## Building Fund Goal Is Over-Subscribed

First Methodist Church of Clarkston celebrated Tuesday night as a result of over-subscribing their Building Fund Crusade goal by 3 1/2%. The amount sought was a minimum of \$115,000 in cash and 104-week subscriptions. Actual results released to The Clarkston News were: 368 Adult subscriptions totalling \$113,711.90 of which \$30,211.50 was cash; 117 Youth subscriptions totalling \$5,363.10 of which \$336.00 was cash; 485 Total subscriptions \$119,075.00 of which \$30,547.50 was cash.

Crusade Treasurer, Robert Jones, was happy about the large percentage (approx. 25%) which was realized in cash. He pointed out that this was more than anticipated. A 15% cash response is considered good.

Rev. Grant Dunlap, Crusade Director sent by the Methodist Board of Missions in Philadelphia, said that every goal was exceeded. The youth goal was \$5,000 and even it was exceeded. The Rev. Mr. Dunlap now moves to Belleville, Michigan, where he will conduct a \$125,000 Crusade in a church where he helped raise \$101,000 just 2 years ago. Rev. William Richards, Pastor, led in the Service of Praise and Thanksgiving and expressed gratitude for every generous gift and subscription. He is meeting with the Building Committee, of which Edgar Collick is chairman, at an early date.

The Building Fund Crusade was spear-headed by Philip Smith and David Stewart, co-chairmen as selected by the Quarterly Conference of the church last May. They were assisted by Eliza Johnson, secretary; Robert Jones, treasurer; Percy Lowery and John King, visitation chairman; Mary Lee Eliason and Takao Kojima, promotion chairman, and Florence Kreger, food and fellowship chairman, all members of the executive committee of the crusade.

This group was helped by over 150 people of the church who worked as callers, volunteer office secretaries, kitchen and dining room help, painters, and carpenters. The church also expresses its gratitude to the public officials of the community who supported the Crusade with statements to the residents through the newspapers and mail. To the more than four hundred families who so graciously contributed to the success the church has expressed its abiding appreciation.

## Rotary Club News

Is there any one of us who has never day dreamed about becoming a part of the romance and excitement of the world of medicine? We are sure that both children and adults will recall these day dreams with pleasure when they read a new book on your library's shelves entitled **MEN OF MEDICINE** by Katherine B. Shippen. It takes us back to over 5,000 years ago in Sumeria and brings us up through the modern discoveries like the Salk vaccine. And all this is done in a way that makes each doctor or scientist come very much alive. Particularly interesting are the tales of the days when doctors were really not doctors as we now know them. Leprosy, for instance, had a suggested cure of an ointment made of unicorn's liver mixed with white of egg, and the sufferer was even told how to capture a unicorn, using a young woman as bait!

Be sure to read this book. It will provide much conversation and thought.

We are definitely convinced that reading is getting to be more fun every day, and anyone who doesn't agree need only read **THE DOG WHO WOULDN'T BE** by Farley Mowat to become a convert to this idea. It is the light amusing story of the author as a boy and of the dog who "owned him"—a dog of extraordinary wit and imagination who firmly believed in his own superiority to other dogs. He climbs ladders and trees, insists upon wearing goggles and riding in the family car, learns how to hunt in his own unusual way, and continually proves that he was born for better things.

The author is a well-known naturalist as well as an un-

usually hilarious and amusing (continued on page 6)

## Vows Spoken Last Friday

The Clarkston First Baptist Church was the scene of a very pretty wedding last Friday evening when Laura Rose Ruggles and Daniel Douglas Bailey spoke their nuptial vows to the Reverend Walter Gibson at a candle-light ceremony before one hundred and ten guests. The altar was banked with white gladioli and purple chrysanthemums.

The bride is the daughter of Mr. and Mrs. Raymond Ruggles of 8142 Reese Road, Clarkston, and parents of the bridegroom are Mr. and Mrs. Daniel Bailey of 928 Melrose, Pontiac.

Mrs. Howard Lord presided at the organ for the traditional music and following the regular ceremony, while the young couple knelt at the altar for a consecration service, she played "Savior Like A Shepherd Lead Us".

The bride, who was escorted to the altar by her father, was in a picture in a floor-length gown of white Italian silk shantung and lace which featured a Sabrina neckline trimmed with sequins and pearls. Her fingertip veil of illusion fell from a crown-ette of white stephanotis. She carried a white lily on which was a lavender orchid with white streamers and white roses.

Nancy Turnbull of Pontiac was the honor maid and Lorraine Rioux of Davisburg was the bridesmaid. They wore white chiffon ballerina-length gowns with red cummerbunds. On their heads they wore crownettes of white roses and red carnations and the same kind of flowers were used in their colonial bouquets.

