Candidates Make Statements

The following is a statement by Ronald Weber who is seeking re-election to the Board of Education:

"Having two children of my own in school, I am naturally very interested in our school system. It is my belief that schools have operated on sound business principles by maintaining good controls on operating costs. We have extended our means to hire teachers of the highest quality available to insure a good educational program. Our growing school district presents a challenge to provide classrooms, and to operate our school with monies available.

I have had the pleasure of serving on the Board of Education for eight years; one year as a trustee, and seven years as treasurer. If re-elected, I will continue to work for further improvement of our present school system and to provide the best educational facilities possible for the children of our school district."

R. E. Spohn is seeking re-election to the Board of Education and he says:

"The Board of Education over the past few years has organized and developed a new community school concept. Further, they have carried on a continuous research to provide an improved educational program and building facilities that would provide the best education possible for the children in the district. Thorough studies were made to provide equal opportunities to all of the children in the district regardless of which school they attended. It is my belief that the present Board of Education has made a very satisfactory record during these three years. If I am re-elected to the Board of Education I will continue to work to provide an adequate, economical and well-balanced school program throughout the entire school district."

A very pretty wedding took place last Saturday afternoon at two o'clock in Christ Church, Cranbrook, when Bonnie Lou McNaughton and Roger Charles Sullivan spoke their nuptial vows in a double ring ceremony to the Reverend Robert DeWitt.

The bride is the daughter of Dr. and Mrs. Archie Lee McNaughton of Tooting Lane Ranch, Clarkston, and parents of the bridegroom are Mr. and Mrs. Roland Ballantyne of Country Club Drive, Bloomfield Hills, Michigan.

Bonnie Lou, escorted to the

altar by her father, was charming in a floor-length gown featuring a white Chantilly lace bodice over white silk and a lace applied net overskirt with full hoop. With this she wore white net mitts with appliques of lace and her finger-tip veil of illusion fell from a Juliet cap of lace trimmed with pearls. Her only jewelry was a pearl necklace, a gift of the bridegroom. She carried a white leather prayer book with cascading flowers.

Miss Carol Cook of Detroit, as honor maid, wore yellow dotted, white sheer nylon over yellow taffeta fashioned in front with a wide banded neckline of yellow taffeta, extending to a bow in the back with floating streamers. She wore matching mitts of sheer nylon and a pale yellow, sheer picture hat. Her crescent shaped bouquet was of white daisies, bachelor buttons and cascading ivy.

The bridesmaids were Miss Nancy Kay Bearss and Miss Lea Mae Marsh, both of Birmingham and Miss Gayle Lopez of Coldwater. Their gowns and headpieces were identical to the honor maid's and they carried crescent shaped bouquets of yellow daisies, bachelor buttons and cascading ivy.

Little Miss Patricia Osbo of Clarkston was the junior bridesmaid. She was gowned in white dotted nylon over yellow taffeta and her headpiece was a ruffled, yellow net hat. Her miniature bouquet was crescent shaped and was made of white daisies, bachelor buttons and cascading ivy.

Assisting the bridegroom as best man was John Marquis Ballantyne of Bloomfield Hills and sealing the guests were Thomas Lee McNaughton of Clarkston, Ronald William Ballantyne of Bloomfield Hills and Jerry Lee Surface of Highland Park.

For her daughter's wedding Mrs. McNaughton chose an azure blue Peau de soie sheath with matching hat and shoes and her corsage was of pink camillias. Mrs. Ballantyne wore a blossom pink sheath with dyed-to-match lace, matching hat and shoes. Her flowers were light green orchids.

Following the ceremony a garden reception was held at the farm of the bride's parents.

For their trip to the Adirondacks the bride changed to a two-piece suit with blouse jacket of imported white-on-white design in cotton. To complement her outfit she wore navy accessories and a corsage of rubrum lilies. The young couple will return to Michigan in two weeks.

