as naphtha or turpentine.

New asphalt tile floors should not be washed for at least two weeks after they are installed. Rubber and cork tile floors should not be washed for four or five days. This is to allow the adhesive used in laying the floor to set thoroughly.

For daily care, a soft-bristled push broom or a clean dry mop is best. Never use oil mops, as they leave an oily film that catches dirt and dust, cautions Mrs. Lawyer.

**DON'T PASTURE, CUT NEW LEGUME SEEDINGS**

New legume seedings shouldn't be pastured this year, says Carter M. Harrison of Michigan State College's farm crops department.

The seedings haven't had an easy time of it anyway, he reminds, and grazing may weaken the plants so that they may winterkill.

He suggests that legume fields that are to be plowed up next spring may be grazed or cut for hay, but he advises against cutting or pasturing alfalfa that is to be used another year for either hay or pasture.

STROLL WITH MR. TRUMAN THROUGH HIS OWN HOME TOWN

Harry S. Truman, in this Sunday's (Sept. 27) American Weekly with Detroit Sunday Times, takes readers on a walk through his home town. Read "Mr. Citizen", a warmly human series of articles, Mr. Truman's first published writings since leaving the White House. Mr. Truman describes his transition from President to plain citizen.

**G & W Construction Co.**

2010 Dixie Hwy. at Kennett Rd., Pontiac, Mich. OPEN SUNDAY 12 to 4 P. M.

**The light that didn't fail**

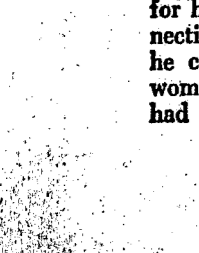

It was 1 o'clock in the morning. To George Stevens, dial telephone switchman, the light on the panel meant that somewhere a telephone was off the hook. An improperly replaced receiver perhaps, or one dislodged by a frisky cat. On the other hand this might be a distress signal. That's what George Stevens thought as he plugged in the line.

There was no mistaking the weak but urgent voice he heard—a woman calling for help. Quickly Stevens traced the connection to get the telephone number. Then he called another switchman to get the woman's address. Within minutes Stevens had notified the police who sped to the home of the stricken woman in Dearborn.

They found an elderly woman helpless on the floor. Later at the hospital she told what had happened. A widow, living alone, she had suffered a severe heart attack that night. Though partially paralyzed, she managed to upset the table on which the telephone stood to summon help.

Police say that Stevens' prompt action "beyond a doubt" saved her life. Michigan Bell awarded him a Vail citation, a tribute to telephone people for outstanding service in emergencies.

Michigan Bell Telephone Company

George E. Stevens

*A message to every prospective new car buyer:*

**You can have the most popular automatic transmission to be found in any low-priced car Chevrolet's Famous 1953 Powerglide!\***

**Much fleetier, smoother, more economical! Thoroughly proved and improved through years of development and over a billion owner-driven miles! Production now running at new high levels due to record nationwide demand!**

- Much More Economical**  
Chevrolet's 1953 Powerglide Automatic Transmission—teamed with the 115-h.p. "Blue-Flame" high-compression Valve-in-Head engine—brings you entirely new operating economy in city driving and on long trips.
- Far Livelier Getaway**  
Put the selector lever in "DRIVE" position—step on the accelerator—and you move smoothly away from a standing start to legal traffic speed in seconds.
- Important New Gas Savings**  
You'll never know how economical an automatic transmission can be until you try the 1953 Powerglide. Various improvements, including a more efficient use of engine power, make it extremely thrifty.
- Great New Passing Ability**  
The car picks up pace in traffic or on the highway at the touch of a toe, for the '53 Powerglide has an added automatic passing range.
- Smoothest No-Shift Driving at Lowest Cost**  
Driving is almost incredibly easy, changes of speed almost unbelievably smooth... for this transmission gives simplest, smoothest, no-shift driving at lowest cost.
- Safe Eyes-on-the-Road Driving**  
Safety is served in many ways. And one of the most important, perhaps, is that Powerglide permits you to concentrate on driving. You can keep your hands always on the steering wheel and your eyes always on the road.
- Full Engine Braking-Power on Hills**  
Powerglide's flexibility lets you cruise easily up any hill. And you enjoy constant engine braking power for maximum safety when descending.
- Rock Out of Trouble**  
Powerglide's smooth power flow lets you rock out of sand, snow or mud whenever the need arises. "LOW" and "REVERSE" are side by side on the Powerglide quadrant, making the operation doubly easy.
- Push-Proof Parking**  
Put the selector lever in "PARK" position when you park the car, and a positive gear-type lock holds it in position until you return.
- Time-Proved, Owner-Proved Dependability**  
Come in. Drive a Chevrolet with this finer, more popular automatic transmission. Test it and you'll want it. It's time-proved, and road-proved by hundreds of thousands of owners, in over a billion miles of driving.

**MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!**

\*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models. Power Steering available on all models.

RARE AMERICAN PLANT IN MICHIGAN

One of the rarest of American plants, the Hart's-Tongue Fern, has been discovered this summer in Michigan for the first time by Dr. Marion T. Hall, Cranbrook Institute of Science botanist, and Dale J. Hagenah, research associate of the Institute.

The new location, near Trout Lake in Chippewa County, is the western-most known in the United States, and is 200 miles from the nearest previously known locality on Bruce Peninsula, Ontario. Eight plants were found growing along a ledge of dolomitic rock.

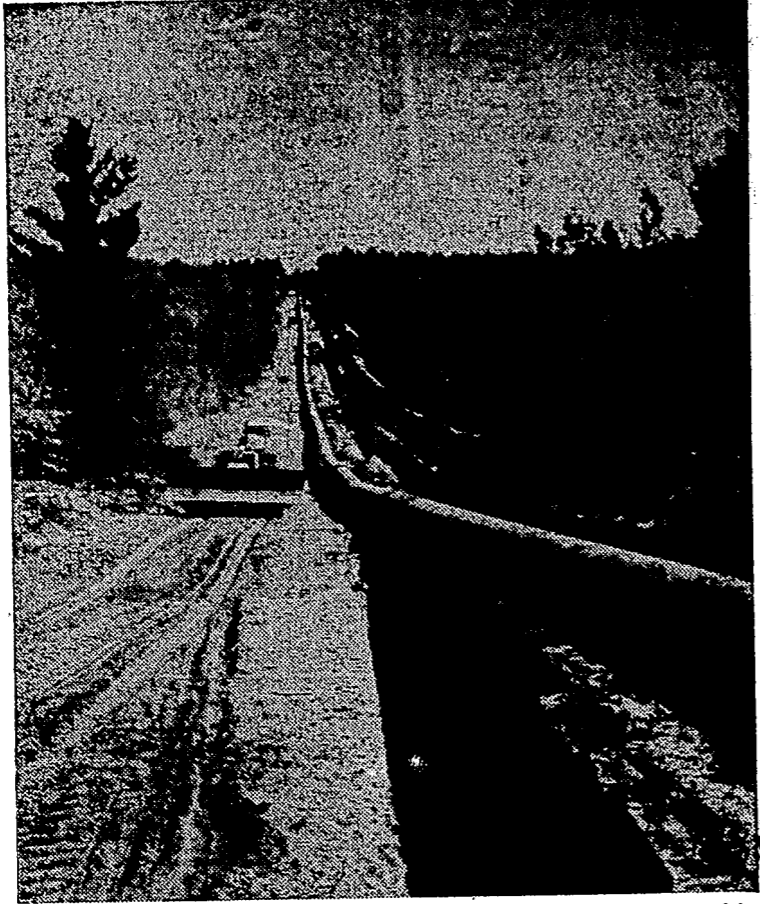

Since the word "hart" is old-English for "deer", the scarce plant derives its name from its similarity to a deer's tongue. It was first seen in Onondaga, New York, over a hundred years ago, and was later reported as far north as Ontario and as far south as Tennessee.

Wherever the Hart's-Tongue is found, it is associated with limestone or dolomitic rocks, in moist shaded places. Since such rocks are found in Michigan, botanists have long sought the fern in the northern areas of the state.

Cecil Billington considered the possibility of including some mention of the Hart's-Tongue when preparing the manuscript for his book "Ferns of Michigan", published by Cranbrook Institute of Science, but refrained from doing so because no definite evidence of its existence had been found at that time.

