Florida Moon

The trials of a day had just ended; The work of the day had been done; The heat thru the day had extended To earth by a red glowing sun. All life had felt the great power Displayed by the sun thru the day. And kept in the shade of a bower, 'Til the rays of the sun died away.

The cool of the evening descended, And life was commencing to stir. Relieved that the heat had just ended.

As forms faded out in a blur. The birds twittered loud in the glooming, Preparing a long night of rest; The last of the stragglers were homing. When the light disappeared in the west.

But the moon with all of its splendor Was stationed up there in the sky

With a light so mellow and tender We felt that heaven was nigh. A Florida moon reigns above us; The air is fragrant and clear; We feel the Almighty must love us To bring such a blessing down here.

A Tag Day will be held on Friday, April 22. Mrs. John Stageman and Mrs. Howard Huttenlocher are the Chairmen of the Drive. Cookie Sale Starts Friday

The annual cookie sale of the Northern Oakland County Girl Scout Council begins Friday, April 15 and continues through April 28.

There will be no order-taking as in former years. Instead, the girls will have the brightly packaged boxes of goodies with them when they knock at the doors of their neighbors and friends. The cookies also may be purchased from "cookie cupboards" set up throughout the area.

A three-cent rebate for each box will go to the Scout's or Brownie's own troop. Both the sandwich type and mint cookies will sell for forty cents per box.

Of the net profits from this sale 80% goes toward underwriting the capital expenses of the organization's resident camp at Lapeer, Camp Sherwood. On this 115 acre site, under the skilled hands of a professional staff, girls learn the crafts for successful outdoor living. Here, too, with their contemporaries, they learn the art of living together democratically.

Ten percent of the net profits toward buying equipment for Girl Scout troop camping. Tents, cooking equipment, etc., are loaned to the troops who want to spend two or more days living in the out-of-doors at some approved camp site.

The other ten per cent of the net profits is used for camp scholarships. Partial camp tuitions are paid for girls of outstanding ability who can take back to their troops what they have learned. Financial assistance is also given to those who would benefit greatly from a resident camping experience, but who would otherwise be unable to attend.

Farm Women Met In Holly

The Oakland County Farm Bureau Women's Committee meeting was held with Mrs. Fred Upercraft, north of Holly. There were 26 members present—10 were delegates.

Sixty-five dollars was presented to Dr. Ethel Calhoun for polio work. Among subjects discussed were the paying of the Japanese girls' expenses at M. S. C. control of Bangs disease in Oakland County and the cost to the farmer.

Marlie Drew, regional representative, gave a talk. He said that Oakland County is still short of its membership goal. He stressed the need for a stronger organization as he stated, "Farmers are facing a challenge". Just as all labor unions are uniting to gain strength, so must the farmers. The bill HR12, before the house now, was mentioned and the members were urged to write their Senator and Representatives for the defeat of the Bill.

Capital punishment was discussed and the group agreed that they should ask the congressmen to support such a Bill.

The next meeting will be at the home of Mrs. Lyman Joslin on Nine Mile Road.

Beholden Am I

I STOOD IN THE SUN AGAIN. . . And felt the dancing leaves swirl against my hesitant feet. . . As the hurrying wind freed them. . . From their long imprisonment. . . In the trees. . . Outstretched boughs, devoid of leafy covering, cradled winter nests. . . Rocking gently to and fro. . . Against a cloudless sky. . . A horn brought me back. . . To a new sound, so shrill and loud, I knew then. . . Why Nature's children scampered. . . At the coming of a car. . . Silently I walked in wonder at the many things. . . I overlooked before. . . The whirring of the birds in flight. . . The symmetry of a pine tree's cone. . . The patient awakening of a sleeping earth. . . To the glory of spring's beauty and delight. . . Proclaiming the end of winter's barren morn. . . As tufts of dandelions, ready to burst into a golden sight. . . Are anxious to reflect. . . The radiance of the sun's eternal light. . . A struggling beetle trying to up-right itself. . . Brought back memories of my weary heart and soul. . . Clinging tenaciously to my faith. . . In the Power of our Lord. . . Before I knew it. . . I was back in bed. . . Getting rested and ready. . . For my next day's walk.

