

PUBLIC TO HEAR FIRST-HAND FACTS ON FOREIGN AID

Experts from Michigan State University and other institutions who have been overseas under sponsorship of the State Department will bring their experiences to an all-day Institute, on First-hand Facts on Foreign Aid, on Monday, March 28, at MSUO in Rochester. The program is being co-sponsored by the Office of Continuing Education of MSUO and the eight Leagues of Women Voters of Oakland and Macomb counties.

Heading the planning committee are Dr. Lowell Eklund, Director of Continuing Education, MSUO, and Mrs. Walter N. Jackson, Foreign Policy Chairman of the Birmingham League of Women Voters. This Foreign Aid Institute will culminate a year of intensive study by Leagues all over the country and has as its objectives the high lighting and dissemination of this information through the community.

"We are especially inviting international-relations chairmen of clubs and organizations," said Mrs. Jackson. "As official representatives we hope they will report these first-hand facts on our newest, most positive tool of foreign policy back to their groups." Chairing the publicity section of the planning committee is Mrs. E. L. Perlmutter, Foreign Policy Chairman of the Oak Park League. She is marshalling publicity chairmen from the Boards of the eight Leagues concerned. Procuring speakers is Mrs. Clinton Russell, West Bloomfield League. Mrs. Walter Zimmerman, Royal Oak, will handle advance registration and the funds collected from the three dollar charge.

Mrs. Gene Giulioli of Ferndale-Pleasant Ridge, with the help of the eight publication chairmen, will assemble a full table of materials for next year's League study of foreign economic policy. The Birmingham League is providing mimeographing and organization. The Hostess League will be the new and still provisional Rochester League. Under its Foreign Policy chairman, Mrs. Joseph Fox, Rochester will provide name tags, hostesses and will work with MSUO on the luncheon included on the day's program. "We would like to emphasize," said Mrs. Jackson, "that this program is open to the general public, and we hope that in the interest of good citizenship we will have a large attendance on this occasion. We invite those interested to contact Mrs. Zimmerman or MSUO to insure meeting and luncheon reservations."

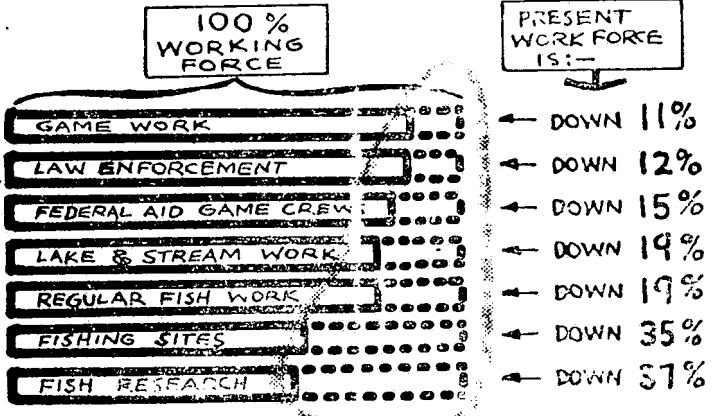

ed last October after the Department of State had set up our plan of operation in agreement with Federal officials." In nearly all cases (with the exception of persons whose original number ended in four zeros) Michigan boat owners were permitted to retain their last four digits as part of their number under the new law. This made it possible for watercraft owners to use four of the six original numbers they had affixed or painted on their boats. Thus a number like 137677 could now become something like MC 7677AC. Current registrations will be good for three years and will expire on December 31, 1962.

Pheasants are essentially seed eaters. They rarely eat the buds of shrubs and trees as many upland game birds do.

Make Shelves Moveable
Adjustable shelves provide efficient storage. Home economists at Michigan State University say "arranged" storage uses the space you have to best advantage. Shelves can be moved to accommodate everything from dishes in the kitchen and bedding in the linen closet to medicines in the bathroom.

Hunting is not a particularly dangerous sport. According to insurance statistics, hunting rates seventeenth in terms of accidents per 100,000 participants. On the basis of accidents it is preceded by football, baseball, horseback riding, skiing, boating, skating, swimming and several other popular participant sports.

