Boy Scouts Have Thrilling Weekend

Sunday, the 25th of October, at about 7:00 P. M., twenty-eight tired boy scouts and sixteen weary scoutmasters returned to their homes having had a most unusual and exciting week-end canoeing down the AuSable River. Those credited with more than 160 hours of planning and preparing for the big event are Warren McVittie and Dick Becker, co-chairmen of the Outdoor Committee for local Boy Scout Troop 128. They were assisted by Scoutmaster Jack Frost and other assistant leaders. It was an unbelievable week-end that kept the boys in a high state of expectation. The boys knew they were truly on their way when they arrived at First Methodist Church Friday evening to pack the cars. Jack Frost put in a call to the Chick's Restaurant in Pinconning to have the bacon started at 6:30 A. M.

Both the scouts and their leaders made a point of getting to bed early since the following morning schedule would begin with pick-ups between 4:30 and 4:45 A. M. The caravan's schedule allowed no more than a fifteen minute leeway and the schedule was met. After breakfast they drove to Grayling and picked up their canoes at the Jolly Redskin Canoe Livery.

The twenty-one canoes went into the AuSable-cade one minute apart. About seven miles down the river the first canoes beached and began preparations for lunch. Soup and peanut butter sandwiches were served.

The night was spent at a regular campsite. Some 18 tents were pitched; 22 chickens were put on to cook and a hearty supper was enjoyed. It was a cold night but all boys were snug in sleeping bags and bed rolls.

The next morning after a substantial breakfast the campers were off to an early start. They made camp again for a Sunday cubed steak dinner. Despite the cold hands, no one thought of mittens. The changeable weather brought more rain and snow than sunshine.

The trip ended at McMaisters Bridge. There were no mishaps and no tipped canoes. Most every-one returning Sunday night happily staggered to a warm bath at early bedtime, but Warren McVittie worked until late hanging up wet tents in the basement of the Community Center power house, happy that all his hours of planning had worked well and looking forward to more cold weather camp-outs.

BE THE HUNTER — NOT THE HUNTED

The local director of health had this warning today for all hunters in Oakland County.

Take care that you yourself aren't "bagged" by carbon monoxide gas while on your hunting trip this season.

"Your cabin, house trailer or even your automobile can become your private gas chamber if you aren't careful," Dr. John D. Monroe warned. "At least six persons died from carbon monoxide in cabins last year and three died just recently in a small house trailer of the type used by hunters. Autos accounted for 28 accidental carbon monoxide deaths in Michigan in 1958."

He said poisonous amounts of carbon monoxide, which is a colorless and odorless gas, can be formed whenever carbon fuels or other carbon-containing materials aren't burned properly.

"To protect yourself wherever you stay, make sure the burners on space heaters, water heaters, appliances and similar devices are adjusted properly," Dr. Monroe urged. "Give special attention to the air intake to make sure it's large enough to supply all the air the burner needs. Then check the vent pipe to see if it's of adequate size and goes straight up and out the roof if possible. If you have any doubts, check with the local health department."

"In almost any place and at almost any time, we are the hunted and carbon monoxide is the hunter," Dr. Monroe said. "Poisonous amounts of the gas

SAVE 100!

There is a grim probability that 500 persons will die on our Michigan highways between now and January 1. Among them would be 65 children under 14, 70 older teenage boys, 20 older teenage girls. They would average out about 60 mothers and about 155 fathers, 85 nice old grandmas and granddads, and 45 others of no special classification.

They are all walking around now doing the things they always do, walking and driving. The people who will contribute in some way to their death are also going about their daily rounds, building the chain of attitudes,

GAYETY FOR CHILD'S ROOM

Cheerful surroundings have more appeal to a child than fine quality furniture. Jane Graf, home furnishings specialist at Michigan State University, suggests that old pieces of furniture can be refinished and gaily painted for the child's room.

The child may like to help choose colors, too. Miss Graf notes that he won't limit himself to pink and blue. Very often he will prefer bright oranges, pinks, yellows or reds.

With many bright accents, background color of the room should be calm. If the room is small—and most bedrooms are—consider doing most of the background area in one color. This would include walls, rugs, curtains and even some of the furniture. The rug can be a darker value of the wall color but still the same color. This one color background creates a feeling of order and neatness.

Just as in other rooms, bedroom colors should be kept to a minimum. Strange as it may seem, painting every piece of furniture a different color will not make the room more gay. It has the opposite effect—with a look of clutter and confusion. And don't overlook those accents of color added by books and toys in a child's room.

