Different Points of View

"Things aren't always what they seem." This old saw is especially true when it comes to wildlife management. What seems right on the surface to the casual observer or ardent sportsman may actually be dead wrong or partially so for fish and animals. A broad picture, formed by year-round surveys, experiments, and other research, is fundamental to wildlife management. Basically, this picture must be seen through the eyes of fish and game, so to speak, to give management a biologically sound frame.

That true power belongs to God, not to matter, is a central theme of the Lesson-Sermon entitled "Unreality" which will be read at Christian Science services Sunday.

Scriptural selections will include the following: "God is our refuge and strength, a very present help in trouble. Therefore will not we fear, though the earth be removed, and though the mountains be carried into the midst of the sea" (Psalms 46:1,2).

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this will be read (192:11-13, 17-19): "Erring power is a material belief, a blind misallocated force, the offspring of will and not of wisdom, of the mortal mind and not of the immortal."

"Moral and spiritual might belong to Spirit, who holds the 'wind in His fists,' and this teaching accords with Science and harmony."

HERE!
'61 CHEVY TRUCKS

WITH WORK-PROVED INDEPENDENT FRONT SUSPENSION!

Chevy's '61 fleet swings in with a ready-made reputation as the trucks that are worth more because they work more . . . the latest editions of the haulers that scrapped the I-beam axle and proved the important advantages of independent front suspension!

You'll find new models for '61—long-wheelbase 4-wheel drive units—and thoughtful refinements throughout the line. But the big news for '61 is nailed-down proof (based on owner reports) that Chevy's torsion-spring design is the best thing that's happened to trucks in decades! With Chevy's independent-front suspension and Sturdi-Bilt design, you cruise over trails where other trucks creep. You feel the difference in less wheel fight and vibration. You can see why drivers are happier, why loads are better protected and why the truck itself will stand up to thousands of miles of more work. That goes for any size Chevy, too—pickups, tilt cabs, tandems, all of them.

Check the latest specs with your Chevrolet dealer: capacity, power teams, options. Then, by all means, drive a '61. Once around the block and you'll never be satisfied with a front axle truck again!

WORTH MORE BECAUSE THEY WORK MORE!

THE EDITOR OBSERVES

In the fall of each school year the excitement of the football season surges through almost everyone. Nothing can compare with a cheering, screaming crowd urging a team on to victory with a cheer that rings out into the night. Everyone knows this is true and so to us, Friday means the time of another big game, another important night.

But, to me, there is another reason that we enjoy the game of football and this reason is rooted in our cheerleaders. The point I am trying to make is simply this: Where would the excitement of a game be if we just sat and watched, yelling only when a touchdown is made? It would certainly make for a pretty dull affair. This year I am sure we all agree that we have one of the very finest cheerleading teams to be found anywhere. It is not just because they jump higher or yell louder, but because they have that unknown ingredient in their cheering, something that compels you to cheer just as loud, or louder than they do. We have started the year off right by backing our cheerleaders at our first two games, but how can you help from cheering with everything you've got when you have such a fine team of leaders as an example. I wish you would all join in a salute to our Cheerleading Squad of Clarkston High School.

QUEEN BO-BO REIGNS

by Sue Larkin
 Janet Tisch

Homecoming Festivities have kept Clarkston High students excited and busy during the past week. The football players nominated girls from each class for Homecoming Queen and maids. Senior girls who were nominated for the title of Queen were, Bobo Christides, Gay Ann Huffman, Sandy Asher, and Jane Zumbrennen. Those from the junior class who were nominated for maids were, Diane Bogner, Janet Spangler, and Sharon Gotschall. Sophomores were Vicki Burley, Joan Mansfield and Janet Tisch. Representing the freshman were Nancy Stanquits, Corinne Blackett, and Punky Golembeske.

Last Friday the annual tapping assembly was held, and as football players and cheerleaders looked for the maids and queen, each student was kept in anticipation and suspense.

After all the tapping was completed, the queen and her court consisted of five maids and the queen. Maids from each class Nancy Stanquits, Freshmen; Joan Mansfield, Sophomore; Janet Spangler, Junior; Sandy Asher, Senior; and Bobo Christides, Homecoming Queen.

