CLARKSTON, MICHIGAN, THURSDAY, JULY 9, 1959

NUMBER 45

Crowd In Clarkston On July Fourth

As usual the Fourth of July celebration in Clarkston drew a large crowd. An hour before the parade was scheduled to get underway Main Street was jammed. Townsfolk and guests were on hand to make the day's program a big success.

The Firefighters Association and the Township Recreation Committee worked hard to keep everything under control and see that events were called as planned.

The parade, marshaled by Frank Green, was colorful, being headed by the colors followed by the Clarkston School Band and majorettes. As always the children were quite prominent with their decorated bicycles, wagons, pets and gay costumes.

Cars of by-gone days added to the interest of the parade, and many late model cars drew attention. Several floats showed that some were anxious to make the parade a success and were willing to spend time and thought on their entry. Also in line was a school bus and some of the firefighters equipment. To the delight of all the on-lookers along came riders on their well-groomed horses. All-in-all the parade was quite an attraction and now is the time to start planning what you can add to the parade next year.

The games and contests on the school grounds drew quite a crowd and the young people were anxious to participate in all events.

Late in the evening everyone for miles around enjoyed the display of fireworks at the school athletic field. All roads leading to the school were jammed with cars, and many viewers said, because of the wonderful weather, the fireworks seemed better than ever.

Mrs. Carl Anthony assisted Mrs. Kidd.

THOSE FEED AND FLOUR BAGS MAY BRING FAME AND FORTUNE

A challenge to any woman who sews - creating smart apparel and unusual household accessories from feed or flour bags.

Recognizing this, the Michigan State Fair again will offer Michigan women a chance to show their talents in this direction and win fame and prizes at the same time.

Cash prizes totalling \$100 and a Necchi sewing machine will be awarded in the Cotton Bag Sewing Contest at the Michigan State Fair, September 4 through 13.

The grand prize winner will become an automatic finalist to compete in the nation-wide contest for further prizes including an exciting expense-paid vacation in Hollywood.

Entry classifications include mother-daughter dresses, brunch coat, kitchen apron and two pot-holders, man's or boy's sport shirt, pillow cases, luncheon set, stuffed toy and crib quilt.

Anyone who sews is eligible to enter the contest although previous national winners may not compete in the finals.

The 1958 Michigan champion was Mrs. Marion Becker, 4605 Howland Road, Almont, who received first awards for her entries in man's sport shirt, brunch coat, stuffed toy, crib quilt and mother's and daughter's dresses.

Further information and entry blanks may be obtained from the Home Arts Department, Michigan State Fair, Detroit 3, Michigan. All needlework entries must be submitted by Friday, August 28.

Roundup Rounds

by Linda Jean Chapman

Colorado Springs means excitement, wonder, and thrills to 8,500 Senior Girl Scouts camped in a five-mile area near Colorado Springs, Colorado.

Each day brings new acquaintances and experiences to every girl. On July third, for example, we held our opening campfire for all participants of the Roundup. The forty-nine star flag was presented by the girls from Alaska and the girls from Hawaii presented a large quilted star to be added later. July fourth an impressive ceremony of the raising of the forty-nine star flag took place.

The scenery is picturesque with the Rocky mountains towering over the whole encampment. This causes photography to rate as one of the top interests among the girls. Also ranking as one of the top interests is swapping. Each girl brings several items typical of their area and they swap them. Everything is swapped including small cars from Michigan and sea shells from California.

Each experience, each thrill, each new friend makes all the trouble seem really worth while. Our Girl Scout Senior Roundup will truly be one to remember.

 The spiritual power of Christ Jesus' teachings and example will be emphasized Sunday at Christian Science services in the Lesson-Sermon entitled "Sacrament".

One of the key statements of Jesus to be read from the Bible is this from John (6:63): "It is the spirit that quickeneth; the flesh profiteth nothing; the words that I speak unto you, they are spirit, and they are life."
 Correlative citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (25:26-31): "Implicit faith in the Teacher and all the emotional love we can bestow on him, will never alone make us imitators of him. We must go and do likewise, else we are not improving the great blessings which our Master worked and suffered to bestow upon us."

The Golden Text is from II Corinthians (13:14): "The grace of the Lord Jesus Christ, and the love of God, and the communion of the Holy Ghost, be with you all."

Expensive Fire Works

Scenes such as this one are menacingly familiar during the traditional light rainfall months of July and August when outdoor recreation hits its peak throughout Michigan. Under these conditions, even a small fire can blaze out of control and spread quickly over a large area, destroying valuable wildlife, forests and property in its path. Conservation Department officials estimate that 95 percent of all fires can be traced to human carelessness with smokers and camp fires ranking as two of the major causes. They urge everyone to observe fire preventive measures when afield.

