Spend Labor Day In Clarkston

Labor Day week-end—the last big week-end for the summer season—resorts will be crowded—traffic will be heavy—many thoughtless drivers will be on the highways. This would be an ideal time to have fun in your home town. The Rotary Club is planning the annual Labor Day parade. Bill Kelley is general chairman and he is asking the cooperation of everyone in the area.

If everyone would start now to plan an entry, Clarkston could have a parade that would surpass any in the area and one that would be remembered. Floats, clowns, costumes, pets, horses, automobiles, bicycles, bands, etc., all go to make a good parade. Adults as well as children in the line-up help to make it more interesting.

There are many subdivisions in Clarkston—perhaps these groups could plan something original which would include parents and children. Why not have the many Clarkston clubs represented, also the churches. Let's make the parade big this year.

Couple Tours South On Honeymoon

Pontiac First Church of the Nazarene was the scene of the Friday evening wedding of Betty Jane Brian and Jack Ray Parr. The Reverend K. Hutchinson officiated at the double-ring candlelight ceremony before some 200 guests.

Parents of the couple are Mr. and Mrs. W. Adolph Brian of Clarkston and Mr. and Mrs. Clifton Parr of Brown City.

White gladioli, ferns and cathedral candles decorated the altar.

MRS. JACK RAY PARR

The bride was escorted to the altar by her father and was wearing a gown of white lace and tulle with soft scoop neckline finished in lace scallops and appliqued with sequins. Her bouffant skirt trimmed with lace formed a chapel train. Her fingertip veil of French-illusion fell from an imperial crown of seed pearls and sequins. She wore a single strand of pearls, a gift of the bridegroom and carried a cascade bouquet of roses and ivy.

Barbara Tossey of Clarkston was maid of honor. Her dress was of aqua nylon and taffeta styled with a bustle back and full skirt. She carried a cascade bouquet of white carnations.

Charlene Frusher of Drayton Plains, cousin of the bride, was bridesmaid. Her dress and bouquet were identical to the maid of honor's and both girls wore beaded head bands with short veils and white gloves.

Vicki Parr of Brown City, niece of the bridegroom, was the flower girl and she was a picture in pink nylon and taffeta, made by her mother, and styled the same as the other attendants' dresses. She carried a basket of pink rose petals.

Little Michael Parr of Clarkston was ring bearer and he carried the rings on a white satin pillow.

Bob Parr of Brown City assisted his brother as best man. Thomas Brian of Clarkston, brother of the bride, served as a groomsman and seating the guests were Bill Brian of Pontiac, brother of the bride and Ben Parr of Clarkston, brother of the groom.

Mrs. George Manning presided at the piano for the traditional music and also accompanied the soloist, Dick North of Pontiac, who sang "Because," "The Lord's Prayer" and "With This Ring."

Immediately following the ceremony a reception was held in The Church of Christ parlors on North Perry Street.

Presiding at the silver service was Mrs. George Perry of Clarkston, a friend of the family and serving the cake was Mrs. Howard Brian of Pontiac, an aunt of the bride.

For her daughter's wedding Mrs. Brian chose a dress of beige linen and lace with matching accessories and a white carnation corsage.

Mrs. Parr was in eyelet navy with white accessories and a white carnation corsage.

When the newlyweds left on their honeymoon the new Mrs. Parr was wearing an aqua dress with white accessories and a corsage from her bridal bouquet. Upon their return they will make their home in Brown City.

FRIENDS FETED AT HAWAIIAN LUAU

On Tuesday evening the Frederick P. Warricks entertained a number of their friends at a "luau" on the patio at their home on Thendara Boulevard. As the guests arrived they were greeted with "Aloha" and a lei of vanilla orchids was draped about the neck in real Hawaiian style.

During the early part of the evening Hawaiian punch and tidbits were served from a table centered with an arrangement of tropical flowers. Japanese lanterns were used to light the patio and to add to the tropical atmosphere Hawaiian music filled the air, some of the women wore mumuus and the men were gay in aloha shirts.

The luau was a real occasion—the table was laden with food and everyone had a taste of poi, a "must" in Hawaii at mealtime. Following the meal several of the men donned grass skirts and danced to the hukilau song. Mrs. Warrick was the capable instructor.

Games were played and prizes were awarded. The prizes were purchased in Hawaii when the Warrick family visited the Islands in June.

Get Your Tickets For Band Concert

The Lions Club of Oxford is fortunate in that it is able to give the people of Oakland County a chance to hear and see the United States Navy Band. The Band will present two concerts in the Oxford Senior High School Gymnasium on Tuesday, September 24th. The matinee will be a program planned for high school students and the evening concert will feature classical and semi-classical numbers.

Tickets are available from members of The Lions Club in Oxford. W. Sisty is president and his phone number is OA 8-2717.

On Inauguration Day, March 4, 1925, President Coolidge signed a special act of Congress Designating the Washington Navy Yard Band as the official United States Navy Band. In the Fall of 1925, the Navy Band made its first annual tour. Except for the years of World War II, the Navy Band has made annual tours, playing before countless thousands—appearing in every state in the Union.

