JUNIORS PRESENT "CHEAPER BY THE DOZEN"

#### Scout Cookie Sale **A Big Success**

Mrs. Donald Redmond, cookie sale chairman for the North Oakland Girl Scout Council, is already thanking the communities this week for the splendid response to this year's Cookie Sale, although it does not end until April 15, from 1:00 to 6:00 P. M., April 16. Supplies have been ex- at the home of their son-in-law hausted in spite of a 12% increase in the order. Nearly 8,000 cartons of 12 boxes each were sold.

The North Oakland Council of Girl Scouts is a United Fund Agency but does not receive anything toward maintenance or capital expenses for its resident camp, Camp Sherwood, located north of Lapeer. 85% of the net profits from this sale will be used for Camp Sherwood; 10% for troop camping and 5% for camp scholarships.

The biggest capital expense this year is the purchase of 80 acres adjacent to Camp Sherwood, to be used also for troop camping.

A "Meet The Camp Day" has been scheduled for Sunday, May 6. On that day Camp Sherwood will be open to the public from 11:00 A. M. to 5:00 P. M. Picnic lunches may be taken to the Camp but no fires will be allowed. Coffee and soft drinks will be available.

Registrations for camping sessions for girls from 7 to 17 are now being accepted, with Scouts having the priority. The opening week is June 24.

#### Reminder

Be sure to attend the Rummage Sale at the Clarkston Community Center all day Friday and on Saturday morning. This sale is being sponsored by the Rotary Anns.

Any contributions of rummage will be appreciated. Call any Rotary Ann.

#### SMORGASBORD AT SASHABAW

A smorgasbord dinner will be served at Sashabaw Presbyterian Church on Saturday, April 14. beginning at 5:30. An extra good menu is being planned. The public is invited.

### Women's Club Has International Night

On Tuesday evening the Waterford Township Business and Professional Women went on a European trip by way of colored slides shown by Miss Patricia Branch, a teacher in the Clarkston school system. Miss Branch took the pictures when she went on a 3-months conducted tour last summer. Many interesting and scenic places were visited. As the club was observing International night the pictures gave the members some idea of the architecture, the mode of dress and life in general in these far-away places.

Another interesting guest at the meeting was Mrs. Robert (Kimie) Bennett, a native of Japan. She exhibited some of her dolls and demonstrated how to is very anxious to help with this don a kimona. Mrs. Bennett also demonstrated how to use chop sticks and she was kept busy answering questions. She has been in America only fourteen months but she is mastering the

English language quite well and becoming accustomed to the American way of life

The dinner was entirely Chinese, and the women enjoyed all of it, along with the courteous service and the friendly hospitality of the restaurant owner. The United Nations flags made an appropriate centerpiece for the fficers' table and places were

YOUR HOME NEWSPAPER

All matters handled through the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper each week.

## Here's why the engine that started the high-compression era still tops the field today !

**THE ROCKET BROUGHT HIGH-COMPRESSION** performance to motoring . . . set the standards . . . broke the records.

Today it's the same. With a high in compression of 9.25 to 1 and a displacement of 324 cubic inches, the Rocket packs a potent new wallop.

THERE'S AN EFFORTLESS SMOOTHNESS that tells you this one is a masterpiece of balance and precision. What's more, this power plant's bigbore, short-stroke design means shorter piston travel for less friction, wear and longer life. You'll rarely use the full 230<sup>†</sup> horsepower under the hood. But you'll go for the Rocket's high torque—the force that makes the wheels go 'round. Even at medium speeds, your toe can call a hefty 340 pound-feet of torque into play —to move you away from a light or pass by any emergency. Add Jetaway Hydra-Matic\* and you meet Rocket action at its smoothest.

VISIT OUR SHOWROOM TODAY! We invite you to "Rate the Rocket" on the road. You'll get out of the ordinary . . . into an Olds!
