

Waterford

Mr. and Mrs. Jack Echlin (Kitty Lou McLaughlin) are the

parents of a 7 lb 14 oz son, Joseph Allen, born April 14 at St. Joseph Mercy Hospital. Grandparents are Mr. and Mrs. P. L. McLaugh-

lin of Dixie Highway and Mr. and Mrs. Allen Echlin, formerly of Drayton Woods.

Mr. and Mrs. Emery Beedle observed their 30th wedding anniversary last Tuesday.

Mrs. Clyde Lehman is convalescing at her home where she returned Wednesday from a stay in Pontiac General Hospital.

Mr. and Mrs. Thomas J. Peterson and three children have returned from a three weeks vacation in Florida. They spent most of their time on the west coast and enjoyed a trip through the Smoky mountains enroute home.

Geraldine Lewis entered Pontiac General Hospital Wednesday where she is undergoing surgery on Thursday.

James Hill is back home after spending the winter months visiting his daughter in Clearwater, Florida.

Mrs. Josephine Combs of Spring Arbor spent the weekend with her son-in-law and daughter, Mr. and Mrs. Lyman Girst. She returned to her home on Monday.

Robert Brill is a patient at Pontiac General Hospital where she underwent surgery on Tuesday.

Carol Tuck, granddaughter of the Henry Mehlbergs, is ill with the measles.

A/1c Harold Goshen is home from Wichita Falls, Texas, and is spending a 30 day leave with his parents, Mr. and Mrs. Jack Goshen. He will report back in Alabama on May 20 and then will leave for Puerto Rico for 2 years.

Mrs. Alice Oldfield of Toronto, Ontario, who has been spending the winter at the home of her son-in-law and daughter, Mr. and Mrs. Alton Goll, has returned to her home. The Golls drove her to Toronto last Saturday.

Mrs. Gerald Lewis entertained Saturday at a luncheon and baby

shower honoring Mrs. Thomas Belton. The party was held at the Lewis home on Andersonville Road with 14 guests present.

Mr. and Mrs. Floyd Blanz of Ledgestone Drive have announced the engagement of their daughter, Joyce Ann, to Seaman Richard C. Tims of the U. S. Coast Guard. He is the son of Mr. and Mrs. Claude Tims of Union Lake. A fall wedding is planned by the young couple.

Art Williams, Missionary Candidate, who has been with the Waterford Community Church for the past 7 months is leaving this week for a short visit in Iowa and then will spend the summer at his parents' home in Pennsylvania. He will leave in September for the Philippines to continue his work.

Mrs. Earl Lambertson

Funeral services were held Saturday morning at 10 o'clock at Our Lady of the Lakes Catholic Church for Mrs. Earl (Mary Louise) Lambertson, 65, of 3490 Airport Road. Mrs. Lambertson suffered a stroke and passed away on Monday in Florida. The body arrived at the Huntton Funeral Home in Pontiac

on Thursday and a Rosary Service was held there on Friday evening.

Survivors are her husband, Earl; three sons, James of Davidsburg, and Ed and Dick, both of Waterford; ten grandchildren; two great grandchildren; a sister, Mrs. Irene Taggart of Saginaw. Burial was in Ottawa Park cemetery.

Sunday is Missionary Day at the Community Church and the Mission Board has procured Rev. Perry Temple, Michigan Representative of the Bible Meditation League, to be here all day. At the 7:30 evening service he will show a colored film on India and tell of the needs of the people there.

MICHIGAN BELL

TELEPHONE lines

ONE GOOD EXAMPLE of how telephone research benefits all of us is the amazing transistor. This versatile marvel, an electronic amplifier, was conceived, invented and developed at Bell Telephone Laboratories. As development progresses, transistors are replacing vacuum tubes in more and more telephone equipment. Tiny and mechanically simple, transistors last longer than vacuum tubes and need little power. These economical features help keep down the cost of providing telephone service.

WHAT DO YOU have planned for, say, next week end? Perhaps a drive to see some friends or relatives in the next town. Or maybe you're going to spend a quiet two days at home. Either way, the telephone can help you enjoy your week end. If you're planning a visit, call ahead and let the folks know just when you'll be there. And if you're just going to loll around the house, wouldn't that be a good time to talk to those out-of-town friends or loved ones? Telephone calls cost so little and they are so appreciated.

BREAKFAST IN BED is one good example of luxurious living. But that's a luxury most of us can't often afford. A bedside phone on the other hand is a very inexpensive "luxury." For about \$1 a month you enjoy the comfort and convenience of an additional telephone at your finger tips. It will mean

the end of stumbling around when you make or get calls at night—you just reach for the phone. To order your bedside telephone, call our Business Office.

