Board Of Education Studies Report

On December 16, the Citizens' Committee submitted their report to the Board of Education summarizing the findings of an eight month study of the educational program of the Clarkston Community Schools.

The Citizens' Committee was formed at the invitation of the Clarkston School Board in May of 1957. At that time a steering committee of sixteen members was established by the membership at large.

The steering committee decided that the growth of Oakland County in general and the Clarkston Community School District in particular required a study to ascertain the educational potential of the now existing facilities, including both physical plant and educational curricula.

The membership of the committee was expanded to approximately sixty through the volunteering of people interested in the education of young people. Various sub-committees were formed to study areas of finance, building and sites, and curricula.

The Citizens' Committee recommended that the Clarkston School District issue bonds in an amount adequate to finance construction of a senior high school building as soon as possible.

In keeping with the recommendation of the community growth and curriculum sub-committees, the Citizens' Committee recommends that the new senior high school be planned to accommodate an estimated enrollment in grades 10 through 12 of 1000 pupils by 1964.

It was recommended that the building be erected on the 70 acre site, owned by the school district south of Waldon Road, in such a manner as to preserve the eight acre existing wood lot as a natural biological and conservation laboratory.

The problem of matching facilities with growth was considered to be a major one. Therefore, the committee recommended that flexibility in facilities be provided in terms of provisions for addition of standard classrooms as needed.

Limited recommendations were made concerning specific design and structural design. Particular attention was suggested toward the specification of adequate practical materials in view of the advantages of sound maintenance policies demonstrated by the present school administration.

The curriculum sub-committee recommended that additional facilities be provided for high school such as physical education, 2nd year biology, physics, chemistry, speech, audio-visual, auto mechanics, and library. It also recommended that physical education facilities of present high school building be expanded to accommodate the expanding junior high enrollment.

Members of the steering committee were: Michael Hart, Chairman; Mary Colton, Secretary; Jerry Wilford, Chairman of School and Community Growth Committee; Robert Martin, Chairman of Finance Committee; S. F. Goedde, Chairman of Curriculum Committee; Glenn Ellerthorpe, Charles Torr, Jane Gates, Ray Gates, Ralph Kreger, Sam Miller, Lloyd Miller, Marjorie Runkle, John McGowan, Barbara Dodd, Fred Turek. Dr. Floyd Parker acted as consultant.

Further details and the complete list of all the citizens that took part in the study will be published following a detailed study of the report by the Board of Education.

THE SPIRIT OF HUMILITY

The happiness of becoming A parent or grandparent Is the sharing with each other, The many secret thrills, and Hopes and desires which God Gives, as a privilege, in creating a new life Within ourselves, and outside of ourselves.

In return we find many peaceful hours Together, as we learn to live In kindness and tranquility.

There will be days of stress and strain, And even hate plus defiance may creep in, But in being parents too many of us Imagine ourselves as kings and queens, Due to the divinity of our souls.

In that we make a sad mistake, And pay for it highly in repentance, When we take it upon ourselves to play God, For there is but one God, And He sent His only begotten Son

To save us and teach us That to serve each other tolerantly— Can be the only password which Shall open the door, on earth, to Heaven.

In honor of our new grandchild

Drayton Plains

Mr. and Mrs. Richard Urban of 2188 Briggs Street, Drayton Plains, enjoyed a memorable Christmas. Mrs. Urban presented her husband a special present—Noel Richard, 8 lb. 6 oz., born 9:49 A. M., December 24th in St. Joseph's Mercy Hospital in Pontiac.

The tinsel is carefully packed away, the birds are enjoying the cranberry strings on the tree, and we are drawing closer to the fire while we indulge in a little nostalgia. A very American brand of nostalgia it is too, for we've discovered hours of pleasure in THE OLD FARMER'S ALMANAC SAMPLER, a new book recently purchased by your library. It is edited by Robb Sagendorph, and has a choice sampling of the wit and wisdom of each ALMANAC as it has appeared in every year since 1792. The thing that is so wonderful about it is that one can find on every page a wise, prudent bit of advice which makes one nod one's head in agreement and then almost immediately following it will be a short sentence or two which takes the pomposity out of the advice and keeps the reader from taking himself too seriously.

For instance we find a paragraph from 1907 which begins, "Economy is a virtue, but there is a true and false economy, etc." But not much further on down the page we find the ALMANAC of 1927 printing, "Economy is a way of spending money without getting any fun out of it."

We suspect Mr. Sagendorph of having his tongue in his cheek very often during his editing for we find a contrast in mood often upon the same page. It makes for lively reading, and the bits of information you will pick up with the laughs are many. May we leave you with a thought from 1880?

