Local Boy Struck By Auto

Last Saturday, at 4:30 p. m., Tom Wilford, aged 7, of 91 N. Main Street was struck by a car while he was crossing Main St., 200 yards north of the traffic signal. Tom was taken to St. Joseph's Hospital in the Sharpe-Goyette ambulance where an examination disclosed no serious injuries other than a severe abrasion on the left side of his face.

Alert driving on the part of Edwin L. Byrd, 6629 Northview Drive, driver of the car, saved the boy from more serious injury. Byrd had immediately applied the brakes and had slowed his car almost to a standstill when the boy darted across his path. Byrd also showed unusual presence of mind in immediately calling for an ambulance, and in obtaining a blanket from a nearby home which he used to cover Tom as a precaution against shock. He was trained in First Aid procedures during military service.

Tom's parents, Mr. and Mrs. Terry Wilford, were summoned by his brother Peter who witnessed the accident. Mr. Mavnard Kiver, of 80 N. Main Street, comforted the boy until the parents arrived.

During his brief stay in the hospital, Tom told a Sheriff's Deputy, who was preparing an accident report, that he would look both ways carefully before crossing the street, and that he hoped other boys and girls would "learn a lesson" from his experience.

Dainty refreshments were served from a table covered with a lace cloth and centered with an attractive arrangement of snapdragons, carnations, gladioli and daisies flanked by tall pink tapers. A special cake topped with two large white wedding bells graced the table.

Some of the members spent a good deal of time Saturday afternoon decorating in a Valentine motif; to mention a few Sue Allen, Martha Madison and Carol Walter. See you next month for a bigger and better dance.

L. C. Megee Heads Easter Seal Sale In Clarkston

One of Clarkston's prominent civic leaders will act as area chairman of the 1959 EASTER SEAL CAMPAIGN to help crippled children in our County, was announced by R. C. Poole, President of the Oakland County Society for Crippled Children.

He is L. C. Megee, of the Clarkston Rotary Club and a member of the Society's board of directors.

Named at a recent meeting of the Society's Easter Seal Committee, Megee will coordinate the sale of the seals and will make all efforts to maintain and further promote greater support for the "Seal".

Immediately launching plans for the campaign opening February 27th, Megee said that he was greatly honored to be named area chairman of such a vital effort in the community. "However," he said, "the success of the cause lies not only in one person nor with one committee, but with the helping hands of all persons interested in the well being of crippled children."

Residents of Oakland County have made possible the purchase of wheel chairs, braces and crutches, doctor's examinations, X-Rays, dental care for the physical handicapped child, a free cerebral palsy diagnostic free cerebral palsy diagnostic clinic, a 2 week camping program, and many other services are only made possible through generous contributions to previous Easter Seal appeals. It is the Society's job to maintain these services and to see that more children are reached by this great organization, which this year makes 38 years of service to the crippled.

CONSUMERS POWER PRESENTS PROGRAM

Edward Karkau division manager of the Consumers Power Co. and his assistant, George Mantyla presented the program for the Clarkston Rotary Club on Monday of this week. Mr. Karkau was introduced by Alfred Lee, Clarkston Rotarian, as part of a month of programs on public utilities. The meeting was held at the Community Center and presiding was Dr. Leslie F. Greene, Club President.

Mr. Karkau presented some of the ideas the company had for betterment of service in this district and explained how more gas was being furnished by pipe lines from Texas and Oklahoma.

A short film was presented showing some of the operations of the company in its program to furnish sufficient gas for home heating.

On May 7, 1915 the Lusitania was torpedoed by a German submarine and of the 1915 people aboard, 1198 lost their lives. This disaster had a great deal to do with the United States entering World War I for it showed that the "insular" years of our early history were never to be regained.

A. A. Hoehling and Mary Hoehling have written a suspenseful chronicle of the torpedoing entitled *The Last Voyage of the Lusitania*. It is based on survivors accounts, newspaper and magazine articles, and even mentions a letter received from a man who states he is probably the last surviving member of the crew of the sub which torpedoed the great ship.

Though somewhat grim, the book is nonetheless very interesting for it carefully tells of several individual passengers and their feelings before and during the tragedy, Alfred Gwynne Vanderbilt among them.

