Leather Scores Hit At Auto Show

One of the features at the Chicago Automobile Show which caused a tremendous amount of comment was the new use found for genuine leather. This material was evident in many shades and finishes. It showed the most modern development of the tanners' art. Not only were many of the cars upholstered completely in leather or in combination with nylon and other fabrics, but many of the models such as the young lady shown here were also attired in the latest fashions in leather garments to match.

Genuine leather has always been known for its durability but now with new methods and new techniques, it is being chosen for upholstery material, as much for its beauty as for its durability.

RICH OR POOR LAND FOOD IS NOT DIFFERENT

Milk is milk and wheat is wheat—whether it's produced from unfertile or fertile land.

But Michigan State College researchers remind that it takes twice as much unfertilized land to produce the same amount of milk or wheat that can be produced on fertile soil.

That is shown by a ten-year nutrition study conducted by five departments at Michigan State in cooperation with the National Dairy Council and the American Dairy Association. The research is nearing completion.

It has revealed that soil fertility does not change the composition or food value of crops.

If a cows ration is deficient in protein or minerals, milk production will decrease but the composition of the milk will remain the same.

Michigan State researchers found, however, that it was impossible to grow high protein forage crops like alfalfa and clover on the unfertile soil. So they had to grow grass forage—brome and timothy—on both the fertile and unfertile soil to carry out the experiments.

Although the long time experiment shows that crops grown on unfertile soil are just as nutritious as those grown on well-fertilized land, Michigan State College researchers make this recommendation:

Lime, if needed, and substantial quantities of fertilizers are the best investment a farmer can make today.

SEED TREATMENT ADVICE OFFERED

Here are the recommendations for treating table beet and spinach seeds to prevent damping off.

Donald J. deZeeuw of the botany and plant pathology department says his trials show this to be a good recommendation: Phygon (50 per cent active) or Arasan (75 per cent active) at 8 ounces per 100 pounds of

seed, with dry or as a slurry. These chemicals, he indicates, are satisfactory for beets and spinach seed. But yellow cupro-cide at the same rate is better for treating spinach seed.

CLARKSTON SCHOOL NEWS

WAYNE-OAKLAND COUNTY ALL LEAGUE BAND

The Wayne-Oakland County All-League Band presented its first concert for an assembly, Feb. 6, at Clarkston. They have presented two evening concerts at Clarkston and Clarenceville and another is scheduled for Brighton Thursday, February 24.

The All-League Band is composed of members from bands in our league. To be in the All-League requires different qualifications, such as learning the music, tryouts before judges and much practice. Our school is proud to say that we are represented by eight students this year. Cornet, Dave Beni; Trombone, Larry Donaldson; Baritone, Bryce Landon; Bass, Gary Nelson; Percussion, Don Hopson; Alto Saxophone, Pat Thayer; Eb Clarinet, Yvonne Osterkamp and Glenn Underwood.

Each selected number is conducted by a different director in our league. These selections are: Star Spangled Banner, March from Tchaikovsky VI sym-

phony, Semiramide, Pavanne, Jericho, Phantom Regiment, Nocturne, Ballet Parisien, Porgy and Bess directed by Bart Connors.

The money earned from each concert will go for that particular school to help buy better music and something interesting and different. To present such nice concerts requires long, hard hours of practice. Show your appreciation by attending your band concerts. Let us show interest in good music and be at the concert, Thursday, February 24, in Brighton.

CLARKSTON TO GO TO MILFORD

The Clarkston Wolves won on Friday night when they played the Trojans of Clarenceville by the score of 68 to 44 in favor of the Wolves. The second quarter saw the Wolves still in the lead by 15 points. The score at the half was 36-21 still in favor of the Clarkston Wolves. In the third quarter the Trojans made 10 points to 19 for the Wolves. In the final quarter Clarkston

still held the lead by making 13 points. Clarenceville made 13 points also in the fourth quarter. The final score 68-44 in favor of Clarkston. The high point man for Clarkston was George Lang making a total of 18 points, 4 field goals and 8 free throws. In the free throws we made 23. Clarenceville made 20 field goals and made 4 out of 18 free throws.

Clarkston goes to Milford, Friday, Feb. 25

As the '54-'55 basketball season comes to a close, the Milford Redskins and the Clarkston Wolves are tied for first place. One of the more promising teams of the beginning of the year was Keego Harbor, but they seemed to drop out of the league standing. During the last few weeks the league teams have been getting wise to Milford. A good example of this was when the Brighton team stalled the game to lose to Milford 13-19. Other teams tried this against Milford but they were not as successful as Brighton. Clarenceville's coach claimed, in the papers, that he would stall Milford too, but when he asked the team what they would like to do they said they would rather go all out. As it ended Milford won 88 to 55.

ANNUAL SCHOOL CARNIVAL

Everybody be sure to come to the ANNUAL SCHOOL CARNIVAL, March 24 from 7:00 to 11:30 P. M. Door prizes will be awarded. The King and Queen representatives from your class will be voted on that night. The King and Queen of the school will be crowned at 11:00 o'clock. All students are asked to participate.

The Betty Crocker Homemaker of Tomorrow in our school is Gail Wilds. She received the highest score in a written examination which tested the homemaking knowledge and attitudes of the senior girls in the graduating class. She will be entered in competition to name this state's candidate for the title of All-American Homemaker of Tomorrow. She will also receive a golden award pin, cook books for herself and the school.