"A good free library is a great boon to any town. It makes every farm worth more, and puts it in the power of every citizen to grow better and more intelligent. But it is of no use to have it unless you're going to use it, and now is just the time."

WAYNE INSTRUCTOR ADDRESSES ROTARY CLUB

Through the courtesy of Rotarian Harry Waggener, the Clarkston Rotary Club was given the opportunity of hearing a very interesting talk on "Spudniks", "Mudniks" and "Vanguards" and other attempts to master the outer space. The meeting was held on Monday in the Community Center.

George P. Loweke, a professor in engineering mechanics in the College of Engineering at Wayne State University, explained how weather conditions were changing and getting milder due to heat generated in the earth.

His theory was that the government was making a mistake in training scientists, who, on graduation, accepted positions with firms paying more than the government. As a result, he claimed the United States was out the cost of training.

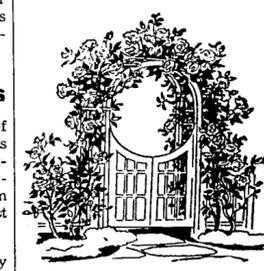

One interesting thought was that the United States, under the guise of being a capitalistic nation, was turning socialistic, while through incentive pay, Russia, a socialistic nation, was really beating this country as a capitalistic nation.

Mr. Loweke's talk was so instructive and so worth while that, although any member has the privilege of leaving at eight o'clock, most of them were still in their chairs at 8:40—the longest any speaker has held the attention of the members.

School News

YOUR ROVING REPORTER

by Lorraine Konedá

One of the most controversial subjects and main topic of conversation here at the school is the fact that our cheerleaders, of whom we are all very proud, have some new and very nice uniforms which most of them made themselves. Being that this topic is the subject of so much conversation we decided that this week we would ask the students just what their opinion was regarding the cheerleaders new uniforms. I'm sure the cheerleaders would like to know what you think about them too.

My first interview was with popular Freshman, Kaye Kath, who commented as follows:

"I don't think I've ever seen anything yet in the way of uniforms that could top them. They are really what you call 'really sharp'. The idea for them must have been very clever because they certainly did a nice job on them. I really like them a lot."

Next I talked to friendly Sophomore, Marlene Payne, who said:

"The girls have really outdone themselves with their uniforms this year. Every year they seem to get better and better. One thing I can honestly say, though, is: we are really pretty proud of our cheerleaders and I'm sure that the kids are even prouder than ever of the way the girls look in their new and lovely uniforms."

Junior, Valerie Petiprin, was next on my rapidly growing list of interviews. She added:

"They are really sharp and I don't think that I've yet seen any other uniforms of cheerleaders from other schools that could top them, or come anywhere near to being half as nice as they are. I like them a lot."

And our last, but by no means least interview came from Senior, Sharon Engelman, who had this to say:

"There's no two ways about it, the uniforms are just the best and nicest ones I've seen in a long time. Congratulations to all of the cheerleaders for the wonderful way that they have made their uniforms—keep up the good work."

Well, that just about winds up this little segment. See you next week with another controversial subject for our series of "What's Your Opinion", questions.

C. H. S. BAND CONCLUDES SEMESTER OF EXCELLENT MUSIC

by Dianne Chapman

Mr. Connors heads the instrumental program of music at Clarkston High School. His Senior Band, composed of some 60 members, has participated in many events this year, including parades, concert, and playing at pep assemblies and football games. The band marched in two parades here in Clarkston this past summer, took part in a Milford celebration, and, by special invitation, played and marched at the Annual Band Day held at the University of Michigan, Ann Arbor. They also participated in the Christmas parade in Pontiac on November 30. The band has also actively

participated in the sports activities here at school. Playing at most of the home football games and several away games, they prepared excellent before-game and half-time shows for the fans.

The Christmas Concert held in December represented the culmination point of a semester of fine work for the band and its conductor. They not only presented the usual type concert music (White Christmas, Swedish Rhapsody) but they also added a unique novelty number—Little Boy Snowflake.

Congratulations should go to this fine group for their work for the community, along with the hope that the band will present more musical enjoyment during the next semester.

CLARKSTON BASKETBALL SEASON

by Ed. Eaglen

Clarkston's Varsity Basketball team has a five-game winning streak so far this season.

A lot of the big boys have been coming through in the pinches. Dick Lippert, 6' 2", has been a big threat on both offensive and defensive back boards. Another great help is 6' 4" Bill Noles who has been a big help on both boards. Both big men have pretty good scoring records. And then comes little LeRoy Parks, 5' 6" Guard who can hit from any place—just look at his scoring record and you'll know.