There is even a touch of humor, despite much sadness, in the accounting of how a Welsh newspaper reported the survival of one of its leading citizens. It read:

Great National Disaster D. H. Thomas Saved

Use a plastic clothes basket in your child's bedroom or playroom to keep toys collected. Michigan State home economics specialists say it is lightweight and the handle makes for easy carrying by parent or child.

Try switching the protein food of your meal from the main course to the dessert every once in a while. You might choose a custard and add to it either preserved ginger, chocolate chips or plump raisins. Cheese cake, baked Alaska, angel food cake and meringues teamed with fruit or ice cream also provide body building protein.

TWO CLARKSTON STUDENTS AWARDED CERTIFICATES

Two (2) seniors at Clarkston High School have reached the Finals of the 1958-59 National Merit Scholarship Program and have been awarded Certificates of Merit, according to Principal S. F. Goedde.

Perry Smith and Alan Walls, have received the Certificates, which attest to their high academic promise.

The seniors distinguished themselves by their high scores on the two college aptitude tests used in the National Merit Scholarship competition. About six-tenths of one per cent of the seniors in each state received the awards. A national total of 10,000 students were honored.

Over 478,000 students were tested in the 1958-59 National Merit Scholarship competition which began last April. The test results have pared the competitors down to the 10,000 Finalists. Some 700 of the Finalists will be named Merit Scholars this spring. They, and the colleges they have chosen, will share in \$3.5 million in Merit Scholarship

funds offered by over eighty different organizations and individuals. The winners will be determined by the results of final judging now being conducted. The Merit Scholars will be announced about May 1, 1959.

The names of the Certificate of Merit winners are being sent to over 1,500 colleges, universities and other scholarship-granting agencies for consideration for thousands of other privately-financed scholarships offered outside of the Merit Scholarship Program.

Previous experience indicates that the Finalists will be offered some \$2.5 million worth of freshman-year scholarship assistance from these sources in addition to the awards made to those selected as Merit Scholars.

"The Certificate of Merit winners number 10,000 this year, an increase of 2,500 from previous years," declared Mr. John M. Stalnaker, President of National Merit Scholarship Corporation, the non-profit organization that conducts the annual competition.

"Each year we try to focus the attention of the nation's scholarship donors upon a limited group of high school graduates with the highest demonstrated potential to benefit from college training. These are the Certificate of Merit winners, the top performers in our national testing. We provide as many of them with direct assistance as our funds permit, and encourage a great variety of independent donors to do the same."

The selection of the 700 Finalists who will be awarded Merit Scholarships in 1959 is performed by the Merit Scholar Selection Committee, a panel of experts in academic selection, and by special judging teams convened by various donors of Merit Scholarships. High school grades, leadership, citizenship and extra-curricular activities are considered, as well as test scores.

The Merit Scholarships are four-year awards, and carry stipends that range from \$100

a year to \$1,500 a year. Each stipend is individually determined on the basis of the need of the individual recipient. The amount is based upon family resources, summer earnings, and college costs, all of which vary

with each winner. No Merit Scholarship may accept other major scholarship assistance in addition to his Merit Scholarship stipend, a rule followed by most private scholarship donors. The aim is to spread the available Merit Scholarships also carry

scholarship funds to as many outstanding students as possible. Each student chooses his college and course of study, and admission to college is the responsibility of each student. Most Merit Scholarships also carry

grants to the colleges attended by the students. The fifth program will begin on April 28, 1959 with the National Merit Scholarship Qualifying Test, to be given in an estimated 10,000 high schools.

IS THIS TRIP NECESSARY?

Who, would you say, are the most important people in our town? The young people? We like to think it is for them we are building the town and that they are the ones who will build the town tomorrow.

But will they, the young people of your acquaintance, be here tomorrow? Very largely that depends on the opportunities, the job opportunities, here at home.

The next time you hear of a young man or young woman leaving for an opportunity elsewhere, ask yourself: Is this trip necessary?

It's not practical to expect each of us to start a business or manufacturing operation just so

our own sons and daughters will have work. What we can do, though, is to contribute our efforts to attracting new industry here and to help existing industry to expand locally. We can let everyone know of our town's industrial advantages. We can show our appreciation of present industry and see that its needs are met.

If we do these things, we'll be making opportunities here at home, and that's the right place for opportunities anytime.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.