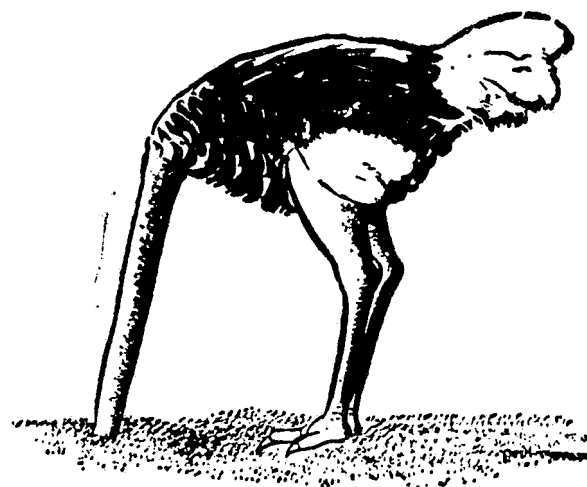

Less \$\$\$s Mean Lost Conservation

LOST CONSERVATION!

The financial plight of Michigan's Game and Fish Protection Fund has wedged a wide gap in the ranks of the Conservation Department's working force, as graphically shown above. Equally alarming are additional cutbacks and deferrals which loom ahead for the state's conservation program unless fishing license fees are increased. Hunting and fishing license sales are the only sources of revenue for a large share of this program. As they go, so goes conservation in Michigan.

You Can't Hide From Some Hard Facts!

When it comes to safety, convenience and availability, there is no investment on the market today that can measure up to a savings account in a bank....our bank.

HELP YOUR CHILD TO ENJOY MUSIC

Joey may appear very intent upon his block-building. At the same time he may be listening to the words of the latest "hit" tune blaring forth from the radio. Pretty soon he's repeating the words himself.

Betty Garlick, head of the Spartan Nursery School at Michigan State University, says you can use this same kind of indirect teaching by singing as you work or when you give young Joey a bath. For pre-school children, the teaching of songs should never be a formal procedure.

Miss Garlick suggests you introduce children to many different types of songs — nonsense songs, hymns, and traditional favorites like "Old Suzanna."

She adds that it's never too soon to acquaint children with the music of the masters. This can be incidental, too, with no forced listening. Carefully chosen radio and television shows introduce good music. And there is a wealth of music in record form.

"On the spot songs" related to a familiar experience delight children. When Joey is on the swing, for instance, you can make up a song about "swinging, swinging, now we go up, now we go down, up to the sky, back to

HARE INFORMS ON WATERCRAFT REGISTRATION

Although most Michigan watercraft owners won't be getting their boats into the water for a couple of months this is a reminder to many of them that