The Wolves take on their first opponent since Christmas vacation, on Tuesday, and it's with Clarencville. The next Friday game is with West Bloomfield. So lots of luck, boys!

SENIOR HIGHLIGHTS

by Charles Ferrand

The Senior Class, after the Christmas vacation, has just about gotten back into the old groove.

The most important thing taking place at the present, is the measuring of seniors for caps and gowns. Although graduation is not until June, it is necessary to take the measurements well in advance.

BRANCH OF UNIVERSITY TO BE DISCUSSED

Plans are nearing completion for the January 14th public meeting in Rochester at which Dr. John A. Hannah, President of Michigan State University, will discuss the branch of the University to be located near Rochester. Dr. Hannah's address will take place in the new gymnasium of the Rochester Senior High School at 8:00 P. M. on Tuesday evening, January 14.

The public is invited to attend. There will be no charge of any kind, either for parking or admission.

Rochester Chamber of Commerce officials who are sponsoring the talk state that the gymnasium will seat 2,800 persons, and that it is expected to be filled to capacity.

Welcoming Dr. Hannah will be Jack Taylor, president of the Rochester Chamber of Commerce; Miss Sarah Van Hoosen Jones, former member of the State Board of Agriculture; and Donald Baldwin, superintendent of the Rochester Community Schools.

This opportunity to hear Dr. Hannah may very likely be the only one for some time for this area, for in addition to his position with the University he has recently been appointed by President Eisenhower to the chairmanship of the Civil Rights Committee.

The new branch of the University will be located just west of Rochester at Meadow Brook Farms, the 1,400-acre estate given to MSU by Mr. and Mrs. Alfred G. Wilson, along with a grant of \$2,000,000 to get building under way.

It is expected that the branch will open in the Fall of 1959 with an enrollment of 500 to 1,000, increasing to 10,000 within 10 to 12 years.

FEW WEEKS LEFT TO SEE "SEVEN WONDERS OF THE WORLD"

In February, "Seven Wonders of the World", now in its 71st week at the Music Hall in Detroit, will match the long run of its predecessor "Cinerama Holiday". This will be the third time that Cinerama chalks up the kind of run that makes it one of the phenomenons of Michigan show business history.

The first two Cinerama productions had the record runs: two years for "This is Cinerama" and 80 weeks for "Cinerama Holiday", before they were replaced. "Seven Wonders of the World" is expected to continue through February. In these precarious days, this is the kind of box office success that arouses show-business envy. As a matter of fact, predict-

ing box office success has always been a risky business, but never more than now when exhibitors are inclined to shrug their shoulders with resignation before an opening and say, "Who knows what people want?"

Certainly, part of Cinerama's steady success can be attributed to its sales policy, and the efforts made to bring large groups into the Music Hall for theatre parties. The Michigan Cinerama Corp.

has one woman who devotes her entire time to organizing these parties. Her name is Alice Laley and she has the title of Director of Special Services.

She interests local and out-of-town civic, social and fraternal organizations to purchase large blocks of tickets. In addition she arranges special Saturday morning showings for students and youth organizations through-

**JEHOVAH'S WITNESSES
PLAN CONVENTION**

The three Pontiac congregations of Jehovah's Witnesses will be host to 16 other congregations from Southeastern Michigan when they assemble for their regular semi-annual area convention at the Waterford Township High School, January 24-26, Mr. W. P. Strong, local spokesman for Jehovah's Witnesses announced today. The convention, sponsored by the Watchtower Society of Brooklyn, N. Y., will bring together some 1500 from Port Huron, Bad Axe, Mt. Clemens, Holly, Berkeley, Royal Oak, and intervening points.

In discussing the announcement, Mr. Strong pointed to the distressed world, its people filled with fear, dread and perplexity, much in need of hope and real understanding.

"The theme of the program, 'Qualified to Teach,' he explained, 'Highlights the efforts of Jehovah's Witnesses to continually improve in the use of the Bible in bringing to all persons the 'Good News' of a happy, trouble-free New World, soon to come under God's Kingdom."

All three days of the program will consist of morning, afternoon and evening sessions of Bible talks, discussions and demonstrations, all open to the public. Mr. Strong said that Jehovah's Witnesses conduct five classes weekly in ministerial training, attended by the entire congregation, to become more and more qualified to teach. All of Jehovah's Witnesses serve voluntarily and without pay regardless of position in the organization. "We believe a Christian should share freely with others his knowledge of God and the happy New World under Kingdom rule," he explained, "to the first Christian teachers and ministers, Jesus said, 'Freely you have received, freely give'."