MICHIGAN FLAG TO FLY WEEK OF MAY 20

The official Michigan Flag will be prominently displayed across the state during Michigan

Week, May 20 - 28, if the movement started in Gogebic County takes hold. Officials there want the flag, which has not had much prominence, except in official offices, flying from every

county courthouse in the state. The movement started when the Gogebic County Historical Society presented the state flag to the County Board of Super-

visors requesting them to display it at the courthouse during Michigan Week. It would be flown immediately below the American flag. The Supervisors liked the idea so well that they passed a reso-

lution, one that they are sending to the other 82 counties in the state. They are asking their fellow Supervisors to exhibit a Michigan flag, not only during Michigan week, but permanently as

a reminder of the fact that "It's Great to Live in Michigan". A history of the flag was sent along with the resolution. To aid in the promotion, newspaper mats of the flag will be distributed

to newspapers throughout the state. It is estimated that sportsmen take over 28,000,000 pounds of "wild food" (fish and game) from Michigan's woods and waters

yearly. The St. Clair Metropolitan Beach, near Mt. Clemens, in Southeastern Michigan is the world's largest fresh-water beach.

CHILDREN FACE MANY HAZARDS

Upwards of 300 Michigan children die every year in home accidents and ten times that many are crippled for the rest of their lives because of inadequate safety precautions, says Dr. Harry A. Towsley, professor of pediatrics at The University of Michigan Medical Center.

Young infants are especially apt to become victims of an accident, he warns, unless thorough safeguards are taken by parents.

One of the most common sources of severe injury is a short fall from a bed or a hassinet where a baby has been placed too close to the edge and rolls off, striking his head on the floor.

Babies who like to chew—and most of them do—can get lead poisoning from the paint on their crib or receive a bad burn from munching an electrical cord, the doctor states.

Many infants who supposedly died from suffocation actually may have had severe pneumonia,

according to Dr. Towsley. He suggests that any bed-time difficulty in breathing by babies be checked frequently by parents.

Loose razor blades can also cause a bad injury when a two or three-year-old tries to mimic his dad's shaving habits. Keeping all sharp, heavy, or poisonous objects in a secure place out of

a youngster's reach becomes increasingly important when he begins to move about the house, Dr. Towsley continues.

When a minor accident does occur, parents should be sure to teach the baby why it has happened, saying that an object was "hot" or "burns" and using the simplest possible explanation

for the child. "Kissing his hurt away", the doctor concludes, "may only be an invitation to a major disaster."

HERE ARE THE FACTS ABOUT THE MILK STRIKE!

The ill-advised milk strike, in which organized labor endeavored to "take over" the dairy farmers of the Detroit milk shed, proved one thing: That labor union practices and the business of independent farmers don't mix.

It became evident from the start that the instigators were not striking the dairies for a higher price. They had, in fact, agreed with dairies they would take the prevailing market price for farmers' milk!

Instead, they directed their attack against the dairy farmers' own organization, the Michigan Milk Producers Association, which they aimed to control or destroy. In this attempt, forces within organized labor sought to capitalize on the economic plight of the farmer and exploited a minority group of farmers to their own ends.

There should be no misunderstanding the fact that MMPPA is a dairy farmers' cooperative, operated by the farmers, for the farmers, to cooperatively market their milk and protect their economic interests. It was the propaganda line of the strike leaders to mislead the farmers and the public in this respect.

The obviously false claim of strike leaders that they won a price increase was a part of this propaganda technique. Actually, nothing good for the dairy farmer resulted from the strike. Rather, only harm was accomplished, the seeds of dissension were sown, and the real issues and facts were wilfully misrepresented.

What Caused the Strike?

The strike stemmed from the ambition of a few within organized labor to control the Detroit milk market and to collect union dues from dairy farmers who ship milk to that market. To accomplish this, the strike organizers turned farmer against farmer in their drive to destroy his cooperative organization.

Who Were the Strike Leaders?

Major leadership and direction came from organized labor. Joined with these professionals were a former union organizer and a small group of dairy farmers who have consistently opposed the methods and policies of MMPPA and sought this means of imposing their will on the MMPPA membership.

What Were the Real Issues?

This was not a strike for a higher price for milk nor did it accomplish any economic advantage for farmers. The real issue was recognition of the so-called Fair Share group, organized labor's "front", for the purpose of dues collection and check-off. By this action, the strike directors sought to gain control of the assets and functions of MMPPA.

Who Won the Price Increase?

