## PARADE IN CLARKSTON LABOR DAY

### Dr. C. Howard Ross Addresses Rotary

The highlight of the regular Clarkston Rotary Club meeting on Monday evening at the Community Center, was a talk by Dr. C. Howard Ross, who specializes on the subject of Geriatrics.

The good doctor, who has studied the habits and attitudes of those in advanced years, presented enough types to allow every member of the Club to see what he might be like in the years to come, with enough humor to make the subject more than interesting. Science has taught us how to prolong life. Now science must teach us to enjoy the extended years and get the most out of them.

The speaker was introduced by Frederick P. Warrick.

Dinner was served by the ladies of the First Baptist Church of Clarkston.

### Mrs. A. Hawke Hostess to Circle

The Mary Circle of the Methodist W. S. C. S., met last week at the home of Mrs. Allen Hawke on W. Washington Street for a picnic luncheon. On account of the weather the group met in the recreation room. There were 15 members and guests present.

Following the luncheon a short business meeting was held. The remainder of the afternoon was spent playing interesting games under the direction of Mrs. Herman Gentry who is the Circle Chairman.

The October meeting will be held at the home of Mrs. Thomas Boyens with Mrs. Glenn Boner and Mrs. Garnet Poulton as assisting hostesses.

### Two Men In A Boat

Two men in a boat the whole day through, And what do you think two men will do? They will sit and fish as time flies by; They'll watch the clouds afloat in the sky; They'll hear the waves as they slap the boat, A gentle reminder they're afloat On a lake of earth, and its eleven, They only dreamed they were in heaven. They'll watch the gull as he dips and soars; They'll worship the trees that line the shores; They'll eat their lunch with such great delight— Sandwiches never did taste so right. They will peel off their shirts just for fun; They'll arch their backs to a glowing sun. They won't say much for mere words can't tell Of the things they see and feel so well. A line will hang from a fishing pole, A baited hook in a fishing hole. But a bite would mar the quiet peace, And all the heavenly dreams would cease. Perhaps they will say 'no biting please, Please do not disrupt our fishing ease; Please let us just dream our whole day through'. This might be the things two men might do.

### Pioneer Club Kept Busy

The Clarkston Pioneers had a grand time at their box social last Thursday afternoon. There were 39 present in spite of the rain.

Due to the inclement weather the gathering which was to have been held on the grounds at the home of Mrs. Pearl Urch on Holcomb Street, was moved to the Community Center. However, although Mrs. Urch was greatly disappointed, she very graciously helped with the day's maneuvers.

Birthdays were recognized and Mrs. Blanche Walter presided at the piano for the singing of "Happy Birthday". During the luncheon Cheryl Waggener, as a roving accordionist, entertained with many lovely selections.

During the afternoon literature from the U. of M. on subjects of interest to those of advanced years, was distributed.

The working committee for the afternoon included Mrs. Ira Snader, Mrs. Harry Horsch, Mrs. Arnold Mann, Mrs. Walter Barrows, Mrs. Harry Waggener and Mrs. Frederick Warrick.

The Pioneers have been invited to the State Fair and the invitation has been accepted. The group will leave the Community Center on Thursday, Sept. 6, at 10:00 A. M. sharp. Any Pioneer who intends to go to the fair is to call their president, Mrs. Blanche Walter, at once, so that transportation can be arranged.

The Pioneers will participate in the parade on Labor Day. Call Mrs. Frederick Warrick if you will be able to be in the parade.

### Church Meetings In Pontiac Lake School

Like the "People of Israel" of olden times, moving first under Abraham to the lands around Salem (later Jeru-Salem); thence to Egypt under Jacob and Joseph; thence to Sinai under Moses; and finally into the promised land under Joshua, there to prepare for the coming of "Jeshua" (Jesus) their Messiah or Christ who would be their eternal king, so the congregation of St. Andrews Episcopal Church, Drayton Plains, after two previous temporary homes, i.e. the C. A. I. Bldg., where it began its congregational existence, July 1, 1951 and its present "converted theatre" home on Dixie Highway, since March 1, 1953, now embarks upon its third move in the faith and hope that it will, after a brief sojourn at Pontiac Lake School, 2515 Williams Lake Road, come to its permanent home, the new church at 5301 Hatchery Road, and Airport Roads—its own 'promised land'.

Sunday, Sept. 2, Rev. Waldo R. Hunt, Vicar, has called the congregation to hold its final services in the building at 4386 Dixie Highway, which has so efficiently served as an interim church home during the past 3½ years. There will be service of Holy Communion at 8 A. M. and Chapel Corporate Communion, Choir and Valedictory Sermon at 10 A. M.

