Everyone will want to see the movie at the Methodist Church on Saturday night at 7:30. A black and white film will tell the story of a lovable 2½ year-old who causes a dilemma when he toddles to his grandmother's hauling a little red wagon filled with real, green money. There's not a moment without gales of laughter. Starring are Tom Ewell and Julie Adams. Enjoy this story with your family.

The movie is sponsored by the Margaret Richards Circle of the Methodist W. S. C. S.

MISSION STUDY AT DAVISBURG CHURCH

The Davisburg Methodist Church will sponsor a church-wide Mission study on Sunday, January 17 and January 31, from 3:00 to 8:00 P. M.

Sunday, January 17, the film on Africa entitled "End to Darkness" will be shown, refreshments will be served and then study groups will be conducted for children, youth and adults.

Sunday, January 31, the Reverend Louis Johnson of Africa, who is at present itinerating on the Flint District, will be the speaker at 5:00 P. M.

Reverend Johnson was born in Dayton, Kentucky, and reared in Fort Thomas, Kentucky. He attended Kentucky Wesleyan College at Winchester, Kentucky and went to Seminary at Canler School of Theology, Emory University, Atlanta, Georgia. At the completion of three years of seminary studies he was married and joined the Kentucky Annual Conference of the Methodist Church. After a year in the pastorate he became a chaplain in the Army, serving one year in the states and two years in the European Theater of Operations, during World War II. Following this service Reverend and Mrs. Johnson were assigned to First Methodist Church, Middlesboro, Ky., where they served three years.

Then in January 1948 Reverend Johnson and his wife were commissioned as missionaries of the Board of Missions of the Methodist Church and were sent to LODJA, Belgian Congo, Africa.

After one year's study of the local African dialect - "Otetela", Reverend Johnson was appointed Conference Youth Director, and with his wife translated materials and developed a Youth program for the African people of the Atetela Tribe. The young people were pleased that they could serve their Lord, and as they gave themselves to this task they named their new organization, "This Generation of Christian Youth."

A second responsibility in the missions program was added, and that was directing the training of African youth in the scattered first and second grade pastor's elementary schools held in their churches, and in the organizing and directing of Rural School Centers on the elementary level, preparatory to bringing the students on to the other schools on the mission station where they could obtain more advanced training.

Along with the school work was the joy of leading the pastors of the district, as District Superintendent. This involved training of the pastors and laymen in the meaning and work of their Church. On this district there has been since 1954 a spontaneous expansion of the church, resulting in great social, moral and ethical changes in the lives of the people as thousands of these tribesmen have become Christian.

During this period of extended leave, Reverend and Mrs. Johnson and their two daughters are making their home at 4204 Alton Road, Louisville 7, Kentucky.

Dance Quartet At Pierce Jr. High

The Rod Strong Dance Quartette which is appearing at Pierce Junior High School, Hatchery at Crescent Lake Roads, Waterford Township on Saturday, January 16 at 8:15 P. M., under the auspices of the Waterford Township Civic Music Association, is headed by Rod Strong, who also did the choreography, and features a stellar company of Charlotte

Rod Strong Dance Quartette

Winson, Marcia Helpin, Judith Panzer, and Rolf Barnes at the piano.

Rod Strong is a dancer with great imagination and wit as well as a very personalized approach to rhythm and movement. Drawing on a full and diversified background that extends from classical to modern jazz dance, he has arranged a program that is uniquely his own in style and composition. Some are abstractions of movement and percussion for sheer sake of dance, others are comments on life and human parables in dance form. All are a result of a great love of dance and have evolved from Mr. Strong's many travels and performances in this country and Europe.

Charlotte Winson, whose non-professional name is Mrs. Rod Strong, has been dancing since she was thirteen, a number that hasn't at all proved unlucky. She has been kept jumping, both literally and figuratively, from the Broadway revival of "On Your Toes" to last year's TV spectacular "Wonderful Town," starring Rosalind Russell. Miss Winson's flair for jazz and contemporary dance contribute invaluable versatility to the Rod Strong Dance Quartette.

Marcia Helpin is originally from Boston where she started her dance training with Harriett Hocter. She arrived in New York to study at the School of American Ballet and was signed to dance on the Milton Berle and Ed Sullivan TV shows. From this came offers to do the famous "Cha Cha" number in "Bells Are Ringing" and most recently a national tour as lead dancer in the Children's Dance Theatre.