FASCINATING FACTS ABOUT NATURAL GAS

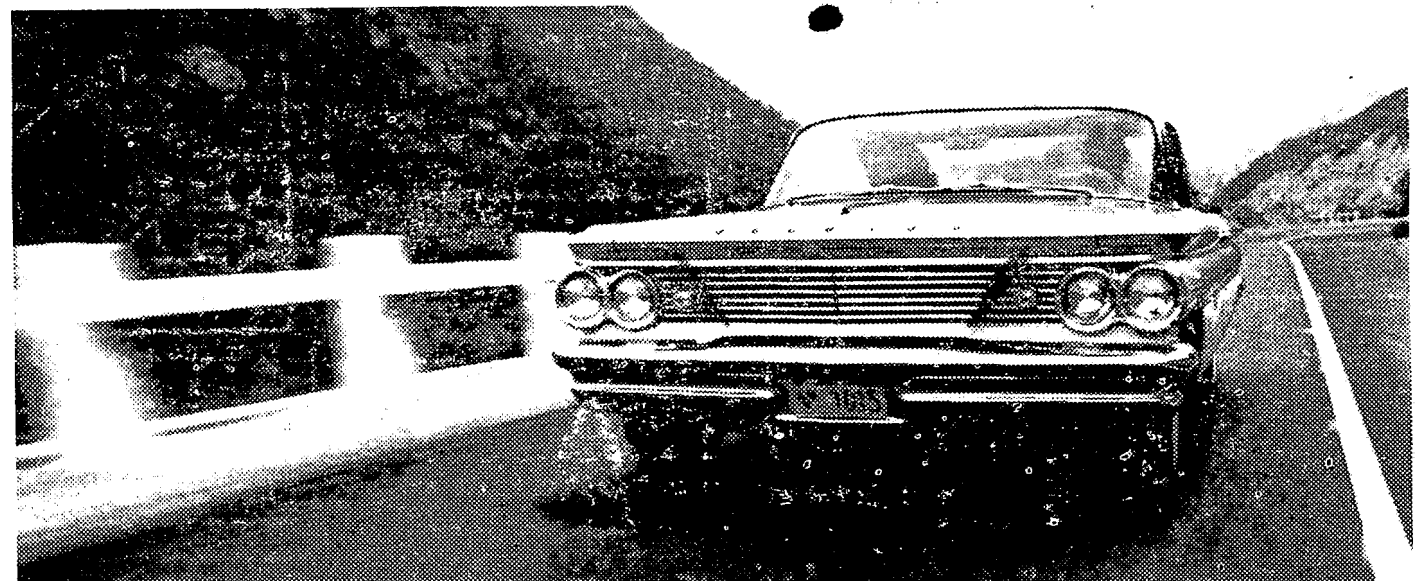

Enterprising Americans
After the first practical use of Natural GAS, it was clearly evident that this Stored Sunshine was a vital asset to home and industry. The fact that it could only service communities near the productive GAS fields, spurred engineering experiments and private enterprise to overcome transmission obstacles.

"Sunshine Subway"
Now the super abundance of Natural GAS in a few states can be shared by all states! Engineers were 100 years figuring out how to transport GAS just 100 miles - yet 30 years later, it is transported 2,000 miles! Pumping and transmission - two major problems - have been successfully solved.*

* In 1870, a wooden pipeline 25 miles long was an accomplishment! At the beginning of 1959, the industry had enough miles of pipeline to circle the earth 22 times! In Consumers Power Company's area alone, there are 7,000 miles of pipeline.

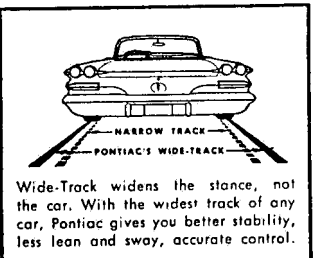

GET THE FACTS - BETTER YET - GET GAS!

PG-6889-21

PONTIAC PERFORMANCE ON REGULAR GAS!

Tempest 425E is Pontiac's lusty, high-spirited economy V-8 that prefers regular gas. (It's optional at no extra cost on all series: Catalina, Ventura, Star Chief, Bonneville.) You save the difference between the price of regular and premium—about a dollar a tankful—but you get the kind of performance you expect from premium gas.

Pontiac—the only car with Wide-Track Wheels!

GET INFORMATION ON DISABILITY INSURANCE

Suppose you were middleaged, unemployed, sick, with a wife, two little girls and a disabled son to support. It's a grim picture, isn't it? It's the story of John Miller as told to his security office.

John Miller (two and a half) was working for one of those companies that make imitation stone. His job was to shake the color into the mortar to make the "stone" look natural. He also worked on a scaffold putting lath on the outside of buildings. One day on the job his legs crumpled

under him and although John doesn't really know what's wrong with him, it makes him unable to work on scaffolds. John's life has been a series of jobs lost because of his health problems. Double hernia stopped a mill job where he operated a lift jack. Flare up of Bright's disease first noticed at the age of two has been the cause of losing other jobs such as working in tobacco here and in Canada.

John's health got so bad that for the last few years, he has been unable to do anything. His mother takes care of the children and John while his wife has found a job. She is not able to make much and their financial problems worry John all the time.

John heard about the social security disability insurance payments after age 50 and he brought his problems to the social secur-

ity office. He found that after submitting medical evidence of his disability, he could be paid every month for himself, his wife and children. Even that disabled son who is over 18 will get monthly payments. With the small wages his wife makes, John's family can be independent again.