Monday, Labor Day, Sept. 3, under the leadership of Chapel Warden, W. E. Whitmer of Clarkston, a "moving box" with a caravan of trucks, trailers and station wagons loaned by the congregation, will assemble at 9:00 A. M. to move all that has not already been moved, into temporary storage till it can be set up in the new building.

Tuesday, Sept. 4, the building is expected to begin being razed to make way for a parking lot in front of the new supermarket now being built. In connection with the dismantling of the present building St. Andrew's congregation has been given permission by H. Sarko, the new owner, to dispose of all "inside salvage" materials and equipment. John Sterling, Orlando 3-9459, is chairman of the sale.

Sunday, Sept. 9, St. Andrew's congregation will begin holding services in Pontiac Lake School (see church calendar on page 5). Church School enrollments will be received and attendance records kept beginning Sept. 16.

U.'s evening college classes are also scheduled to begin Sept. 24, as are the fall telecourses.

### Timeless Spirit

Were I to tell, Would you know That together we are good? But alone, we struggle against Earth other, In frenzied, sharp attacks. Scaling great heights Without any thoughts Of preparation, or ignoring devotion— To the simple things, That bring great Freedom and fulfillment. And roots our foundation Into the Earth. From where we came.

For as we bend to His Will, As a sapling bends To the will of the wind. Then shall we grow, And climb together, Toward understanding, Leaving loneliness behind.

This is your divine right." The Golden Text is from I John (3:1): "Behold, what manner of love the Father has bestowed upon us, that we should be called the sons of God." (continued on page 5)

### Vaccine Available For Teen-Agers

Oakland County physicians are now able to purchase Salk Polio Vaccine through commercial channels, according to Dr. Frederick N. Adams, of Birmingham, Chairman of the Polio Committee, Oakland County Medical Society. This vaccine is in addition to the free vaccine supplied them by the Oakland County Health Department for the priority group of children ages 1 through 14 years and expectant mothers.

Dr. Adams is urging parents of all teen-agers to contact their doctors and make arrangements for their children to start the series of three injections against paralytic polio. "This age group is our next target", Dr. Adams said. "There is a high incidence rate of polio among teen-agers according to national statistics, and with the releasing of the Salk Vaccine through commercial channels, we want to press the importance of getting these young people vaccinated as quickly as possible. Vaccination is just as essential for teen-agers right now as it is to younger children. Much crippling due to paralytic polio will be prevented if parents will take prompt action in contacting their doctors and making arrangements for their older children to receive the protection the Salk Vaccine gives."

### Drive Carefully This Week End

The Michigan State Police are crossing their fingers and fervently hoping that the improved traffic record since April 1 will continue over the Labor Day weekend and have made preparations to keep it that way.

They will have 922 officers on duty assisted by 217 National Guardsmen. Another 122 Guardsmen will be assigned to sheriffs.

Because the use of Guardsmen has become the practice on holidays, they have been receiving training in traffic work at schools conducted at their armories by State Police officers.

Each has also been provided with a training manual compiled from courses taught at the State Police recruit school. Included are such subjects as traffic patrol procedures, accident investigation, law of arrest and court-ship. The Guardsmen, however, do not have the power of arrest, but may assist a State Police officer in making one.

Pass days of all State Police officers have been cancelled from noon Friday until midnight Monday. The Guardsmen will work with them during this period as the second man in a patrol car or on point control.

The department will use seven airplanes and two helicopters for traffic observation. The Guard will furnish the helicopters and two planes. The other five planes will include two from the department of aeronautics, one from the Conservation Department and two State Police ships.

Traffic is expected to reach its peak for the year. This will be the first and only long weekend holiday of the year and the last summer vacation trip for many persons. Thousands of others will be returning from vacations in time for the start of school.

According to State Police records, a total of 129 persons were killed during the last five Labor Day weekends. The lowest number was in 1951 with 14, the highest in 1952 and 1953, when 32 died each week end. Last year 25 were killed.

Six persons were killed on Memorial Day this year and nine on the Fourth of July. Both holidays fell on Wednesday, and the traffic toll was computed beginning with 6:00 P. M. Tuesday, a 30-hour period. "Drivers should try hard to keep up the present trend", Childs said. "They should take a little longer to get there, observe the rules of the road and watch out for other drivers. As the record shows, safety does save lives."

By Presidential Proclamation, September 17 is designated as Citizenship Day.