Judith Panzer has performed leading dance roles in presentations of such shows as "Song of Norway" and "Finian's Rainbow" but is happiest when dancing classical roles as she has with "Ballet Attique." Her sensitivity to style and interpretation combines to make her a young dancer with a most valuable future.

Rolf Barnes' thorough academic background as a pianist includes a Bachelor of Music, Magna Cum Laude, and a Master of Arts in Music. He has composed and played original works on radio and TV, and has soloed with symphony orchestras. He has been closely associated with the dance, having played for Martha Graham, Jose Limon, and Paul Draper. For the past three seasons he has been touring with Mr. Strong throughout America and abroad.

Mothers' March Thursday, Jan. 28.

Thousands of mothers of Oakland County are joining two million women across the nation in a campaign for facts and funds for the New March of Dimes.

The announcement from the Reverend G. Burton Hodgson, Oakland County chairman of the New March of Dimes, also disclosed that the county chapter had spent \$355.87 aiding victims of paralytic polio in the Clarkston area during 1959.

The traditional Mothers' March will be held Thursday evening, January 28, according to Mrs. Everett Dennis, of 5021 Waldon Rd., Clarkston Area Chairman.

"This year our Marching Mothers will ask for information along with a contribution," Mrs. Dennis said. "Both are needed for the National Foundation's fight against birth defects, arthritis and polio. One of these crippling attacks one out of four families in the United States."

In addition to collecting voluntary contributions to the New March of Dimes, Mrs. Dennis explained, the mothers will present each household with a copy of "Door Count," a concise, fact-finding folder in which each family is asked to indicate if any of its members has a birth defect, arthritis or polio. Additionally, the family is asked how many members have had three or more Salk vaccine shots.

Mrs. Dennis stressed that each family record will be in strict confidence.

"We hope the Mothers' March door count will focus family and community attention on the majority of Americans still without Salk shot protection against polio," Mrs. Dennis said. "We have found that neighbor calling on neighbor is one of the best ways to remind the unvaccinated to start their Salk shots."

In some areas, "Door Count" will be distributed prior to the Mothers' March and picked up that night.

"Although the house-to-house poll is in no way planned as a statistically valid survey," Mrs. Dennis said, "the sum of information taken in the door count will help provide a working estimate in our county of the number of persons suffering from arthritis; the number born with birth defects and the number who have been victims of paralytic polio."

"The tabulation will prove valuable in guiding the Oakland County Chapter of the National Foundation in planning local programs to aid the disabled."

"At this time, there are very few local statistics available on the incidence of birth defects and arthritis," Mrs. Dennis said. "For the country as a whole, we know that each year about 250,000 babies are born with one or more significant birth defects and that more than 11,000,000 Americans suffer from arthritis and the rheumatic diseases."

Mrs. Dennis said that the New March of Dimes is combating birth defects and arthritis with the same effective weapons used to conquer paralytic polio: medical scientific research to find causes, cures and preventives; patient aid for medical care and training for medical workers needed to treat the sick and disabled.

D. A. R. CHAPTER HEARS SPECIAL SPEAKER

Forty-five members of the General Richardson Chapter of the Daughters of the American Revolution met Thursday for their regular meeting and luncheon at Ted's Restaurant. The occasion was the 60th anniversary of the chapter's organization. Past regents were honored, and Mrs. Harry Going, a past regent herself, outlined briefly the work of the D. A. R. and its many objectives, chief of which is patriotism. She named the ones present at the time. They were Mrs. Edward Howlett, Mrs. E. G. Clark, Mrs. Harry Chapman, Mrs. E. D. Benjamin, Mrs. Frank B. Geris, Mrs. Allan H. Monroe, Mrs. Robert Wilson and Mrs. Bradley D. Scott. The current presiding regent, Mrs. L. L. Underprivileged children of the poorer mountain districts attend here, some of them boarding and others coming daily. All need help from individuals or organizations like the D. A. R.

1960 CENSUS OFFICE OPENED IN PONTIAC

MICHIGAN BELL

"WILL YOU ASK YOUR MOTHER to call me when she comes in?" said the voice to six-year-old Johnny, who had answered the phone. "My number is Capitol 2-1853."

