YEARBOOK STAFF HARD AT WORK

The Journalism class has been very busy working on the yearbook. They have met one deadline and are now faced with another.

To get these pages ready is quite a task. First, the photographer takes the picture and it is then sent to be pre-screened. The company sends the pre-screens back and the class makes up the pages. The names are typed and

glued. Headlines and page numbers are put on and then the finished page is sent back to the company.

There will be 88 pages in the Yearbook. Thirty-three have been completed and sent in.

C. H. S. FACULTY DEFEATS HOLLY 77 - 55

Clarkston faculty played a return basketball game with Holly's faculty, Saturday night and came out on top again, by a score of 77 - 55. The Clarkston team was led by Ed. Hintz with 20

points and Dom Mauti with 16. Other teachers who played for Clarkston were Vern Lockart, Mel Vaara, Floyd Vincent, Robert Klingman, Gus Birtsas and Terry Thomas.

Leading scorers for Holly's faculty were Bob Pence with 19 points, Herb Quade with 16 and Reese Protz with 9.

This game was preceded by two junior high school intramural games in which about 50 seventh and eighth graders participated.

CLARKSTON LOSES TO NORTHVILLE

by Ira Pence

Clarkston lost to 2nd place Northville, 73 - 60, in a very well played game. The game was hard fought all the way, but always contained an air of good sportsmanship.

Failure to capitalize on their free throws with their usual accuracy cost the Wolves the game.

The Mustangs took an early lead which George Lang promptly evened up but the Mustangs moved out in front again, this time to stay, by 8 points before the period was half over. But the Wolves matched the Mustangs basket for basket for the rest of the quarter where the score stood 22 - 13 Northville.

During the second period Northville's height advantage was most evident as they extended their lead to 42 - 28 at the half.

Clarkston bounced back and cut Northville's lead, which at times had been as much as 18 points, to only 10 points, 50 - 40, with 3 minutes left in the 3rd quarter. Minutes later, Clarkston cut the lead to 7 points, 50 - 43, but at the three-quarter mark the score again read 56 - 46. Clarkston was unable to overcome Northville's height and Clayton Pether's (28) accuracy. Coach Mauti substituted for Clarkston with 2 minutes left to play. Northville led 73 - 60.

The subs were unable to score and prevented the Mustangs from raising the score, so the game ended 73 - 60, Northville.

Clayton Pethers was high for the game with 39 points, 17 field goals and 5 free throws. George Lang was high for Clarkston with 19; Leroy Parks was second with 15.

Clarkston has lost to both of the league leaders and will meet Clarenceville there this Friday. This game will decide who stands third and fourth places in the Wayne-Oakland League.

Clarenceville won the last encounter 66 - 64 with Riddling netting 38 points for Clarenceville. The game is expected to be a close one played right down to the wire.

FOOD SHOPPER'S NEWS

by Mrs. Josephine Lawyer

Food shoppers who observe Lent by reducing their use of meat will find ample supplies of meat alternates to serve as main features of the meatless meals. According to Mrs. Josephine Lawyer, Consumer Marketing Information Agent of Michigan State University, dairy foods, eggs, and fish should be starred at the top of the shopping list this week.

Plentiful supplies of cottage cheese, cheddar cheese, and a

variety of milk can be the key items. For variety, try cottage cheese in the cream style with chives or pineapple. Cheddar is a wheel 14 1/2 inches in diameter, 13 inches thick, and weighs 64 to 80 pounds. Sweet, whole cow's milk is used to make cheddar. Research has proved that pasteurized milk improves the quality.

With only about a three cent difference in price between the large and extra large sizes of eggs, the extra large size will give the customer the most weight for the money. Large

eggs weigh a minimum of 24 ounces per dozen while extra large eggs weigh a minimum of 27 ounces per dozen. Buy from a store where eggs are kept under refrigeration to retain quality.

There are many varieties of fish from which to choose—fresh, frozen, smoked or canned. One of the most economical fish is the 7 to 8 inch smelt that is native to the Great Lakes. Good choices in frozen fish include cod, haddock, and ocean perch. Canned tuna is especially plentiful, though the sardine and salmon pack are smaller than last year.