### State 4-H Show At M. S. U. Now

INVITING THE UNDERTAKER-

ulations and giving support elements to attack areas—are being urged by the Federal Civil Defense Administration to prepare against the danger fallout. Organized civil defense can warn rural populations of impending fallout, but farm families, rural communities and small towns must be ready to take protective measures. The primary defense is shelter. The safe, comfortable place for proper shelter can't be a last-minute decision. Every family should prepare its shelter area now, without delay. Underground shelter is the best shelter. Three feet of earth overhead will virtually eliminate fallout hazard. A root, potato or cyclone cellar with earth roof will provide substantial

protection, as will the basement of your home. Cellar-type shelters should be closed during the fallout but ventilated through a filter-trap that keeps out radio-active dust. Each family should have food, water, bedding, lights and emergency gear in or ready to go into the shelter. If time permits, after a fallout warning, farmers should try to shelter their livestock and poultry, and cover wells and water supplies. Once committed to taking shelter from fallout, be prepared to stay in that shelter until assured that the intensity of radiation has decayed to the point it is safe to leave. Civil defense radiological workers will re-enter the area and determine the density and amount of radioactivity. If the situation warrants, families might be instructed to leave the area. If so, the residents must move out quickly and stay away for some time. Have clothing, food and equipment ready to move quickly. The food should be enough to feed each person at least seven days.

**QUESTIONS AND ANSWERS ON SALK POLIO VACCINE**

1. Is the Salk vaccine safe?  
 Yes. Experience following the use of the Salk vaccine in between 30,000,000 and 40,000,000 individuals has proven it to be one of the safest vaccines now in use. Stringent tests insure this safety.

2. How effective is the Salk vaccine?  
 The vaccine was approximately 80% effective in preventing paralytic polio in 1955. The unvaccinated child is five times more likely to get paralytic polio than is the child who has received the vaccine.

3. What is the full schedule of vaccination?  
 One shot, followed by another shot two to six weeks later. A third shot is then given seven months to a year after the second to provide maximum protection.

4. How long does it take the vaccine to protect?  
 The first shot begins to take effect from seven to ten days after it is given. However, the second shot brings a sharp rise in protection.

5. Should the vaccine be given during the polio season?  
 Yes. Immediate vaccination of an entire community is the best hope of stopping a budding polio epidemic.

6. If the second shot is delayed is it still effective?  
 Yes. Dr. Jonas Salk has reported that the effect of the second shot is not lost even if given many months later.

gainst paralytic polio?

It gives some protection, but actually one injection usually just sets the body's protective machinery in motion. Two shots are needed for adequate protection, and three for long term protection.

8. Should people who have had polio be given vaccine?  
 Yes. There are three types of polio and a person who has recovered from one type is not necessarily immune to the other two.

9. Does the polio vaccine prevent non-paralytic polio?  
 It is not intended to. Non-paralytic polio is a relatively mild illness. The vaccine is intended to prevent paralytic polio only.

10. Who is eligible for the free Salk Polio Vaccine?  
 In Oakland County, free vaccine which is distributed through the Oakland County Health Department, is available for children ages 1 through 14 years, and expectant mothers. 216,000 individuals are eligible for this vaccine.

11. How many of the 216,000 eligible have been vaccinated in

Oakland County?

Less than 50%. Health Department figures show that: 16,218 have received 1 injection (.07%); 87,870 have received 2 injections (40.6%); 13,129 have received 3 injections (.06%).

12. When should my child be vaccinated?  
 RIGHT NOW!

13. How and where do I get

the vaccine?

There are two ways: (a) See your doctor. He is supplied with free vaccine by the Health Department, and will charge a nominal fee for the injections. (b) If you are unable to make satisfactory arrangements with your doctor, visit one of the Health Department Clinics.

14. Where are the Health Department Polio Clinics?  
 Oakland County Health Department, 1070 N. Telegraph Rd., Pontiac, FRIDAYS: 9 to 11 A. M.

South Oakland County Health Department, 2401 E. Fourth St., Royal Oak, TUESDAYS & THURSDAYS: 1:30 to 3:30 P. M.

Be a better breakfast booster during September Better Breakfast month and eat a basic breakfast every day. A basic breakfast should provide 1/4 to 1/2 of the day's food requirements. It includes fruit, cereal, egg and milk.

Coffee makers, skillets, roasters or any other electrical equipment used out-of-doors should have no worn wires or loose connections. M. S. U. home economists warn.

Consider the dry cleaning costs of that new fashionable car coat that may lure you with its low purchase price, suggest M. S. U. clothing specialists. Some coats made of leather are lined with a paisley print, metallic-stripe taffeta, wool or alpaca. Such combinations create a cleaning problem. Coats made of water-repellent materials have to be re-treated after dry cleaning to restore the finish.

A nodding acquaintance is one with whom you have nodding in common.

Nobody ever gets anything for nothing, but a lot of people keep trying.