Mr. Peter D'Mura of New York City will be the featured speaker at the assembly, appearing on the program each of the three days. He will deliver the main address at 3:00 P. M. Sunday, January 26, on the subject: "What are the Prospects for Lasting Peace?"

Headquarters for the convention arrangements are located at Jehovah's Witnesses' Kingdom Hall, 600 East Pike Street in Pontiac.

"BABIES BRAND NEW"

How many diapers shall I buy? What does it mean when the mother is RH negative and the father is RH positive?

How do you know when a baby is hungry? He cries for everything doesn't he?

Questions like these are commonly raised in classes for Expectant Parents. The classes are conducted by public health nurses and are sponsored by the Oakland County Medical Society, the Oakland County Department of Health, and various Adult Education Departments.

Expectant Parents' Classes offer an opportunity for parents to gain knowledge and understanding that will help to increase their enjoyment in this experience and will prepare them to give care when baby arrives. The first four classes are centered around the mother. There is ample opportunity for discussions of family adjustments, growth and development of the baby before birth and labor and delivery. The last four classes will cover feeding the baby, what the new baby is like and baby's first year.

Audio visual aids are used to supplement discussion and conducted hospital tours are arranged during classes.

Classes and registration will be held at the Oakland County Department of Health as follows:
PONTIAC OFFICE - 1070 N. Telegraph - FEderal 2-9255 - Extension 25.

Registration Dates - 6:30 P. M. to 7:30 P. M. - January 7 - March 6.

Classes begin January 14th and 15th and are taught weekly from 7:30 to 9:30 P. M. Tuesdays and Wednesdays.

Let the highest achievement of yesterday be the starting point of today.—Paulist Fathers (Roman Catholic)

Oxford, Michigan

Sunday School 11:00 A. M.

Sunday Service 11:00 A. M.

The vital importance of following the example of the Master, Christ Jesus, in our thoughts and actions will be emphasized Sunday at Christian Science services.

Keynoting the Lesson-Sermon entitled "Sacrament" is the Golden Text from I Corinthians (5:8): "Let us keep the feast, not with old leaven, neither with the leaven of malice and wickedness; but with the unleavened bread of sincerity and truth."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (37:22-25): "It is possible,—yes, it is the duty and privilege of every child, man, and woman,—to follow in some degree the example of the Master by the demonstration of Truth and Life, of health and holiness."

From the Bible will be read the following (Mark 16:15): "And he said unto them, Go ye into all the world, and preach the gospel to every creature."

"SEVEN WONDERS OF THE WORLD"

(continued from page 3)
out a 150-mile radius of Detroit. Mrs. Laley estimates that more than 180,000 students have been brought to the theatre during the past five years.
And, Frank Upton, Cinerama's

Managing Director, estimates that 40 percent of the theatre's total gross receipts come from this kind of sales. In other words, it is no longer just enough to just open the doors, and hope that people will flock in.

Like two of its predecessors, "Seven Wonders of the World" was produced by Lowell Thomas, and it turns the big three-eye Cinerama cameras on some of the world's most scenic spots.

News Liners Bring Fast Results

For years we have advocated: **News Liners Bring Results**
The following letter tells the story:

Gentlemen:
Enclosed you will find 35¢ for the ad in your paper Re: wire haired puppies.
I ran a total of \$16.90 in Detroit papers and never received a call. With your ad. I sold all of the puppies.
R. N. Stewart

"SEARCH FOR PARADISE" COMES FEBRUARY 11

The midwest premiere of the newest Cinerama production, "Search for Paradise", has been announced for February 11, at the Music Hall Theatre, Detroit.

The current Lowell Thomas presentation, "Seven Wonders of the World", will have its last showing February 9. By that date the film will have played 78 weeks, establishing another record for Michigan screen entertainment.

"Search for Paradise" is the story of two American aviators looking for an escape from the complicated modern world. Their search takes them through the "roof of the world" in Central Asia.

As part of the picture, Thomas recorded the coronation of King Mahendra of Nepal where he was President Eisenhower's personal representative.

The shooting of the rapids of the Indus River in a rubber raft and a sequence on jet aviation of the United States Air Force are among the thrill portions of the Cinerama's three lensed cameras, which gives the audience the feeling of being "in the picture".

Bobcats Provide Sport Hunting

Bobcat hunting season in the lower peninsula got underway December 15 and extends through March 15. The wily cats, considered game animals in the lower peninsula, provide winter hunting enjoyment for Michigan nimrods and their dogs. In the upper peninsula, however, bobcats are bountied animals and may be taken at any time of year.