The national winner in this search conducted among 187,000 young women in 8,000 of the nation's public, private and parochial high schools will be named April 21 at an American table fete in Philadelphia.

General Mills is the sponsor of this program designed to assist schools in building in young women a deeper appreciation and understanding of the American home and the personal qualities necessary to successful homemaking.

A scholarship of \$1,500 will be awarded each state winner and

she will receive a trip with her school advisor to Washington, D. C., colonial Williamsburg, Va., and Philadelphia. Her school will receive a set of the Encyclopedia Britannica.

The scholarship of the young woman named All-American Homemaker of Tomorrow will be increased to \$5,000.

The 50-minute written examination designed and judged by Science Research Associates of Chicago, which was given to all participants in this national search, consisted of multiple choice and subjective questions which tested the students' attitude and knowledge in the major areas of homemaking.

Each girl who took the test received a 24-page homemaking guide which will assist her in pursuing the career of homemaking.

GOODWILL NEEDS YOUR SUPPORT

The United States Government was paid over \$100,000 in taxes last year by Detroit's handicapped people. They would probably have been on charity rolls, private or public, if not employed by the Detroit Goodwill Industries.

Figures released today by Harold McKinnon, Executive Secretary, indicate that Detroit's Goodwill Industries increased business in its four Goodwill retail stores at 6522 Brush St., 356 E. Congress, 4729 Warren and at 2250 E. Davison. This increase came in spite of a general decline in store sales both in Detroit and the country of over 10%.

Goodwill set a new record for total income of \$1,040,840. Goodwill paid well over 1/4 of a million dollars of this amount in wages amounting to a total of \$779,032.60. Besides store sales and salvage sales the Contract Department grossed \$185,454.95 on subcontracts with private industry. This also is a new record not only for Detroit but for the country.

The Detroit Goodwill Industries employs all types of handicapped people including 104 orthopedic cases, 97 organic general disability cases, including arrested TB's, 25 mentally handicapped, 27 who are over 65 years old, 33 blind or defective vision cases, 20 deaf or hard-of-hearing cases, 8 with social handicaps, 25 who are neurotic, and 3 with speech defects. Thirty-nine people in the trucking department and other difficult manual jobs are non-handicapped. The total number of employed people in the month of December was 416.

There are over 400 handicapped people still waiting for jobs at the Goodwill personnel office. They can be employed providing enough contributors send in sufficient material on which they can work.

"The Goodwill Industries is a unique organization in that it is charitable and yet not a charity", said Harold H. McKinnon, Executive Secretary. Its very exist-

ence depends on the goodwill of contributors. Although the overall picture shows a marked increase in business, it must be remembered that this time of year is the slow period in the collection of discards. Also after our handicapped workers refinish discarded articles sent to them, they must be sold in one of the Goodwill's four retail stores before wages can be paid. Goodwill is thus both a manufacturing and a retail concern. While the manufacturing part of the business offers needed labor and needed rehabilitation, the store sales are what bring in the money to pay the salaries.

Goodwill asks contributors not only to fill a Goodwill bag but also to patronize one of the Goodwill stores. All articles sold in these stores are sold below value, covering any cost of added material and wages.

Three out of every five students enrolled in elementary and sec-

ondary schools are currently serving as volunteer members of the Junior Red Cross.

The first disaster relief operation participated in by the American Red Cross was the great Michigan Forest Fire in 1881.

Last year, one out of every three pints of blood donated to the Red Cross was provided for national defense use.

 The vital need for proofs rather
 than mere professions of
 Christian power will be stressed in
 the Lesson-Sermon entitled
 "Christ Jesus" to be read at
 Christian Science services on
 Sunday.

Selections from the Bible in-
 clude the following passage from
 the Sermon on the Mount (Matth-
 ew 5:16): "Let your light so shine
 before men, that they may see
 your good works, and glorify
 your Father which is in heaven."
 Correlative passages from "Sci-
 ence and Health with Key to the
 Scriptures" by Mary Baker Eddy,
 will include the following (233:
 1-5): "Every day makes its de-
 mands upon us for higher proofs
 rather than professions of Chris-
 tian power. These proofs consist
 solely in the destruction of sin,
 sickness, and death by the pow-
 er of Spirit, as Jesus destroyed
 them."

The Golden Text is from I John
 (4:9): "In this was manifested
 the love of God toward us, be-
 cause that God sent his only be-
 gotten Son into the world, that
 we might live through him."

All matters handled through the Pro-
 bate Court require a certain amount of
 legal publication in one of the county
 papers. Foreclosing a mortgage entails
 publication of the foreclosure notice in
 a county paper.

Either the probate court officers or
 your attorney will have your legal publi-
 cation carried in The Clarkston News
 if you request it.

We solicit the privilege of carrying
 such legal publications. This form of ad-
 vertising is valuable to us. When you sup-
 port us in this way we are able to give
 you a better paper each week.

THIS IS NOT TRUE

I am advised by friends a rumor is being circulated that I am not going to seek another term as your supervisor.

THE TRUTH IS

I am planning to place my name before the Caucus, on Saturday, March 5th for re-election to the office of Supervisor.

I feel the above explanation is necessary NOW to assure my friends in the Township-I am not deserting them.