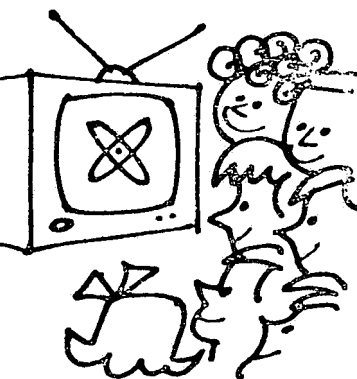

"All right," said Johnny. "I'll get a pencil and write it down."

There was a long, long pause.

"Are you there, Johnny?" the caller finally asked.

"Yes," came Johnny's troubled voice. "But I'm sorry ... I don't know how to make a capital two."

REMEMBER HOW GOOD it felt when you were in school and got to see a movie during class time? It was almost like going to a "show." Youngsters who are in school today will be getting that feeling more often, thanks to educational TV.

But instead of seeing a western or their favorite mystery, the kids may be watching a play by Shakespeare or seeing how an atom behaves. Educational TV, which uses telephone facilities to transmit the programs into the schools, has proven to be a valuable teaching aid.

ALEXANDER GRAHAM BELL MADE IT in 1950. The Hall of Fame, that is—a tribute to our nation's immortals. Because time and memory are fleeting, it might be interesting for you to see how familiar you are with these Americans who are also in the Hall of Fame. See if you can match their names with their professions:

- 1. Horace Mann A. author
2. Sidney Lanier B. statesman
3. William T. G. Morton C. educator
4. Patrick Henry D. dentist
5. Thomas Paine E. poet

Here are the answers. If you got four out of five of them, consider yourself an expert in United States history.

Mr. William C. Hintz will be supervisor of the district office. He will direct a force of 37 crew leaders and 644 census takers in Oakland County.

Taking the 1960 Census nationally will require the services of 160,000 enumerators, 10,000 crew leaders, and 400 district supervisors, all temporary workers. The district supervisors, working under the general direction of the permanent regional field directors, are responsible for all phases of the census in their districts.

Prior to the start of the census, all households will receive in the mail an Advance Census Report Form, a new census-taking device which is designed to speed up the field canvass and provide more accurate statistics.

NATION'S "SECOND LADY" TO BE GUEST IN OAKLAND COUNTY

Mrs. Richard M. Nixon, the nation's "second lady", will be a guest of Oakland county Republicans at a reception February 15, it was announced by Arthur G. Elliott, Jr., County Chairman.

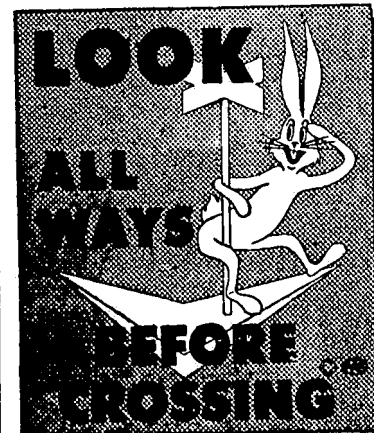

Mrs. Nixon's visit to Oakland sponsored by the Royal Oak Republican Women's Club in cooperation with the newly established Oakland County Council of Republican Women's Clubs, will make her only solo appearance in a busy one day stop in Michigan.

Vice President Nixon is scheduled to speak in Detroit at a morning meeting sponsored by the Detroit Committee for Seven Eastern Colleges and at an Economic Club luncheon. In the afternoon, when her husband is closeted with State Party leaders, Mrs. Nixon will greet an expected several hundred persons gathered to honor her in Oakland.

News of Mrs. Nixon's acceptance of the Royal Oak Club's invitation spread quickly throughout the county Party organization. "Naturally, we are very excited about this," enthused Elliott. "Today she is the second lady of the nation; next year, she'll be the first! We are extremely thrilled and very, very honored."

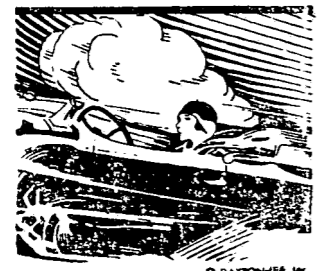

Over the next 10 years American advertising will grow by as many dollars as it reached in all the years since Benjamin Franklin (180 years of growth in 10). Even assuming no inflation, the level will be raised from today's \$11 billion to \$22 billion.

VENUS NOT COY WITH VITAL STATISTICS

Venus, the planet which is sending us new information about itself via radio signals, can be easily identified, says a University of Michigan astronomer.