Today, the United States Navy Band is composed of approximately one hundred individual artists, each of whom could take his place with the world's greatest symphony orchestras. The Navy Band contains within itself a complete orchestra, which presents the works of the great masters as skillfully as any group in the country. On the other hand, its ultra modern "swingphonette" section gives sparkling personality to light operas and the latest "hit" tunes. Commander Charles S. Brendler, who has conducted the Band since 1941, was the first Navy musician to attain the rank of Lieutenant Commander in the Regular Navy, and now holds the permanent rank of full Commander, by special act of Congress, 1953. He has conducted the Band before tremendous audiences throughout the United States, Canada, Alaska, Puerto Rico, Panama, Jamaica, Haiti, and the Virgin Islands.

Nature's Wheel of Life — The Water Cycle

Directly or indirectly, every phase of our lives revolves around nature's never-ending water cycle. Evaporation, condensation and precipitation are the major cogs in this wheel of water movement. Through the process of evaporation, the atmosphere is continually absorbing water from the surface of oceans, lakes, streams, the soil, and leaves of trees and other vegetation. As the air is cooled, this moisture condenses into clouds preparing for its return journey to the earth. When precipitation falls as rain, part of it seeps into the ground. Soon this water may become contaminated. Another part of rainfall runs off the ground to lakes, streams or other surface outlets. A portion is drawn from the soil by the roots of vegetation. A portion constantly returns to the atmosphere in the form of vapor.

Christ Jesus' triumph over material laws of limitation established the supremacy of God's unchangeable law.

This is a theme to be set forth at Christian Science services Sunday in the Lesson-Sermon entitled "Christ Jesus." Included in the account in John (6) of Jesus' feeding of five thousand men with five loaves and two fishes.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following will be read (273:21-26): "God never ordained a material law to annul the spiritual law. If there were such a material law, it would oppose the supremacy of Spirit, God, and impugn the wisdom of the creator. Jesus walked on the waves, fed the multitude, healed the sick, and raised the dead in direct opposition to material laws.

The Golden Text is from John (3:16): "God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

WOULD YOU LIKE TO TAKE A WALK?

You'll be able to cross the Mackinac Bridge for free on Labor Day—if you walk, that is. The Mackinac-Bridge Authority is cooperating with the International Walkers Association, Inc., for a second annual five-mile trek across the "Mighty Mac" September 7. Up to 500 hikers are expected. They'll walk non-stop from St. Ignace, in the Upper Peninsula, to Mackinaw City, at the south end of the bridge. Those who cross within an hour after the 9 a. m. start will receive a certificate from the walking association.

bridge walk will give folks a chance to see leisurely both the bridge and the straits area.

Also heel-and-toeing it across the bridge Labor Day will be amateur and professional walkers in special heats, beginning at 7:30 a. m. Members of the International Walkers Association, and Amateur Athletic Union seniors and juniors will walk it off for trophies.

Record holders in this serious competition are Erwin Erkfitz, 48, of Detroit, and Bill Gullede, 18, of Battle Creek who paced over the asphalt on June 25, 1958 in 45 minutes, 5 seconds.

The womens record stands at 55 minutes. In the walk last year, 60 per cent of the entrants were women.

The Mackinac Bridge will not be closed to vehicle traffic, Brown says, because only one lane will be used by the walkers.

"CIRCLES UPON CIRCLES" BEGINS TUESDAY, SEPT. 1

"Star light, star bright" A child's nursery rhyme will sparkle into reality during September at the Robert T. Longway Planetarium, Flint Junior College. The show, "Circles Upon Circles", will begin Tuesday, September 1 and will run through Wednesday, September 30.

The show will refute many ancient myths about the world. For instance, people once believed that the earth was nailed together . . . and that the stars were reflections of the nails. Galileo discarded theories of this type by proving that planets revolve around the sun.

The audience will see how the solar system looks a billion miles from the sun. Three basic laws which explain planetary motion will be applied to the solar system.

An added attraction of the show will be September constellations. Public shows are offered Tuesday through Sunday at 8 p. m. Matinee showings are scheduled for Saturday and Sunday at 2 p. m. There is parking space available adjacent to the planetarium, which is located on the Kearsley Street campus of Flint Junior College.

INTERNATIONAL STUDENTS TO BE WELCOMED

University of Michigan alumnae and the International Center will join in "Operation Friendship" to welcome new international students this fall.

A special committee of alumnae has been appointed to work this out with James M. Davis, director of the U-M International Center, according to Miss Alison T. Myers, alumnae secretary. Operation Friendship will be a part of the orientation program for the new foreign students.

The students will leave Ann Arbor for the Cranbrook School for Boys, Birmingham, Sept. 11 and will stay there two days, spending their daytime in seminar and discussion sessions. They will be housed with alumnae families in the Birmingham area.

