## The Tide

The laws of nature have control. Of things affecting man. All life existing pole to pole. Must come within God's plan.

The tide is governed by these laws. And bows beneath their will. The works of nature have few flaws. Their purposes to fill.

On scheduled time the tide comes in.

On time, it reaches crest; Man cannot see what lies within To cause so much unrest.

The fish are governed by the tide. Their habits change each day. Its change is studied far and wide.

By men who work or play.

Mankind controls so many things. We don't ask God about. From submarines to homes with wings.

We sometimes leave Him out.

But with the tide man must comply. We do not have the power. To make it low when it is high. Or change it on the hour.

## The Cross And The Victory

There is always one among us who is harassed by more woe and pain than is humanly possible to endure without feeling defeated, and so they become desolate and heavily burdened. Bitterness and self-reproach can engulf them, thus warping their understanding as to the difficulties and hardships of living. A wall of intolerance for their weaknesses builds up within them; growing quickly out of proportion to their human sufficiencies. In that state, fear of the future can darken their whole life, increasing the effect of the stress and strain which overwhelm them and threatens eventual collapse. As lassitude envelops them, their life becomes as vacuous as a sepulchre.

Mankind though humane, but finite, cannot hope to assuage another's tribulation entirely. Because of their limited ability to free themselves when they become entangled with an erring heart, they must look to their heavenly Father to obtain release—or the fulfillment of a personal rebirth.

What better time is there to gain personal resurrection than during this Holy Week as we mark the night of the Last Supper on Maundy Thursday; and observe the service of the Three Hour Devotion, in memory of His agony on the Cross, on Good Friday?

For on Easter Sunday, when Christians the world over commemorate the glory of the Resurrection of Jesus Christ, it will be significant that because of His Crucifixion we can find comfort and hope in true contrition by repeating His words, "I am the way, the truth and the life," John 14:6.

## Pioneers See Clarkston's Beauty

There were forty-two at the March meeting of the Clarkston Pioneers. They enjoyed a 12:30 luncheon at the Community Center at tables which were rather unique with dish gardens used for decorations. These attractive little gardens were grown by Mrs. Clyde Becker and they added a touch of spring to the dining room.

The lovely birthday cake made by Mrs. Howard Lord celebrated the birthdays of Mrs. Mary Baldwin, Mrs. Ella Gregg, Mrs. Marguerite Miller, Miss Frances Carran and Mr. Charles Mears.

Mrs. Milan Vliet, president of the club, conducted the business meeting and then introduced Mrs. L. D. Riley who showed colored pictures depicting the four seasons in Clarkston. The group thoroughly enjoyed seeing the familiar spots in all of their beauty. They all thought the pictures were outstanding and they were grateful to Mrs. Riley for such a pleasant afternoon.

On the committee for the day were Mrs. Howard Lord, Mrs. Harry Waggener, Mrs. William Dunston, Mrs. Clyde Becker, Mrs. Joseph Hubbard, Mrs. W. S. Barrows, Mrs. George Perry and Mrs. Arnold Mann.

**SYMPOSIUM AT MICHIGAN STATE**

Women between the ages of 40 and 65 will have a special interest in a symposium to be held at Michigan State College, April 18-20.

The group of meetings will focus attention on the potential of women who are in their middle years, explains Frieda Bennett and Mary Hixon, home demonstration agents in Oakland County. The middle years are those in which a woman's children have grown up and left home. These are the years in which she is still vigorous.

This period of her life can be full and enriching or empty and frustrating. What makes it this way and what to do about it is the purpose of the symposium which is sponsored by this school of home economics at M. S. C. It will be held at the institution's Kellogg Center.

Starting the three-day program on Monday afternoon, April 18, will be Dr. Robert Havighurst from the University of Chicago. His keynote address will set the theme for the rest of the sessions by citing the changing roles of women in the middle years.

Following this will be reports on research on family life and the needs of women by nationally known people: Esther Lloyd Jones, American Council of Education; Pauline Park Wilson Knapp, director of Merrill-Palmer School in Detroit; and Bernice L. Neugarten, University of Chicago.

Author of "Out of These Roots" and wife of the editor of the Washington Post, Mrs. Eugene Meyer, will discuss the middle aged women in contemporary society on Monday night. 7TH & 8TH Grade BASKETBALL

The seventh grade basketball team played the eighth grade team, and it turned out to be quite a little battle. The game was played in the gym during school hours. The teams show great promise to be a big help for Clarkston in the future. The seventh grade won by the score of 23 to 12. It will be quite a while before the eighth grade emerges victorious. The seventh grade is quite proud of their victory over the upperclassmen.