"My wife and I are taking a four weeks vacation, the first in years. We've been hearing about the increased number of thefts from homes and it has us worried, since we have many valuable possessions in our home and no theft insurance. Can theft insurance be added to our existing fire insurance policy quickly or does it have to be a separate policy?"

SOME TEACHERS ELIGIBLE FOR SOCIAL SECURITY

All teachers eligible for social security benefits may apply for compensation for the summer months, according to Thomas J. Northey, special assistant in research for the Michigan Education Association.

Any woman teacher aged 62 or over and any man teacher 65 or better who has met the work requirements for social security is advised to contact his local social security office at once to apply for such benefits during June, July and August.

However, teachers are not eligible if they earn more than \$100 during each of these months, Northey said.

Teachers who qualify may be eligible even though they are paid on a 12-month basis since they earned the money during the school year, he said.

Northey's findings were confirmed by the Lansing Social Security Office.

RAMINE OF TAHITI STARS IN "SOUTH SEAS ADVENTURE"

The champion hula-dancer of Tahiti, Ramine, will be seen in the United States for the first time as a featured performer in "Cinerama-South Seas Adventure" now in its 9th month at the Music Hall Theatre in Detroit.

Born eighteen years ago on the coral islet of Bora Bora in French Oceania, Ramine performs the authentic native hula in the Bastille Day ceremonies filmed on Tahiti by Cinerama Producer Carl Dudley.

One of the most photographed girls of Tahiti, Ramine recently was the winner of a dance contest which entitled her to a tour of the United States as a professional dancer. At the advice of her foster parents, Igor and Prudence Allan, Ramine reserved her debut for the new Cinerama production.

The pathway to prominence for the beautiful Polynesian has been strange and romantic. When she was three, Igor and Prudence Allan were ship-wrecked on Bora Bora. The only guest house on the tiny island six miles from Tahiti was run by Ramine's parents. They befriended the two Americans.

The Allans returned to Bora Bora several times from their home in Tahiti. They watched Ramine, one of two sisters and five brothers, grow up. The Allans were childless. In the Polynesian tradition, the greatest gift that may be bestowed is a child. Ramine was given to the Allans and went to live with them in Tahiti.

Igor Allan is almost a legendary South Seas character. Born in Russia of Don Cossack blood, his father an officer of the Russian Imperial Guard, Igor escaped the Bolsheviks and made his way to Chicago. He studied child psychology at Northwestern University, where he met his wife, Prudence.

On a vacation, the Allans went to the South Seas to study the natural upbringing of Polynesian children. They never returned. Igor became a noted photographer and collaborated on several books. More recently, the Allans and their ward, Ramine, moved to Honolulu, Hawaii. It was there that Carl Dudley sought his assistance in preparing the Tahitian sequence of "Cinerama-South Seas Adventure".

The story of the film called for a French artist to take passage aboard the sailing schooner, "Te Vega" for a voyage to Tahiti. Jean-Louis Martin, the artist, seeks for the spirit of Paul Gauguin, the immortal French painter who lived in Tahiti. He meets the Tahitian beauty, Turia, the finest dancer on the island, who participates in the Bastille Day competitions. As "Te Vega" sails off, Jean-Louis remains to paint Turia in her tropical paradise.

Dudley cast Igor Allan and Ramine in the roles of Jean-Louis and Turia.

GLASS FABRIC CURTAINS NEED GENTLE WASHING

Window curtains of glass fabric can be laundered at home and they will dry in just a few minutes.

Directions are simple—but very important to follow, states Bernetta Kahabka, extension clothing specialist at Michigan State University.

Fold the glass fabric loosely. Hand wash in mild soapsuds and water as hot as your hand will stand. Just pat the fabric gently in the water.

DO NOT RUB, twist or wring. Glass fibers are brittle, and a little twist can break them. Result is a rip in the fabric.

Incidentally, those glass fabrics should NEVER go into the washing machine and be agitated. Fibers break and the fabric almost disintegrates.

Rinse in clear water, and again, simply pat the fabric. Do not use starch or bleach.

You can roll the laundered fabric gently in a bath towel to remove excess moisture or put it over a line until almost dry. Hang the curtains at the window while they are still damp. Hems at bottom and sides can be

smoothed with your fingers. In just a few minutes, the curtains will be dry.

SUDDENLY THE FUTURE IS HERE

For 400 years men the world over have dreamed of the future of a great area of the North American continent, a future which would come from changing the face of the earth.