NEW SPIRIT ADDED

by Linda Hallman

Ninth grade cheerleading try-outs were held Thursday September 22, after school. Six girls were chosen by the Varsity Cheerleaders. They were picked on the basis of ability, neatness, leadership, and personality. The following girls are the new ninth grade squad; Corinne Blackette, Connie Buzzell, Beverly Galligan, Kathy Golembeske, Linda Halman and Angie Nelson.

Good luck for you on coming football and basketball games.

MORE NEW STUDENTS!

by Cheryl Hipp

A pretty brown haired Senior girl with dark brown eyes, entered Clarkston this year. Her name is quite different but very pretty. It's JoVae Cutler. JoVae comes to us from a small crowded high school in London, Michigan.

Above all foods she likes steak and her favorite color is blue. Tony Curtis rates high with her as an actor and Loretta Young is her favorite actress. "The best thing I like about Clarkston's new school is all the room and modern conveniences," stated JoVae.

JoVae is only one of many new students Clarkston Senior High has enrolled this year.

We the student body, welcome you and hope Clarkston becomes a permanent home for you.

WELCOME NEW STUDENTS!

by Nancy Crosby

Spotlighting the Sophomore Class this week is a new attraction Peggy Phelan. She is 5' 4" with dark brown hair and steady brown eyes to highlight her face. Blue proves to be her favorite color and this shows up in the way she dresses.

Peggy last went to Lake Orion High and when asked about Clarkston she simply says, "I like it!" She says the students here are very nice and have been very friendly. Being a studious person her favorite class is English.

Peggy, we all wish to welcome you to Clarkston and we hope you will enjoy Clarkston High School throughout your remaining school years.

WELCOMING NEW STUDENTS

by Judy Leach

To the many new students at Clarkston this year we are very happy you joined us.

We would like to introduce you to Jo Coleman who came to us from Ortonville Jr. High School. Jo is in the 9th grade and her favorite subject is math. She stands five feet three and a half inches tall and has dark brown hair and sparkling blue eyes. We are very happy that Jo came here and we hope she will stay.

ACTION IN SEASONS FIRST CROSS-COUNTRY MEET

by Mike Howey

Cross-country is a rugged event with 24 men starting the overland 2 mile trip and usually less than that finishing. Clarkston edged out Clarenceville 27 to 28. Clarkston had the lowest score so they won the event.

Coming in 2nd was Ron Walter, 3rd Jack Lundy, and 5th was Jack McCall. This wrapped up the first meet for Clarkston, but on Tuesday, September 27 they face a tough Northville squad.

"WHEELIN" WILLIE DECISIVE IN DOWNING REDSKINS!

by Dick Miskin

Clarkston's running attack featuring the incomparable Willie Knox, Ron Applegate, Bob Thomas and others proved to be too much for the boys from Milford as the Wolves downed the Redskins by a 27-14 count. The barrage of penalties in which the Wolves were penalized a total of 80 yards while the Redskins drew 40 yards in penalties. "Wheelin" Willie Knox was the decisive factor in Clarkston's win as the fleetfooted halfback bettered 100 yards rushing for the second week in a row — good for two touchdowns. His sparkling 40-yard run off-tackle, after Rich Valentine recovered a Milford fumble minutes after the opening kick-off gave Clarkston a lead they never relinquished.

The Wolves made it 13-0 midway in the second quarter as Knox again, sped into the endzone on a 24-yard run. Milford trying to make a show of it scored moments later on a magnificent 67-yard pass play, Russell to Nichols. The half ended with the Wolves holding a 13-7 after a sustained drive. Milford retaliated early in the fourth quarter, but their hopes of winning diminished as Bob Thomas ended the scoring on a marvelous 24-yard run around end. Clarkston next encounters Clarenceville for two games. The game Tomorrow as the Wolves come home row will be highlighted by a Festival during halftime.

