The unchanging, harmonious nature of all that is created by God, divine Mind, will be brought out at Christian Science services Sunday.

"Reality" will be the subject of the Lesson-Sermon. Scriptural selections will in-

clude the following (Psalms 111: 2, 7, 8): "The works of the Lord are great, sought out of all them that have pleasure therein. The works of his hands are verity and judgment; all his commandments are sure. They stand fast for ever and ever, and are done in truth and uprightness."

Correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (335:25-29): "Mind is the divine Principle, Love and can produce nothing unlike the eternal Father-Mother, God. Reality is spiritual, harmonious, immutable, immortal, divine, eternal. Nothing unspiritual can be real, harmonious, or eternal."

When fuel and operating costs for cars are officially checked from Los Angeles to New York, that's an economy comparison! And what happened?

In certified NATA\* findings, Chevy delivered up to 17% greater fuel economy, and lower total cost for the trip—proof that Chevrolet costs *least* to operate of the three leading low-priced cars that were tested! Faculty sponsors for the senior-sponsored project are Miss Marcia Klausner and Mrs. Arlene Peterson.

**CLARKSTON BEATS OXFORD 15-0**

by Ed. Eaglen  
Last Friday night Clarkston met Oxford on the gridiron. Oxford came out second best on a 15-0 score.

The game was scoreless at the end of the first quarter. At the opening of the second quarter Jim Jenson scampered 44 yards to put the Wolves in scoring position but they fell shy by a yard.

Oxford found Clarkston right back again after LeRoy Parks snagged a punt and put the Wolves into scoring position again. But they couldn't put it over, and Oxford took over on about their own 8 yard line. After 3 unsuccessful tries to get it out of their territory they attempted to punt, but due to a bad snap back from center the ball was downed in their own end zone which put Clarkston ahead 2-0. And that's the way this first-half ended.

To open the second half the Wolves put on a 45 yard drive which ended with Jim Snover plunging over right tackle with the 6 points and later carrying the extra point over to make it 9-0.

LeRoy Parks picked Mike Lewis's aerial in the finishing moments of the game and went 35 yards for a touchdown due to a key-block thrown by Johnny Parks. Ed Eaglen's kick for the extra point was wide.

**SENIOR HIGHLIGHTS**

by Chuck Ferrand  
The 1957 magazine sales campaign is now well underway. Representatives from the Curtiss Co. Dick Baker and Cy Hanna, began the campaign last week. The students are selling the magazines in order to increase the annual class trip fund. In order to increase interest in selling, the Curtiss Co. will give two high-fidelity phonographs to the students with the highest number of sales.

Mr. Baker has also offered three cash awards. It is hoped that this year's sales will be even higher than last year.

The Senior class will sponsor a dance on Friday night after our first home game of the football season. The dance will be the first dance sponsored by the seniors this year and a victory on the ball field would be a tremendous aid in making it a success.

The Senior Play will be the next fund-raising project to be undertaken by the upperclassmen, under the supervision of Miss Wildon, a new teacher at Clarkston High. As of yet, it has not been determined what play will be used.

**WORLD'S BIGGEST BAND ASSEMBLES AT U-M OCT. 5**

The largest massed band ever assembled anywhere in the world will take the field at half-time during The University of Michigan-University of Georgia football game here Saturday, Oct. 5.

According to U-M Band Director William D. Revelli, 190 high school bands from throughout Michigan with combined membership of 12,000 players are expected to participate.

The event, ninth of the University's annual Band Days, will be sponsored by the U-M Bands and Athletic Association. This year some 800 twirlers from the participating bands will give a pre-game exhibition.

Detailed instructions on music, marching and rehearsals were forwarded local band directors almost a year ago. With careful advance preparation in their home communities, the bands will rehearse together only an hour Saturday morning prior to their performance. All 12,000 players will assemble on the gridiron in less than a minute after the football teams leave at half-time.

Directed by Revelli and George Cavendar, the massed band will play such works as "March, A

Santa Cecilia", "With A Little Bit of Luck", "Stardust", "March, Americans We", "El Gaucho", "Shoutin' Liza Trombone", and "The Thunderer March".

Instrumentation will include approximately 2,100 clarinets, 2,200 cornets and trumpets, 800 horns, 900 drums, 700 Sousaphones, and 1,200 trombones. Over 55,000 sheets will be required and over 1,000 chaperones will accompany the bands on their trip to Ann Arbor.

Going to the University and returning home, the participating bands will travel a total of 26,000 miles—more than once around the world.

**BACK TO SCHOOL!**

This fall's Back-To-School coats bring with them a new vocabulary—you may select a sur-boat, car-coat, motor coat, rovercoat, scooter coat, storm coat or a "Penguin" coat. The styles, the combination of fabrics and trim, are as varied as the names of the coats.

The National Institute of Drycleaning, Silver Spring, Maryland, tells us the outer fabrics—cotton sheen, cotton poplin, cavalry twill, tweed, corduroy, or leather—are truly drycleanable. So are the lining fabrics of quilted rayon, wool, Orlon, Dynel or

**FOR SPRING BEAUTY Plant Tulips Now!**

HALF-A-DOZEN TULIPS planted in a clump, like these pink Darwins, provide a bright touch of color against a hedge or in an obscure corner of a lawn. Planted in blocks of single colors or in patterned designs, these Dutch bulb flowers can transform a backyard garden into a color spectacular.

Verel fur-type pile fabrics. However, the combination of the outer fabric and the lining fabric, along with the interlining fabric, is a very important consideration.

Interlinings that contain fugitive-dyed black wool shoddy may cause trouble in removing ground-in soil or stains from the outer coating fabric. The black dye bleeds to the moisture required to remove the soil and stains. This makes a dye stain on the coating fabric.

Many leathers are dyed with colors that bleed to drycleaning solvents. When bleeding occurs, the dye stains the white or light-colored lining fabric. Therefore the lining must be removed from the leather part of the garment, and each part must be cleaned separately.

It is a good rule not to let your coat get too soiled before you have it cleaned. Consult your drycleaner about cleaning so you will understand the special care that is required to clean it satisfactorily.

**IF YOUR TEEN-AGERS** are like everybody else's teen-agers, they'll be busier than ever now that school's open again. Why not have an extension phone installed for them—right in their own room? Then they'll be able to keep up with their hectic school and social activities in privacy, and the rest of the family will love the peace and quiet. An extension telephone in your home would cost less than four cents a day. And in a teen-ager's family, there's hardly an easier way to make everybody happy.

\*\*\*\*\*

**OF COURSE**, the kids aren't the only ones who'll be busy this fall. With P.T.A., service clubs and church affairs all going strong, the whole family is pretty active. Think how hard it would be to make plans and keep track of things without your telephone! And wouldn't you be lost without the day-to-day help your phone gives you with all the little important things? Like that call to the hairdresser's for an appointment; or the call from your youngster, telling you he's stopping at Billy's after school.

**THIS MONTH** marks the 60th Anniversary of the United States Independent Telephone Association, representing more than 4,400 companies across the nation. In Michigan, 116 telephone companies joined in celebrating Independent Telephone Week, September 8 to 14. Michigan Bell salutes these independent companies on the 60th birthday of their association. Side by side we build for Michigan's future, working together to bring people together.

Michigan is inhabited by several types of snakes, but only the Massasauga rattler is poisonous. This thick-bodied, sluggish snake—despite the highly toxic properties of its venom—has never been known to have caused the death of a healthy human in Michigan. The Massasauga is a small or medium-sized snake and usually frequents marshy areas, but sometimes ranges upland during summer months.