One small footnote: John's payments can only be paid for a year back. If he had filed earlier, he could have been paid before that. He lost some payments that were due him if he had only inquired.

Are you 50 years of age? Are you unable to perform any type of substantial, gainful work? If your answer is yes to both these questions and you have not inquired at your social security office, you may be losing up to \$116 a month for yourself and more for your family.

Some Fabrics Shrink

The new spring cottons may tempt you to buy four yards, then hurry home to cut out a new dress. Home economists at Michigan State University suggest you take time to check the label on the bolt for shrinkage. If the fabric may shrink more than one per cent, shrink it before you cut it.

The pocket gopher is one of the few animals that can run backward as fast and as easily as it can move forward.

Legal Notices

RONALD A. WALTER, 5 Main St., Clarkston, Michigan State of Michigan ss

Suit pending before Verne C. Hampton, a Circuit Court Commissioner for Oakland County, Michigan, between Juanita B. Gottschall, plaintiff, and Myrtle B. Kegley, also known as Myrtle Fahnestock, defendant.

It appearing by affidavit on file that said defendant resides outside the State of Michigan.

It is ordered that said defendant appear at the Court room of the undersigned at 1004 Pontiac State Bank Bldg., Pontiac, Michigan, at 10 A.M. on the 15th day of March, 1960 to defend the complaint filed in this cause, or judgment will be entered by default, and that this order be served or published as required by statute.

This suit of Juanita Gottschall is brought to terminate the interests of the defendant in a certain land contract of purchase for the sale of premises described as follows: Lot Nine of Wikom-Bigelow Addition to the City of Pontiac, Oakland County, Michigan, according to the recorded plat thereof.

Date: Feb. 19, 1960 Verne C. Hampton Circuit Court Commissioner

AIR FORCE SEEKS QUALIFIED PERSONNEL

Persons desiring enlistment in the United States Air Force no longer need to wait a period of from two to three months as in the past two years. Quota restrictions have been eased assuring persons having no prior service of almost immediate enlistment, T/Sgt. Charles A. Ahnen, local Air Force recruiter stated today.

Air Force Qualifying Enlistment tests to determine the applicants qualifications for specialized training are now given at the Pontiac office. This test can best be described as an aptitude test designed to show the examinees capability for absorbing various types of specialized technical training.
Test results show an applicants potential in our aptitude areas, Sgt. Ahnen stated. Areas covered are electronics, mechanics, administration and a combined type general aptitude. Applicants are scheduled by appointment with the test being administered on a weekly schedule. The same test is given to both male and female applicants.
The Air Force is seeking qualified personnel in all four of the aptitudes, and especially those qualified in the electronics field. There is no fee for this testing and arrangements can be made by contacting the U. S. Air Force Recruiting Office, 53½ W. Huron St., Pontiac or by calling FE 2-9116.

Obituary

Mrs. Caroline Bozek

Mrs. Caroline Krupa Bozek, 88, passed away on Wednesday of last week at her home at Bradenton, Florida, after an illness of about a year. She was born October 30, 1871.

Mrs. Bozek went to Florida about four months ago from Waterford where she had made her home for the past thirty years. She is survived by four daughters, Mrs. Carrie Gaydos of Miami, Fla., Lillian Bozek of Bradenton, Fla., Mrs. Fred McDonald of Mesa, Arizona, and Mrs. Sadie May of Detroit; two sons, Milton Bozek of Bradenton and Frank Bozek of Waterford; 9 grandchildren and 3 great grandchildren.

The funeral was held in The Sharpe-Goyette Funeral Home on Monday, February 29, at two o'clock in the afternoon with the Reverend Arvid Anderson of Christ Lutheran Church officiating. Interment was in Ottawa Park Cemetery.

PROCEEDINGS OF A SPECIAL MEETING OF THE INDEPENDENCE TOWNSHIP BOARD HELD FEBRUARY 23, 1960.