Many folks can, for that was only forty years ago. Long Distance rates certainly have come down since 1915. Today you can call to San Francisco for \$1.90 plus tax. Most calls people make cost less than a dollar.

And remember, rates are lowest when you call after 6 o'clock every evening or any time Sunday. So don't wonder. Don't worry. Call today and be sure.

12.2 DWELLINGS. All dwellings hereafter erected in this District shall provide a minimum of six hundred twenty-four (624) square feet of floor area per family at the first floor level exclusive of any garage area or area in any accessory building. The area of a utility room shall not be included in the computation of square feet. Dwellings and garages used in connection thereof built in this District shall have a minimum front yard depth of forty (40) feet and a minimum side yard depth of ten (10) feet.

Section 17. That Section 12A be added to said Ordinance No. 2 to read as follows:

Section 12A GRAVEL-SAND DISTRICT.

Section 12 A (1). Uses. In a Gravel-Sand District no buildings or land, except as otherwise provided in this Ordinance, shall be erected or used except for one or more of the following specified purposes:

- a. Any use permitted in a Residence 1 District.
- b. Mining, quarrying, excavating of sand or gravel or both.
- c. Location of processing plants for the purpose of stockpiling of sand or gravel, or both, on the premises.

Section 12 A (2). REQUIREMENTS AND REGULATIONS.

a. No gravel or sand shall hereafter be mined in any part of Independence Township, to which this ordinance applies, unless a permit for such work has been issued by the Township Board of Appeals.

b. Applications for the permits mentioned in sub-paragraph a. of Section 12A (2) shall be made in writing and shall be accompanied by a corporate surety bond for the faithful performance of all of the applicable requirements set out in Section 12A (2). Said bond shall be in the amount fixed by the Township Board of Appeals, but not less than one thousand (\$1,000.00) dollars and shall be with surety approved by the Township Board of Appeals. Said bond shall specify the time for the completion of all of the applicable requirements of said Section 12A (2). Such permit shall be renewed for like periods provided an application accompanied by bond is filed within six (6) months before any expiration date, with the said Township Board of Appeals as provided herein in case of original application, provided the applicant is carrying out the requirements of his permit in good faith and there exists no judicial determination at said time to the contrary.

c. All equipment used for the production of sand or gravel shall be constructed, maintained and operated in such a manner as to eliminate as far as practicable, noise, vibrations, or dust which are injurious or annoying to persons living in the vicinity.

d. No production of sand or gravel shall be permitted nearer than fifty (50) feet to the boundary of a district designated Gravel-Sand District nor shall such production be permitted nearer than fifty (50) feet to the boundary of an adjoining property within any such Gravel-Sand District unless the written consent of the owner in fee of such adjoining property is first secured.

e. No excavation shall be made closer than seventy-five (75) feet from the right-of-way line of any existing or platted street, road, or highway, except mining of sand and gravel may be conducted within such limits in order to reduce the elevation thereof in conformity to the existing elevation of the adjoining and existing or platted street, road or highway and provided further, however, that the excavated area shall be backfilled within twelve (12) months for a distance of one hundred and fifty (150) feet from the right-of-way line of any existing platted street, road or highway to assure an elevation in conformity to the existing elevation of the adjoining platted street, road, or highway.

f. All excavating must either be made to a water producing depth, such depth to be not less than five (5) feet measured from the low water mark, or graded and backfilled with the strippings, to assure the following:

