health protection from a grab bag

Grab-bag style, you buy what's available . . . good or bad, and often "sight unseen." Buying health supplies from nonprofessional sources-like supermarkets, door-to-door peddlers and mail-order housesis really grab-bag buying. You can't be sure you're getting top-quality medical supplies or the ones you really need. Make all your health purchases from a registered pharmacist. We carry a complete line of quality health supplies. It's our business and professional responsibility to see that you get exactly what your doctor orders.