Miss Graf adds that if the background is kept simple, decorative touches can change more easily. As the child has new interests and hobbies he may want to change the "theme" of his room to match.

Last week I had a bad accident due to my car's faulty brakes and two smooth tires. Fortunately, no one was killed or seriously injured, but that was strictly a matter of luck. How much Auto Liability insurance should a responsible car owner carry these days to be fully covered?"

WITNESSES TO HOLD CONVENTION IN OXFORD

Jehovah's Witnesses of the Drayton Plains congregation are preparing to attend a three day area convention at Oxford, Michigan October 30 thru November 1, it was announced today. More than 1500 delegates are expected to attend from 21 congregations in eastern Michigan, including Pontiac, Milford, Mt. Clemens, Port Huron and Bad Axe.

Mr. W. F. Strong, local presiding minister in making the announcement said the assembly will aid those attending to understand the meaning of the tense world situation in the light of Bible prophecy.

"The theme of the program, Do the Divine Will", explained Mr. Strong, "Emphasizes the efforts of Jehovah's Witnesses to inform all people of the need to learn the Divine Will now in order to live thru the world crisis just ahead into a peaceful, trouble-free new world."

Mr. Strong said the principal speaker of the assembly will be Mr. Peter D'Mura from the World Headquarters of Jehovah's Witnesses in Brooklyn, New York.

His major address Sunday will be "When Is God's Will to be Done on Earth?"

Serving at the convention on the Administrative committee will be Mr. A. J. Kizer, Mr. Richard Baugh, and Mr. E. C. Thornton, all presiding ministers in the Pontiac Congregations.

Some 450 from the Drayton Plains and Pontiac congregations expect to attend the conclave, according to Mr. Strong.

Jehovah's Witnesses meet locally at Kingdom Hall 4400 Walton Blvd., and 600 E. Pike Street. They are organized into congregations in 175 countries worldwide.

FARM CENSUS TAKERS HAVE TRAINING COURSE

Census takers for the local area in the 1959 Census of Agriculture have been appointed and will begin an intensive training course on Wednesday October 28, 1959 in preparation for the start of the field canvass on Monday, November 2, 1959 it was announced today by Crew Leader Kenneth Aldrich.

The training session will be held at the East Huron Post

Office, Pontiac and will be conducted by the crew leader who recently attended a five day census training course.

The training course will cover the use of the Census questionnaire, Census definitions, interviewing, and map reading. Emphasis will be placed on the importance of locating every farm and obtaining complete and accurate information. The census takers will conduct some actual interviews as part of the training.

Census takers scheduled to take the training include:

Carl A. Thorsberg, Carol L. Edwards, Arline E. Hamilton, Wenona P. Woods, Emil J. Temming, Iris G. Cox, Beatrice M. Armstrong, Leta W. Beemer, John L. Hall, Patricia Haslock, George W. Berz, Stephen Garrard, Kathryn E. Killockey.

Doctors at The University Hospital in Ann Arbor are still fighting to save conservation officer Gary L. Dutcher's right eye.

Dutcher was shot in the face early last week by a Jackson teenager who said he mistook the officer for a rabbit.

The Jackson Citizen-Patriot recently paid an editorial tribute to Dutcher for his level-headed reactions to the accident. In part, the editorial read:

"It takes considerable will power for a man, after being shot in the face by a hunter and then seeing him and his party running away, not to shoot at them but rather fire a warning shot to halt them.

It takes quite a man to walk to his car instead of waiting for an ambulance.

It takes quite a man to radio to state police a comparatively calm report that he had been shot and was being driven to the hospital by the hunting party which caused the injury.

It takes quite a man to abstain from being vindictive despite great pain and to tell his superiors that he didn't believe the shot was intentional.

Officer Dutcher reacted in such a way that he has earned

for himself and the Conservation Department the respect held for them by thinking citizens.

It is indeed a tragedy that such a fine officer may lose the sight of an eye because of the carelessness of a hunter.

But it, too, is good to know that conservation officers are so well trained that they can handle themselves with restraint and retain good judgment even under extreme pain and pressure.

Yes, Gary Dutcher must be quite a man. The Conservation Department and the people of our state should be proud of him."

ALASKAN FARMING TERRIBLY TOUGH

Don't let your yen for Alaskan farming get the best of you—at least until you've tried your hand at farming in one of the first 48 states.

This advice comes from Dow V. Baxter (PhD), University of Michigan professor of forest pathology and botany. Baxter has spent 18 summers in the 49th state. While he's an enthusiast about the area on a number of other counts, he cautions the prospective pioneer farmer:

"If you can't make good at farming here, the chances are that you won't make a success

of it in Alaska.