They dreamed that by a tremendous feat of engineering the St. Lawrence River would become the St. Lawrence Seaway, that thus the Great Lakes would become the world's eighth sea, and the whole Great Lakes area would become a center and source of world commerce such as you could hardly imagine the heart of a continent to be.

Now the St. Lawrence Seaway is open. The face of the earth has been changed. The dream has come true and suddenly the future is here.

What will it mean to our town? Can we keep pace with the future that has suddenly arrived all around us? We can do it by working together, solidly together on programs for the sound development of our community and the growth of business in our town.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.

From where I sit... by Joe Marsh

Slim Pickins-Up!

Slim Thomas' wife thought up a pretty slick way to get Slim to clean up their front porch.

Slim had a habit of leaving his tools there before coming into the house. And he'd always tell his Missus he'd get around to tidying up later.

So Mrs. T. nailed a large sign to the porch for all passers-by to see: "THOMAS' JUNK PILE, DUMP YOUR OLD EQUIPMENT HERE!" When Slim saw the sign he cleaned that porch so fast he was through before any junk de-

positors turned up. Threw the sign out, too.

From where I sit, sometimes it takes the "dramatic" to show folks they're wrong. But usually you can solve things by talking them out. For instance, my neighbor once objected to my preference for an occasional glass of beer. But after discussing it with him, he realized he was just plain intolerant. Now he accepts my choice as I accept his. What do you say we "clean up" all intolerant thinking?

GOODWILL INDUSTRIES FOUNDED IN BOSTON

The Goodwill Industries movement was founded in Boston by Dr. Edgar J. Helms.

A firm believer in the practical application of religion, Helms decided that talking religion wasn't enough. Many people needed clothes. It was a cold winter and people in lower Boston were poor. He appealed to people with more than they needed to contribute their used apparel. He then asked the elderly women of the neighborhood to repair it for their own families. The extra clothing he sold at low prices to maintain the operation.

From this beginning grew the largest network of workshops for rehabilitation of the physically handicapped in the country.

"Now incorporated as non-profit Goodwill Industries of America, this organization held its National Assembly in Detroit, June 25-28.

"It may prove to be the most significant meeting in the field of physical rehabilitation held in the country," Robert F. Weber, President of the Board of Goodwill Industries of Detroit, said today. "The accomplishments of the assembly will probably affect every American, not only of today but in years to come."

National Record Dramatic New ideas and new methods of helping the handicapped will be developed to become permanent benefits.

What has been done in the way of service and jobs for the handicapped is already on the record. It is a record covering 57 years.

National figures for 1958 are dramatic, and give a capsule picture of what Goodwill Industries together provided training, employment and rehabilitation services to about 32,000 handicapped people during 1958.

About \$21,000,000 in salaries and wages was paid, of which

\$16,500,000 was to persons receiving training and sheltered workshop employment.

Employed workers paid nearly \$1,800,000 in income and social security taxes.

The number of Goodwill Industries or related type programs are operating in six foreign countries.

Approximately five million homes in thousands of communities throughout the country contributed usable clothing and household articles to make the work program possible.

Millions of other homes benefited from the availability of renewed articles at budget prices.

Total income of all Goodwill Industries exceeded \$31,000,000, of which over \$29,000,000 was from sales of repaired articles, contract work and other sources and more than \$2,500,000 was donations, fees, etc.

ONE OF THE 7 BIG BESTS CHEVROLET GIVES YOU OVER ANY CAR IN ITS FIELD

Take it, not from us, but from official results of this year's Mobilgas Economy Run: Chevy's pennypinching 6 delivers the most miles per gallon in its field. For a pair of these Chevrolet sixes with Powerglide walked away with the first two places in their class, getting the best mpg figure—a whopping 22.38—of any full-size car. And here are more expert, impartial opinions and on-the-record facts backing us up on Chevy's other six bests:

BEST TRADE-IN

Check the figures in any N.A.D.A.* Guide Book. Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST STYLE

It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE

magazine, "Chevrolet establishes a new high in daring styling."

BEST BRAKES

In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR, Chevrolet out-stopped both of the other leading low-priced cars—and why not: Chevy brakes are far larger, built with bonded linings, to help lengthen brake life by as much as 66%.

BEST ROOM

Official dimensions reported to A.M.A.† make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

BEST ENGINE

Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed this device is surely the

most wonderfully responsive engine available today at any price."

BEST RIDE

MOTOR TREND magazine calls Chevy "... the smoothest, most quiet, softest riding car in its price class." You'll be able to tell this yourself, instantly. And your Chevrolet dealer can tell you about a long list of other advantages besides these 7 big ones!