In red meats both pork and beef are on the wise-buy list. Choice quality chuck roast may be a favorite with the blade cut priced about 10 cents less per pound than the arm cut. Pork loins are in heavy supply and prices continue low.

Yellow cooking onions are retailing at a new winter low. Use them creamed, escalloped, for soup and casserole seasonings.

Fine quality grapefruit is about 8 to 10 cents each on most counters. For best flavor select grapefruit that is firm, heavy for its size, and that has a relatively smooth skin. Russetting does not affect the interior quality.

FRIED SMELT

Smelt is usually eaten fried. They are most palatable when rolled in flour, corn meal or cracker meal and fried in plenty of fat. Some prefer to mix a small quantity of brown sugar with the corn meal. Butter or a mixture of 1/4 butter and 3/4 vegetable shortening or bacon grease imparts an excellent flavor. The fish should be fried until golden brown. A gourmet has

his smelt fried crisp and eats bones and all.

MICHIGAN BELL

ADDITIONAL TELEPHONES make life easier for the entire family. Telephones in the kitchen, the playroom, the bedroom—wherever they are needed—save time and steps. These additional telephones are especially important if you have a baby or two

in the house. With a telephone at your finger tips, you don't have to leave your tots even for a minute when the phone rings. (And a minute is all they need for harm or mischief!) Why not ask about those additional phones today? They only cost a few pennies a day.

THERE SEEMS TO BE no end to the value of the telephone! New uses for it are turning up almost every day. For instance, a supermarket recently requested Michigan Bell to install telephone outlets at the end of the shelves, with lines running to the stock room. As soon as the merchandise runs low, the shelves can be immediately replenished. So the chances are when you walk into this store, you'll find just what you're looking for, right where it belongs. The telephone does serve in so many ways, doesn't it?

DO YOU SAVE pieces of string? The telephone company is like that... only more so. Odds and ends of wire and worn parts are carefully collected because they have real value. Tons of this scrap are shipped each year to Western Electric, supply unit of the Bell System. There they are fed into giant furnaces, melted and remade into wire and brand-new parts. This thrifty economy is important to all of us because it helps keep the cost of telephone service down.

The power of Christian healing in all ages will be set forth at Christian Science services Sunday in the Lesson-Sermon entitled "Christ Jesus".

Selections from the King James Version of the Bible will include the account of Christ Jesus' healing of the "man whose right hand was withered" as recorded in Luke's Gospel (6:6-12).

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be read the following (347:14-17): "Christ, as the spiritual or true idea of God, comes now as of old, preaching the gospel to the poor, healing the sick, and casting out evils."

The Golden Text is from Psalms (45:2): "Thou art fairer than the children of men: grace is poured into thy lips: therefore God hath blessed thee for ever."

City Hotel and the guests who signed their names on the register way back in 1837 were Bela Hubbard and Dr. Douglass Houghton. These two gentlemen were engaged in a geological survey on the site of the development reputed to be on the shore of Lake Huron, about ten miles south of the present location of Harbor Beach.

The catch was that this wonderful metropolis was a "paper city"—existing solely on the colorful prints displayed by the promoters who tried to sell the lots.

According to the elaborate pictorial map circulated by the fancy-free founders, the town faced on a spacious harbor. Into it emptied a broad river up which ships were sailing. A public square surrounded by churches, a courthouse, a bank and other attractive buildings were prominently displayed. A wide stream rushed into the woods where saw mills were shown busily producing lumber for new houses.

This was the town as pictured. But the reality was something else, historian Bald says.

Hubbard and Houghton, who were looking for the town, finally found the river—a creek scarcely broad or deep enough to take their canoe. Neither harbor nor town was in sight, only dense woods.

Where the city square should have been three large beech trees were standing. Into the smooth bark of one of them, the members of the survey party carved their names. They claimed they were the first guests to register at the White Rock City Hotel!