They are even talking about a game with the Freshmen team. "High point" man for the day was Bob Porritt of the seventh grade with a grand total of 16 points. Hats off to the seventh graders!

DONKEY BASKETBALL

On Monday, March 21, the annual donkey basketball game was played. This year the proceeds will go for the lights for the football field. Excitement and laughter was everywhere as the donkeys out-smarted the players. The Firefighters lost to the 4th Nighters in the first game and the great Faculty won over the mighty Seniors in the second game.

SPELLING CONTEST

On April 1 a spelling contest sponsored by the Detroit News was held in the gym at the Clarkston School.

Before the school contest was held the seventh and eighth grades each held a separate contest to find out who their best speller was. The seventh grade winner was Mary Brewer and Perry Smith was the eighth grade champ.

The champion speller in the school is Sandra Gresham, an eighth grader in Clarkston High School. Perry Smith, also an eighth grader was runner-up. The winning word was "adventurous". Sandra will go to the District Spelling Bee on April 22nd. If she wins the district she will go on to the Metropolitan Spelling Bee on May 6th. Congratulations Sandra—we'll be behind you all the way.

FINDING EASTER'S DATE EASY, SAYS U-M ASTRONOMER

Determination of Easter's date apparently a difficult task for many persons, actually is quite simple, according to Associate Professor Hazel M. Losh of the University of Michigan's astronomy department.

Just remember two things, she advises, and you'll have no trouble. Easter, she says, comes without fail the Sunday following the first full moon in the spring. "The full moon was considered important in fixing the time of this celebration because it enabled olden-day travelers to go on their pilgrimages safely by night or day", she continues, adding that we'll have about fourteen hours of daylight by the end of the month.

Venus continues as the bright "Morning Star" rising about two hours before the Sun and near the east point of the horizon. And Jupiter is the bright planet almost directly overhead around sunset.

Saturn is rapidly moving into view for the evening hours, rising at about 10 P. M. in the southeast about two hours after Spica and about two hours before the red star Antares; the three being in almost a straight line to the horizon. Mars can still be seen as a red object above the western horizon just after sunset.

Red Cross News

Over 2400 applications for the Michigan Veterans Bonus have been processed by Oakland County Chapter of American Red

Cross since the opening day of application on March 23. Harold Brady, home service chairman for the chapter, points out that active servicemen who are eligible for the bonus may make application through their families with verification by their commanding officer. This takes the place of the DD-214 or certificate of separation required of former servicemen. Eligible for the bonus are those who were in the service between June 27, 1950 and December 31, 1953. Veterans have two years to make application.

No other low-priced car even comes close to matching these important Chevrolet advantages...

If you're planning to buy a new car, the one you just can't afford to miss seeing is Chevrolet—for 19 straight years America's best-selling car. The Motoramic Chevrolet offers you so much more than the other low-priced cars that it's hardly fair to compare them. And even the high-priced cars don't have all the advantages that today's Chevrolet offers you.

The beauty's built in—not bolted on! And that makes a big difference—not only in how your car looks today, but in how it will look tomorrow, too. Chevrolet's good looks spring from fine, clean, uncluttered design. The beauty is inherent in the basic contours of metal and glass. There's no excessive bolted-on ornamentation to go out of style overnight.

The Body's by Fisher! No other low-priced car has a Body by Fisher—but many of the high-priced cars do. That fact alone tells you there must be something extra special about the style, quality and construction of Body by Fisher. And there is! You can see it, feel it and even hear it when you slam the door.

Today's most modern engines! That goes for Chevrolet's new V8 and two new sixes as well. For example, all Chevrolet engines bring you a modern 12-volt electrical system—double the voltage of other low-priced cars. This means quicker cold weather starting and a greater electrical reserve. Then Chevrolet's new Turbo-Fire V8 is the shortest piston stroke in the industry,

and develops the highest power per pound of any V8 in the low-price field. It takes valve-in-head leadership like Chevrolet's to bring you truly modern engines like these!

A drive to suit your driving! You can take your choice of three different drives—and every one's as modern as this minute. There's silky, peppery Powerglide, new Overdrive (both extra-cost options), and a new Synchro-Mesh transmission that's as smooth as they come.

All the power helpers you want! Windows, seat, steering, brakes—all are available with built-in "muscles" to make driving as effortless as you wish.

And you can even have air conditioning if you like. These things are extra-cost options, of course, but they more than repay you with extra pleasure.