After a good first half, Clarkston was even better during the latter part of the game. Their defensive unit consisting of Jim Johnson, Rich Valentine, Dave Galligan and Don Marsh completely stopped Milford's feeble running attack, but couldn't quite stop the accurate passing of Dave Russell, the Redskins' strong-armed quarterback as the illusive back amassed 150 yards passing. Mike Applegate opened the scoring in the third quarter for the Wolves on a 2-yard plunge.

BITTER DEFEAT SETS STAGE FOR FENTON GAME

by Michael Howey

The 9th grade 11 put up a good fight but lost by a mere 20 points to a husky Rochester team on the 21st of September. They had had only a week of practice and did not have the experience to combat the experienced and well practiced Rochester team.

When they play on the Clarkston gridiron on October 5 against Fenton they will remember this tough defeat and try to make up for it.

WHY ME, DOC?

The date was September 22, 1960, it was an ordinary day with ordinary things happening—the things that make up history. There was only one change — I (unfortunately) was there. To start at the beginning, I was 10:00 in the morning. I had a dentist appointment because I wanted to get out of school. I couldn't get it any sooner they school, so I had to wait my turn. Walking up the stairs to the dentist's (if was more like a sinister looking, dark passage way) I wasn't sure if I wanted to be there. Thinking about it Chickened out and began backing down the stairs. Suddenly, an arm reached out and I flew through an open door and landed squarely in a dentist chair with at least 100 drills looking down on me. Scared heavens no, I wasn't scared — I didn't even move a muscle, they were all tied down. Getting my wits about me I glanced away from the drills. The nurse was preparing one of hat pin things they stab you with to get you ready for the pain to come. After the preliminary steps were taken to prepare me, the patient, I settled down in the swivel chair that didn't swivel. Then the dentist made his entrance, he was dressed in white and looked like he was ready to carry me out, but fortune didn't smile upon me and stay I did. Then it came, they rolled cotton in my mouth, clamped, washed and aired my teeth, poked the cavities examined my gold, silver and porcelain fillings and placed a million modern gadgets in my mouth, so as to obstruct my breathing.

With a sigh of relief from both myself and the dentist it was over — no pain, no screaming (I hadn't seen the bill at this time). Naturally, I wanted to the number of cavities filled and the reply was simply, "Well, They're clean now, we'll fill 'em later."

WHAT'S IN A FOOD PACKAGE

What's is a food package? Why, food of course! But there is more than that. Marjorie Gibbs, our Detroit Consumer Marketing Information Agent reminds us that packages have come a long way from the cracker barrel to the cracker box with the moisture proof inner wrap.

Modern food packages mean a faster food shopping trip. You don't have to wait while the grocer weighs everything you buy. Modern packages help you identify the items you want. . . the brand, the size and sometimes the quantity.

Packages protect the quality of the food you buy. . . moisture proof wraps, air tight cans and jars; and separate packages within a package. You get fresher, tastier, cleaner and more appealing food from modern packages.

Packages make living easier. There are enough different sizes of different food packages—that there is 'most always one that fits your family, and isn't it easier to pull the tear-strip or the "paper zipper" or just twist off those caps—rather than tug, cut, pry (and sometimes ruin) the package and its contents?

Modern packages give you a chance to try different types of cooking. . . foods of other lands that comes in a package that will keep the foods "till you are ready to use it. For some, it helps to be a "good cook" a bit faster than learning to do everything beginning.

A better, year-round variety of foods is in the markets because better packaging helps keep the quality.

Life is a bit gayer too. . . colored packages. . . especially such things as snacks and dips, in foil cups and those fruit gelatin salads in plastic refrigerator jars.

Paper bags are handy things—remember that the next time you put a quarter in the machine and out comes a bag of ice. . . crushed or cubed.

Although it has been a long way from the cracker barrel. . . packages have a long way to go. Some of them really aren't so handy. It would be nice not to

have to use keys to open the coffee, or the sardines, or the canned ham. Research tells us this is possible. . . and if won't be long. Not tomorrow, probably, but soon, the "key cans" will have no keys. There will be no need for a canopener. . . just pull a tab or flick a wrist and the can will open.