- 1. That the excavated area will not collect and permit to remain therein stagnant water.
- 2. That the surface of such area be backfilled with the strippings, over-burden and top soil removed from the excavation and graded as necessary so as to reduce peaks and depressions thereof to a surface which will result in a gentle rolling topography. The banks of all excavations shall be backfilled and graded as provided herein and shall be sloped at a slope which will not be less than one and one-half (1 1/2) feet horizontal to one (1) foot vertical and said bank shall be sodded, or surfaced with a minimum of six (6) inches of suitable soil and the same shall be seeded with grass seed.
- 3. To plant trees, shrubs, legumes or grasses upon the parts of such area where revegetation is possible.

g. The banks of all excavations not backfilled, as provided in sub-paragraph f. of sub-section 12A (2) shall be sloped to the water line at a slope which shall not be less than one and one-half (1 1/2) feet horizontal, to one (1) foot vertical and said bank shall be sodded or surfaced with a minimum of six (6) inches of suitable soil, and the same shall be seeded with grass seed.

h. Whenever the permit referred to in sub-paragraph a. of sub-section 12A (2) hereof shall have expired or whenever any gravel or sand pit or excavation shall have been abandoned for any period exceeding twelve (12) consecutive months, then all plants, buildings, structures (except fences), stockpiles and equipment shall be entirely removed from such property.

Section 18. That sub-sections 13.2, 13.5 and 13.6 of Section 13 of said Ordinance be amended to read as follows:

13.2 ALTERATIONS, MOVING, REPAIRS. No existing building shall be repaired at a cost of more than two hundred (200) dollars, nor shall any work be commenced for the construction or erection of a new building or excavation therefor, nor any existing structure moved from without into another district nor moved within a district and placed upon a new foundation without first obtaining a building permit issued by the Building Inspector of the Township.

13.5 PERMITS. If the Township Building Inspector finds the application conforms to the requirements of this Ordinance and the Statutes, he shall mark all copies of the application approved over his signature, one copy of which shall be retained by him, one copy shall be filed with the Township Clerk and the other copy shall be returned to the applicant together with a construction card signed by the Building Inspector stating the extent of the work authorized which card shall be attached to and remain on the building during the progress of the work authorized. The approval of the application and the issuance of the construction card by the Building Inspector shall not be binding upon the Township Board or the Board of Appeals. In case it is subsequently discovered that the plans or the completed building do not conform to the requirements of this Ordinance, if the Building Inspector refuses to issue a building permit, he shall in all cases state such refusal in writing with the cause and reasons for said refusal.

13.6 USE AND OCCUPANCY CERTIFICATE. No building, constructed or altered at an expense of two hundred (200) dollars or more nor any building moved into nor moved within and placed upon a foundation in any district in Independence Township shall be used or occupied until the Building Inspector has, after inspection, issued a certificate of occupancy and compliance. No fee shall be charged therefor and such inspection and certificate shall be issued within five (5) days after request therefor has been made if at the time of the inspection, the improvement has been completed.

Section 19. This Ordinance shall be published in accordance with the provisions of Act 184 of Public Acts of 1943 of Michigan as amended and also submitted to the County Zoning Commission in accordance with Act 183 of Public Acts of 1943 of Michigan as amended.

Section 20. This Ordinance shall take effect 30 days from and after the date of its final passage by the Township Board of Independence Township.

From where I sit... by Joe Marsh

Learn How to Pull Together

Saw a kid go by the Clarion office on a brand-new coaster wagon yesterday—and it reminded me of when my brother and I were about forty years younger. Our folks weren't poor, but there wasn't enough to buy two wagons for Christmas. We got one between us. Dad made a rule that we each could have it for a week—but the boy with the wagon was responsible for keeping the fitches wood-box filled. Seemed a bargain to Bud and me at first. But soon we discovered it was no more fun playing

alone than working at one. It wasn't long before we were sharing the wagon in return for sharing the chores.

From where I sit, you can't enjoy a privilege yourself if you're going to deny it to others. There are some folks who want the right to enjoy their favorite beverage—but would deny me my right to an occasional glass of beer. I doubt if such people get their full "share" of happiness, though.