The bargaining power of MMPPA, carried out in an ultimatum voted at the March 28 delegates' meeting, was alone responsible for the price increase gained on April 1. The Class 1 price of \$5 would have been achieved sooner and without ultimatum if obstructionist tactics of strike leaders and others had not blocked price negotiations carried on by the MMPPA Detroit sales committee.

What Are the Economic Facts?

The increased price of \$5 per cwt. applies only to that portion of the milk used for bottling and fluid purposes. It is not a net price to the farmer, who must pay marketing and shipping costs. Only part of the milk can be sold at this price, the rest must be used for manufactured products of the prevailing market price.

Outside Milk a Problem

Another factor not to be overlooked is the deluge of milk which results in any market where a higher than average price prevails. Competition from outside the milk shed can cause havoc for regular producers, even to the extent of losing their market.

No one realizes more fully the serious problems of the dairy farmer than does the MMPPA, whose affairs are directed by these self same farmers. The present farmer price squeeze is the nation's Number One problem. It cannot be solved by mob action nor by looking for help from agitators outside the ranks of agriculture. They have their own axe to grind.

Inspector Fabian reveals "New Secrets of Scotland Yard". Begin this exciting, new mystery series Sunday in the CHICAGO AMERICAN.

IT'S TORQUE THAT MAKES THE WHEELS GO 'ROUND!

... And the High-Torque Output of Oldsmobile's Famous Rocket Engine is Instantly Translated into Outstanding Performance at the Rear Wheels!

LET'S TALK TORQUE! In plain language, torque is "twist" — like turning a door knob. It's the force that makes the wheels go 'round. So it follows . . . the more torque your engine has, the more go power your car has . . . the more getaway at the light . . . the more action on the open road!

That's why, when it comes to power, there's nothing like Oldsmobile's Rocket T-350 Engine — because the Rocket is torque TNT! Figures prove it: 350 pound-feet at 2800 rpm (340 pound-feet at 2400 rpm in '56 models).

OLDS CHASSIS IS ENGINEERED TO HANDLE HIGHER TORQUE!
Oldsmobile has the chassis to take Rocket torque . . . a skillfully engineered Oldsmobile chassis with an extra-sturdy, dynamically balanced drive shaft, and an extra-rigid frame that resists twisting and weaving.

— to spare! And with Oldsmobile, it's high, usable horsepower . . . a by-product of engine design aimed straight at the wheels — design that translates horsepower into terrific torque at normal engine rpm's.

TOP TORQUE MEANS TIP-TOP PERFORMANCE!
The result is higher torque — silken, responsive Rocket action. Touch the accelerator, ever so gently, you "go" . . . and we do mean "GO!" You thrill to smoother, swifter bursts of power in medium speed ranges — tip-top performance for everyday use — spectacular performance when you need it . . . when you want it.

Any way you look at it, you can't top the Rocket for thrills for the money — or for top return when it's time to trade. Stop by soon. Rocket 'round the block . . . or around the town if you like!

OLDSMOBILE'S ROCKET — a double winner in 1956 Mobilgas Economy Run. Got the feel of top-horsepower, top torque in the engine that's an economy champion, too!

RUDY'S

9 SOUTH MAIN MA 5-2811

For the price of a stalk of celery you can cook nine complete meals for a family of four, on your electric range. And remember, only an electric range is "white-glove" clean. That's why smart homemakers say:

"You can Live Better ... Electrically."

SEE YOUR DEALER OR DETROIT EDISON

MEET THE NEW BOSS

in the Performance Department!

Come in and Drive the Surprise Car of the Year!

The word's getting around fast—the big, handsome husky you see here is the big surprise that caught the industry a year or so off balance!

But it didn't come as any surprise to Pontiac engineers that they had the year's performance sensation.

They knew all along that it would be, because they started from scratch and designed the most modern and efficient high-compression, high-torque V-8 engine in America!

Then they tailored an all-new Strato-Flight Hydra-Matic* especially for Pontiac's high-stepping Strato-Streak power plant—and for nothing else! The blazing action of 227 horses is yours in a flash with the positive, no-lag action of gears—plus an amazing liquid coupling for a smooth, uninterrupted flow of power to the wheels.

Bring yourself up to date—come in and pilot the surprise car of the year—you'll soon see what the talk's all about!

And don't be afraid to ask about price, for that's another pleasant surprise—the one that will let you boss the best on the road for a great deal less than you probably think! *An extra-cost option.

The car says GO and the price won't stop you!

The PONTIAC Catalina

A GENERAL MOTORS MASTERPIECE—FAIRLY PRICED AND FAIRLY SOLD!