Packages will be skillets, pots, pans. . . all disposable. This may seem like a long way away. . . but most of us were surprised when we first found that egg beaters come in cans. . . that's whipped topping, of course.

ECONOMICS CENTER RECEIVES GRANT FOR STUDY ON URBAN NEGROES

A grant of \$1,800 to finance research on the economic problems of the urban Negro community was accepted by President Clarence B. Hilberry, of Wayne State University at a special luncheon, Wednesday, September 21.

The study, to be conducted in the WSU Center for Economic Studies, is sponsored by the Booker T. Washington Trade Association of Detroit.

Walton A. Lewis, president of the association said that the rapid growth of the urban Negro population has created a need for an economic study which will give insight to the following problems: (1) the cyclical and secular influences on the urban migration of Negroes; (2) the effect of the changing social-economic character of the urban population on public expenditure levels, population density; (3) the economic characteristics of the urban Negro community—which business and employment outlets are open to it, the extent of employment and credit discrimination against the Negro, and the economic costs of such discrimination; (4) the effect on Negro businesses of neighborhood renewal programs.

Karl Gregory, assistant professor of economics, will conduct the study. The grant will enable Gregory to collect data and prepare detailed research designs for later larger-scale investigations into the depth of these problems.

Unregistered Persons Not Entitled To Vote

SEC. 491. The inspectors of election at any election or primary election in this State, or in any District, County, Township, City or Village thereof, shall not receive the vote of any person whose name is not registered in the registration book of the Township, Ward or Precinct in which he offers to vote. (As provided under Act 116, P. A. 1954.)

Transfer of Registration, Application, Time

SEC. 506. Any registered elector may upon change of residence within the Township, City or Village cause his registration to be transferred to his new address by sending to the Clerk a signed request, stating his present address, the date he moved thereto, and the address from which he was last registered, or by applying in person for a transfer. The Clerk shall strike through the last address, ward and precinct number and record the new address, ward and precinct number on the original and duplicate registration cards, and shall place the original registration card in proper precinct file. Such transfers shall not be made within the (30) days next preceding any election or primary election, (unless such 30th day shall fall on a Saturday, Sunday, or legal holiday in which event registration shall be accepted during the next full working day), provided that no such transfer shall permit any person to vote in any Township, City or Village in which he had not resided (30) days next preceding any election or primary election.

Transfer of Registration on Election Day

SEC. 507. Any registered elector who has removed from one election precinct of a Township, City or Village shall have the right to make application to have his registration transferred on any election or primary election day by executing a request over his or her signature for such transfer and presenting the same to the election board in the precinct in which he is registered. Upon receiving such request the inspector of election in charge of the registration records shall compare the signature thereon with the signature upon the applicant's registration record and then the inspector shall certify such fact upon said request and the applicant for transfer shall then be permitted to vote in such precinct for that election only. The application for transfer shall be filed with the Township, City or Village Clerk who shall transfer such voter's registration in accordance with the application. When the name of any street in a Township, City or Village has been changed, it shall be the duty of the Township, City or Village Clerk to make the change to show the proper name of street in the registration records, and it shall not be necessary for the elector to change his registration with respect thereto in order to be eligible to vote.

Oscar R. Walz, Springfield Township Clerk.

From where I sit... by Joe Marsh

Huck Saves the Day

Saturday's always "together" day for Huck Roberts and his missus. Five days a week Huck's selling on the road, so they like to spend Saturday afternoon by themselves.

Most of Huck's friends know this and stay away unless invited. All except one couple. Then Huck found a polite way to send them home.

Soon as Huck would spot the couple driving up, he'd put on his hat and coat—and step out the front door. Polite as could be, Huck would say, "Sorry we can't ask you in, we're just on our way out!" Then, soon's the couple drove off, Huck went right back inside!

From where I sit, neighborliness means a mutual respect between neighbors—for one's privacy, feelings and preferences. This holds for little things too. For instance, when a neighbor prefers a glass of beer or buttermilk, that's his business. And it's our job to respect his preference every day of the week—Saturdays, Sundays and holidays included.