Assisting Mr. Bailey as best man was Fred Wilson of Pontiac and seating the guests were Arnold Larson and Robert Bowers of Pontiac and the bride's brother, Larry Ruggles of Clarkston.

Following the ceremony a reception was held in the church parlors. The bride's table was graced with a lovely bride's cake, silver candelabra and lavender gladioli. Mrs. I. O. Brown, aunt of the bride served the cake and the following friends of the bride served the punch and coffee: Mrs. Edward Dubats, Miss Shirley DeConinck, Miss Nancy Turnbull, Miss Phyllis Snover and Mrs. Norman Dell.

The bride's sister, Donna Ruggles, was in charge of the guest book.

For her daughter's wedding Mrs. Ruggles chose a two-piece, blue wool, street-length dress and a corsage of pink and white carnations. Mrs. Bailey was in pink and black taffeta and her corsage was also of pink and white carnations.

When the newlyweds left for their honeymoon in Northern Michigan the new Mrs. Bailey was wearing a deep beige, wool jersey dress with chocolate brown accessories and the orchid from her bridal bouquet. Upon their return they will reside at 608 Washenaw, Ypsilanti. Both attend Eastern Michigan College. Mrs. Bailey is a member of Sigma Sigma Sorority and Mr. Bailey is affiliated with Alpha Omega Delta fraternity.

Guests at the wedding were from Pontiac, Rochester, Detroit, Clarkston and Mt. Carmel, Ill.

GET A WINNING DEAL ON A NEW CHEVY—THE GETTING'S EXTRA GOOD! More People Drive Chevrolets Than Any Other Car

There seem to be two kinds of roads around the country lately. There are dull, ordinary everyday roads. Then, there are the same roads when you take them in Chevrolet—fun roads! Stepping along nimbly, surely—staying on course—traits like these come just a little more naturally to Chevrolet. Few cars at any price are so beautifully balanced. None in Chevrolet's field have Ball-Race steering, extra-long outrigger rear springs—or Body by Fisher—to name just a few of Chevy's exclusives. As for spirit, well—take a Chevrolet out and feel that eager 245\* horsepower! Just drop in at your Chevrolet dealer's—soon!

**C. H. S. '57 FOOTBALL SEASON BEGINS**

by Ed. Eaglen  
The date of September 2 brought 95 boys out for football at Clarkston High School. Up to now, Sept. 13, there are 28 boys for Varsity, and the rest for Junior Varsity and the 9th Grade Teams.

The Varsity has been pretty rough on injuries this year so far, of the 28 boys there have been at one time 11 boys out with injuries. But Mr. Hintz says he is expecting "about a

four win, four loss season. With luck we may win more—or we may win less."

The Clarkston Varsity is having their first scrimmage of the year Friday, Sept. 13, with St. Mike's from Pontiac. Mr. Hintz thinks we should at least hold our own. The starting line-up in the scrimmage was as follows:

Pos.	Name	Wt.	No.
LE	L. Parks	140	20
LT	L. Saiz	150	43
LG	J. Carmean	155	42

**YOUR ROVING REPORTER**

Hi everyone! Now that all thoughts of previous summer days and activities have vanished completely (or I should say, almost completely) from most of our minds, and school has reopened, we here at C. H. S. have been having much controversy with the area adults over an epidemic that seems to come up quite frequently during the school year. The sometimes incurable disease of Litter-Bug-Itis!

So as our first in a series of "What's Your Opinion" Questions I thought you might be interested in hearing just what some of the C. H. S. students have to say about the way the down-town area is being littered with trash and just how we could encourage the students to stop it.

Caught while doing an English assignment in Study Hall, long enough to say, "Although I agree that it's easier to throw papers and wrappers on the ground than go out of your way to put them where they belong, we should try to keep in mind that the easiest way isn't always right. It might work to recruit a bunch of chronic litter-bugs for a clean-up detail for after school."

Now let's see what one of our new students has to say. Freshman Bob Shortmacy, who just moved into the Clarkston area, said this: "It's a shame the way that the down-town area is being littered with trash, but Clarkston students are not the only persons doing it. Clarkston is a good school and I don't think the students should be blamed for it all. The few students who do litter the area should be reported to the principal and their parents fined. This would make the students more aware of what they are doing. I think that would help."

Interviewed on the bus on the way to school Sharon Peege, sophomore, said: "It certainly gives the community an unhealthy, run-down look. There are also some adults who are always looking for something to belittle the teenagers with. This is just the thing they need to start talking about how modern youth should be today. It would be a good idea to set up some sort of fining system, being that there are only a few students who do the actual littering."