Associate Prof. Hazel M. Losh (PhD) says that Venus is the brightest planet in the morning sky. None of the bright planets are visible in the evening during this month she adds.

Venus, a "morning star" for quite some time, rises about three hours ahead of the sun, she explains. "It may be found easily in the southeastern sky during the early dawn hours because of its extreme brightness.

Venus, long considered a "twin" of earth, emits natural radio signals which have allowed scientists to learn that it has a surface temperature of 585 degrees, far too hot for any life or water to exist.

"This information is extremely interesting and surprising," she asserts, "for it has long been believed that Venus was comparable to the earth in diameter, mass, surface gravity, atmosphere and other characteristics and that it probably was the one planet most likely to support life as we know it.

"Jupiter also is receiving similar attention. It is a bright planet, also rising in the southeast about two hours before sunup. It is not quite as bright as Venus."

On the morning of January 21, Jupiter will approach Venus, with the two planets about one degree apart, she says. "On the morning of January 25, the waning crescent moon will be very close to both planets in a decided configuration, which once seen will never be forgotten.

"Identification of Jupiter should be of considerable interest, because intense scrutiny of the radio telescope has indicated the presence of a radiation belt highly hazardous to space vehicles entering or leaving its atmosphere."

CONGRESSMAN BROOMFIELD EXPRESSES THOUGHT ON CONGRESSIONAL PAGE BOYS

Congressional page boys will be better educated boys if Congressman William S. Broomfield (R-Oakland County) has his way. In a letter to the Chairman of the House Administration Committee, Broomfield urged that:

1. Pages be selected through nationwide competitive examinations instead of the present "spoils" system of party patronage.
2. Educational standards be raised "considerably" with a greater emphasis upon government and history.
3. End all racial or religious discrimination in selection of students for the page school.
4. Provide adequate supervised housing for students instead of permitting them to live in private homes scattered throughout the city.

Broomfield said in his letter that the Capitol Page School "should be one of the most advanced in the Nation. Where else do boys have an opportunity to see history in the making, to meet with key members of the House and Senate and to sit in on the ground floor of historic legislation?"

But many of the best boys never receive the chance to attend, said Broomfield. "Because selection of students is made by the political party in power with little thought of academic achievement, we are missing out on an opportunity to train young men who might be interested in following politics as a life's career."

There is little incentive for Capitol pages to study, said Broomfield. "Because they are selected through the 'spoils system', the bad students are min-

gled in with the good. Those who want to study and to take advantage of their unique opportunity find themselves in class with those who are not particularly interested in anything except having a good time."

Broomfield said there is an "unwritten law" against appointing Negroes to the Capitol page school. "This certainly isn't a very good lesson in democracy for the many foreign visitors we have in the Nation's capital. We should do away with this provision and offer equal opportunity to all youths in our Nation who want to come to Washington to study."

At present, page school students are not housed in a dormitory nor are they supervised after work and school hours. "This is the only school I know in which students between the ages of 14 and 18 are permitted to roam the streets of a big city without supervision. There is no curfew, there are no regulations as to when boys must be home, there are no enforced study periods."

"Any student who can work under these conditions is the exceptional one. It is remarkable that any of these boys come out with any sort of education."

Broomfield proposed that the 80 Capitol page school students be quartered in the Congressional Hotel, adjacent to the House Office Buildings. The hotel is owned by the Federal government and leased to a private firm. Twenty-four pages are employed by the Senate, 50 by the House, and six by the Supreme Court.

"Proper dormitories could be provided, and the students could be supervised to be sure they are in their rooms at a reasonable hour."

The page school should be attracting the "cream of the high school crop, especially those boys who have a decided interest in history, politics and government," said Broomfield. "We should make the page school a living lesson in democracy, rather than a tool of partisan politics."

Seymour Lake News

On Monday a lighted clock was placed on the Seymour Lake Methodist Church in memory of the late Mrs. Iva Miller.

The building known as the Seymour Lake Country School was destroyed by fire late Saturday night. The fire seemed to have started on one corner of the building but the origin has not been determined.

James Porritt, son of Reverend and Mrs. Marvin Porritt, was married on January 2nd to Miss Mary Ann Murphy. A reception was held in the home of her parents, Mr. and Mrs. Thomas Murphy, at 842 Tyrone Drive, Waterford Township.

I am not afraid of tomorrow, for I have seen yesterday and I love today.