MORE AND MORE mothers are appreciating the peace of mind that comes from giving their children "phone home money" whenever they go out. One mother puts it this way: "Phone home money is as important for children as a handkerchief. Often they want to go somewhere straight from school. It's such a comfort to me to know that they'll phone me first. And from the children's point of view, help is now always as near as a public call booth."

WILL MOM MAKE IT? Will she be able to rush from the shower downstairs to the phone before it stops ringing? Will she slip or trip on the way? And afterwards, when the panic has died down, will you perhaps decide that Mom deserves a special gift - an extension phone in her bedroom, handy to the bathroom, so that she never has to rush again. Call the Business Office, Michigan Bell Telephone Company, for details.

TALKING OF bedroom extensions, we've just heard of a man who sprained his thumb when he stumbled, on his way downstairs to answer a nighttime phone call. Shortly after, he had a bedside extension installed. But guess what happened the very next time he had a late phone call - he was all the way downstairs and groping for switches and muttering to himself before he realized that there was now no need to stir from bed!

WITH ALASKA ONE OF "us," a lot of flag makers are going to be busy with needles, thread and extra stars. Talking of flags, did you know that the world's largest belongs to Michigan - or more exactly, to the J. L. Hudson Company in Detroit. Its vital statistics - height 104 feet, width 235 feet, weight 3/4 ton. The oldest existing American flag can be seen at the museum in Old Bennington, Vt. The first flag to use the stars and stripes design was made by Betsy Ross in her cottage in Philadelphia (now a national shrine). The design was approved on June 4, 1777.

ALL-BREED DOG SHOW AT STATE FAIR COLISEUM

Childhood dreams will come true at the State Fair Coliseum Saturday and Sunday, Feb. 28 and March 1, when the Detroit Kennel Club presents its 41st annual all-breed dog show. This is the show for all the young in heart who have ever owned a dog—or ever wished they could own one. Exactly 1,238 handsome, meticulously barbed dogs will be on parade in the show. The dogs will be

benched in the Agricultural Building and shown in the Coliseum. There will be eighty different breeds on parade, including such uncommon species as Lhasa Apso and Rhodesian Ridgebacks. All the popular breeds will be there, from Chihuahuas to Norwegian Elkhounds, from Cocker Spaniels to poodles from Shetland Sheepdogs to Dalmatians. German Shepherds top the entry list with 110, followed by the Collies with 79, Cocker Spaniels with 58 and Brittany Spaniels with 55. The DKC show is the biggest in Michigan, and one of the most distinguished in the United States and Canada. The early favorite is Ch. Vardona Frosty Snowman, the beautiful bull dog that was named best America-bred in the recent Westminster show in New York. Most of the country's top dogs will be arrayed against him. DKC officials emphasize that dogs will be benched in this show only on the days they are judged. All hound, working and non-sporting breeds will be shown Saturday. Sporting breeds, terrier breeds and toy breeds—altogether with Saturday's winners—will be judged Sunday. Obedience trials will be held on both days. Admission price is nominal for adults and small for children. The show is scheduled to open at 9 a.m. and close at 9 p.m. on both days. There are no reserved seats, and there is ample room for all.

The recent gradual thawing has been good however. If it continues and we have a good spring soaking season, ground water levels will come close to normal. Unfortunately, though, ice does not keep the ground as warm as a snow bank and freezing has gone deeper this year. This is expected to result in more heaving than usual and hence more rocks on the surface, as we have alternate periods of freezing and thawing with the approach of spring.

ICE ON GROUND COULD MAKE DRY GROWING SEASON

The layer of ice now covering large portions of the Midwest may prevent proper build up of ground water levels and if we have a warm, dry spring, farmers could be in difficulty.

That's the word from the Meteorological Laboratories at The University of Michigan, where it is pointed out that the large reservoir of water below ground must be recharged during the winter to help provide water for dry spells in spring and summer.

The ideal situation is to have a snow cover which keeps the earth from going much below the freezing point and hence makes it comparatively easy for water produced from melting or rain to soak in.

This is the desired situation for winter wheat, for example, which usually is up an inch or so and has a root system before winter arrives.

But with the ice crust now present, almost all precipitation runs off and is lost. In view of last summer's dryness—which put us way behind in annual precipitation—the water which already has been lost was badly needed.

Ever wonder why wool keeps you warm in winter? It is be-
