This revolutionary new Ford front suspension soaks up road shock before it reaches you! Makes all riding and handling easier!

Seals out dirt. You can forget road splash because dirt and water can't get into the ball joints in Ford's new front suspension. Each of the four joints is effectively sealed by a unique rubber-and-metal shield. This means that contact surfaces of each ball and socket remain clean-wear is kept to a minimum.

Keeps that new-car feel. You'll enjoy Ford's newcar feel much longer because ball joints are springloaded to compensate automatically for any wear. Front wheels hold alignment far longer than with conventional systems. Ball joints can't stick or bind. Steering remains consistently easy.

**ORlando 3-1925** 

THE "OLD" ROADS won't seem the same with Ford's new Ball-Joint Suspension "paving" the way for you. You'll enjoy a softer, more level ride because Ford's new system allows greater shock absorbing movement of the front wheels. Handling is far better, too. That's because conventional kingpins have been replaced by simple, sealed ball joints that won't stick or bind. No other car in Ford's field can equal Ford's ride-because no other has Ball-Joint Suspension.

Agile new performance, too, is yours in a '54 Ford ... whether you choose Ford's new 130-h.p. Y-block V-8 or 115-h.p. I-block Six. And no matter which of Ford's 28 new models you choose you enjoy recognized style leadership-with clean, modern lines . . . sparkling new colors . . . and harmonizing upholstery fabrics and trim.

Eliminates 12 wear points. Ford's Ball-Joint Front Suspension eliminates 12 of 16 points of wear found in conventional systems. Rubber-bushed supports at inner ends of suspension control arms reduce the number of wear points and insulate chassis from road noises.

#### LEGISLATION TO MODIFY PLEDGE OF ALLEGIANCE

Senator Homer Ferguson (R-Mich.) this week introduced legislation to modify the Pledge of Allegiance to the Flag by adding the words "under God".

If the Ferguson proposal is adopted the Pledge would read: T pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one nation indivisible under God, with liberty and justice for all."

Sen Ferguson said inclusion of the words "under God" would "highlight one of the real fundamental differences between the world, which is a belief in God." "Our nation was founded on a fundamental belief in God and the first and most important reason for the existence of our government is to protect the Godgiven rights of our citizens. Communism, on the contrary, rejects the very existence of God", the

Michigan Senator said. "Spiritual values are every bit as important to the defense and safety of our nation as military and economic values. America values which exist in the hearts and souls of the American people", he declared.

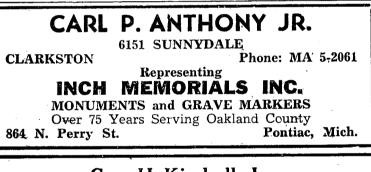

Sen. Ferguson said adoption of the legislation would give additional meaning and action to the spiritual defense of our nation.

He pointed to the words, "In God We Trust", inscribed over the door to the Senate Chamber in Washington and said. "those words must have a real meaning older person, are much more in the heart of every American". Senate Joint Resolution 126 and it was referred to the Senate the laborer or farmer.
