M. S. ALLEN TO BE CONVENTION SPEAKER

M. S. Allen, district overseer from the New York headquarters of the Watchtower Society, arrived in Pontiac yesterday to appear as the principal speaker at the 3-day convention of Jehovah's Witnesses beginning Friday in the Senior High School on West Huron Street.

"Fear is sweeping over the pre-

M. S. ALLEN

sent generation", said Mr. Allen, "because of the deadly weapons now in the hands of cruel, Godless, ambitious and unpredictable men who are bent on ruling the world. Foreknowing this, Jehovah God has promised and provided safety through this period in man's history. The Bible explains the whole situation." He will deliver the principal address of the convention on this subject, "Overcoming the Fears of This Generation" at 3:00 P. M. Sunday.

Mr. Allen oversees the activity of Jehovah's Witnesses in several midwest states including Michigan. He has long been a devout student of the Bible and is a graduate of the Watchtower Bible School at South Lansing, New York. He traveled extensively in Europe this past summer studying conditions there and attending European conventions of Jehovah's Witnesses.

RABIES CAN BE CONTROLLED

The cry "mad dog" strikes terror to a mother's heart and sends the dog-lover to the front door to whistle for his pet.

Rabies (hydrophobia) has been known since the dawn of civilization. It is a rapidly fatal, paralytic infection caused by a virus. The disease is most commonly found in dogs; humans are usually infected through the bite of a rabid dog. Once the disease has developed in a human or an animal, both are destined to a terrible death. There is no known cure. Experience in other countries and in our own State has proven that rabies can be eliminated in the canine family. The eradication of the disease depends upon a successful, continuous program having two main objectives: 1. the elimination of stray or unwanted dogs; 2. vaccination.

Operating under a state law the Oakland County Board of Supervisors, by resolution, made it possible for such a program to be put into effect on January 1, 1953. At this time it became mandatory for every dog to be vaccinated for rabies before a dog license could be obtained. Sanction was also given to the Division of Animal Welfare for pickup on all stray or unwanted dogs—they have received over 15,000 in the past 3 years.

The results of this program have been extremely good. Prior to January 1, 1953 an average of 75 cases annually (50 percent of all cases of rabies reported in Michigan) were found in Oakland County. Thousands of Pasteur treatments were given each year to hundreds of exposed persons. Stray or unwanted dogs roamed our streets; family pets died needlessly. In 1952 alone there were 70 people bitten by rabid animals; 1,004 Pasteur

treatments were given. During the past 17 months not one case of rabies has been reported in those areas in Oakland County in which licensing and vaccination are strictly enforced. In all of Oakland County no case has been reported since November, 1954.

The success of the program to date is due to the combined efforts of dog owners, veterinarians and agencies involved in enforcing the established regulations. The continued success of this program in Oakland County will require the continued cooperation of all affected parties. It is strongly recommended that owners of dogs consult a veterinarian of their choice to determine the health of their animals and to have their pets periodically immunized against rabies. Financial arrangements can usually be made for those who are financially distressed.

Rabies prevention is everybody's business. Get your dog a license for 1956. Have him protected against rabies and you will do your part in protecting you and your community as well as your dog.

FARMERS' WEEK JANUARY 30 - FEBRUARY 3

by Mrs. Frieda A. Bennett Home Demonstration Agent How long will frozen turkey keep? What makes angel food cake fall? Is it cheaper to bake

bread, cookies and cakes, or to buy them already prepared? These are some of the questions which will confront the food experts at a special feature of Farmers' Week on the Michigan State University campus, January 30 through February 3. Mrs. Frieda A. Bennett, Oakland County Home Demonstration Agent, reports that a panel of experts will answer questions from the audience and also questions which are sent in ahead of the event. Anyone with questions about food is invited to try and stump the experts. They will try to answer problems on food preparation, baking, cooking, freezing, canning, keeping of food, food costs, nutrition, and other food subjects. If you would like to send your question into the

experts before Farmers' Week, send it to Roberta Hershey, Home Economics Building, Michigan State University, East Lansing. The food table experts will give their answers Wednesday, Feb. 1, at 1:30 P. M., in the University Auditorium. According to Mrs. Bennett questions from the audience will be picked up by girls with roving microphones and relayed to the food experts. Serving as the group experts are: Beatrice Grant, Mary Morr and Mary Frang, all of the foods and nutrition department at M. S. U.; Pearl Aldrich of the Institution Administration Department; LeRoy Mallmann, professor of microbiology and public health; and Lyman Bratzler, professor of animal husbandry. Roberta Hershey, extension nutrition specialist, will act as coordinator of the question-answer session. Other features of the Farmers' Week program designed for women include looks into the home economics research being done at Michigan State, fashioning the landscape for your home, how foreign students live,

consumer problems, and a top notch style revue put on by the home economics students at M. S. U.

MICHIGAN QUEEN HEADS TEENS AGAINST POLIO

Pretty Margaret Devereaux of Howell, "Miss Michigan of 1956" and state chairman of teen-agers fighting Polio through the March of Dimes took time off from her campaigning to visit the Polio respirator center at University Hospital, Ann Arbor. She is shown reading to 8-year-old Judy Taylor of Lansing, one of 1955's paralyzed polio victims for whom the Salk Vaccine came too late and who must spend each sleeping hour in an iron lung. Miss Devereaux is a graduate nurse and was sponsored in the

annual Atlantic City "Miss America" competition by the Howell and Muskegon Jaycees. As state chairman of teen-age activities, she is supervising March of Dimes activities for thousands of youthful polio-fighters in Michigan.

SPEND 15 MINUTES IN A "PowerStyle" CHRYSLER

learn why it's today's biggest buy of all fine cars!

Pushbutton PowerFite... mechanical- and trouble-free, it's right at your fingertips on the safe left side where only the driver can reach it.

It doesn't take long to find out why Chrysler is winning the reputation as the performance leader of 1956. Just a few minutes behind the wheel of a big Chrysler Windsor V-8 like this one will show you why. Suppose you are in the right-hand lane on an expressway... four lengths behind a big truck rolling along between 35 and 40 miles per hour. You want to pass. You toe the throttle and in eight seconds flat you're four lengths ahead of that moving truck and back in your own lane! That's 1956 Chrysler performance. That's the kind of power only the "PowerStyle"

Chrysler can deliver... with its great airplane-type V-8 engine. And that's not all. There's full-time PowerPilot Steering... Pushbutton PowerFite, the ultimate in automatic transmissions... and the big PowerSmooth Brake that outlasts others 2 to 1. These are just some of the exciting new things that await you the first time you pilot a "PowerStyle" Chrysler. If you're driving one of the other cars in Chrysler's price class, by all means make a direct comparison now. Just 15 minutes behind the wheel will show why it's the biggest buy you can drive today!

Prices of clothing, home equipment and consumer services are expected to go up next year, but food prices are likely to be about the same as this year, reports the U. S. Department of Agriculture. Overall increases in the cost of living are expected to be small for 1956.

In making pastry, the shortening should be soft enough to measure easily, but firm enough that pieces about the size of small peas remain when the fat is cut into the flour. The flakiness of your pastry depends on these pieces of fat and on the lightness of the fat-flour mixture.