Fun is "standard equipment"! You find that out the first time you take the wheel of a new Chevrolet. Here, you discover, is a car that takes the curves like it's on rails, that steers like it's reading your mind. It seems simply to ignore bumps—and when you stop suddenly, there's no excessive lurching or diving, either. There has never been such a difference in low-priced cars as there is today—or so many good reasons why you should drive a new Chevrolet. Come in and take the key.

Over Ten Million Chevrolet owners—Two Million more than any other car!

CLARKSTON

On Old Mission Peninsula near Traverse City, cherry trees grow 20,000 to the square mile. This is the greatest concentration of cherry trees in America.

Ripe bananas will keep their good flavor several days if stored in the refrigerator. However, Michigan State home economists say green or greenish bananas

will not ripen at cool temperatures, but will turn black and not develop a full flavor.

Detroit's baseline superhighway often mislabeled Eight Mile Road, is the base from which all Michigan surveys were originally made and from which all state land descriptions are now given.

**Switch to CLEAN ELECTRIC COOKING**

Tired of scrubbing and scouring blackened pots and pans after every meal? It's a thankless job. So why do it a minute longer? Become a carefree electric cook. You see, electric heat is clean as light.

**Here's why MORE PEOPLE ARE BUYING PONTIACS than ever before!**

- You can buy a big, 200-H.P. Pontiac for less than many models of the lowest-priced cars and much less than stripped economy models of higher-priced makes!
- Only Pontiac gives you luxury-car size plus the sensational Strato-Streak V-8!

Biggest car at its price (122" and 126" wheelbases) • Most powerful car at its price • Only car at any price with distinctive Vogue Two-Tone Styling and the riding and driving ease of the Shock-proof Chassis.

You don't have to look far to find the reason for the tremendous surge to Pontiac. No further than the fact that the only Pontiac produces cars that compete with the costliest in size, smartness and power, yet carry a price tag that is well under many in the lowest-price field.

That's what brings people in to see and drive a Pontiac—a value story they simply can't afford to overlook. And once they do—once they get a close-up of America's most distinctive styling... once they sample the superlative roominess and comfort of Pontiac's luxury interiors... once they try the pulse-racing thrills of exclusive Strato-Streak V-8 performance—they lose interest in every car but this.

Come in and get the rest of the story. See, drive and price this high-powered future-fashioned beauty. You'll find that if you can afford any new car you can easily afford a Pontiac.

Oxford, Michigan

Sunday School 11:00 A. M.  
Sunday Service 11:00 A. M.

God's healing and redemptive power will be emphasized in the Lesson-Sermon entitled "Are Sin, Disease, and Death Real?" at Christian Science services this Sunday.

Scriptural selections will include the following from Psalms (103:2-4): "Bless the Lord, O my soul, and forget not all his benefits: Who forgiveth all thine iniquities; who healeth all thy diseases; Who redeemeth thy life from destruction; who crowneth thee with lovingkindness and tender mercies." The present availability of God's goodness and power will be brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (472:24-30): "All reality is in God and His creation, harmonious and eternal. That which He creates is good, and He makes all that is made. Therefore the only reality of sin, sickness, or death is the awful fact that unrealities seem real to human, erring belief, until God strips off their disguise. They are not true, because they are not of God."

**A motorcar named TERRIFIC!**

Take the word of the many thousands who have been switching to the beautiful Chrysler Windsor Deluxe V-8—

There's an excitement about this stunning new car that's contagious. You'll feel it at the wheel. Your passengers will feel it. And those who watch you flash by will feel it, too!

You'll be absolute master of eighteen feet of sleek and stunning new motorcar styling. And it's a lot more than just a new look... it's a thrillingly different look from anything else you'll see, no matter where you drive.

By measurement, Chrysler is inches lower than other big cars. It's longer than ever—a breathtaking sweep of tailored steel that, even at rest, suggests pure motion.

You sit behind the only windshield that "wraps around" both top AND bottom to accent the car's look of forward motion. And it's this sweptback design that makes Chrysler's Super-Scenic Windshield the safest to see out of!

The wonders never cease, especially when you start driving. In the Windsor Deluxe with its brilliant new Spitfire V-8 engine, or the 250 hp New Yorker Deluxe... and with PowerFlite automatic drive... you get a head start that's for keeps. And no other car in the world gives you Full-time Power Steering or bigger, smoother, safer Power Brakes!

Your Chrysler Dealer wants to show you the biggest dollar-value car on the road today. Stop by soon for the greatest motoring experience ever. Ten-to-one you'll call it "Terrific!"

