A MAN DIED -

He had worked late—he was tired—thoughtlessly he walked to the right along the darkened highway. Beyond the turn of the road were the lights of home.

Speeding through the early darkness, a driver urged his car along, hugging the edge of the road. A dim shape, a sudden sickening jolt — and the terrorized driver, his car careening, sped on around the curve, past the lighted cottage beside the road. And in the still of the night, a man died.

These are the ingredients of accidents and death at night. Often the victim contributes to his own death by not walking to the left, facing traffic. But far too many pay with their lives for the reckless driving of the hit-and-run car coward. To him self-preservation is more urgent than the saving of a life.

To his kind let this be a warning. Of all highway and traffic violators, the hit-and-run driver fares worst. Sooner or later, his crime leads to prison and disgrace.

The highways shall be cleared of these auto highwaymen.
