NEWSZE YOU-SIZE SIXTY-ONEDERFUL

No needless bulk or overhang here. This '61 Chevy is built on the principle that the place you want space is inside. We put it there, too. Actually trimmed the outer size to give you extra inches of clearance for parking and maneuvering, and still worked wonders with inner space. Door openings are as much as 6 inches wider. Seats are as much as 14% higher. We've thought of everything. Increased rear foot room by slenderizing the driveshaft tunnel. Worked in sensible new ideas all the way back through that huge bin of a baggage compartment. See how thoughtful this one is? Full of good new things. Full of good old things, too, like Chevy's well-known thrift and dependability. The new '61's at your Chevrolet dealer's right now.

this 20th century seems to be the telephone. We recently heard via the grapevine (or should we say the telephone wire?) that when Crown Prince Akihito of Japan met his present wife, Michiko Shodo, on the tennis courts, they were denied a courtship in the American sense because of Japanese tradition. How did love find the way? By telephone. Akihito called Michiko several times a day, and she accepted his proposal of marriage during one of the conversations.

Some laundering requires very hot water to get clothes really clean. Dishwashers, too, need water that's very hot. Remember, an electric water heater can keep on and on, delivering the extra-hot water needed without burning out.

OPERATING COSTS ARE AMAZINGLY LOW. The popular 50-gallon heater will meet the needs of 8 out of 10 families. Using estimated operating costs for this size unit, a plentiful supply of hot water for all family needs should cost you less than 15c a day!
