**Holiday Snack Server**

Most Christmas fixin's are planned weeks ahead so guests will always be welcome and snacks and holiday cookies are always on hand. However, all the delicious foods shouldn't be reserved for guests. You'll find it's as much fun to have some surprise snacks when your family is home watching TV in the evening.

And while everyone is decorating the Christmas tree or wrapping gifts they'll love steaming chocolate to drink with tasty Christmas snacks to nibble on. Simple, easy to make snack foods become something special when they're radiating from a snowball centerpiece you can make yourself.

You'll find the white plastic foam balls hold party picks firmly in place and Christmas greens and decorative tree balls add a festive touch to the tablepiece. Use it for a party buffet or on the coffee table for before-dinner hors d'oeuvres. Fresh garden flowers replacing the evergreen make it a year around decoration.

At your own family party serve gay miniature kabobs on multi-colored toothpicks. Skewer one stuffed olive, a minced ham cube, and a cheese circle all topped with a tangy pickled onion. Be sure to have plenty of cream cheese balls rolled in bits of dried beef and crown other picks with party sausage and all-time favorites, potato curls and ripe olives.

You'll find the lightweight plastic foam used for the snack holder in sheet form and balls at your local variety store. For the circular base invert a dinner plate on a one-inch thick sheet and cut around it with a sharp paring knife. Then with adhesive glue or toothpicks attach the large half ball (also cut in half with a knife) to the base. For extra sparkle brush glue on the balls and sprinkle with glitter.

**HUNTING RED DANGEROUS COLOR**

Traditional hunting red is one of the most dangerous colors in apparel for hunters to wear because it is not quickly distinguished by either color-blind hunters or those with normal vision, according to a warning issued today by the Michigan Optometric Association.

"Optometrists, in cooperation with the National Rifle Association, recently conducted extensive tests of a wide variety of colors and patterns worn by hunters in California, under natural conditions", Dr. Wayne H. Chapman, President of the Association, stated.

These tests revealed that yellow is by far the safest color. Orange is second best. Green and various plaids can also be detected and identified more quickly than reds and blues.

"Fluorescent clothing was found good under some conditions", Dr. Chapman said, "but clothing of this type was not especially easy for the color-blind

and hunters with normal vision to make out when the wearer was in shadow. The same was found true under the difficult light conditions of dawn and dusk."

Even for hunters with normal color vision, it is sometimes hard to spot a red garment against the reddish-brown landscape coloring of the fall season, he claims.

"The Michigan Optometric Association urges hunters to

check their vision as well as their clothing and equipment before entering the field", Dr. Chapman added.

**TWO GIRLS, A CHEVY AND A RECORD!**

*A meaningful achievement in automobile performance*

Most automobile performance records you read about these days are set on a track or closed course. The results are usually pretty difficult to relate to the kind of day-in, day-out driving most of us do. Running at safe and legal speeds, a '57 Chevrolet recently chalked up a new coast-to-coast record on the road. And the way it set this record is even more important than the record itself!

A new '57 Chevrolet recently proved it has the qualities most people look for in a car—and proved it on the roads you travel, under the same conditions you drive in every day. It broke the record for the coast-to-coast run from New York to Los Angeles (certified by NASCAR). It was a strictly stock, V8-powered Chevy. It was driven by two young ladies.

This last fact, we think, is even more important than the impressive new record set by Chevrolet. Oh sure, it's nice to know that a Chevrolet can cross the country in one uninterrupted span—and do it in less than 57 hours. It's a tribute to Chevrolet's great-hearted V8 engine and solid road-worthiness that it could travel day and night for 2,913 miles at safe and legal speeds—and better the existing record for the trip by more than three hours. But it's only when you consider that all the driving was done by 98-pound Betty Skelton and her friend Caroline Russ that the true significance of this record run becomes apparent.

When a pair of young ladies step into a car and drive it round the clock to a new transcontinental record, you know that car is easy to drive. You begin to see what we mean by smooth-cruising comfort . . . by nailed-to-the-road stability by sweet-feeling sureness of control . . . by quicksilver responsiveness.

We'd like you to get to know this new Chevy. Stop in and see how beautifully it does all the things a car should do.

"LET'S GET THE FAMILY TOGETHER

if the weather's good." That "if" used to be a mighty big one. But now you can get the family together no matter what the weather or how far apart all of you live. A Conference Call will do it. *Ninety-Percent*

The poised, smartly-dressed man at the left of course. You can tell at a glance... and that's why the Ninety-Percent Test is so important. People judge you by what they see (sometimes that's all they have to go on) and ninety percent of what they see is what you wear. The fresh finish of drycleaned clothes is more than an extra touch... like a flower in the buttonhole. It's an integral part of good grooming. The state of your clothes tells volumes about the kind of person you are. In fact, your clothes never stop talking about you.

You buy your clothes to make a good impression. As you wear them, have them drycleaned often. A smart man takes care to keep that impression fresh.

From where I sit... by Joe Marsh

**The Kid's Learned to "Take Charge"**

I was down at Buck Benson's store the other day when a fellow came in with a six-year-old boy—obviously his son.

While the fellow was looking over some stuff on the counter, Buck handed a free peppermint stick to the boy, who promptly tore off the wrapper and went to work on it.

The father seemed quite put out about his son's lack of manners and held up his hand to stop him. "What do we say when Mr. Benson gives us something?" he demanded. "Charge it," replied the kid without hesitation.

From where I sit, children aren't the only ones who "repeat things" without knowing what they're talking about. For instance, I'm convinced that many of those who speak out against the old American custom of enjoying a glass of beer after work are just parroting what they've heard others say. It's better to get the facts—then make up our own minds—and permit our neighbors to do the same.

**Why not GO BIG TIME?**

Tired of going steady with the low-priced three? Well, right here is the car that will let you break the wheel and start you keeping company with the finest! See how a long 122-inch wheelbase... advanced new suspension ideas... the solid stance of a heavyweight... are teamed together to give you another Pontiac "first"—the Level-Line Ride. And feel the deep-chested power of the Chieftain's 347-cubic-inch, 10-to-1-compression-ratio Strato-Streak V-8, successor to the record holder that broke over 50 stock car marks and led all eights in miles per gallon. Then consider that all this comes to you proved as no other car in history... by 100,000 miles of grueling road tests! And yet, the Chieftain actually costs less than many models of the low-priced cars. Why not go big time? There's absolutely nothing in the way!

Entries from four Oakland county farms have been received in Chicago for the forthcoming International Live Stock Exposition being held November 23 through December 1.

Stoney Acres Farm, owned by L. E. Allen, of South Lyon, will exhibit Herefords. Echo Valley Farms, owned by Harry F. Sucher, and John A. Brown, both of Birmingham, also Gra at Oaks Stock Farm, of Rochester, will be represented in the Aberdeen-Angus cattle show at Chicago.

Howard Storm, of Lake Orion, will represent Michigan in the National 4-H Sheep Shearing contests.

The Exposition will extend over 10 1/2 acres in the newly enlarged International Amphitheatre, the nation's largest exhibition hall and will also occupy a large area of the nearby Chicago Stock Yards. Nearly half a million visitors are expected to attend.

Added color and glamour for

the 14 International Horse Shows are assured in the appearance, for the first time over in Chicago, of the famous Canadian Northwest Mounted Police Musical Ride. It consists of the world's greatest precision riding group, 32 scarlet-clad officers on matching black mounts in a half-hour performance of spectacular horsemanship.
