izations and the Clarkston Community Schools.

It is planned to hold one more meeting of the league just prior to the General Election, April 1, at which time the candidates of the Republican and Democratic

parties can state their views. It was announced that the League would continue its operations and would hold a meeting to which the candidates for the School Board would be invited to attend.

The view was expressed by the president that the primary was a very important election as then was the time to choose the best out of the field of candidates. Everyone was urged to vote as they pleased-but to be sure and vote.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper each week.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

All matters handled through the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

TRIPLE-ACTION RESERVE POWER! Nudge the accelerator beyond the 34 mark and you "call out the reserves"! The J-2 Rocket then operates on three dual carburctors! J-2 is available now at a modest extra cost. Try it!

HASKINS

Engineers have dreamed for years of an engine that combined exceptional horsepower and torque potential with outstanding fuel economy in normal operation. The first big step towards this goal came from Oldsmobile when the first Rocket Engine ushered in the modern highcompression era.

And today, Olds is ready with the new J-2 Rocket.\* You'll find that in operation, it's like two engines under the hood! -

In your day-to-day driving, you enjoy the

CHEVROLET,

It's the most exciting engine development since the first Rocket was launched! smooth, alert action of the Rocket with the fuel economy of dual-jet carburction and a 10-to-1 compression ratio. But beyond all this there's a "second stage" in J-2 operation to meet the , exceptional driving situation. Just open the accelerator beyond the 34 point and two additional carburctors automatically jet into action. There's an instant boost in torque and power. You'll appreciate the immediate response as another Olds contribution to your safety.