In all, about 150 families are expected to participate. Before returning to Ann Arbor on Sept. 13, they will proceed to the U-M Dearborn Center where Dr. and Mrs. William Stirtion will entertain them at tea.

There are approximately 1600 foreign students at the U-M

SKI SHELTER CONCESSION TO BE LEASED

The Conservation Department will mail invitations this week for sealed bids on the lease of the ski shelter concession at Porcupine Mountains state park.

Included in the concession are a kitchen and warming, storage, ski rental, equipment repair and ski waxing rooms. More than 28,500 skiers visited the park's ski area during the 1958-59 season. Gross concession sales rose to almost \$32,000, well above the previous high of \$19,839. All tows and the double T-bar lift are operated by the Department and, therefore, ski tow receipts are not included in the concession.

Persons desiring further information and bid proposal forms should write to the Michigan Department of Conservation, Parks

and Recreation Division, Stevens T. Mason Building, Lansing 26. Bids will be opened at 2 p. m., September 15, in Room 412 of the Mason Building.

smoothest ride!

One of the 7 big bests Chevrolet gives you over any other car in its field

Anyone who's ever taken a Chevy over a choppy country road can tell you how lightly Chevrolet's Full Coil suspension handles rough going—and coil springs never squeak, never need grease! Try this velvet way of going for yourself. Once you do, you'll find your own way of saying what MOTOR TREND magazine puts this way: ". . . the smoothest, most quiet, softest riding car in its price class." But the happiest part of it all is that this Full Coil ride is just one of seven big bests—all documented by published opinions of experts and on-the-record facts and figures.

BEST ROOM—Official dimensions reported to A.M.A.* show that Chevrolet sedans offer more front seat head room than all but one of the high-priced cars—more front seat hip room (by up to 5.9 inches) than the "other two" of

the leading low-priced three.

BEST ENGINE—Chevrolet engines have long won expert praise from virtually every automobile magazine, and, just recently, Chevrolet received the NASCAR† Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ECONOMY—A pair of Chevrolet sixes with Powerglide won their class in this year's Mobil Economy Run, topping every other full-sized car. And the winning mileage was a whopping 22.38 m.p.g.

BEST BRAKES—Chevy's bonded-lining brakes are the biggest in their field, built for up to 66% longer life. In a direct competition conducted by NASCAR, Chevy out-stopped both of the other leading

low-priced cars in a test of repeated stops from highway speeds.

BEST STYLE—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

BEST TRADE-IN—Any N.A.D.A.‡ Guide Book can give you the figures on Chevy's extra value. You'll find that Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two." Your Chevrolet dealer will be happy to tell you about a whole host of other advantages besides these seven. Why not drop by his showroom?

CANNED PEACHES KEEP COLOR IF YOU FOLLOW THE RULES

Home-canned peaches should be yellow in color—but sometimes they turn brown. It's an enzyme action, says Roberta Hershey, foods and nutrition specialist at Michigan State University. It happens when peaches are not processed correctly.

Browning may occur on the surface of the pack. This is a sign there was not enough heat to destroy the fruit enzymes—or the heating process was too slow.

You will seldom see this surface browning on peaches that have been hot-packed and processed correctly in a boiling water bath. The quick heating before peaches go into the jar does the trick.

If the entire jar of peaches discolors soon after canning, perhaps the peaches were overprocessed. This is not likely to occur. However, it may happen when you handle too many peaches at one time, so that some are overcooked. Miss Hershey recommends working with small quantities—just enough fruit to fill two or three quarts at one time.

MOTION SICKNESS DRUGS HAZARDOUS FOR CAR DRIVERS

If you're planning on traveling Labor Day weekend—and apparently most Americans are—you should heed the advice of a neurologist at The University of Michigan Medical Center:

The same drugs that prevent motion sickness among the passengers can prove a serious hazard for the driver.

Dr. Russell N. DeJong, chairman of the U-M department of neurology, said drugs like Dramamine and marezine give considerable relief from motion sickness. But their side effects can lower your reaction time and alertness.

That's what creates a hazard for the person at the wheel. DeJong described motion sickness as a "hypersensitivity of centers controlling our equilibrium". When a sensitive person experiences rapid or continued movement, the result can be giddiness and nausea.

NEWS LINERS BRING RESULTS

The drugs help overcome this, but also lower the sensitivity and alertness of your whole body.

DeJong said travelers subject to motion sickness should consult their physicians before risking the drugs, especially if you will be in the drivers seat.

4-H HAPPY HELPERS CLEAN BEACH AREA

The Clarkston Happy Helpers, under the direction of Mrs. Leslie Johnson of Flemings Lake Road and Mrs. Paul Weber of Walters Road, have been cleaning up the swimming beach area at Deer Lake each Thursday morning during the summer. After doing a good job of cleaning up the group enjoyed swimming.

This 4-H group chose this clean-up job as their community project—to help others as well as themselves. People who go there to swim and the Clarkston Village Council appreciate this club's weekly service.