John Watson Seeks Election

Mr. John W. Watson of 6657 Snow Apple Drive, Clarkston, is a candidate for the position of member of the School Board of the Clarkston Consolidated School District. Mr. Watson has been a resident of Clarkston Gardens for one and a half years and a resident of Springfield Township, in the Clarkston School District, for eleven years.

While residing in Springfield Township, Mr. Watson served as a member of the Springfield Township Zoning Board and helped write the zoning laws for that township.

The office of Director of the Springfield School District No. 6 was held by Mr. Watson for two and a half years prior and up to the time of their consolidation with the Clarkston System. While serving in this capacity, he took a course in school budgeting. Because of the smallness of the Springfield School District, he was required to perform many of the functions that are normally undertaken by various other school board officials.

Mr. Watson was employed by the Briggs Mfg. Co. in Detroit as a cost analyst and is presently employed by the Pontiac Motor Division.

Mr. Watson's early education was received in Scotland and Canada. He was graduated from the Highland Park High School and later took a course in Business Administration at the Detroit Institute of Technology. He recently completed courses in Supervision and the Development of Personnel, and Labor-Management Relations. He also studied Accounting at the International Accountants' Association.

Mr. Watson's wife, Mary, was a teacher in the Clarkston Elementary system for five years, teaching in Springfield and at the Andersonville School. She is presently teaching at the Waterford Village School. The Watsons' daughter, Peggy, attends the Clarkston Elementary School.

Mr. Watson is a property owner and pays taxes on property located in Springfield Township and Independence Township, both within the Clarkston Consolidated School District.

Because a major portion of the taxes goes towards schools, Mr. Watson asks everyone possible to vote in the forthcoming School

Neubacher of 4098 Rich Road, Maceday Lake, and Robert Coleman Jones, son of Mr. and Mrs. Robert L. Jones of 57 Robertson Court, Clarkston, spoke their nuptial vows.

GIVE REPAIRABLE CLOTHES TO GOODWILL INDUSTRIES

Every summer the majority of adults discover they have put on a little more weight here and there during the winter months. Parents discover their children have far outgrown last year's summer clothes. Children grow up.

All this tends to make us a little sad, yet a little glad. One of the problems it brings is the necessity that new clothes have to be purchased in spite of the fact that last year's attire is in good condition or could be in good condition with a little fixing.

Goodwill Industries has a solution that will lift our spirits, help handicapped people and help others who need larger sizes in clothing, but find it difficult to pay the top dollar.

Outgrown clothing or repairable clothing is renovated by handicapped people at Goodwill and then placed on sale at moderate prices in seven retail stores. The clothes are completely repaired, cleaned and pressed and placed in nearly new condition.

Goodwill points out that the contributor helps in three ways without costing the person time or money. First, he receives a moral uplift in the knowledge that he has helped his neighbor,

YOU CAN HELP PREVENT FOREST FIRES

Modern fire-fighting methods hold down losses in Michigan forests, but public cooperation is the most important factor in fire prevention.

Mechanized equipment and an up-to-date communications network permit Conservation Department fire fighters to detect and suppress fire rapidly, saving valuable timber and wildlife. This quick-action force, valuable as it is, can only control fires—it is up to the public to prevent fires.

One big item in Michigan's fire control program is the communications system which employs more than 600 mobile, portable, trailer-mounted and fixed radio stations. These stations relay needed information on the location, size and type of fire so that the necessary men and machines can be dispatched to the scene.

Campers, hunters, fishermen, hikers, landowners and others can do their part by following fire safety rules in wooded areas. Careless use of fire can result in loss of property and life.

MILKY WAY VISIBLE IN JULY SKY

The Milky Way, stretching from north to south, and the planets, dotted across the southern sky, set up the astronomical picture for July, reports a Uni-

versity of Michigan astronomer Hazel M. Losh, U-M associate professor of astronomy, suggests that during the warm, balmy summer evening, the full splendor of the heavens is more likely to be viewed and appreciated. "A wide glowing arch of remarkable variety and beauty, the Milky Way, spans the whole heavens and may be easily traced", Professor Losh says.

"To the unaided eye, it shines as a soft misty light", she comments, "but slight optical assistance, even binoculars or a small telescope, shows it to be made up of myriads of faint stars and nebulæ."