And an anonymous junior had this to say: "I know that in some places it's quite littered up but the only way I think it could be stopped would be if anybody sees a person throwing trash around he should go up and tell him to pick it up. If nothing comes of this then he should be reported to the principal."

I hope you readers enjoyed hearing these opinions stressed

and I'll see you next week with another "What's Your Opinion" question.

**COMMON DENOMINATOR AT GOODWILL INDUSTRIES**

There is a common denominator at Goodwill Industries which makes life easier than it is in other industries.

This doesn't mean that the work is necessarily easier, in fact for many of the 450 physically handicapped workers it is more difficult. It does mean, however, that because everyone does have an impairment, each worker helps the others in his department, both in the actual labor involved and in boosting morale, which is so important to any working man.

This is probably why Goodwill Industries is self-supporting as far as operations go, in spite of the fact that the working personnel all have what industry would describe as a handicap.

At Goodwill these handicaps are assets, and each worker learns to do the most with what he has.

Independent in many ways, these workers do depend on the giving of discards to insure their jobs.

Every year at fall housecleaning time a special plea is made to the public to remember that many things that are outgrown or in need of repair can be used by these handicapped workers.

Items in particular demand at

this time are men's and children's clothing and small appliances.

Many housewives originally called Goodwill Industries to contribute discards in order to "help the handicapped help themselves".

These same housewives have now found an added incentive. Goodwill's service makes housecleaning easier. One telephone call and a Goodwill truck takes all the clothes that clutter the closets, the radio that was long ago replaced and the summer toys and garden equipment that are the worse for wear.

**INFLUENZA SHOTS OFFERED AT MSU**

Influenza vaccine is being offered to Michigan State University students and faculty this month, with special Asian flu shots to be offered as soon as available.

Faculty members were being offered the "regular" vaccine this week, with students to share in the free service during registration week, beginning Sept. 23.

The influenza vaccine will be administered to students as they pass through the registration process in the University Auditorium, according to Dr. Clifford G. Menzies, director of the MSU health service.

The health service will offer

free Asian flu shots to students and faculty as soon as vaccine is made available by the supplier.

Possibility of an Asian flu epidemic in the United States this winter has been predicted by the U. S. Public Health Service. Asian flu reached epidemic proportions in Hong Kong and Singapore in April of this year. Since then the virus causing the disease has spread to the United States and other countries.

**OBTAIN PERMITS FOR SPECIAL DEER HUNTING AFTER SEPT. 23**

Regulations, permit applications and instructions for obtaining permits for Michigan's 1957 special deer hunting seasons can be obtained from all license dealers in the state after September 23.

These materials also will be available at Conservation Department district offices.

The information and applications are being mailed from the Department's Lansing office and some dealers may have supplies on hand before Sept. 23, but distribution will not be completed until that date.

In order to be eligible for a permit, a hunter must submit an application postmarked no later than October 10. If the number of applications exceeds the permit quota for any area, a drawing will be held about October 20 to determine distribution of permits.

Special seasons have been set to take deer of any age, either sex, in 31 designated food shortage or crop damage areas. Goal for the special seasons is a harvest of 17,790 deer in addition to the regular buck kill.

A total of 59,030 permits will be issued for the "any deer" seasons and each permit will be valid for only one area. To use his permit, a hunter also must possess a 1957 firearm deer hunting license.

In 17 areas, the special seasons will be concurrent with the regular November 15-30 season, while a December 1-2 season is scheduled for permit holders in 13 other areas. Part of Allegan county is slated for a December 1-8 season.

Destroyer of spiders, caterpillars, grubs, and some species of the housefly, this ichneumon fly is being studied by Dr. Henry Townes, research associate in the Museum of Zoology at the University of Michigan. "Country cousin" of the wasp, it is prevalent in this and other states but is almost unknown to man since it seldom bothers him.

 hibited humorist so the book is high above the average boyhood recollection type of thing. Outdoor life on the great plains of Canada and sailing on the Saskatchewan River is the core of the book, but every reader will come to love both the dog's family and the dog himself, a dog who is a truly "unforgettable character".

After the interesting non-fiction mentioned here perhaps a novel will give you a change of pace. May we suggest MONSIEUR YANKEE by Leslie Turn-

er White? It carries us back to France in 1793 and acquaints us with two Americans who have become involved in the French Revolution. Mystery and excitement are the essence of this book, and you will be swept along to the end before you realize it, for it's very much one of those things that is "hard to put down". We're willing to wager that you'll hear your clock strike the wee hours if you start MONSIEUR YANKEE of an evening.

Remember that your library is open on Friday nights now so when you're in town stop in for a visit. And any of you students