"Successful farming in Alaska is awfully tough for a number of reasons," he explains. "Markets, as we know them, do not necessarily exist because of population demands and competition from state-side produce. The expense of farm machinery and fertilizer necessary for best use of the land is great. Any cooperative type operation fails because a crop must be harvested precisely on time—not when the farmer manages to get the use of the 'community' equipment.

"The seasonableness of all Alaskan activity is also a major factor. The farmer might need a lot of help in the summertime for which he will have to pay high wages. In winter, however, it will usually be necessary to find a job to supplement his income. This is very hard to do within the borders of Alaska.

CONGRESSIONAL DINNER FRIDAY, OCTOBER 30

In the year 1899 William Jennings Bryan came with the swiftness of Halley's Comet into Oakland County barnstorming his way on a trail that would lead to the United States Presidential nomination.

With color and magnificent oratory he jolted local Democratic

Party members into submission when he spoke before a political fund raising dinner in the village of Pontiac.

And now, some threescore years later a man who has thoughts like that of William Jennings Bryan and who likewise is known for his prolific speech will come with the speed of a Twentieth Century Jet into Oakland County and will address Democratic Party members during a fund raising dinner in the city of Pontiac.

United States Senator Hubert Humphrey has accepted the invitation of the Oakland County Democratic Committee to appear as Guest of Honor at their 5th Annual Congressional Dinner on Friday, October 30.

"We are pleased that Senator Humphrey will be with us again. He appeared previously at our 1956 Congressional Dinner. County Democrats anticipate a stellar success for this year's fund raising dinner in preparation for the 1960 Congressional election here in the 18th district," stated the Party's County Chairman Carlos G. Richardson.

James M. Ginn, a young, active Democrat from Franklin Village, was appointed by the county committee to serve as Chairman of the Congressional Dinner. The affair will be held in the Elk's Temple, 114 Orchard Lake Ave.

nue, Pontiac.

Assisting Ginn as sub-committee chairmen are: Tickets, John Kronenberg and Lawrence Best of Royal Oak; General Arrangements, James Haddrell; Decoration, Mrs. Bess Wetherston and Mrs. Phyllis Newhouse; Seating Arrangement, Mrs. Jack Moskowitz; Reception, Mrs. Joseph McCall and Mrs. Robert Fenton; Publicity, Mrs. William Clemmons; Program Book, William H. Merrill.

Ticket purchases may be made at the County Democratic Headquarters, Roosevelt Hotel in Pontiac or by telephoning Federal 4-0546.

FRIENDS, Romans, customers, lend us your ears: We come to the subject of appliances; their usefulness is unquestioned, their presence in our homes is a comfort. We have sent many appliances to Detroit Edison to be strengthened and repaired; their terminals have been restored, their wires adjusted, their rotors replaced.

MANY times these old friends return to us, ready for battle again with their owners, only to sit on a shelf for many days - even weeks. The local ironmonger tends them lovingly until they are called for, but often space is at a premium and he knows not where to place them.

IRONS, toasters, fry pans, hot plates, clocks, coffee makers, ad infinitum, ad infinitum. Please come for them.

SAVE 100 !
(continued from page 1)
experiences and habits that will climax in this one fatal experience.
Can't we get through to some of these people somehow before the point of no return? Couldn't we somehow re-invigorate our channels of communications gently nudge some, jolt others, out of the way in time? Do we have to have them all die?
Could we get through the thought barrier to even one out of five? Could we save 100? Thirteen bright-eyed kids, eighteen young people, the hope of the future, forty-three mothers and dads, the backbone of the nation and seventeen matured people who should be allowed to enjoy the balance of their lives in peace.
Can we do it- Will you try?

fresh new beauty
from the only car with
Wide-Track wheels!

A car is a living thing. And all living things must change. This is why the creative car builders of Pontiac took the proved principle of Wide-Track Wheel Design and surrounded it with fresh, exhilarating, totally new beauty for 1960. The prow is styled for excitement. The horizontal bars bear the artistry of the classical. The perfect profile comes from just-right proportion, unity, rhythm. The clean, graceful back contributes character where other cars seem only to reflect confusion.

Its effect upon your attitude toward driving and owning cars can be quite radical. For you cannot possess this automobile and be anything less than lighthearted. You cannot control it and be anything less than sportive about driving. You cannot be seen in it and be anything less than buoyantly proud.