European Hart's-Tongue has a widespread distribution and is among the most common fern in parts of England and Ireland. The American plant, on the contrary, is known only from a few widely scattered sites. Although occasionally cultivated, it shows no tendency to spread from cultivation, as does the European plant.

Pipeline's Progress

Stretching snakelike across an upper peninsula landscape, this section of the 30-inch petroleum pipeline, presently being laid across Michigan, will soon be dropped in the ditch at right and covered with earth by bulldozers. When completed, the line will carry petroleum from the Edmonton, Alberta, oilfields to the Port Huron-Sarnia area, spanning Michigan's upper and northern lower peninsulas in the process. Here the line curves through a state forest.

At a session of said Court, held at the Probate Office in the City of Pontiac, in said County, on the 14th day of September, A. D. 1953.

Present: Hon. ARTHUR E. MOORE, Judge of Probate.

In the Matter of the Estate of Lucy B. Coon, Deceased.

Clarence Vliet having filed a petition praying that an instrument filed in said Court be admitted to Probate as the last will and testament of said deceased, and that administration of said estate be granted to Clarence Vliet, the Executor named in said will, or to some other suitable person.

It is Ordered, That the 16th day of October, A. D. 1953, at nine o'clock, in the forenoon, at said Probate Office, is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy hereof, once each week, for three successive weeks, previous to said day of hearing, in The Clarkston News, a newspaper printed and circulated in said County, and that notice be given to the unpaid devisees and legatees and creditors whose claims have been allowed but not fully paid by personal service of a copy of this order, or by serving the same by registered mail, with return receipts demanded, addressed to their respective last known addresses as shown by the files and records in this cause.

That all "Reality" is to be found in spirit is shown in the Lesson-Sermon under that subject to be read in all Christian Science churches on Sunday, September 27.

The Golden Text is from Philippians (4:8): "Whatever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things."

Among the Bible citations is this passage, (II Tim. 2:15): "Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth."

Correlative passages from Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Hold thought steadfastly to the enduring, the good, and the true, and you will bring these into your experience proportionably to their occupancy of your thoughts." (p. 261)

From where I sit... by Joe Marsh Cream Whips Main Street Traffic Big traffic jam in front of the office last week. Thought everybody in the county was coming in to buy The Clarion, but they weren't. Seems a 5-gallon can fell off Whitey Fisher's truck, spilling cream all over the street. Our cop on duty, Tiny Fields, halted traffic so Whitey could pick up the can. Tiny was about to wave the cars on when a kitten ran out and started lapping up the cream. Well, traffic piled up, but Tiny paid no heed. Light changed green three times. After the kitten had enough, Tiny waved the traffic through. From where I sit, this was just a "Tiny" demonstration of the way people in our town are. They're usually pretty considerate and tolerant. If one of our neighbors prefers a good glass of beer to his friend's coffee at dinner time, it's just each to his own taste and everything's "smooth as cream" between them. Joe Marsh Copyright, 1953, United States Brewers Foundation

**CHLORDANE, OIL, 2, 4-D MIXTURE KILLS WEEDS**

Chlordane kills crabgrass and chickweed but is not so effective

on other broad-leaved weeds; points out B. H. Grigsby, Michigan State College weed control specialist. Chlordane mixed with

the ester form of 2,4-D in an oil spray gives a fairly complete weed kill, he advises. He suggests adding a tablespoonful of the 2,4-D ester to each gallon of chlordane-oil mixture. Chlordane is an effective control only if it is mixed with oil.

**DO YOU HAVE A HOME FREEZER?**

In order to make your home freezer a real investment in thrift, you should keep it well stocked at all times with meats, poultry, fruits, vegetables, and kindred foods.

You can buy these foods from us—even if you don't rent a locker—at wholesale, bulk prices. We'll be glad to sell you beef, pork, and other meats at money-saving prices, and cut and package it to your needs. Also, we'll quick freeze it fast so that the flavor and juices will all be there when you're ready to cook it.

To get the most value out of your home freezer, use the services and facilities of our locker plant soon and often. Come in soon—your welcome will be a genuine and sincere one.

IN CASE YOUR FREEZER BREAKS DOWN—bring your foods to us before they thaw and spoil. You'll find that we're neighborly and friendly in times of emergency.