Meeting called to order by Supervisor Hursfall.
Roll Call: Hursfall, Doeblner, Johnson and Anthony present. Bauer Absent.
Minutes of last meeting read and approved.
Howard and James Huttenlocher, Charles Robinson, Willis

E. Kushman and Gerald Anderson local insurance agents were present to explain their insurance.

Howard Huttenlocher explained his position as an Agent of Record for the Township on insurance matters.

A general discussion was then held as to the amount, coverage, etc., that the township should have.

No formal action was taken at this meeting, final decision to be given at next regular meeting March 1, 1960.

Motion made and supported to adjourn. Carried.

Respectfully submitted,
Harold J. Doeblner,
Township Clerk.

Add a Little to the Seam

Make it an inch — the side seam of the dress you're sewing. Home economists at Michigan State University say it's good alteration insurance. The inch seam also gives stability to the dress and makes it easier to put in the side zipper.

CHURCH TYPE TO BE PRESENTED TO CONGREGATION

At the regular monthly meeting of the Board of Trustees of First Methodist Church, Clarkston with Mr. Ronald Walter, Chairman, presiding, The Building Committee, through their chairman, Mr. Howard Huttenlocher, made their report of the plan for the new First Methodist Church of Clarkston.

Mr. Huttenlocher reported on the progress his committee made and the many meetings, trips to other churches, and study and time throughout the last fourteen months in trying to create a church which the congregation desired. The congregation last summer was consulted many times at the Sunday morning worship services especially on the occasion of choosing the type of architecture. The consensus was to build a colonial church. With this in mind the Building Committee then turned to some of the different sub-committees who also studied the needs of an educational unit, sanctuary, fellowship hall, kitchen, dining room, and other accommodations. The committees representing some 54 people reported the results of their study to The Building Committee. It was not until January 18th that a unanimous agreement was reached among all committees.

After some 13 sketches, embracing almost a year of work, The Kingscott Architects and Engineers through their church architect, Mr. Richard Prince, submitted a church which was representative of the requests of the committees to The Building Committee. Reaching agreement in January The Building Committee then made their report to The Board of Trustees with reports from The Education Committee being read by Stanley White; The Sanctuary Committee by Everett Butters; The Fellowship Hall Committee by Mrs. Mary Colton; and The Finance Committee by Mr. Philip Smith.

The church submitted was of colonial architecture with graceful Georgian columns fronting the portico over the front entrance. Construction of the church follows the topography of the hill side allowing for a tri-level church with there being a ground level entrance on each floor. A picture of the church will appear in a future edition of The Clarkston News.

After a great deal of discussion and a presentation of color slides by Mr. Lee Volberding who had visited The First Congregational Church of Muskegon, a church much like the one anticipated for Clarkston, the motion was made to accept the church which the Building Committee submitted for reference to a congregational vote on March 31st. The Board of Trustees unanimously accepted the church, and recommended it be submitted to the congregation on March 31st. Mr. Philip Smith was also given approval for his committee to submit a plan of financing at the March 31st meeting. Mr. Ronald Walter, and the members of the Trustees highly praised the various committees for their work and study, and the difficult assignment which they had accepted.

Steps were immediately taken to inform the congregation for their study and vote.

Curving her tail over her back, the female opossum carries its young as if they were strap-hangers on a bus.

VILLAGE BOARD OF REVIEW

The Board of Review for the Village of Clarkston will be held, Tuesday, March 8, 1960 from 8:00 A. M. to 5:00 P. M. in the Village Hall to review the 1960 property assessments for said Village.

Property owners should at this time check their proposed assessed value. The assessments for 1960 are based upon the result of the reappraisal program of all properties within the Village.

Persons who may feel aggrieved by said values should register their complaints to the Board of Review at this time.

Lloyd Sibley
Village Assessor

A GOOD BED

Money invested in a good mattress is money invested in good health. Home economists at Michigan State University say a well-made mattress helps to insure a good night's sleep.

Take Care With the Vacuum

Vacuum cleaners pick up dirt, and dust, but home economists at Michigan State University warn you not to use the vacuum to pick up small metal objects or broken glass.

The beaver can cut down a willow tree five inches thick in three minutes.