Relating the legends concerning the Milky Way, the astronomer says "All through the ages this road hazy and, encircling the sky, has been observed by man. It bears many fanciful titles. But the idea of it being a path way has been a very prevalent one, for it is easy to imagine it a starry path, a glistening river or a heavenly snake, or according to an old Indian legend, dust picked up by a buffalo and horse racing across the sky."

Actually, it is believed today that the Milky Way is a great concourse of stars, star clusters, bright nebulæ, star clouds, and dark dust clouds, Professor Losh comments. "Its light is due almost entirely to stars, which are too faint to be distinguished as individuals without some kind of optical aid," she continues, "so that if all naked eye stars were blotted out the Milky Way would still have practically unchanged upon it a dark, black sphere."

Noting another interesting feature of the July sky, Prof. Losh says that the constellation of Leo, the lion, is prominent in the southwest sky. Saturn, to be found well above the northern horizon of dark, Venus, truly an "Evening Star", least and breaking through the

from one to two hours after the western twilight, being visible Sun has gone down; Mars, much fainter, to be located at the beginning of the month near and to the left or east of Venus, and Mercury, by the end of the month joining Mars and Venus, and passing only seven minutes or so above Mars on July 23. "The three planets, so close together, will set about an hour after the Sun", the professor notes.

Beauty in motion—Chevrolet Bel Air Sport Sedan with Body by Fisher.

Here's why Chevy's best showroom is the road!

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable *roadability*, the crisp precision handling that has posted an entirely new standard for cars in every price class. You can't read about that . . . but you can *feel* it, instantly!

Good drivers know roadability is the single thing that means more driving satisfaction for more thousands of miles, than anything else. More *safety*, too, for it grants greater stability on curves, greater traction on wet roads, better "bite" under hard braking. There are reasons for all this, of course: Chevrolet's balanced weight distribution, outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the

showroom. But Chevy's a car specifically designed for beautiful motion—you have to *travel* in this one to know just how terrific it is. Why don't you try it, this week?

U-M LIBRARY'S FIRST GIFT FROM FUR TRADER

The University of Michigan Library accepted its first gift in 1840 from a Wisconsin fur trader. The Proceedings of the Board

of Regents of October 7, 1840, record their acceptance of the "Brockhaus' Konversations-lexikon", a German encyclopedia first published in 1796-1808. The donor, Dr. Charles W.

Borup, was superintendent of the American Fur Company trading post at LaPointe, Lake Superior, near the northern tip of Wisconsin. The 13 volumes, still in their original bindings, are presently housed in the Rare

Book Room. Although it may seem strange that the Library's first gift came from a trading post, Charles Borup was no ordinary fur trader. A native of Denmark, he was

well educated and at some time had studied medicine. After emigrating to this country in 1828, he was employed by the American Fur Company and worked with its "Northern Outfit", or division, which had been established to trade with the Chippewa Indians. Dr. Borup combined fur trading with medicine, and for many years was "the only trained physician west of Sault Ste. Marie and north of Fort Snelling."

Clarkston Local

The Youth Variety Activities, in announcing its summer program, has also made plans for a record dance to be held every Friday evening during the summer vacation. The club, which now boasts a membership of over 50 upper teens, is also planning a beach party for the latter part of this week. On July 13, a mystery bus trip is planned for interested members. Another mystery trip is planned for later in the summer. A trip to Bob-Lo is also being considered. New members are welcomed to the club and membership cards may be purchased from any member or the sponsor, Terry Thomas. Other plans for this summer's entertainment are a street dance, a square dance at which box lunches will be auctioned, picnics and swimming. Any adult wishing to help the young people or chaperone at a dance should contact Mr. Thomas.

Mr. and Mrs. Norman Auer, Mr. and Mrs. Terry Thomas and Mr. and Mrs. Jacob Drake attended the Archery Dance in Royal Oak on June 22nd. Mrs. Drake was the recipient of two trophies: one for woman's high score and one for high average score.