It's WHERE you buy a used car that counts and You can DEPEND on FORD DEALER USED CARS and TRUCKS

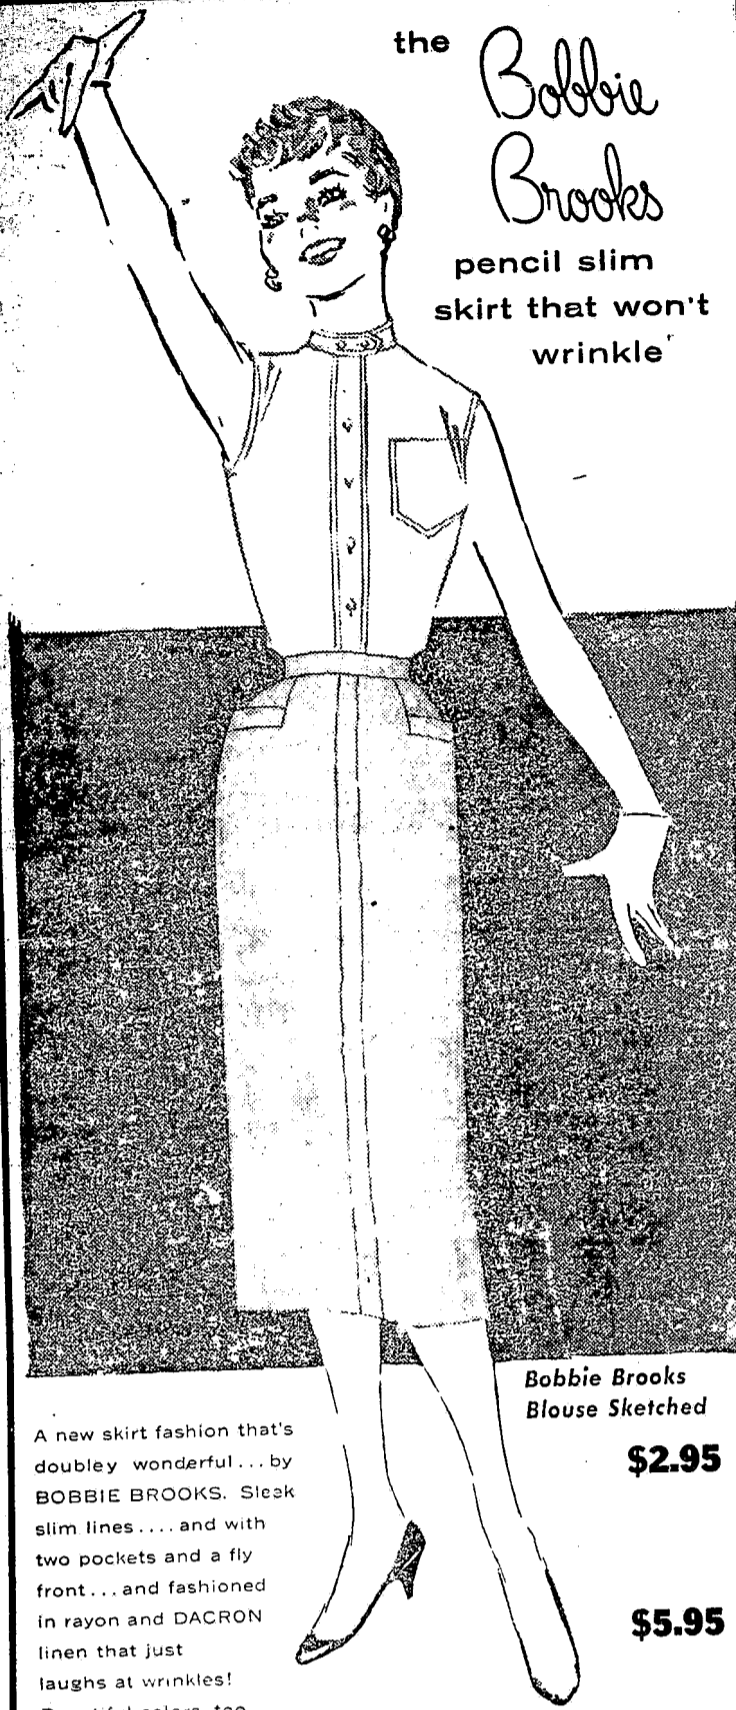

It stands to reason a Dealer you can trust sells a used car you can trust.

We Ford Dealers are established businessmen. We don't depend upon used car profits to stay in business, and we can price our used cars at rock bottom. Actually it's good business for us to keep prices low. For we have to make room for a constant stream of trade-ins.
